Revolt in Spain Started by Troops

SEIZE TOWN ON FRENCH BORDER; CIVILIANS JOIN

Government Forces Beaten in Battle.

BULLETIN.

MADRID, Dec. 13.—Saturday.—(AP)—Rebellious soldiers who turned against the government yesterday at Jaca were marching on Huesca early today, joined en route by many civilians. It was feared a battle was imminent at Huesca, where the loyal garrison had already left its barracks to fight the mutineers. At Ayerbe, where the rebels were said to have been joined by about 1,000 civilians, they were reported to have shot the horses of the civil guard whenever an attempt was made to check them.

[Chicago Tribune Press Service.]
(Picture on back page.)

MADRID, Dec. 13.—[Saturday, 4 a. m.]—Northern Spain is in the grip of a military revolution and this morning it appeared that the Berenguer government was seriously worried. The uprising, which began in the garrison of the little Pyrenees town of Jaca, about thirty miles from the French frontier, early yesterday morning, was reported to have spread to the civilian population of the district and to other towns in different parts of Spain. The garrison at Vigo is reported to have joined the movement.

The revolt is reported to be headed by Maj. Ramon Franco, Spanish transatlantic flyer and bitter foe of the government. Maj. Franco escaped from prison a couple of weeks ago. Maj. Franco's wife returned here from Jaca two days ago.

How Revolt Began.

The revolt began when the Jaca garrison suddenly turned its guns on the town and started rounding up all the officials. Troops were stationed at strategic points and groups of soldiers went about picking up officers, who were thrown into jail. The rebels then cut off all communications with the outside world and beat back a detachment of government troops sent to quell what was believed to be only a local mutiny.

When the seriousness of the situation became known Premier Berenguer clamped down an airtight censorship on telegraph wires and threw the whole Spanish army into action. A special cabinet meeting was called to consider what action to take. All military planes the authorities could muster have been ordered to the district, with instructions to bomb the rebels, if necessary.

Rush Thousands of Troops.

Troops from all northern garrisons are being massed at the nearby towns of Huesca and Saragossa, and Brig. Gen. Bolla, African war hero, is rushing through the night with 3,000 troops from Madrid. To raise the necessary forces soldiers were hastily drawn off strike duty in Valencia, Cadiz, and other cities. At Barcelona all troops are held ready to depart for trouble centers at a moment's notice.

Due to the cutting off of communications and the government censorship it is impossible to learn full details of how the revolt started or whether there was much bloodshed in the fierce fighting which is reported to have taken place. One report said five soldiers of the civil guard were killed. All that is definitely known is that a majority of the soldiers of the Jaca garrison, which ordinarily numbers 1,500, but which is somewhat reduced at present, took up arms against their officers, stormed the headquarters, threw all the officers, including the military governor, Señor Rosas, into Ladrone prison, and then descended on the town.

Townspeople Join Move.

One man who was in Jaca early yesterday and who just arrived in Madrid gave only he haziest description of what occurred.

"People awoke," he said, "to find troops from the garrison had spread over the town, occupying what might be termed strategic points. I heard firing during the night. Some soldiers said they were acting under orders of a lieutenant colonel named Mancada, who apparently was not normally in charge of the Jaca garrison. The other officers, they said, had been thrown into prison and troops under Mancada were in possession of the fort."

Apparently the townspeople simultaneously brought out their hidden

JOHN D. MAKES GOOD GOLF SHOT; HANDS OUT COINS

Ormond, Fla., Dec. 12.—(AP)—John D. Rockefeller, playing golf at 91, and his old crony, Gen. Adelbert Ames, sitting home at 95, looked at life differently today.

"I must give away some dimes after that splendid shot," said the former oil magnate, zestfully, after a 125 yard drive off the first tee during his daily golf round.

Mr. Rockefeller then presented shiny coins to his playing companions, Mr. and Mrs. David H. McConnell, and called over three visitors and two newspapermen, who received similar gifts.

Mr. Ames, oldest living general of the civil war, was Mr. Rockefeller's golfing partner for years before he recently became afflicted with eye trouble. Sitting in his modest home across the Halifax river, he said, though not cynically: "There's no use living to be 95. You can't eat candy any longer, can't see or hear very well, and you become more or less a curiosity."

Gen. Ames said he would not play golf this winter because of two major operations last spring.

Mr. Rockefeller, arriving at the links, recalled his schooldays and apologized for being a few minutes late.

"I should have an excuse from Johnny's mother," he said, "saying 'Please excuse Johnny for being late. He got wet in the a. m., and sick in p. m.'"

3,000 CANADIANS CROSSING TO U. S. FRISKED FOR RUM

Niagara Falls, N. Y., Dec. 12.—(AP)—More than 3,000 Canadian citizens who cross the international bridges daily to work in this city were subjected to thorough search by customs inspectors today. The inspectors said they were seeking petty smugglers and declared that the commuters would lose their commuting privileges if they were found to be carrying liquor.

The customs men opened more than 1,000 lunch boxes and examined more than 12,000 pockets during the first day of the enforcement of the new order. T. M. Hennessy, deputy collector of customs, said that rigid examination of every commuter would continue indefinitely.

Plane Speeds Oxygen Tank to California to Save Girl

Pasadena, Cal., Dec. 12.—[Special.]—Hope of saving the life of Miss Agnes Johnson, protégé of Mrs. Keith Spalding, depended tonight on an airplane's battle against fog, sleet, and snow, en route from St. Louis. Miss Johnson is near death from pneumonia. Mrs. Spalding ordered an oxygen tank from Wilkinsburg, Pa., the only place on the continent where the oxygen devices are procurable. The tank was shipped by train to St. Louis, but when Miss Johnson sank into a comatose state today orders were wired to fly it here.

300 Yankees Stranded in French Cities

BY HENRY WALES.
[Chicago Tribune Press Service.]

PARIS, Dec. 12.—There are between 300 and 500 Americans stranded and penniless in France, according to estimates of various organizations here. A number of them are facing the prospect of spending a clammy and hungry Christmas under the bridges of the Seine, the traditional home of the homeless "clochards."

The only hope of these unfortunates, who are unable to obtain funds from families and friends back home because of the depression, is to work their way back on American ships. The sailings of American ships, however, are greatly reduced during the winter months and there is a longer waiting list at Havre, Cherbourg, and other ports than ever before.

Women and Children First.

The American Aid society in Paris alone has a waiting list of over 60 Americans. Owing to the limitation of funds, it is only attempting to take care of the women and children. Others must wait, and waiting in December weather in Paris without a home or a square meal represents a great hardship, particularly for an American in a strange land.

According to latest reports from the American consul at Havre, about 30 destitute Americans are waiting at that port for an opportunity to earn their passage home. No weeks go by without at least three or four applications being made for aid at the American consulate here. Consular authorities and charitable organizations are doing their best, but are able to find passages for only a trifling percentage of the homeless.

There are more stranded Americans in Paris than in any other European capital. The ranks are swelled because many get in difficulties elsewhere and contrive to secure just enough money to reach Paris, hoping to extricate themselves in some way. As always there are a large number of derelicts, who have spent their return fares in the Montmartre whoopee joints; but there are also scores of boy and girl students whose allowances from home were suddenly cut off.

Girls Drifting into Bars.

Many of the girls, who are unable to pay their hotel bills and buy food, are drifting into the Montmartre bars where they can always find more or less disinterested sympathizers to buy them drinks and food. Paris church organizations consider the danger serious.

The situation has become so bad that for the first time in history the penniless Americans are getting handouts at the principal American bars, which had the reputation of being the "hardest boiled" in the world because of the hordes of hoboes and panhandlers who besiege them in normal times.

CAROL REPORTED TO HAVE PAID HIS 'SWEETIES' $500,000

(Picture on page 5.)

[Copyright: 1930: By the New York Times.]

LONDON, Dec. 12.—King Carol has settled his outstanding love affairs for $500,000, according to a Daily Express dispatch from Paris tonight. Paul Boncour, noted French lawyer, acting with the Rumanian minister to Paris, Dinu Cesiano, it is said today, visited Mme. Zizi Lambrino in her villa at Neuilly, handed her a check for $400,000, receiving in return a signed renunciation of all her claims on behalf of herself and her 11 year old son.

Several days ago, it is said, Mme. Magda Lupescu also signed an agreement in Paris to "step out of the picture" and received a check for $100,000 plus deeds of a castle in Transylvania. The document signed by Mme. Lambrino, who contracted a morganatic marriage at Odessa in 1918, states that she recognizes the annulment of the marriage as official.

The Rumanian legation in Paris, the Express adds, yesterday was instructed to rent a villa for Queen Helen, who is expected to arrive in January to make her permanent home in the French capital.

Highland Park Boy Dies from Football Injury

Injuries received in football practice on Nov. 30 caused the death yesterday of Charles Elwood Tyson Jr., 14 years old, 302 Hazel avenue, Highland Park, son of a Chicago roofing company manager. The boy was a student at Deerfield High school.

LEGISLATOR IS FACING PRISON TERM AND FINE

U. S. Jury Finds He Dodged Payment.

(Picture on back page.)

State Representative Lawrence C. O'Brien was convicted of income tax evasion late yesterday, becoming the fourth person of political or underworld importance to be found guilty in as many similar trials.

The jury in Federal Judge Lindley's court returned the verdict after deliberating a little over two hours. It is possible that the legislator may be sentenced to as much as 18 years in prison and fined $60,000 if the maximum penalty were imposed.

Shortly after the verdict was read Judge Lindley overruled a motion for a new trial and a motion for an arrest of judgment. He set Jan. 6 as the day of sentence and dismissed the jury from further service.

O'Brien, who represents the near north side, including the Gold Coast, in the Illinois general assembly and who has just been reelected, was of woeful countenance as he left the courtroom, refusing to comment on the verdict save through his attorney.

To Appeal from Verdict.

The latter, James A. O'Callaghan, said: "This verdict does not coincide with the evidence. We shall appeal to the higher courts, for we have always maintained that Mr. O'Brien was not guilty of willful evasion of his taxes. He didn't believe he owed any."

The verdict is considered another victory for United States Attorney George E. Q. Johnson, who began a campaign against tax evaders little more than a year ago. A score of men have been indicted and the following convicted:

Ralph Capone, gangster brother and henchman of Scarface Al.

Jack Guzik, another major cog in the Capone machine.

Gene Oliver, Cook county tax assessor.

Lawrence C. O'Brien, Democratic state representative from the 29th senatorial district.

Other Hoodlums Indicted.

Others, including Hoodlums Frank Nitti, Terry Druggan, Frankie Lake, and Sam Guzik, also have been indicted. Seven contractors who did extensive work for the sanitary district in the days of alleged contract corruption were likewise named in true bills.

Asked for a statement on the O'Brien conviction last night, Mr. Johnson said: "No comment is so eloquent as the fact itself."

The legislator was drawn into the tax net when agents of the special intelligence unit of the bureau of internal revenue learned that he had filed no tax return for the years 1926, 1927, and 1928. Agent Clarence Converse, searching further, uncovered the fact that in those years he had had a gross income of $436,000.

With this evidence before it the grand jury returned an indictment last spring charging O'Brien with six offenses—three charges of evading payment of tax for each year in question and three for willful failure to file a tax return each year.

Show Sources of Income.

At the trial which began on Monday Mr. Johnson's "Three Horsemen" of the tax prosecutions—Assistant United States Attorneys Cassius Poust, Dwight H. Green, and Jacob I. Grossman—showed that of O'Brien's total income about 80 per cent was for work done for three Chicago taxing bodies, the sanitary district, the city,

(Continued on page 6, column 5.)

$7,500,000 "Ponzi" Tells How He Did It

[Chicago Tribune Press Service.]
(Picture on back page.)

Los Angeles, Cal., Dec. 12.—[Special.]—Gilbert H. Beesemyer, 45 year old Hollywood banker, booster, and churchgoer, late last night calmly confessed to a roomful of stunned friends and business associates that in the last seven years he had systematically stolen and squandered other people's money to the staggering total of $7,500,000.

Tonight Beesemyer was in jail indicted for embezzlement and with him were held Rupert L. Fleury, a business associate, and Miss Ethel Flannigan, confidential secretary. Beesemyer's bail was set at $250,000.

Four Beesemyer enterprises, the Bank of Hollywood, the Guaranty Building and Loan association, and two subsidiary concerns were in the hands of the state.

Also 25,000 depositors, including several film celebrities, were wondering whether they ever would see a cent of the millions they had intrusted to the Hollywood go-getter.

Wants to "Take Punishment."

Beesemyer seemed almost eager to confess his peculations. This afternoon he supplemented his oral confession of last night with a written statement on which the grand jury based its indictment. Before going to jail he turned over all his personal property, estimated at $2,000,000, to District Attorney Buron Fitts, and begged for an early trial.

"I don't want a lawyer," he said. "I won't defend myself. I'm a dirty crook and I'll take my punishment." Fleury, vice president of the Guaranty corporation, of which Beesemyer was secretary and treasurer, was arrested after he told the grand jury he had known of his associate's defalcations for five years, but had kept silent.

"I couldn't tell on a friend," he said. "I didn't get a penny of the money."

Miss Flannigan was held without any formal charge.

Overdrawn $7,600,000.

A hasty review of Beesemyer's books showed that he had overdrawn his accounts at the bank and the building association to the extent of $7,661,793.

The banker made his first confession unofficially in the presence of H. F. Harlan, publisher of the Hollywood Daily Citizen; Attorney J. F. O'Connor, and other neighbors, friends and business associates. In his later written confession he said his operations with other people's money began in 1923.

Beesemyer explained that he originally got squeezed in southern California real estate and oil and devised a system of honoring his own overdrafts with depositors' money in an effort to retrieve his fortunes by plunging in oil lands, real estate, and stocks.

"My system worked," Beesemyer said, "because I had complete charge of all records of the building and loan association, including all entries of deposit and all loans, and any and all other records of the association."

No Confederates, He Says.

This enabled him, he stated, "to make use of the money personally, without the knowledge of any of the company directors or officers. All the acts were done without the knowledge or consent of others."

Finally, an oddity in one of the accounts in the Bank of Hollywood, of which Beesemyer was a founder, aroused doubts in the mind of an assistant state banking examiner last week. The consequent crash of building and loan, mortgage and holding corporations has continued since the Bank of Hollywood failed to open last Monday.

The Bank of Hollywood's crash was costly to the motion picture colony. Among those with deposits tied up are:

Marjorie Rambeau, $25,000.

Mrs. Wallace Reid, widow of the famous star.

McGrey Willis, writer and movie executive, $2,000.

Mrs. Arthur Caesar, wife of the movie writer and wit, $4,000.

The Rev. Stewart P. MacLennan.

(Continued on page 10, column 8.)

G.O.P. SENATORS WARN HOOVER TO QUIT CRITICIZING

President Reported to Have Agreed.

BY ARTHUR CRAWFORD.
[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—President Hoover was advised today in the interest of harmony to issue no more denunciations of congress.

The advice was conveyed to him by Senator F. C. Wolcott [Rep., Conn.] as spokesman for a group of Republican regulars in the senate. The opinion of the group, whose members have held several conferences since senators hostile to the administration commenced to hit back at the President, was that progress of legislation will be facilitated if Mr. Hoover refrains from comments of a critical nature.

The exact outcome of the talk between Senator Wolcott and the President was not disclosed. From guarded admissions by Senator Wolcott as he left the White House it seemed the President gave assurances that he would be cautious in the issuance of future statements, but that he reserved the right to speak his mind about congress if he feels the occasion warrants it.

A Threat in Background.

The complaint of the Republican senators, as conveyed to the President today in amplification of what Senator James E. Watson [Rep., Ind.], majority leader, told him yesterday, was that they felt themselves unable to coöperate fully if he persisted in issuing statements denouncing congress without taking them to a greater extent into his confidence, and also if he continued to act in conflict with their judgment, as he did in submitting the world court to the senate for consideration at this session.

The President is known to have been incensed because Republican senators sat silent during the attacks upon him by Democrats during the last few days.

That the President has no intention of allowing congress to do as it wishes without taking some hand in the situation was indicated by information at the White House that he hopes the conferees of the senate and house will retain in the emergency construction bill a provision granting him some discretionary authority in the disposition of the appropriations.

Considers Action Mistake.

The President believes the senate made a mistake yesterday in eliminating the provision in the house bill, which would have permitted him to interchange funds provided for specified purposes. Elimination of this provision, the President thinks, has the effect of freezing the appropriations so that no flexibility is possible. The result may be, he thinks, delays and difficulties in making the best possible use of the emergency appropriations.

The President's attitude is that he is glad to be relieved of the responsibility of allocating the funds, which he originally proposed should be done by him on the recommendation of a cabinet committee, but that he thinks unless he has some discretionary power the amount of unemployment relief will be reduced.

Bill Sent to Conference.

The house today sent the emergency construction bill to conference. The conferees of the senate and house will deal not only with the question of discretionary authority to be given the President but also will reconsider the $3,000,000 in road construction items added in the senate to the 119 million dollars carried in the house bill.

In combating the granting of food loans as provided in the $60,000,000 drought loan bill passed by the senate, the President is emphasizing the part which the Red Cross already has played in relief activities in the drought area and which it proposes to continue. The President has been given assurance by Red Cross officials that they are prepared to take care of cases where food is needed and he also has been assured by representatives of committees in Chicago, Cleveland, Minneapolis, Kansas City, Buffalo, and other cities that relief work will be handled in their localities without federal assistance.

Drought Bill Up Monday.

The drought bill will be taken up in the house Monday under a suspension of the rules, according to a tentative program announced today by Speaker Longworth. Under this procedure a two-thirds vote is required for passage of the bill, and no amendments may be offered. If the two-thirds vote cannot be obtained for substitution of the administration's $30,000,000 loan bill for the senate

Normal Buying Paves Way to a New Era of Prosperity

Subnormal employment and no employment at all are forcing subnormal buying on a part of the country's population. This naturally has a certain retarding effect on business. Industry being keyed for normal activity, any lessening in buying power tends to slow things down.

But the present slack in trade is only partially caused by the reduced buying power of the unemployed. It's the subnormal buying of a much larger group that is causing the trouble. This much larger group consists of the people who have suffered little or no reduction or interruption in their incomes. These people have the money to buy. Yet for some reason many of them are holding back and lopping off here and there on their expenditures.

The quicker this latter group begins to buy its normal quota of goods for normal needs the sooner the present state of affairs will pass into history. Eventually that is bound to happen. Normal buying now simply will hasten the date.

Chicago Tribune
THE WORLD'S GREATEST NEWSPAPER.

measure, it will be brought up Tuesday under a special rule.

A sharp controversy over the drought loan bill in the house was foreshadowed today when Representative John Q. Tilson [Rep., Conn.], majority leader, in a speech expressed the administration opposition to food loans and was answered by Representative James B. Aswell [Dem., La.], who is leading the fight for acceptance of the senate bill.

Representative Aswell, it was made known, will have the assistance of Representative John Garner [Dem., Tex.], minority leader.

Tilson Denounces "Doles."

"There is a very sharp dividing line, not only in principle, but in fact," said Representative Tilson, "between the loan of government funds for the purchase of seed, fertilizer, and live stock feed, as we have done in the past, and a loan to meet such needs as food, clothing, and possibly medical care as has been proposed.

"In the one case the federal government is loaning funds to help rehabilitate and carry over an industry temporarily stricken by natural causes and unable to finance its immediate needs because of restricted credit facilities. In such a case the United States is advancing money which in all human probability will be repaid out of the very crop which it is financing.

"In the other case—that of advances for food—while we may call it a loan because it sounds better, it is in effect distributing funds for strictly charitable purposes, which in many cases cannot be repaid at all, and in others cannot be repaid without intolerable hardship to the beneficiaries.

He Demands Frankness.

"If charity is what we have in mind, then let us be honest with the people of the United States, with the taxpayers of the country, and admit that we propose to have the United States government, whatever the implications and consequences, take over the work of charity hitherto assumed and well provided for by community effort and private contributions.

"I am unwilling to do an injustice to the people in the stricken area and an injustice to the American taxpayer by opening the way for future abuses, with their baleful effects alike upon the government and the people."

Representative Aswell in reply asserted that 90 per cent of the drought loans would be repaid within ten months and that there is acute need of food loans as well as for feed, seed and fertilizer.

COURT TO DECIDE BATTLE ON OIL STATION PERMIT

(Picture on back page.)

The battle over the construction of a filling station in Park Ridge, being waged between the mayor and police of that suburb on the one hand, and the owners and lessees of the site on the other, will shift this morning to the courtroom of Judge Denis E. Sullivan in the Superior court.

Patrick E. King, who leased the property, situated at the Northwest highway and Shibley street, announced through his attorney, W. C. Wermuth, that Judge Sullivan would be asked to issue an injunction preventing the mayor, E. R. MacLean, and the police from interfering with the construction of the building. The mayor caused the police to arrest workmen on the site on Thursday. He had first issued a permit, and then revoked it. King declared politics had inspired the revocation, and charged that the owner of another filling station in the neighborhood had influenced the mayor's action.

Mrs. Charles E. Erbstein, widow of the famous criminal lawyer, who had been described as lessee of the site, explained yesterday that she was interested only to the extent of giving financial backing to Mr. King, who is her brother.

COUNCIL TO GET ORDINANCE TO MOVE 'L' PILLARS

An ordinance authorizing Commissioner of Public Works Wolfe to enter into a contract with the Chicago Rapid Transit company for a readjustment of the elevated structure where it crosses La Salle street just north of the river will be submitted to the city council on Monday. The ordinance was prepared at the direction of the council committee on local transportation.

Complaints have been received in the city hall that the steel pillars supporting the elevated structure, having been left in their old position since the street was widened to 80 feet, create a bottleneck. When readjusted the pillars will be at the curb line and the structure will have a clearance above the street of approximately 18 feet.

The ordinance provides that the work will be done by the Chicago Rapid Transit and the North Western Railroad companies. The city will pay $68,701 and the elevated company will pay $20,172 of the cost. The matter has been pending in the committee for nearly two years.

Supreme Court Rejects Revised Doody Petition

Attorney William Scott Stewart was given a second rebuke yesterday by the supreme court when the court refused to accept his second petition for a rehearing for William Doody, slayer of Chief of Police Charles Levy of Berwyn. His original petition was stricken from the court records as being "contemptuous." The attorney then forwarded a second petition and an apology, but the court refused to allow it to be filed. The rehearing was granted, however, by the court's own motion.

Receiver Is Appointed for H. O. Stone Trust Company

Federal Judge Woodward yesterday appointed the Chicago Title and Trust company temporary receivers for the H. O. Stone Investment Trust and several subsidiaries, without bond. On Nov. 12, charges of mismanagement were made against the concern. Yesterday's action empowered the receivers to continue operation of the various real estate holdings of the company.

FALLS 7 STORIES TO DEATH.

In view of many office workers Lars Johansen, 28 years old, 1833 Hancock street, a window washer, yesterday fell seven floors to his death from the Capitol building, 189 North State street.

STATE FUNERAL GIVEN OVERMAN IN U. S. CAPITOL

Veteran Senator's Body on Way Home.

[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—The senate chamber, battleground these last few days of partisan recrimination, draped itself in peace and reverence tonight for the state funeral of Senator Lee Slater Overman of North Carolina, who died early this morning.

The President and his cabinet, the chief justice and the associate justices of the Supreme court, members of the diplomatic corps, representatives of the army, navy, and marine corps, joined members of the senate and the house in services for the North Carolina senator, who was second oldest in point of years and, with Senator Reed Smoot of Utah, second oldest in point of service in the senate.

In front of the dais was the gray casket. On it rested the sheaf of yellow chrysanthemums sent by the President and Mrs. Hoover and the spray of red roses sent by the senate. On either side were flowers from the house and from the senate pages.

President Leads Way.

The senators and representatives on the floor and the spectators in the galleries rustled to their feet as President Hoover entered, behind him in single file the members of his cabinet, studious Stimson, hollow cheeked, sharp eyed Mellon—all were there except Secretaries Hurley and Adams.

Yesterday and the day before the President had been politically, personally assailed in this assembly hall. Many of those who assailed him sat now just across the aisle. Quietly he took his seat directly in front of the desks belonging to Joseph T. Robinson of Arkansas, minority leader, and Kenneth McKellar of Tennessee, who had demanded that he apologize to the senate.

Again the gathering stood, as members of the diplomatic corps filed in and took their seats two rows behind the President and the cabinet.

Supreme Court Attends.

And once again, as there came a swish of stiff silk and the Supreme court justices paced down the center aisle. At the head, preceded by the clerk and marshal in frock coats, Chief Justice Charles Evan Hughes, then Justices Van Devanter, McReynolds, Sutherland, Butler, Stone, and Roberts. Only Justices Holmes and Brandeis were absent.

And once again, the President, the chief justice, and everybody stood while Mrs. Overman, in heavy mourning, and E. N. Snow, Mrs. E. C. Gregory, and Mrs. Gilbert Handley, the three daughters, made their way to places beside the casket.

There have been other funeral services conducted in the senate chamber. But this one was the first ever held in the evening.

Curtis Pays Tribute.

Vice President Charles Curtis rose to stand behind the presiding officer's desk.

"—— for our colleague, whom we all loved," he concluded his brief opening phrases.

"'I am the resurrection and the life,'" the Rev. Z. Barney Phillips, senate chaplain, began the tender phrases of the service for the dead.

Over on the right hand side of the chamber, in the row with the senate committee and next to the bulky figure of Senator Watson, majority leader, sat a man with bowed gray head.

Lee Overman and Furnifold M. Simmons had been born in North Carolina in January, 1854, within seventeen days of each other. They had gone to Trinity college within a year of each other. Some thirty years ago Simmons had led a Democratic fight against the Republican and Populist parties in his state. He won and in 1901 was sent to Washington as senator from North Carolina. Two years later his friend Overman was elected junior senator from North Carolina.

Serve Together 28 Years.

For twenty-eight years they served together. But tonight Overman lay in the gray casket. And Simmons, who sat with bowed head, will go out next March 3 because, having bolted Al Smith's candidacy in 1928, he was defeated for the Democratic renomination last June.

The service was brief. President Hoover, the widow, the Supreme court, the dignitaries of this and of foreign nations filed out, leaving the casket to be taken to the train for burial in Senator Overman's birthplace and home, Salisbury, N. C. With it will go a delegation from the senate, but Senator Simmons, though named chairman of the committee by Vice President Curtis this morning, will not be able to go. His physician, Dr. Sterling Ruffin, forbade the trip.

Simmons Lauds Friend.

So Senator Simmons will stay in Washington, where he said tonight:

"It is a painful thing to have the association of more than fifty years broken. We had been friends since our college days and served in the senate together for nearly thirty years. There was never any serious disagreement between us. He was a high type of American statesman, devoted and loyal to his state and no less devoted and loyal to the country at large."

3 TENNESSEE DAILY NEWSPAPERS ARE IN HANDS OF RECEIVERS

Nashville, Tenn., Dec. 12.—(AP)—Two newspaper corporations publishing three daily newspapers in Tennessee went into receivership today.

At Memphis receivers were appointed for the Memphis Commercial Appeal, Inc., publishers of the Commercial Appeal [morning] and the Memphis Evening Appeal. Almost simultaneously receivers were named at Knoxville for the Knoxville Journal company, Inc., which publishes the Knoxville Journal, a morning paper. Defendants agreed to the action in both Chancery court hearings.

Col. Luke Lea of Nashville is president of both companies. He is also president of the Southern Publishers, Inc., a holding company at Nashville, and of the Tennessee Publishing company, publishers of the Nashville Tennessean and Evening Tennessean at Nashville. Receivership suits against the Southern Publishers, Inc., and the Tennessee Publishing company are pending here.

Southern Publishers, Inc., is a holding company for the stock of the Memphis Commercial Appeal, Inc., and the Knoxville Journal company.

Chancellor Jones at Knoxville directed that operation of the Knoxville Journal be continued in the usual way.

WINS DIVORCE FROM MARJORIE DURANT COOPER

Reno, Nev., Dec. 12.—[Special.]—John Hampton Cooper today received a divorce from Marjorie Durant Cooper, and to match the one she got from him last spring. Cooper won his decree by charging the daughter of Will C. Durant, automobile magnate, with having deserted him in November of last year. The thrice married heiress received hers in Mexico last March, charging the former ginger ale salesman with having told her untruths about himself.

Cooper succeeded Robert W. Daniel, multi-millionaire president of the Liberty National bank, New York, as the Durant son-in-law.

Cooper is now flat broke, his attorney told the court today, but there are persistent reports he is to be given a liberal settlement by his ex-father-in-law. Mrs. Cooper did not come here to contest her husband's action.

Holy City of Mecca Will Dominate Arabia by Radio

[Chicago Tribune Press Service.]

BASRA, Iraq, Dec. 12.—Kingdoms of Nejd and Hedjaz are now connected by wireless, and the holy city of Mecca will soon be able to dominate Arabia via radio, a new factor in eastern politics. A contract has been placed for two six kilowatt stations in Mecca and Riyadh, and also ten half kilowatt stations that will spread across the peninsula to the Red sea and to the Persian gulf.

Build High Power Broadcast for Ireland's Crystal Sets

[Chicago Tribune Press Service.]

DUBLIN, Dec. 12.—The Irish Free State is erecting a new highpower broadcasting station at Athlone, the geographical center of Ireland, at a cost of $200,000. It is the government's aim to make radio available to all crystal set users in the remotest areas in Ireland.

Dr. W. L. Pettengill Will Talk at Moody Institute

Dr. William L. Pettingill, former dean of the Philadelphia School of Bible, will deliver the address at the annual fall term graduation exercises of the Moody Bible institute, on Thursday evening, Dec. 18, at 8 o'clock at the Moody auditorium, North La Salle street and Chicago avenue.

DROWNS HUNTING DUCKS.

Alton, Ill., Dec. 12.—(AP)—John Merritt, 55, who lived on Greenwood island in the Mississippi river near here, drowned today while hunting ducks.

Meet Mr. Longhair Blackface, of the Sheep of Arabia; he's responsible for our finest mocha gloves.

Only matured skins, close-grained and strong, are used for these gloves, specially tanned to give remarkable softness and durability.

What a Christmas gift! $3.50 to $5.

Other equally excellent gloves include pigskins, $5; bucks, $5; capes, $2.50 and $4.

Mufflers are always acceptable. $2.50 to $18.

Hundreds of our Rogers Peet Winter overcoats and suits at marked reductions.

HOUSE REJECTS PLAN TO BAR U. S. SALARY RAISES

Beats G. O. P. Leaders' Move for Economy.

[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—A determined fight by Republican house leaders to bar all salary increases to government employés during the next fiscal year came to naught late today when the house, by a vote of 169 to 115, rejected a provision to that effect in the interior department appropriation bill.

The house a few days ago passed the treasury and postoffice appropriation bill with the anti-salary increase provision in it, but the provision was knocked out by the senate appropriations committee. The reversal by the house today made it evident that, as eventually enacted, none of the appropriation bills will carry the provision and that all federal employés will get benefit by pay increases next year as usual.

Wood Sponsors Proposal.

Representative Will R. Wood [Rep., Ind.] sponsored the ban on salary boosts with the argument that, with millions of men out of work, the government should make every possible economy in order to furnish more jobs.

Representative F. H. La Guardia [Rep., N. Y.] led the battle against the proposal and he was strongly supported by Representatives Carroll L. Beedy [Rep., Me.] and James A. Frear [Rep., Wis.], all of whom asserted that such a plan would work hardships upon government workers and would not save enough money to warrant the injustice. Defending the proposal, Representative Wood argued that government workers with secure positions and assurance of pensions upon retirement should be willing to sacrifice pay boosts in the interests of the unemployed.

The fight raged on the floor of the house for more than an hour, reaching a climax in the committee of the whole when a vote by tellers was 89 to 88 in favor of striking out the Wood provision. The strength of the Wood supporters dissolved, however, on the final roll call vote, which was decisively against it.

Sharp Verbal Battle.

Two other provisions in the interior department bill precipitated sharp verbal battles in the house, one of them a $400,000 appropriation for a library at Howard university, a government school in Washington for Negro teachers. Representative Oscar De Priest [Rep., Ill.], only Negro member of the house, made his first speech of this session in defense of the appropriation, which was kept in the bill by a vote of 128 to 25.

Representative De Priest took the floor after Representative C. A. Woodrum [Dem., Va.], moved to strike out the appropriation as an extravagance during the present economic distress.

"I am surprised to hear the men who claim to be so friendly to our racial group use the unemployment situation as an excuse for killing such a worthy expenditure as this," Representative De Priest declared.

The second item causing trouble was a $15,000,000 allotment for Boulder dam. Representative Lewis W. Douglas [Dem., Ariz.] objected to the appropriation on the ground that no money should be spent on the project pending disposal by the United States Supreme court of Arizona's suit against six other states to block it. The appropriation, however, was retained in the bill by a voice vote.

U. S. SUMMONS AL CAPONE TO COURT MONDAY

Gang Leader Must Face Contempt Charge.

"The presence of Al Capone is urgently requested at 10 o'clock Monday morning, Dec. 15, before Federal Judge James H. Wilkerson in the federal building at Chicago."

This firm invitation was issued yesterday by United States District Attorney George E. Q. Johnson. It was a surprise to gangdom because the word had begun to spread that Capone, known as public enemy No. 1, had, in some fashion, gained immunity from the concerted attacks of law enforcement officials upon hoodlums in Chicago.

His Period of Peace Ends.

While other gangsters, Al's subordinates have been served with vagrancy warrants, indicted for violation of the income tax laws, and with deportation proceedings, no effort has been made to embarrass Capone, according to remarks among the hoodlums.

The United States attorney, however, intimated that this period of peace for the gang leader is to be interrupted. If Capone does appear in response to federal summons, he will be served with a vagrancy warrant from the state's attorney's office, it was predicted.

The action upon which Capone was summoned to federal court involves him in a contempt of court action which is two years old. There were also indications that the government has made progress in investigating Capone's income tax returns.

His Lawyer in a Quandary.

Inasmuch as Capone's address is at present unknown, the summons was presented to his attorney, Benjamin P. Epstein, who promptly demanded:

"How in hell can I get him in court by Monday? I don't know where he is."

"Maybe," he added hopefully. "This only means that his attorney should appear."

But Johnson, apprised of this utterance, declared firmly:

"It means that Capone, in person, must be present in court."

Capone was cited for contempt of court two years ago for failure to submit to questioning before a federal grand jury in connection with the investigation of the Chicago Heights liquor ring. He has been at liberty under a bond of $5,000 pending this trial. Since then he has served a year's jail sentence at Philadelphia for carrying concealed weapons.

Basis of the Charge.

The contempt of court charge arose from an affidavit sent by Capone from Florida asking for a continuance and obtaining it on the ground that he was too ill to appear in Chicago. Government agents obtained information that Capone was well enough to attend the dog races at Miami daily.

If Capone doesn't appear, the district attorney will ask the forfeiture of his bond and the issuance of a bench warrant for his arrest. Federal agents, it was said, may be able to find Capone and serve the warrant where the local police, with a vagrancy warrant, have failed.

In addition to taking action against Al yesterday, the federal prosecutors obtained a reindictment of his brother Ralph and seventeen others on charges of conspiracy to violate the prohibition law in connection with the operation of the Cotton and Montmartre clubs in Cicero. Ralph is now out on bond while his attorneys are appealing a three year jail sentence for violation of the income tax law.

The indictments were returned before Federal Judge James H. Wilkerson. They charge Ralph Capone with the active management and with a principal financial interest in both clubs. The men indicted with Capone were managers, waiters and attendants. More than 400 sales of intoxicating liquor are detailed.

Cleaners Speak to Moran.

The Master Cleaners and Dyers association yesterday issued a statement in regard to the remarks of George (Bugs) Moran, acquitted of vagrancy in Waukegan, that he had "some important plans for improvement of the cleaning and dyeing industry." Moran is an official of the Central Cleaners and Dyers company.

"Assuming that George Clarence Moran has been correctly reported by the press," says the statement, "the Master Cleaners and Dyers' association wishes to point out that it has recently put into operation a new plan of its own for the improvement of the industry in this vicinity to the benefit of the public and industry alike. This new plan was announced by the newspapers of Chicago this week and is available to all members of the industry who can qualify for its requirements."

Benjamin H. Kornack, general manager of the company of which Moran is an official, appeared at the federal building in answer to a subpoena with the books of the company. The records will be examined by federal agents with a view to investigating Moran's income tax returns.

Bowler Is Subpoenaed.

Thomas J. Bowler, president of the sanitary district, was subpoenaed yesterday by Judge John H. Lyle to appear in his court Dec. 19 and testify in the trial of two men for grand larceny and receiving stolen property. Jack Foley, 6353 Winthrop avenue, who was robbed of $5,300 worth of jewelry at a party last June 14, said that Mr. Bowler befriended Michael King, 26 years old, one of the defendants.

Foley said he accompanied police to the 41st ward political headquarters at 4019 Milwaukee avenue last election day. The officers were about to arrest King for stealing the jewelry when Mr. Bowler, Foley testified, declared:

"That's not King, boys. It's just a worker of mine."

The policemen then would not arrest King, Foley testified.

Reached at his office, Mr. Bowler said: "Those police came up to my headquarters, and I knew King as a worker in my ward and asked him about this affair. He denied it. I'll be in court right on the dot and tell all about this affair. No one is going to make any such charges against me."

A decision is expected this morning by Judge Philip Finegan in the Criminal court on the attempt of Danny Stanton, Capone gangster, to avoid extradition to Wisconsin for the murder of Jack Zuta. Stanton's attorneys yesterday attacked the ballistics evidence, upon which the state bases its charge that the bullets which killed Zuta came from Stanton's gun.

Heir to Millions Weds Poor Girl

MRS. JOHN J. RASKOB JR.

JOHN J. RASKOB JR.
[Associated Press Photo.]

J. J. RASKOB JR., MISS AARONSON, SECRETARY, WED

Marriage Takes Place in Church Rectory.

North Chelmsford, Mass., Dec. 12.—[Special.]—John J. Raskob Jr., 23 year old son of the millionaire chairman of the Democratic National committee, and Miss Minerva Aaronson, 19 year old New Haven, Conn., secretary, were married today in the rectory of St. John's Roman Catholic church here.

Young Raskob is a Roman Catholic while his bride is a Jewess, the daughter of the late Abraham S. Aaronson, former prosecuting attorney and state representative of Connecticut.

Takes Catholic Instruction.

The bride is believed to have renounced her faith as she was known to have been taking instructions in the Catholic faith for some weeks before the engagement was announced last September.

Last April Raskob's father, who managed former Gov. Alfred E. Smith's Presidential campaign, had an hour's audience with the pope in Rome while touring Europe with members of his family.

The couple, apparently, made effort to keep the marriage ceremony from becoming public immediately, for the license granted on Dec. 5 in Chelmsford was not made public.

Parents Are Present.

The marriage ceremony was performed by the Rev. Joseph A. Curtin, pastor of St. John's, in the church rectory, in the presence of Raskob's parents, the bride's mother, and nine other relatives and friends.

The bride, at work in a New Haven brokerage office obtained a leave of absence until Monday. It is understood that the couple, following the wedding trip, will live in two rooms in a private home where young Raskob has lived for three months.

$55,725 IN REWARDS.

Rewards totaling $55,725 are offered for information leading to the arrest and conviction of the slayer of Alfred Lingle. Of the $25,000 reward offered by The Tribune $10,000 will be paid any person who will give confidential information identifying the slayer of Lingle. All information should be sent to the headquarters established by State's Attorney Swanson in room 503 Temple building, 77 West Washington street. Telephone State 3729.

College Boy Bandit Is Sentenced to 40 Years

Waterloo, Ia., Dec. 12.—(AP)—For a bank robbery whose proceeds went "for a good time," Glenn Fanyo, 19 year old former University of Illinois student, today was sentenced to 40 years in the state reformatory at Anamosa. Fanyo, whose home is at Watseka, Ill., pleaded guilty to participating in the holdup of the Union Trust and Savings bank at Strawberry Point, Ia., on June 24.

WOOLEN SOCK, IF ANY, BEST PLACE TO KEEP CASH

Washington, D. C., Dec. 12.—(AP)—The treasury, of course, is about the safest place to put money, but that has nothing to do with this story.

The point is, the treasury has learned that a woolen sock is better than a cotton sock to keep cash. It's this way:

Two brothers in New York state kept their money in socks. One used a cotton sock, the other a woolen one. There was a fire, both socks burned. The remains of both with the ashes they contained were sent to the treasury—new money, please.

The treasury's damaged money experts identified $330 out of $340 which the wool sock had contained. The other was too far gone.

CRIMINAL COURT.

Joseph Nicholson, murder, sentenced to 20 years in the penitentiary; Ora Hicks and Logan Miller, robbery, sentenced to 1 year to life each in the penitentiary by Judge E. I. Frankhauser.

Fred E. Rowley, manslaughter, sentenced to 1 to 14 years in the penitentiary by Judge Joseph Burke.

(Pictures on back page.)

Inquest testimony into the murders of Rudolph Marino and his brother, Sam, who used the alias of Tomasulo, was halted yesterday when Herma Magnabosco, 9 years old, identified the body of Rudolph as the man who killed her father, Marco, Thursday morning. The police immediately took her away from the inquest, which was then continued until next Tuesday. Magnabosco, an alcohol peddler, was slain at the door of his home by two men.

The Marino brothers came here from Buffalo, N. Y., where Sam had a criminal record of many years' standing. They became hijackers and extortioners, according to police, who said they had been in custody several times in the past few months.

Third Brother Killed in Robbery.

Lieut. James Devereaux of the West Chicago avenue station said the brothers had been charged with extortion by Roman Prill, 1414 Elston avenue, last June, but Prill did not appear in court to prosecute. A third brother, Joseph Marino, was killed several months ago during an attempted holdup at Curtis and Madison streets.

The bodies of Rudolph and Sam were found yesterday morning in the road on 91st street near California avenue in Evergreen Park. They had been taken for a ride, shot to death and the bodies thrown from the automobile.

A letter found in Sam Marino's pocket sent detectives to 1533 West Ohio street where they found a woman who later identified the bodies and who said she was the widow of Sam. At the inquest she said she was Mrs. Lois Loger and that her husband deserted her several months ago, whereupon she went to live with Marino. The letter was from Buffalo and the writer asked about conditions here for opening a speakeasy.

Police Link Two Killings.

Capt. Michael Grady of the Kensington station believed the murder of the brothers was in some way connected with the slaying of Magnabosco the previous morning. Magnabosco was shot in his home at 11354 Langley avenue by two men who rang the doorbell for more than five minutes and until Magnabosco awoke and answered it. At the county morgue the daughter pointed to the body of Rudolph and said: "That is the man who killed my daddy."

Capt. Grady was of the opinion the brothers were killed by some one who had perhaps hired them to kill Magnabosco.

Another possible murder engaged the attention of the police when boys playing in a prairie at 79th street and State road, near Oak Lawn, unearthed a human arm, believed to have been a man's. Lieut. Carl Wolf of the county highway police said it had been buried for at least a month. Policemen dug all over the prairie, but found nothing.

FALL FATAL TO WORKMAN.

Thomas McCormick, 57 years old, 9026 Normal boulevard, a laborer, died yesterday in the County hospital of injuries incurred on Dec. 7 in a fall in the alley at the back of his home

'CRY BABY BANDITS' EXECUTED IN CHAIR AT SING SING PRISON

Ossining, N. Y., Dec. 12.—[Special.]—James Bolger, 19, James Butler, 20, and Italio Ferdinandi, 22, of Jamaica, known as the "crybaby bandits" were executed in the Sing Sing prison electric chair tonight. They killed Charles Bauer, a Westbury, L. I., druggist, on the night of Feb. 3, last, during a holdup.

Three hours before the death sentences were carried out Gov. Franklin Roosevelt denied a last minute appeal for executive clemency.

In denying clemency Gov. Roosevelt said:

"To interrupt the due course of the law in this matter would, in my opinion, serve only as an encouragement to the commission of similar crimes by other young men who are beset by like temptation."

Butler was brought into the execution chamber at 11:05 p. m. He was pronounced dead at 11:10 p. m. Ferdinandi followed at 11:12 p. m. and was pronounced dead five minutes afterwards. Bolger entered the chamber at 11:18 p. m. and was pronounced dead at 11:23.

All three, accompanied by the prison chaplains, were smiling and calm. Ferdinandi's mother, Mrs. Geraldine Ferdinandi, who had visited her son at 9 p. m., stood outside the prison gates, weeping, at the time of the execution. Mrs. Dora Butler also visited her son about 9 o'clock, but left for New York afterwards.

WIFE DIVORCES WESLEY OGDEN, HEIR TO MILLION

Beaten by Her Husband, She Testifies.

Mrs. Bella Vocke Ogden, 48 years old, of the Kenwood hotel, won a divorce yesterday from Wesley Ogden, son of the late Mrs. Frederick C. Austin, under whose will he was left $1,000,000 in trust. Ogden did not appear before Circuit Judge Daniel P. Trude to contest the action, which charged cruelty.

The Ogdens were married in Chicago on Dec. 27, 1920, and separated at Pasadena, Cal., where Ogden now lives, in February, 1929. Both had been divorced twice previously. Mrs. Ogden is the daughter of Attorney Henry Vocke.

Beaten by Mate, She Says.

Mrs. Ogden brought her divorce suit last March. She charged that Ogden beat her after the Notre Dame and Southern California football game here in 1929 because of his anger when she rejoiced over Notre Dame's victory. She also charged that Ogden beat her on Dec. 30, 1929, and the following Feb. 1. She testified to these charges in court, adding that her husband was frequently intoxicated.

Mrs. Ogden had procured an injunction restraining her husband from disposing of the trust fund, from which he was said to receive an annual income of $48,000. The injunction was dissolved under the terms of an agreement presented by Attorneys Frank Teed and Frederick Craft, representing Mrs. Ogden.

To Get $750 a Month.

Under the agreement Mrs. Ogden is to receive $12,500 in cash—$8,000 at once and the remainder in four payments of $1,125—and $750 a month during her life. The agreement provides that the monthly payment be guaranteed by a codicil to Ogden's will.

Ogden is the son of the late John W. Ogden. His mother married Frederick Carleton Austin, millionaire manufacturer, who gave $3,000,000 to Northwestern university in an endowment fund to train potential business leaders. Mrs. Austin died in 1922.

Negro Civil War Veteran Weds Third Time at 94

Paris, Mo., Dec. 12.—[Special.]—Martin Watts, Negro, 94, and a veteran of the Civil war in the Union army, was married yesterday for the third time.

DEAN CORNWELL ARTIST WINNER IN LOS ANGELES

Los Angeles, Cal., Dec. 12.—[Special.]—Dean Cornwell, mural painter and magazine illustrator, has been declared winner of an open competition to execute paintings for the rotunda of the new $2,000,000 Los Angeles public library. Cornwell will complete his work in Paris and bring the paintings here to install them before 1932. Cornwell received three years to finish the works, which include four canvases 40x19 feet, and eight 12x19 feet. Cornwell formerly was an artist with THE CHICAGO TRIBUNE.

NOTICE: Not more than one policy will be issued to any one person. Issued Only to Applicants Over 10 and Under 70 Years of Age.

REALTY OWNERS CALL ON STATE TO TAX PERSONALTY

Charge Land Is Getting Unjust Treatment.

The Association of Real Estate Taxpayers filed a demand upon the state tax commission yesterday for a reassessment of personal property in Cook county for 1929 on the ground that great bodies of taxable wealth are escaping taxation.

The petition says that real estate is the victim of an "unjust, illegal and confiscatory discrimination" in taxes and that new sources of revenue can be discovered under the present laws. It calls attention to the extra burden that realty must carry in 1931 when two annual assessments, totaling nearly $550,000,000 must be paid.

Figures and briefs were presented setting up the argument that real estate pays 82 per cent of the tax bill of Cook county, while "it is conservatively estimated that there is in excess of thirty billion dollars personal property wealth in Cook county that under the law should pay taxes, but which—under administration of the law—is practically tax exempt."

Malone Will Act Today.

The petition was filed with William H. Malone, chairman of the state tax commission, who announced that today a time will be set for a hearing and investigation of the data submitted by the association.

"This wealth," says the statement, referring to personality, "without justification, now fails to contribute its fair and equitable share toward the maintenance of responsible government.

"The tax assessed against real estate generally is in excess of its ability to pay. It has made real estate undesirable from the standpoint of ownership, and is the most important single factor in bringing to a practical standstill building operations of the community. This character of building has always provided the back bone of the wage fund. Practically all building trades workmen are without employment.

"Workers without wages buy no goods. Retail volumes are affected.

Heavy Defaults Recorded.

"Out of a total assessment of $219,000,000 for 1928 taxes more than $50,000,000 have not as yet been collected. Faced with a total tax payment for 1931 of nearly $550,000,00, a much higher percentage of defaults will result. Originally these taxes were assessed against real estate having an estimated fair cash value in excess of ten billion dollars. Today the fair cash value of this property is estimated to be less than six and a half billion dollars."

"Under the Young plan for the payment of reparations Germany's annual installment is $488,000,000. This amount is presumed to represent the maximum ability to pay of all the agriculture, mines, industries, railways, and steamship lines of the German government. It is $60,000,000 less than the tax bill of Cook county for 1931."

CERMAK DENIES HAYES' CLAIMS ON ROAD FUNDS

Anton J. Cermak, president of the county board, yesterday contradicted a statement recently made by Charles M. Hayes, president of the Chicago Motor club, to the effect that delay on the part of the county board might cost the county loss of state money for paving in this territory. Mr. Cermak made public a report on the subject which he directed Maj. George A. Quinlan, county highway superintendent, to make to Gov. Emmerson.

"It is shown," says Maj. Quinlan, "that of all the projects within the metropolitan area, 91 of the roads lie within Cook county and the estimated cost of these 91 is $20,124,900. There has already been procured the rights of way for 27 of these projects at a cost of $6,378,500, which amounts to practically a third of the number.

"Of the remaining 64 projects, amounting to $13,746,400, we have received no request from the state for the procurement of rights of way on 43 of these projects, representing $8,307,000, or about 60 per cent. On the other 21 projects condemnation proceedings have been ordered by the county commissioners on five, representing $775,500, since the board was unable to procure the land requested by purchase or dedication.

"On the other sixteen, representing $4,463,800, right of way is being acquired or a large percentage has already been obtained."

SPANISH ARMY GARRISON IN REVOLT

Arrows point to centers affected by revolt in Spanish army. The uprising began at Jaca, a stronghold 30 miles from the French border, and late last night was reported to have spread to the garrison at Vigo and other centers. The rebels early this morning had reached Ayerbe on their march to Huesca, where government forces are waiting to engage them in battle.

SPANISH TROOPS REVOLT; SEIZE BORDER GARRISON

Government Forces Beaten in Battle.

(Continued from first page.)

arms, which had been smuggled across the nearby border, and joined the mutinous troops. The police and a few loyalist soldiers tried to defend the city hall and the railroad station, but failed. The town was then in complete possession of the rebels and telegraph and telephone wires were immediately cut, while railroad service was cut off.

Clash with Loyal Troops.

An encounter is reported to have taken place a few hours later between the rebels and a detachment of loyalist troops from other points in the district. It is considered probable, on account of the numerical strength of the rebels and the fact that they must have possessed all the artillery and machine guns available, that the government troops were quickly put to rout. In any event, Jaca was still in the hands of the rebels at nightfall.

The whole Jaca region was completely isolated from the rest of Spain by the government last night when telephone communications to nearby towns were ordered cut off.

As far as can be determined from the meager reports, this is not simply a military revolt, but an unmistakable republican thrust, with the object of inaugurating a nation-wide revolution.

A number of prominent Republican exiles, who have been living in the south of France, are reported to have secretly crossed the border and have joined the rebels.

Feared for Weeks.

This is just what the authorities have been fearing for some weeks. At the time of the Madrid general strike it was reported that a revolution was on the point of breaking out in one of the northern garrisons. The flareup in Jaca today seems to be just what the authorities had in mind.

While the revolt is not serious from a military standpoint on account of the size of the town—the population is 5,000, and in an isolated position up in the mountains where the rebels could be easily cut off or starved, if they did not secure outside aid, the Bourbon dynasty seems to be in a critical position.

Fear General Strike Monday.

Coming on the heels of an almost continuous series of strikes in various cities, the revolt is particularly dangerous. In Madrid an ominous calm prevails, but the city is full of wild rumors, and it is widely reported that a general strike throughout the whole country will be proclaimed Monday.

That the government is fully aware of the danger of the general situation is evident from the strenuous measures taken. Direct cables to America are reported to be completely stopped and only a few heavily delayed and censored messages have been allowed to trickle out by way of Gibraltar. The phone censorship is only about 50 per cent effective so far. THE TRIBUNE correspondent was allowed five minutes to relay a story to the Paris edition of THE CHICAGO TRIBUNE. The message was badly garbled by the frequent plugging in of the censor. An improvised code was used to tone down the details in order to escape a complete cutoff.

Premier Berenguer last night issued an order to round up and arrest all known militant Republicans. The police were unable to find any in the capital, which is considered an ominous symptom.

Throughout the country all troops not being sent to the Jaca district have been ordered to stay in their garrisons as a precautionary measure.

It was impossible last night to get any statements from government heads. An official spokesman, however, admitted that the "situation is very serious, but the government expects to have it in hand tomorrow."

The government at 2:30 this morning issued a brief note, as follows:

"A clash occurred at Jaca between revolutionary elements and civil guards under the direction of the mayor. The mayor's party was afterward compelled to take refuge in the barracks of the civil squad."

CHILD FINDS MRS. FIELD'S GEMS; GETS $750 FOR IDLE FATHER

New York, Dec. 12.—[Special.]—A five year old tot, whose father, a laborer, is out of work, enriched her family by $750 today when she got that sum as a reward for finding eleven pieces of jewelry, valued at $7,400 lost last Sunday by Mrs. Evelyn Marshall Field, divorced wife of Marshall Field III., near her residence in East 70th street.

The child is Mary Donoghue who lives with her parents, Mr. and Mrs. Thomas Donoghue. She made her lucky "find" shortly after Mrs. Field lost the gems. Mr. Donoghue watched the lost and found advertisements in newspapers and discovered a notice inserted by the insurance company, offering the $750 reward.

In accordance with instructions in the advertisement, Mary and her parents went to a police station, gave the gems to the authorities and collected the reward.

Mary's family had been expecting a lean Christmas.

"The rich are welcome to what they've got, said her mother, "we poor people are satisfied with ours."

PICKS FRENCH CABINET FROM RADICAL BLOC

[Chicago Tribune Press Service.]

PARIS, Dec. 13 [Saturday, 3 a. m.]—After spending the night shuffling over cabinet combinations France's premier designate, Senator Theodore Steeg, at 2 a. m. announced that a government had been formed, thus solving for a few days at least one of the worst political crises in France in recent times.

The new government, still subject to modification, will center around the left combination, and favors heavily the radical Socialists. It closely resembles the ill fated Camille Chautemps cabinet, which lasted 24 hours between André Tardieu's first and second governments. It is considered likely that the Steeg combination will share the same fate, as the Tardieu group is definitely committed to its opposition.

The new government is a collection of old "war horses," many of whom once held the premiership, and are practically all former ministers. The list is headed by Aristide Briand, slated to remain as foreign chief.

DEFENSE SEEKS TO USE GIRL TO ACQUIT SHEPARD

Try to Show Her Interest Was in Gifts.

Kansas City, Kas., Dec. 12.—[Special.]—The woman upon whom the government is placing especial reliance for the conviction of Maj. Charles A. Shepard of the murder of his wife, Mrs. Zenana Shepard, became a defense weapon for his acquittal this afternoon. Miss Grace Brandon, for whose love the major, as charged by the government, poisoned his wife in order that he might marry her, was under cross-examination.

From her testimony, given at the instance of Maj. Shepard's attorneys, an attempt was made to convince the jury that Miss Brandon was primarily interested in the major's many gifts; that up to the time of his arrest nine months after his wife's death there was no suspicion on her part that the major had had anything to do with the death, and that, since the major's arrest, Miss Brandon's mind has virtually not been her own because of the surveillance and instructions of special agents for the department of justice.

Girl's Letters Are Read.

Miss Brandon spent almost the whole of a second day on the witness stand before a crowded courtroom. More love letters between her and the major were read to the jury. Today the letters—fifteen of them—for the most part were those from her to the major. Yesterday the letters were ones from the major to her.

At the end of one of Miss Brandon's letters to the officer, in which she had been solicitous about the major's health, even recommending that he might feel better if he acquired a set of false teeth, Miss Brandon, after telling of an illness, wrote:

"O yes, the doctor charged me $2 for each visit and the medicine was $1.65, making a total of $7.65. I thought you would like to know, dear, and I will appreciate your paying for it, if you will."

Complains About Car.

In the midst of a letter in which she told about her joyful anticipation of the time she was to spend in the mountains near Denver with her sweetheart, she interrupted her line of thought to remark about the carburetor and squeaks in the car door of the automobile which the major had given her.

"The engine dies at all stop signs, too, dear," Miss Brandon informed the major.

In another letter, Miss Brandon reminded the major twice of expense money for the car, which "I will appreciate your sending it whenever you can." Elsewhere she wrote, "Thanks very much for the check. I certainly need it very much and will appreciate the other one when you can send it." The reference to the check followed an admonition from Miss Brandon to the major that he "please take care of himself." The crowd laughed, and Judge Richard J. Hopkins warned that there must be quiet or he would order the courtroom cleared.

Pay for Pajamas Asked.

The defense introduced correspondence between Miss Brandon and attorneys for a clothing concern at Denver, written on March 25 and March 29, 1929, eight and twelve days, respectively, after the major's arrest.

The first letter, from a law firm to Miss Brandon, read:

"We represent the Neusteter company of this city, which was requested to send to you two dresses during the last month, amounting to $104.95, and there was previously delivered on the same account one pair of pajamas at $10.95.

"It may be that these articles have not been used and that you would prefer to return them to the company; if so, we will be glad to accept them and give you credit upon the bill. If not, will you kindly advise us what your wishes are with respect thereto, as we feel that probably the matter ought to be taken up at this time and in this manner to avoid any further publicity."

In reply Miss Brandon wrote that "all items referred to in your letter have been worn. The dresses have been cleaned two times. The pajama suit has been laundered three times, and has a torn place at the top of the trousers. In view of the above statement it would be useless to return these items for credit on the account of Maj. C. A. Shepard.

"I feel that it is extraordinary and absolutely uncalled for that you should write me about this matter at all. In the first place, I did not purchase these garments, but received them as a gift from my fiancé. As far as the publicity is concerned, I have been advised by legal authorities that all gifts, letters, etc., received from the man in question will be made public at the trial, so there is nothing I can do to stop this awful publicity.

"I shall be obliged to ask that you do not annoy me further about any of this man's affairs."

Marriage Set for Aug. 4.

The defense claim is that Maj. Shepard did not mention marriage to Miss Brandon prior to his wife's death and that their engagement did not occur until some time after the death of Mrs. Shepard. The marriage was to have been Aug. 4, this year.

In an attempt to break down government claims that Maj. Shepard had had intentions of marrying Miss Brandon even before the death of his wife, the following telegram, sent by Miss Brandon to the major the night of his arrest, was introduced as evidence:

"Received three packages Saturday. Thanks very much. Messrs. Lawrence and Davis from department of justice interviewed me with regard to cause of death of Mrs. S. They suspect you. Am terribly upset, embarrassed and bewildered. What does it mean? Love. Answer."

MOTHER OF FOUR HANGS SELF.

Mrs. Matilda Keppner, 44 years old, mother of four children, hanged herself yesterday in the basement of her home at 1344 South 56th avenue, Cicero. The body was found by a daughter, Emily, 12. Ill health was blamed.

[Wide World Photo.]

SLAP CENSORSHIP ON CUBA TO STILL MACHADO'S FOES

Communications Muzzled for Second Time.

HAVANA, Dec. 12.—(AP)—For the second time since November congressional elections censorship on all forms of communications within Cuba was imposed today. It was the first outward sign the republic was given that constitutional guarantees, declared suspended yesterday afternoon by presidential decree, had been withdrawn throughout the island.

Imposition of the censorship represented another drastic step by President Machado to extinguish the sparks of political discontent, which have threatened to burst into flame. It is designed to prevent reports of possible disturbances being broadcast within the republic. Censors stationed at cable and radio stations were instructed not to interfere with either outgoing or incoming cable messages.

May Last Till February.

The censorship may continue in force until well toward the middle of February, when the 60 day authorization granted the president by congress will expire.

The suspension of guarantee affects six articles of the Cuban constitution. Inviolability of the home, freedom of speech, right to hearing within 24 hours after arrest, confidence of mail and private documents, privilege of changing residence at will and right of assembly are removed from those living in Cuba.

Criticize U. S. Envoy.

While President Machado was taking these drastic steps to keep down revolt against his administration and insure order during the tourist season, which is one of Cuba's leading businesses, opposition circles were busy circulating a fresh series of manifestos in criticism of President Machado's handling of the situation. Ambassador Harry F. Guggenheim, who advised the American state department that the disorders here were principally economic in nature and bore little political significance, is being made the target of some of these manifestos.

U. S. Not to Intervene.

Washington, D. C., Dec. 12.—(AP)—With only the most meager reports from the American embassy at Havana available, state department officials tonight were awaiting word of any further developments which might bring a crystallization of the situation there.

Breaking a two day silence by department officials on the political turbulance in the island republic, Secretary Stimson reiterated his policy of nonintervention by the United States in the internal affairs of Cuba. This policy was announced some time ago when the situation appeared to be becoming acute. It is the so called "restrictive policy" evolved nearly thirty years ago by Elihu Root.

Baldwin Dares Labor Rule to Put Fate Up to Britain

[Chicago Tribune Press Service.]

LONDON, Dec. 12.—Stanley Baldwin, leader of the Conservative party, tonight challenged the Labor government to resign and go to the country on the question of unemployment, in a speech at Glasgow.

CHICAGO BLIND GROPE THEIR WAY TO DRAW CHECKS

Chicago's blind pensioners traveled from all parts of the city yesterday to the county bureau of public welfare station at 1908 West Polk street just for the satisfaction of having the quarterly checks for $91.85 placed in their own hands. They came tapping their way along, led by children and relatives.

Several days ago Joseph L. Moss, director of the bureau, sent 1,180 letters to pensioners advising them that their checks would be mailed upon the receipt of authorized signatures on cards which he enclosed. Only 310 cards were signed and returned.

When asked by Mr. Moss why they did not have their checks mailed, saving them time and trouble, the blind gave such answers as: "If I come after it I know I'll get it," or "It might be lost." Some even treated the long journey to the bureau as a lark saying: "It's so much fun to come down here."

Col. Kraft Indicted Again in Guard Scandal Case

A second indictment against Col. Charles J. Kraft, former commander of the 202d Coast Artillery, Illinois National Guard, was returned by the federal grand jury before Federal Judge Wilkerson yesterday. Col. Kraft is accused of embezzlement. The first indictment, returned on July 2, disclosed a $200,000 National Guard scandal, and resulted in a shakeup of the officer personnel in the regiment. The second true bill contains no new charges but simplifies the old charges and puts them in more compact form.

KIDNAP DRIVER; STEAL TRUCK.

A motor truck loaded with tobacco, valued at $5,000, was stolen yesterday by three gunmen, who kidnaped the driver, Isadore Alkove, 1230 South Central Park avenue, and his helper, Louis Tuilinski, 3249 West 16th street.

A large number of State street property owners who said they desired a subway as soon as possible protested yesterday against the present plans for the first bore. They appeared, with Attorney William B. Hale, as spokesman, before a joint meeting of the council committees on special assessments and local transportation, which lasted from 10:20 o'clock in the morning until 5:30 in the afternoon.

Judging from reports, the property owners—who are asked to pay $26,744,000 of the $44,500,000 total subway cost—are likely to lose their plea. It was gossiped that the committees will approve of the plans practically as they stand today or Monday.

Tells View of Majority.

"We have submitted our ideas on improving the subway plans to more than a majority of the property owners, and we have found no one who objects," said Attorney Hale. "We believe we correctly represent the interests of the majority of all of the abutting property owners. We object to the ordinance now pending. We urge that you recommend to the city council that the ordinance do not pass. We make this request not because we are opposed to a subway in State street. We all desire a subway at the earliest possible moment."

Attorney Hale spoke for a property owners' committee composed of John T. Pirie, Philetus W. Gates, William Scott Bond, Walter L. Gregory, William V. Kelley, F. D. Corley, Charles B Miller, Henry G. Hart, Leon Mandell II., Jacob Kesner, D. F. Kelly, Gordon Strong, Orlando Noble, the Rev. Joseph P. Morrison, and Charles F. Grey.

Ready for Battle.

The members of this committee consider the recommended changes in plans so advantageous that they are circulating a formal legal petition against the subway under the present plans. If that is signed by a majority of the property owners and the petition is filed with the board of local improvements, it will defer all action on subways for one year.

The city administration is anxious to have the subway started before the spring election. President Faherty of the board of local improvements has stated that his crowning ambition is to "be the man who started the subway." Politicians say that the city administration probably has enough power in the council to rush the plans along, despite the objections made.

Generally speaking, the protesting property owners want some changes which they say would reduce costs. They would make the mezzanine concourse longer and have the bore not placed so deep in the ground. A majority of the board of advisory subway engineers, George Wisner, David Wallace, and Edward J. Noonan, who have not signed the subway plans, have also claimed there could be a saving in costs of about $4,000,000 by changing the method of construction. None of these three engineers was asked for their views on the plans yesterday.

Want Three Feet Raise.

The property owners urged that the entire subway be lifted three feet. The chief method of accomplishing this end was the recommended decrease in the thickness of the subway roof. They claimed this could be accomplished by the use of silica steel instead of the usual steel. This was advocated by Hugh Young, engineer of the Chicago plan commission and Ernest R. Graham, advisory architect on the subway. Mr. Graham said that he had utilized this material in the Merchandise mart at a saving of $91,000, although Silica steel is much more costly than ordinary steel. It permits of lighter construction.

Engineer Young was stopped in giving his criticisms by Ald. Oscar Nelson, who acted as chairman of the meeting. The alderman did not think that Young as an employé of the city should criticize the plans, and thereby aid the property owners. But President Faherty of the board of local improvements went to the aid of Young, saying that he had asked the engineer's advice on all improvements made by the board of local improvements.

Attorney Gives View.

"The present plans provide for a ceiling for the concourse 8.5 feet below the surface of the finished street," argued Attorney Hale. "We object to the low elevation of this ceiling. The ceiling of this concourse should not be lower than 5.5 feet below the street surface. This saving of three feet could be made to raise the whole subway 3 feet."

By so doing it was claimed there could be a saving of $2,000,000 in the cost of excavating, and a reduction in the cost of revamping the Illinois freight tunnels below the subway from $1,600,000 to $300,000. By lighter construction, it was claimed, another $2,000,000 might be saved on the subway cost.

Another plea of the property owners was for an extension of the mezzanine concourse farther south. The present plans limit it between Lake and Congress streets. The property owners urged that it go to Eighth street. They say the extension would also give access to the large hotels on South Michigan avenue, and particularly to the Polk street station and other railroad developments.

Want Another Station.

The property owners asked an added north side station in the vicinity of Huron and Superior streets, and a concourse—such as is planned south of the river—between the Grand avenue station on State street northward to the La Salle street station on Chicago avenue to the west, before the subway joins to the elevated structure.

Hugh Young attempted to demonstrate the engineering practicability of the recommendations. To his plats and views Maj. R. F. Kelker, engineer of the subway, and Alfred Brady, engineering assistant of Robert Ridgway, and some of the aldermen raised objections.

Demands Legal Action.

"We want the plans sent back to the board of local improvements and the changes made in the plans," replied Attorney Hale. "A written agreement to make the changes would invalidate the plans themselves. Oral pledges now made are of no binding value because there may be others in charge later on when the construction is under way."

Attorney Fisher gave it as his opinion that silica steel can be substituted for roof construction without invalidating the special assessment proceeding.

Near the end of the six hour session it was argued that the public utilities have accepted the space between the street surface and the ceiling of the mezzanine floor for their wires, pipes and conduits in the present plans, and have agreed to pay the cost of moving their property to that space. On the other hand, they have not agreed to the "pancake space" allotted by the property owners.

As a final plea, Architect E. R. Graham said that it is possible to get all of the property owners, utilities, and city representatives into an accord—"one happy family for this project," as he phrased it. He added: "I can see no need for a bitter battle. We know that the thickness of the subway roof can be reduced."

The discussion will be continued at 10 o'clock this morning in the city council chamber.

Reported as Getting King's $500,000

MAYOR'S SCHEME IN NEW FORM IS LET INTO MAILS

Reveal How Trade Prizes Are to Be Given.

Stripped of all the elements of luck and chance that characterized his original proposal, Mayor Thompson's "$1,000,000 prize prosperity drive" won admission to the mails yesterday.

In its new form, which is considered a cross between the pre-war trading stamp idea and a movie star popularity contest, the Thompson plan was presented to the postoffice department at Washington, which recently barred it on grounds that it violated the lottery laws. The department's objections, based on the prize drawing feature, were withdrawn with the elimination of that feature.

"Votes" and Yearly Income.

The revised plan provides that the coupons given with 25 cent purchases will be given a value in "votes" in proportion to the holder's 1930 income and that the contestants totaling the largest numbers of "votes" will be awarded the prizes ranging from $100,000 down to $50. The awards are to be made by a committee appointed by Thompson.

In addition to disclosing the revision of the basic idea of his plan, the Thompson representatives at Washington revealed that the contest will run until July 4, 1931. That date is approximately three months beyond the expiration of his term of office, and this disclosure was taken as another indication that he intends to run again in the February primary.

Thompson's spokesmen, Samuel Golan and Carl Appell, assistants corporation counsel, presented to Solicitor Horace J. Donnelly of the postoffice department merely a written statement describing the proposal. In it the word "votes" was used in connection with the value of coupons, but there was no indication that they gave the holder any voting power. The "votes," it was shown, were tallies that go to make up the totals of the holders of coupons who enter the contest.

How "Votes" Are Counted.

One of the coupons in the hands of an entrant whose income is $2,000 or less this year will have a value of 50 "votes." From that sized income the "vote" value is graded downward until the $100,000 a year man will be credited with only one vote for each coupon in his possession.

Solicitor Donnelly said he saw no legal objection to this method of award, but said the department would reserve the usual prerogative of watching the plan in operation.

Attorneys Golan and Appell also appeared before Thad H. Brown, counsel for the radio commission, urging that the broadcasting ban now in force against the plan be lifted. He said he would submit a report to the commission on this subject on Monday.

Following the postoffice ruling Thompson announced he had asked Congressman E. W. Sproul to put into the congressional record his protest against the broadcasting ban and use his frank to put 1,000,000 copies of that part of the record into the mails. Congressman Sproul was defeated on Nov. 4.

Germany Sends League 2d Protest Against Poland

[Chicago Tribune Press Service.]

BERLIN, Dec. 12.—The German government has dispatched a second note to the league of nations protesting the ill treatment received by German minorities in Poland. The protest cites details of 200 cases of alleged terrorism in upper Silesia not listed in the previous note. Simultaneously Berlin took separate diplomatic steps to inform world powers that it had filed a protest at Geneva, drawing their attention to the necessity of alleviating conditions.

POLISH COUPLE MURDER YANKEE; FIND HE'S SON

[Chicago Tribune Press Service.]

WARSAW, Dec. 12.—A tragedy in which a man and his wife murdered a man, not knowing he was their own son, an American, named Andrew Cygan, was reported today from the village of Zagainiki.

Twenty years ago Mr. Cygan, then 15 years old, emigrated to Detroit. When he had saved $7,000 he returned to Poland. Arriving at Zagainiki late at night he inquired of the village policeman the location of his parents' home. He was admitted to the house without being recognized and demanded a bed for the night. It was noted the visitor had money and he was murdered in his sleep.

The police, on hearing of no further news of the stranger, became suspicious and, upon investigation, discovered his body in the cellar of the house. When the parents learned of the identity of the victim they both became insane.

MINNEAPOLIS CHICAGO ST. PAUL

PRESS GAG LAW IS ATTACKED IN SUPREME COURT

Appeal from Minnesota Decision Argued.

[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—The rights of free speech and an untrameled press, won after centuries of oppression and preserved in American government, are imperiled by the now notorious "gag" law of Minnesota, according to a brief submitted to the United States Supreme court today by attorneys retained by THE CHICAGO TRIBUNE on behalf of the Saturday Press of Minneapolis.

The Saturday Press, an insignificant weekly publication, was suppressed, without a trial or a jury, under an injunction issued by the District court of Minneapolis after J. M. Near, editor of the paper, had published articles assailing officials of that city.

Mr. Near contended that he was engaged in a campaign to remedy conditions of lawlessness and gang rule prevailing in Minneapolis, but County Attorney Floyd B. Olson, in his suit to suppress the Saturday Press, charged that he was publishing "a malicious, scandalous, and defamatory newspaper." This follows the language of the Minnesota "gag" law.

Sustained in Minnesota Court.

Thomas E. Latimer, Minneapolis attorney, was retained by Near, and Mr. Latimer in turn appealed for aid to THE TRIBUNE. Attorneys Weymouth Kirkland, Howard Ellis, and Edward S. Caldwell of the firm of Kirkland, Fleming, Green & Martin, regular counsel for THE TRIBUNE, joined in the attack on the "gag" law. The Minnesota Supreme court upheld the constitutionality of the law, and the case was then appealed to the highest court of the nation.

In the brief filed in the Supreme court today it was argued that the law abridges the freedom of the press, and it was stated that the proper remedy for persons feeling themselves defamed or libeled by a newspaper is to seek indictments and criminal trials before juries for the editors accused, or by a suit for damages.

"In so far as the Saturday Press indulged in criminal defamation of the individuals or entities mentioned therein," the brief states, "the state may protect itself by indictment for criminal libel. But in the instant case it is claimed that the state has interests to protect other than those protected by criminal libel proceedings.

State's Claim Disputed.

"It is claimed that this newspaper constituted a public nuisance; that is, a danger to public welfare beyond and different from the danger of criminal libel. But the right of the state to protect itself against defamatory utterances thought to create a danger not met by criminal libel proceedings is limited to such utterances as advocate violent overthrow of the government or breach of law. Even here the state must proceed by punishment after publication, not by prior restraints."

The brief suggests that the same law, in Minnesota or elsewhere where such laws might be in force in the future, might easily be invoked against a great metropolitan daily, and that any newspaper might be at the mercy of a corrupt government in control of prosecuting or judicial offices.

Cites Hypothetical Instance.

"Suppose the Minneapolis Journal had started a crusade against gangsters, and had printed in nine issues substantially the same charges as here appear," the brief states. "Clearly a temporary injunction under the statute could have been entered against it as well as the Saturday Press. Clearly Tweed, with Barnard and McCune on the bench, could have suppressed the New York Times and Harper's Weekly had this statute been in force at the time of the Tweed ring."

In another excerpt from the brief it is argued:

"No sane government will ever suppress harmless and colorless statements, or purely moral narrative news and the like; there is no need of a constitutional protection for these latter publications; if they alone were protected by the constitution, the guaranty would never have been inserted.

When It Is Needed.

"But there is great need for it to protect the other class; when the legislature takes upon itself to decide in advance what may and may not be published, then it is time to invoke the constitution, and it was exactly for this purpose that the framers placed the guaranty of free speech and press in that instrument.

"The control of the press is not given to the legislature, but is reserved to the people; if there is an abuse of the liberty it is for the people to decide so in the persons of the jurymen, not for the legislature to restrain it in advance. If a defendant publishes matter which constitutes an abuse of the liberty of the press, he has a constitutional right to put himself 'upon the country'; he has a right to go before the people represented by the jury; and it is only in this manner that the press can be protected when it launches into attacks [which are always defamatory and scandalous, hence presumed malicious] on corrupt and despotic governments.

Right of Criticism Sacred.

"The law seems well established that every citizen has a right to criticize the government and the conduct of those who represent him in that government. He has, moreover, the right to advocate a change in government provided the means advocated are peaceful. What becomes of that right when he is told that none of his criticisms may be defamatory? It is not reasonable to suppose that one may reform a government or substitute a better one in its place by praising the existing government. Reform comes only when the evils and corruption existing in a state have been pointed out and brought to the attention of the people."

In conclusion the brief states:

"The constitutional guaranties were provided for the purpose of protecting the citizen against the encroachment of corrupt governments. In testing the constitutionality of an act, therefore, it is proper to postulate the use to which a temporary corrupt government could apply the act.

Situation Would Recur.

"It is certain that history would repeat itself with respect to the Minnesota statute, and that corrupt governments would seize upon the act to stifle criticism in order to remain in power. Corrupt governments have always made this attempt.

"Furthermore, if the Minnesota statute is valid as to written defamation, a similar act with respect to oral defamation would also be valid. The right of assembly to petition for redress of grievances could be practically extinguished.

"And, finally, we respectfully submit that the right of trial by jury is inherent in freedom of speech and of the press. Appellant has been deprived of this inherent right."

KILLED BY CAR

CHARLES DE WITT HUXLEY.
[Mabel Sykes Photo.]

An inquest into the death of Charles De Witt Huxley, 79 years old, 5774 North State street, struck and killed yesterday morning when he walked in front of a street car at State street and Delaware place, was continued yesterday to Dec. 19 to enable police to find witnesses.

Mr. Huxley was a pioneer teacher in Chicago, serving as a public school principal for many years before his retirement—20 years ago. He was also the owner of the Randolph Lunch club across from the Iroquois theater at the time of the fire there. He was taking a morning walk when the car struck him, dragging him 30 feet. The motorman told police he sounded the gong but was apparently unheard.

Train Blocks Pursuers in Wild Chase After Bandits

Two bandits eluded a flivver squad and two motorcycle policemen in a wild chase on the south side yesterday afternoon when a freight train intercepted the pursuers. The thieves had obtained $30 from a department store driver. A few minutes later the police squad, notified by radio, sighted them and gave chase. The motorcycle policemen joined. At 95th street the bandits crossed the Rock Island tracks just before the freight appeared.

LAWYER'S AUTO KILLS MAN ON OUTER DRIVE

Victim Hit as He Leaves Stalled Car.

In sight of his young woman companion John Fadley, 35 years old, 706 South Racine avenue, was struck and killed last night at the outer drive and 37th street by the automobile of Harold L. Levy, 1380 Hyde Park boulevard, former assistant state's attorney, son of former United States Marshal R. R. Levy. Fadley's companion was Miss Louise Noble, 22, 442 North Parkside avenue, employed in his barber shop.

The attorney was driving south in the drive when Fadley, his car stalled, tried to cross the boulevard for aid. Levy was released when Miss Noble told the south park police he was not to blame.

This death and one other increased the Cook county toll for 1930 to 1,062. The victim:

Fred Gunther, 50 years old, 1436 Washburn avenue. Fatally injured when struck by an automobile while crossing the street at Fullerton and Natchez avenues. John Burgmeier, 2549 Smalley court, was the driver.

Held in Bellwood Tragedy.

Frederick Beukema, 53 years old, 2248 West 22d street, was held to the grand jury in bonds of $10,000 on the recommendation of a coroner's jury investigating the deaths of two school children, fatally injured on Thursday night when Beukema drove his automobile into a group of seven members of a school band in Bellwood. Those killed were Gerald Felker, 13 years old, 238 Mannheim road, Bellwood, and Frank Vices, 13 years old, Maple avenue, Berkeley. Three other children were injured.

Ray S. Haverland of Chariton, Ia., narrowly escaped death when the truck which he was driving for the American Telephone and Telegraph company was struck by a passenger train at 147th street and the Grand Trunk railroad tracks in Harvey. The truck was dragged 30 feet. Haverland received minor bruises.

Bonds for Kidnaping Trio Are Set at $159,000

Three youths who last Saturday night kidnaped Carl V. Wisner, 1319 East 50th street, an attorney, and Miss Janice Conrad, 22 years old, 4934 Blackstone avenue, a friend of his daughter, were held to the grand jury in bonds of $53,000 each on charges of robbery, abduction, and larceny by Judge Francis Allegretti in the Boys' court yesterday. The trio were Ralph Nelson, 20 years old, 949 West 60th street; Arthur Pechtel, 20, of 6325 Sangamon street, and Jerome Mooney, 18, of 736 West 61st street.

Poland Sentences 2 Girls to Hang for Killing Father

[Chicago Tribune Press Service.]

WARSAW, Dec. 12.—In a Przemysl court today two girls were condemned to death by hanging. They were Teresa Szell, 22, and Stefanie Hands, 27, who were convicted for the murder of their own father. This was the first hanging verdict passed on women in Poland.

SLAYING OF FAMILY REVEALED BY FARMER FACING DEATH CHARGE

Williston, N. D., Dec. 12.—(AP)—A halting, tangled tale by a 22 year old farmer tonight had revealed the slaying of an entire family near Schafer, N. D., but left the identity of the slayer and a motive for the crime obscure.

Bodies of four victims and parts of a fifth, all members of the Albert E. Haven family, were recovered yesterday, while search for a sixth, that of Mrs. Haven, was being pressed, after the farmer, Charles Bannon, had told officers were they were buried. The family had been missing since Feb. 10.

Bannon told a weird story of how the family was slain by Mrs. Haven with a hammer and said he helped her bury the victims, but a short time later admitted that her body, too, was buried on the farm. The youth declined to admit he was responsible for the slayings.

Authorities said charges of first degree murder would be filed against Charles Bannon and his father. Search for the elder Bannon is being pressed.

FRANCO-BELGIAN TROOPS QUIT SAAR AFTER 11 YEARS

[Chicago Tribune Press Service.]

PARIS, Dec. 12.—The Franco-Belgian contingent of troops, 250 men all told, which has been guarding the railways of the Saar basin was withdrawn today confirming the agreement between Foreign Minister Aristide Briand, and Foreign Minister Julius Curtius at the league of nations assembly last September.

The soldiers were drawn up before the barracks they have occupied since 1918 and saluted the French and Belgian flags as they were hauled down while the regimental bands played the Marseillaise and the Brabançonne. A crowd of local inhabitants watched the ceremony silently but cheered for their freedom when the troop trains pulled out of the station.

Henceforth a league of nation's special committee will superintend France's rights in the Saar mines pending the plebiscite to be held in 1935 according to the terms of the Versailles treaty, unless the French and Germans reach an accord before that date on the ownership of the basin.

Ontario Drys Urge Liberal Party to Drop Prohibition

Toronto, Ont., Dec. 12.—[Special.]—To such a plight has prohibition come in Ontario after its decade of trial here that even the prohibition union leaders are suggesting to the Ontario Liberal party, which for years has been staggering hopelessly under the load of a dry platform, that it abolish that platform and let the liquor question be divorced from politics. Dr. A. J. Irwin, prohibition union president, signs the statement, in which he says there is no plan to form a third dry provincial political party.

Hollywood "Chiselers" Cause Suicide Attempt

Los Angeles, Cal., Dec. 12.—(AP)—Alyce Dera, 22, New York actress who came here several months ago with John Henry Mears, round-the-world flyer, and his daughter Elizabeth, attempted suicide today by slashing her wrists.

"I want to die," she told police. "I'm beaten by Hollywood and its 'chiselers.' I want to die."

Physicians said she would recover.

U. S. JURY FINDS O'BRIEN GUILTY OF TAX EVASION

Legislator Faces Prison Term Up to 18 Years.

(Continued from first page.)

and the Lincoln park commissioners. He admitted on the witness stand that he also had done work for the south park and west park boards.

The principal defense contention was that O'Brien conducted his business in a loose way, having no bookkeeping system and following no set rules for recording receipts or paying expenses. He therefore could not have known his exact obligations in the matter of taxes, it was argued.

Another contention was that the defendant believed he was tax exempt because of his legislative office and because the majority of his income came from "public work."

Questioned About Saloon.

The testimony, punctuated by the tedious introduction of hundreds of checks, receipts and vouchers, came to an end yesterday morning after O'Brien had undergone a searching cross-examination at the hands of Mr. Poust. O'Brien admitted, during the course of it, that he had "put my signature to many things I knew nothing about," and had become owner of a building housing a saloon at 920 North Wells street which was once closed for dry violations. The questioning at this point was as follows:

Q. (By Mr. Poust)—Is that the place where you had your corned-beef and cabbage dinners? A.—Dinner—not "dinners."

Q.—Is it not a fact that you gave the previous tenant $500 to move out ahead of time so that the saloon could move in? A.—No. The saloon did not move in until three months later, after there was a complete remodeling of the store.

Two character witnesses, Superior Judge John M. O'Connor and State Senator Elect Edward O'Grady, testified, the defense closing with their testimony.

Begins U. S. Argument.

Mr. Grossman made the first closing argument for the government. The prosecutor called the attention of the jury to the fact that the defendant was himself a lawmaker and that it was more serious for him to break the laws in regard to his own payment of income taxes.

O'Brien was weeping visibly if not audibly as his own counsel next argued, drawing the picture of the defendant helping his mother earn a livelihood for the family when he was only 12 years old. Mr. O'Callaghan told the jury that O'Brien believed his income from work done for municipal bodies was not taxable.

Closing for the government, Mr. Poust ridiculed this contention, saying: "If ignorance of the law is not an excuse for the common citizen it certainly is not an excuse for a lawmaker."

Judge Lindley then issued his instructions and the jury retired at 12:52 p. m. It was taken to lunch immediately and began deliberations shortly after 2 p. m. The verdict was returned at 3:55 p. m.

FIRES AT FLEEING HOLDUP MEN; ONE BELIEVED SHOT

A bandit was believed to have been shot by a policeman last night after he and two companions had held up a soft drink parlor at 5462 Lake Park avenue, owned by Jack Canavan.

The three men had taken $80 from Canavan, a bartender, and four customers when Policeman John B. Hogan of the Hyde Park district entered and saw the holdup. He fired a shot in the air and then, as the men fled out a rear door, he ran around the side of the building and opened fire on them as they came out.

Two of the men jumped into an automobile, but a third ran down an alley. A few minutes later a man appeared at a drug store at 55th street and Dorchester avenue and asked for change for a $1 bill which was covered with blood. He ran from the store when he saw two policemen approach and escaped in a taxicab which was standing at the curb.

BURGLARIZE THREE STORES.

Fond du Lac, Wis., Dec. 12.—[Special.]—Burglars early today invaded Campbellsport, Sheriff Alfred Vande Zande's home town, breaking into three buildings and obtaining loot, including cash and merchandise, valued at approximately $1,000.

FIND FORTUNE IN GOLD IN RUINS OF ANCIENT CITY

[Copyright: 1930: By the New York Times.]

CAIRO, Dec. 12.—Excavations under the auspices of the Egyptian exploration fund and the British museum have just been resumed this season at Tel el Amarna, in Lower Egypt. The most important discovery thus far is a treasure of twenty-three gold nuggets weighing nearly 650 pounds. In a jug with the nuggets were found numerous bars of silver and large gold rings, the value of which is said to be almost as much as that of the nuggets.

The jug also contained a small silver statue of a heathen god with a head of gold.

Amateur Boxer Victim of Mysterious Shooting

Shot in the spine by an unknown assailant as he stepped into an automobile at North Ada and West Ohio streets, Raymond Firotto, 19 years old, an amateur boxer of 1902 West Erie street, was probably fatally injured early this morning. Phillip Sansone, 24 years old, of 1119 West Ohio street, a fruit merchant and companion of Firotto, is being held for questioning by the police.

GOOD FELLOWS AID FAMILY WHEN FATHER ENDS LIFE

Jobless Man Despairs of Caring for 6 Children.

BY PHILIP KINSLEY.

There are some things worse than being poor and one is to have father go away forever.

That is what the children gathered around the coal stove in a house at 1621 North Fairfield avenue felt yesterday as they struggled with their tears. All except the two youngest, who laughed and played as usual.

There were six children, and the father, John Forstholm, had worried so about them, how to feed them and clothe them and pay his bills, that he could not stand it any longer. He slashed his throat on Wednesday night and died in the police ambulance on the way to the County hospital.

"Why did you do it?" his wife asked him.

"I couldn't do anything for them anyway, so I might as well be dead," was his answer.

Good Fellows to Rescue.

That is real trouble, and that is where the Good Fellows stepped in.

The widow, dazed by this blow, was striving to face the dark future. A little insurance money would come in, she told the Good Fellow investigator, but hardly enough to pay for the funeral. She might get two or three hundred from the union, for her husband, a building laborer, had been a union man for years. She was getting $8 a week rent from a flat in the building, in which she is part owner. That is her sole income. Ahead of her are two tax bills and interest on a mortgage.

"We will need help," she said. "He could not see his way through the winter. He had a job for the last three days, but that was over. He must have had a nervous breakdown to do that. He was sick the night before."

She wept.

Need Coal, Widow Says.

"We have clothes," she said later, "but we need coal. How am I ever going to raise all these children alone? It will be a long, long time. Ellen had a two years' commercial training course in school but she had not been able to get a job. I used to work out at housework, but I am not strong enough for that now. One of the boys has a paper route.

"There must be a way out. I told him so, but he could not see it. He said we would lose the house for taxes. He would not go to charity."

The tax bill for the property, of which the widow is half owner, was $156.

The children are Ellen, 16 years old; Astrid, 15; Andrew, 13; Clara, 11; June, 9, and Donald, 2.

They look well fed and healthy, and the problem here, as the Good Fellows viewed it, was that they must be helped over this rough place and given guidance in the handling of their little resources.

So this job was taken over and the family assured of help through the winter. The funds will be supplied for administration through a social service worker of the United Charities in the district.

Heavy Christmas Mailing Reported by Postoffice

(Picture on back page.)

Early Christmas mailing has boomed the business of the Van Buren postal station, officials said yesterday, and the truck equipment of the station has been carrying capacity loads of parcel post packages. The mailing is expected to continue heavy until the day before Christmas.

GOOD FELLOWS!

ROB APARTMENT HOME OF $100,000 WORTH OF GEMS

Bogus "Delivery" Is Ruse to Enter.

New York, Dec. 12.—[Special.]—Two guileful holdup men today made a trade with Mrs. Martha Zittel, 110 Riverside drive, wife of the publisher of Zit's Weekly.

Using revolvers as sales arguments, they swapped her an old burlap wrapped kitchen table worth perhaps $2 for all her jewelry, which the insurance people value at $100,000.

The transaction occurred in the Zittel apartment on the ninth floor at 10:20 o'clock, an hour after the husband, Charles F. Zittel, had left for his office.

The bell on the kitchen door, which opens on the service entrance, rang. Martha Graggon, Mrs. Zittel's maid, answered it, leaving the door on the chain. Outside stood two men about 30 years old, dressed in jumpers.

Maid Is Tricked.

"We've got a package Mr. Zittel asked us to deliver," one of them said, "and we've got the table."

The maid saw the table, wrapped in sacking, standing on the floor beside them, and she opened the door. They stepped into the kitchen and locked the door, then produced weapons.

One had two revolvers and a dagger, the other two daggers and a revolver. They fished picture wire from their pockets and proceeded to bind the maid's hands and ankles.

Mrs. Zittel, in her bedroom, heard the noise and came out. They marched her into the living room, where there was a wall safe.

She opened the safe, but it was empty. Then the men marched her through the eight rooms of the apartment, looking for the hiding place of her valuables. In the foyer stands an 18x18 inch floor safe.

Locate the Jewelry.

Mrs. Zittel remembered the combination. She reached in and the first thing she pulled out was a gold mesh bag studded with diamonds.

"We don't want that," they said. "Give us the good stuff."

She brought out a small box containing the jewelry of her dead son, Charles F. Zittel Jr., and one by one she handed over to them her treasures—a 20 carat solitaire diamond pendant, valued by her at $20,000; a lavaliere containing a 10 carat diamond; a necklace with a double span of pear shaped diamonds, the largest of five carats, the smallest three; a platinum ring with two sixteen carat diamonds in a twin setting and thirty-two smaller stones, valued at $32,000; three flexible platinum bracelets containing, respectively, 900, 195, and four rows of diamonds, and a diamond necklace of 150 small stones with a ten carat pear shaped canary diamond in the center.

When they were satisfied that they had everything, the men forced Mrs. Zittel into her bedroom. There they lashed her arms and legs with picture wire to the frame of the bed, and finally left.

FIRST MEAL OF DAY IS PLEASANTEST TO OLD AGE SAYS BALDWIN

[Chicago Tribune Press Service.]

LONDON, Dec. 12.—An old man's pleasantest meal is his first, Stanley Baldwin, former Conservative premier and lord rector of Glasgow university, so declared at his last breakfast in the school's old union building.

"I always enjoy my breakfast," said Mr. Baldwin, "and think it is the most pleasant meal of the day. I am getting to be an old man now, but I still come down to breakfast every morning feeling full of great hope, faith and cheer. By lunch time I have lost a great deal of it, and by evening I am nearly giving up all hope for this world or the next.

"Some people are not awake at 11 o'clock and only begin to take notice at lunch time, they feel brightest at dinner and never want to go to bed. I have no sympathy for such people."

KEGEL OUSTS 2 DOCTORS FOR USE OF NAMES IN ADS

Two physicians of the health department were discharged yesterday by Health Commissioner Kegel for allowing their names to be used in advertisements of medicines. The dismissed physicians, both of whom were temporary employes, are Dr. Clarence J. Bertaut, who was a vaccinator, and Dr. Oscar W. Junek, who was in charge of foreign language newspaper publicity.

A photograph of Dr. Bertaut appeared in an advertisement with the caption asserting that a "Chicago Board of Health" doctor prescribes a certain brand of medicine. A letter that Dr. Junek had written as an indorsement appeared in another advertisement. Dr. Bertaut had been in the department since Sept. 3, and Dr. Junek had been in the city service for five years.

Dr. Frederick O. Tonney, director of the research laboratory department, who was suspended by Kegel on Thursday, yesterday expressed regret that research work that is of vital importance to public health should be interrupted. He was carrying on studies in ultra-violet light and in new methods of water analysis, problems which are said to affect the entire metropolitan population.

CARRIES GIRL, 5, INTO BASEMENT; ATTACKS HER

A 5 year old girl was criminally attacked late yesterday by an unidentified man who dragged her into the basement of 1830 South Avers avenue. As he carried the girl into the basement her mother, standing at a window, became hysterical and was unable to summon aid until he had escaped. The moron was described as about 28 years old, wearing neither an overcoat nor a hat, and driving a green coupe.

19 MOVIES GIVE GOOD FELLOWS BENEFIT TONIGHT

Warner Bros. Theaters Help Needy.

At Warner Bros. nineteen Chicago movie houses there will be midnight shows tonight for the benefit of the Good Fellow fund. All box office receipts after 10:30 p. m. will reach some destitute family. Union labor at the theaters is contributing its services for the performances.

A list of the theaters with addresses and their feature films for tonight follows:

Capitol—79th and Halsted streets; "The Big Trail," a tale of pioneering awarded four stars by Mae Tinée.

Avalon—79th street and Stony Island avenue; "Today," with Conrad Nagel and Catherine Dale Owen; for adults only by order of city censors.

Stratford—63d and Halsted streets; "Laughter," a romance, with Nancy Carroll and Fredric March.

Orpheum—State and Monroe streets; "Gorilla," a mystery play, with Joe Frisco, stuttering comic.

Jeffery—71st street and Jeffery avenue; "Sea Wolf," Jack London's thriller, starring Milton Sills.

Shore—75th street and Kingston avenue; "Leathernecking," a comedy drama, with Benny Rubin and Ken Murray.

Grove—76th street and Cottage Grove avenue; "Top Speed," comedy, with Joan Bennett and James Hall.

Highland—79th street and South Ashland avenue; "Leathernecking."

West Englewood—63d street and South Ashland avenue; "Sea Wolf."

Cosmo—79th and South Halsted streets; "Moby Dick," the whaling drama, with John Barrymore and Joan Bennett.

Symphony—4937 West Chicago avenue; "Leathernecking."

Lexington—1162 East 63d street; "A Devil with Women," featuring Victor McLaglen.

Harvard—63d street and Harvard avenue; "The Pay Off," underworld drama, with Lowell Sherman and Marion Nixon.

Frolic—951 East 55th street, "Heads Up," with Buddy Rogers.

Hamilton—71st street and Paxton avenue; "The Office Wife," Dorothy Mackaill and Lewis Stone.

Oakland Square—39th street and Drexel boulevard; "Top Speed."

Shakespeare—942 East 43d street; "The Pay Off."

Buckingham—3319 North Clark street; "Playboy of Paris," Maurice Chevalier.

Julian—918 Belmont avenue; "Top Speed."

The complete program will be given at these benefit performances. There will be no change in box office prices.

RUSH FOR HILLS AS PAIR STRIKES GOLD IN NEVADA

Reno, Nev., Dec. 12.—(AP)—Virtually half the 1,100 citizens of Lovelock, about 90 miles east of here, were reported moving into the foothills today in search of gold, following the announcement of an important strike in the Rabbit Hole mining district.

Two brothers who had been prospecting in the neighborhood for about a year, Charles and James Scossa, came to town yesterday with 12 sacks of high grade ore which assayed $5 a pound. Three sacks of specimen ore known as "picture rock" was assayed at $46,276 per ton.

Many residents of the town have removed to the site, about 45 miles away, with blankets and food, and claims are being staked throughout the vicinity of the strike.

POLICE ARREST 3 IN STOLEN CAR; SEIZE WEAPONS

Two revolvers and a sawed-off shotgun were seized by police last night when they arrested two men and a woman as the three were about to step into an automobile which had been sold recently by one of the men to a dealer, resold to a doctor, and subsequently stolen.

The prisoners were Fred Barry, 27 years old, and his wife, Lucille, living at the Claridge hotel, 1246 North Dearborn street, and William Taylor, 35, of the Cedar hotel, 1113 North State street. Both men will be held as possible suspects, police said, in the $64,800 gem holdup of Mr. and Mrs. George F. Crandell and Mr. and Mrs. Ralph Gardner in front of the Drake Towers hotel two months ago.

Barry, his wife, and Taylor were arrested in front of 1137 North State street by Policemen George Schert, Tom McNeal, and Frank Mueller. In the machine were two revolvers. In Barry's room police found the shotgun and a box of cartridges. Investigation showed that Barry's automobile had been sold by him to Harry Feld, 1134 Diversey parkway, auto dealer, resold by Feld to Dr. Albert O. Young, 4101 Broadway, and stolen two weeks later.

Antarctic Cruise Postponed During Depression

New York, Dec. 12.—(AP)—Plans for a Christmas cruise to the antarctic have been postponed because of the business depression, Lieutenant Commander J. R. Stenhouse, who was to conduct the trip, said today. Commander Stenhouse, who commanded the Aurora during Sir Ernest Shackleton's antarctic expedition, sailed for England on the liner Samaria. He said he would try to make the cruise next year in a 6,000 ton ship with 150 or 200 passengers.

SAYS SCIENCE IS NOT CAUSE OF UNEMPLOYMENT

But May Help Solve It, Declares Millikan.

New York, Dec. 12.—[Special.]—Science is not guilty of causing the present unemployment situation, but, on the contrary, the methods of science may be expected to go a long way toward solving the problem, was the opinion expressed by Dr. Robert A. Millikan of the California institute of technology in an address before the annual meeting of life insurance presidents today.

Dr. Millikan, a Nobel award winner, told the five hundred delegates that "the task of science is to supply as many legitimate human wants as possible with one foot pound of energy, and to extract the maximum of satisfaction to the race out of our present reserves of energy."

"When our reserves are gone," he said, "science will be in a position to supply our wants by using direct sunlight instead of stored solar energy in the form of oil and coal. It is only an economic reason that prevents us from utilizing sunshine directly now."

Result of War.

Continuing, Dr. Millikan said that unemployment was the inevitable result of the war, as it would have been the result of any rapid change in human conditions which threw the race out of its beaten paths and compelled it to find new ones.

The most serious problem of the present is not unemployment, but, according to Dr. Millikan, the administration of justice. Speaking of both these questions, he stated that they are capable of gradual solution if only the scientific method can be brought to bear upon them. He believes this will occur if "the spirit of science can be kept very much alive and active."

As to getting power directly from the sun, Dr. Millikan said:

"For the last century men have been using sunshine bottled in coal and oil in bygone ages, and this reserve will do us and our children, but what then? The answer is here, and it is not a hopeless one.

Reserve Energy in Sun.

"It is this—there is enough energy sent to us each day by the sun for all our needs, those present now and those reasonably in prospect, and without calling upon stored up supplies of any kind. Two modern countries in our latitude receive from the sun in a day as much heat as is produced by all the coal burned in twenty-four hours throughout the world.

"If it were possible that the hydrogen in the water of the sea could, by any process whatever, be made to combine on the earth's surface with helium, oxygen, carbon, introgen, silicon, etc., energy would be released in enormous quantities by these acts and no violation of the principle of the conservation of energy or of any established thermo-dynamic laws would be involved in the process."

Evidence of cosmic rays, he added, indicates that this cannot take place on earth.

Holds 9 Cyclone Deaths in Factory an Act of God

Springfield, Ill., Dec. 12.—(AP)—An "act of God" and not the exigencies of employment in Rockford's furniture factories, nor faulty factory construction, was responsible for the death of nine workmen in the cyclone which hit Rockford Sept. 14, 1928, the Supreme court held in effect today, in denying employer's liability damages to families of two of the workmen.

Eight men were crushed to death under an 80 ton tank of water at the Rockford Chair and Furniture company, and Swen Swenson was crushed under a 120 ton tank at Union Furniture company.

George Arliss Loses Wife for Moment in Station

George Arliss, always in command of any situation on the stage or in the talkies, spent a frenzied five minutes at the La Salle street station yesterday on his arrival on the Twentieth Century. He had lost his wife, Mrs. Arliss, also a motion picture star, merely had stepped into another room to speak to a friend, without telling Mr. Arliss. The Arlisses are on their way from England to Hollywood.

Woman Completes 10,000 Mile Flight

Mrs. Victor Bruce, British aviatrix, greeted at Tachikawa airdrome near Tokio, Japan, when she arrived there Nov. 24, completing a flight across Europe and Asia that began at Croydon, England, Sept. 25. Mrs. Bruce is shaking hands with Miss Keigen Boku, a Corean girl, who has become the leading aviatrix of the Japanese empire.

U. S. AND CANADA PLAN AIR LINES TO EUROPE AND ASIA

Service Also to Link American Cities.

OTTAWA, Ont., Dec. 12.—(AP)—A network of passenger and mail air lines joining Canada and the United States and spanning the Atlantic and Pacific oceans to Europe and Asia was outlined as the ultimate object of plans made today at a conference of United States and Canadian postal officials.

Definite plans for an air line between Winnipeg and St. Paul and Minneapolis were reached at the conference and arrangements were made for a 42 hour passenger and mail air service between Calgary and Miami.

The latter project will be submitted for final approval to the heads of their departments by P. T. Coolican, assistant deputy postmaster general in Canada, and W. Irving Glover, assistant postmaster general of the United States.

Will Run Link to Asia.

Linked with the Miami line is a projected route from Calgary through Fort McMurray to Alaska and thence into Asia. This route, the officials agreed, should be in active operation within three years to forestall the growing aviation activity of Russia from seriously getting into competition.

On the eastern front Canadian officials see immediate expedition of mail to the British isles and Europe in ship-to-shore flights from Belle Isle to meet incoming and outgoing liners.

In the United States a program is being worked out for flying the Atlantic by way of Bermuda and the Azores. Depending on weather conditions, Mr. Glover said, flights to Bermuda will be made from New York, Baltimore, or Charleston, S. C. Thence a hop would be made to the Azores and to Lisbon, France and England.

Plan Other Lines to U. S.

Mr. Coolican said progress was being made in working out a system of aerial links between the United States and Canada. In addition to the Winnipeg-St. Paul route, he said, there will soon be a line between Calgary and Vancouver. As soon as this communication is established with the coast, he asserted, routes between the two countries will be made between Lethbridge, Alta., and Great Falls, Mont., and between Vancouver and Seattle.

Mail and passengers on the Winnipeg-St. Paul line from the prairie provinces to eastern Canada would be carried from St. Paul over American lines to Detroit, Mr. Coolican said, and thence back into Canadian territory.

Reaches Canada

VICTORIA, B. C., Dec. 12.—(AP)—Mrs. Victor Bruce, English aviatrix, who flew alone over Asiatic deserts, through fog filled passages of India's mountains and across oriental seas on a 10,000 mile journey from England to Tokio, reached here today from the far east aboard the liner Empress of Japan. Her little Moth plane awaits assembling at Vancouver for a flight to San Francisco. She plans a transcontinental flight from the California cit;.

CONSUME MORE TO AID BUSINESS, ECONOMIST SAYS

Drive for Relief Fund Is Lagging.

Underconsumption and not overproduction is at the bottom of the economic ills causing the present business slump in the opinion of Whiting Williams of Cleveland, noted economist and labor authority. He spoke yesterday before members of the Executives' club meeting in the Hotel Sherman.

A few years ago Mr. Williams left his position as vice president of a Cleveland steel company, changed his name, donned overalls and became a journeyman laborer in this country and in Germany, Belgium, Italy, and France in order to catch the working man's viewpoint.

Job Is Main Concern.

Taking as his subject "What's on the Worker's Mind," Mr. Williams declared that the working man is not so much bothered about his leisure or his bread and butter as he is about his job. For that reason he condemned any plan of unemployment relief which approximates the dole system. The plan to pay the unemployed without giving an opportunity to earn payment is a defeatist program which will lead to the moral disintegration of the nation, he declared.

"Put something into the working man's soul to make him believe in himself and understand his importance to others," the speaker urged. He described as dangerous the view that the American standard of living must be brought down to a lower level.

"We must not decrease production, but increase consumption," he said. "New products must be invented, and this will provide more jobs. Production programs should be set up not on the basis of one year, but should be spread over a period of four or five years."

Keeley Tells of Job Drive.

James Keeley, chairman of the executive board of Gov. Emmerson's commission on unemployment and relief, was another speaker. He described the commission's method of providing employment for the jobless and paying the men from the relief fund.

The individual gifts committee of the emergency relief drive for $5,000,000 met yesterday at the Mid-Day club and learned from its chairman, Joseph M. Cudahy, that the quota to be raised through personal contributions from Chicago's wealthy citizens had been placed at $1,000,000.

Total subscriptions to the fund yesterday reached $2,058,000, a gain of only $28,000 during the day, Philip R. Clarke, chairman of the drive, reported. The largest contribution of the day was made by the Chicago Title and Trust company, whose check for $10,000 was received by the drive committee. An early subscriber was Alfred K. Stern, aged eight and the grandson of Julius Rosenwald, Chicago philanthropist. The youth gave $45 out of his savings.

Tells Decline in Pay.

Dr. Benjamin Goldberg, associate professor at the University of Illinois College of Medicine and director of the municipal tuberculosis sanitarium, yesterday made public the results of a survey of 12,759 families showing that wages dropped 19.5 per cent as compared with last year.

Mrs. Kellogg Fairbank, general chairman of the women's division of the governor's commission, announced that all outlying stations for receiving old clothing gifts will be closed today. Hereafter donations of clothing will be received at the central station, 163 West Washington boulevard.

The milk wagon drivers' union yesterday voted an unemployment benefit fund of $1 per week per man for the next six months. The union, considered to be one of the richest in Chicago, has 5,200 men employed and an unemployed list of approximately 150.

WAITER BURNED IN BLAST.

Milwaukee, Wis., Dec. 12.—[Special.]—Frank George, 25, 1615 Walnut street, a waiter in the resturant of John Steven, 201 Wells street, suffered minor burns to the face and hands today when a can of gasoline overturned on a kitchen range, causing an explosion.

Rating of Groups

Following are listed the ratings of the various trade groups in Chicago, showing the percentage of their respective quotas so far collected in the drive of the governor's commission on unemployment for the $5,000,000 relief fund. Five teams have exceeded their quotas. The ratings:

Trade team—	Pct.
Leather, rubber and shoes	1.300
Advertising, newspapers, etc.	1.249
Men's clothing	1.197
Public utilities, petroleum, coal	1.134
Insurance	1.068
Banks	.906
Jewelry and optical goods	.834
Bonds and stocks	.729
Mail order houses	.622
State street stores	.435
Lumber	.321
Chemicals, drugs	.290
Food products and confectionery	.232
Real estate, mortgages	.206
Graphic arts	.193
Machinery	.190
Furniture and office fixtures	.161
Board of Trade	.090
Railroads	.076
Iron and steel	.044
Contractors, bldg. mati., engineers, etc.	.036
Hotels, restaurants and clubs	.013
Heating, plumbing and ventilating	.013
Hardware, electrical goods, etc.	Q010
Railway supplies	.003
Union Stock Yards	.001

PLEAS FOR JOBS PILING UP IN SALLY'S OFFICE

Heads of Big Families Ask for Work.

Every time a telephone rings in Sally Joy Brown's department at THE TRIBUNE she feels glad because some one is offering a job to one of the city's unemployed. It is when the mail man brings her stacks and stacks of letters from wives and mothers, husbands and sons pleading for work, food and clothing, that Sally wonders if the scales will ever balance the demand with the supply.

In spite of the good job offers, some of them created by Chicagoans especially for the unemployed, yesterday brought appeal after appeal for help.

"I have six children and my husband is not working," wrote a mother on South Ada street. "His clothes are so worn from tramping the streets and constant wear that I think that is one reason he can't get a job. We need food, bed clothes and anything we can get. My children are 11 years old, 9, 7, 5, 3, and a girl 22 months old."

No Money for Rent.

From a mother on West Monroe street came an appeal for domestic work or a job in a factory so she might support her children.

"I have been out of work for quite a while," she wrote. "I am a widow and I have three children for whom I must get clothes. I have no money to pay my rent. I haven't a decent pair of shoes to wear or clothes. I am 32 years old."

From a wife on Lincoln avenue came a request for a job as a truck driver for her husband.

"Will you please help my husband to get any kind of a job?" He is big and strong, can drive a truck and is good as a handy man. He will accept any wages. Our savings are gone and we need coal and food."

A letter came from a man on Wallace street in behalf of his brother-in-law who has "been out of work since last March." The writer of the letter has been trying to shelter, clothe and feed the family of eight on his small earnings.

"I am a deaf mute, married, sober, and well educated," wrote a man from North Francisco avenue. "I am a machinist and inspector and understand the blue point decimals. Have been in the machinist trade for 40 years. I have been out of work for 11 months. My wife and I would be glad for a job as a janitor somewhere."

And so they go, these letters that fill Sally Joy Brown's mail every day. Stories just as urgent may be seen at the Illinois Free Employment service, 116 North Dearborn street, every day where hundreds wait for Sally Joy Brown jobs. For as quickly as job offers are received they are dispatched to the service to be distributed there. If you know of a job or can create one, telephone Sally at Superior 0100.

Canada Finds 84,712 Jobs to Help Out Its Jobless

OTTAWA, Dec. 12.—(AP)—With three provinces unreported, the joint unemployment relief scheme of the federal and provincial governments has provided work for 84,712 individuals, Senator G. D. Robertson, minister of labor, said today. The total does not include returns from Quebec, Saskatchewan and Alberta.

PEACE NEAR IN CANAL DISPUTE; JUDGE TO RETIRE

Northup Gives Statement to Satisfy Williams.

The question of reassigning the so-called sanitary district case involving Timothy J. Crowe and other former trustees and officials of the district seemed to have been amicably settled last evening. Indications were that Judge Charles A. Williams of the criminal court will relinquish the case and allow it to be sent to Chief Justice John P. McGoorty for assignment to the next judge in line.

First Assistant State's Attorney John E. Northup, who is in charge of the prosecution of the case, charged in a certificate of prejudice filed several weeks ago that Judge Williams was unfit to preside at the trial because he had sponsored his own son, Willard Williams, in a job as docket clerk in the sanitary district. Although receiving pay for more than one year Williams, it was charged by the prosecutor, never as much as made one entry in any of the district docket books.

Judge Demands Statement.

Judge Williams demanded a statement which would be "tantamount to an apology" from the prosecutors before he would consent to consider a motion for reassignment.

Prosecutor Northup had refused to apologise, saying that facts are facts and that no words could change them. However, yesterday he changed his attitude and prepared a statement for Judge Williams which it is expected will be entirely satisfactory. The statement was submitted to both Chief Justice McGoorty and Judge Williams.

The statement prepared by the prosecutor is expected to be released for publication Monday when the sanitary case is scehduled to be called before Judge Williams for argument on the motion to quash. If the indictments are quashed the state, it is reported, would be unable to prosecute because the statute of limitations has expired.

What Statement Contains.

In his statement Prosecutor Northup tells the judge, it is reliably reported, that he did not mean to convey the impression that the judge's son was to be indicted when witnesses were called before the grand jury after the judge had refused to reassign the case. Neither did he mean to intimidate the judge, the prosecutor says in his statement, when he called witnesses before the jury.

The portion of the statement which is expected to appease the judge particularly is where the prosecutor says he never intended to "impugn" the motive of the judge in regard to the case.

State's Attorney Swanson, it is reported, convinced his assistant that it was better to make a statement than to continue the fight with the judge. Earlier in the day the prosecutor had prepared a new certificate of prejudice to file before Chief Justice McGoorty, but he abandoned this idea in favor of the statement.

Brother of Slain Man Kills Defendant in Court

[Chicago Tribune Press Service.]

SAO PAULO, Brazil, Dec. 12.—A man on trial for murder was killed dramatically in the city of Jahu when the victim's brother suddenly stood up in the courtroom and shot the defendant.

WEDS FIFTH TAR

Mrs. Golda Munroe Morrison Burdick Nixon Kenyon Gill, bride of Commander Charles C. Gill, U. S. N. Commander Gill, like her four other husbands, was a member of the class of 1907 at the United States Naval academy at Annapolis. Her first three husbands died, and she obtained a divorce from the fourth.

MEXICO EXPELS FOE OF LAMONT BANKING GROUP

[Copyright: 1930: By the New York Times.]

MEXICO CITY, Dec. 12.—Luis Gallopin, president of the Debts' Protective association—better described, perhaps, as the head of an association he formed in representation of minority holders of Mexican bonds as against the Lamont International Committee of Bankers on Mexico—was expelled from this republic yesterday.

No information is available regarding the exact reasons for the expulsion of Gallopin, whose headquarters are in New York, with a branch office in this capital, but there is a unanimity of opinion that governmental action was motivated by his attacks on the recent Lamont-Montes de Oca agreement for the renewal of payments on the foreign debt. Only a few days ago Gallopin issued a fierce attack on that agreement, claiming not only did it violate the Mexican constitution but was legally in fault to minority bond holders he represents.

Gallopin, according to authoritative sources, was an international speculator. He is of Swiss origin and began his career in Mexico in the smallest way. He made some money, it is said acquiring upwards of 500,000 pesos worth of certain Mexican bonds.

Union Agent Charged with Shortage; Is Found Ill

Andrew Klein, 23 years old, 1301 North Washtenaw avenue, collector for the Amalgamated Clothing Workers' union, was found in Michael Reese hospital yesterday after union officials told police he was short $832 in his accounts. Klein is said to have admitted using the money to pay for an operation. He is to be arraigned today on an embezzlement charge.

Scofflaw Kills Pal Who Squealed; Ends Own Life

KETCHIKAN, Alaska, Dec. 12.—(AP)—Convicted of conspiring to violate the prohibition law, "Black Matt" Berkovich ended his life after shooting to death Phil Dohm, who escaped prosecution on a similar charge by turning state's evidence.

BANKER TELLS HOW HE STOLE OVER $7,500,000

Hollywood "Ponzi" Held in $250,000 Bond.

(Continued from first page.)

pastor of Hollywood First Presbyterian church, who had personal and church funds in the bank.

Possibility of the involvement of others was hinted by Building and Loan Commissioner Charles Whitmore, who stated that apparently $400,000 or more of Reesemyer's peculation were covered by personal loans which the indicted man made to friends of his.

Beesemyer's first illegal deal was a $25,000 withdrawal six or seven years ago, according to the story he told his friends last night. The sum was applied toward a deal to "swing a big department store for Hollywood, so that it would increase property values and draw business for the whole of Hollywood boulevard."

Continues His "System."

"That was the start," said Palmer, the Hollywood editor. "The department store deal fell through, but Beesemyer continued to make use of his new found system.

"After six months elapsed depositors had to be paid their interest money on sums squandered, and as Beesemyer attempted to meet these interest payments and to pay back the original defalcations, the sums he took from the company grew larger and larger. Then he conceived the idea of coming back through oil wells. He admitted losing about $2,000,000 in one oil venture. He had five or six wells in operation and for a while they paid $1,500 a day.

"He asserted confidently last night that if he had been given one more week without interference he could have pulled himself out of the hole."

Beesemyer startled the grand jurors by stating: "If the state building and loan commissioner had adequately done his duty, I never would have been able to get away with this money."

Beesemyer said the building and loan concern's books were examined only once a year, and that the examiner then took the company figures and totals as correct.

Thousands Lose Savings.

The Guaranty Building and Loan association, hardest hit of the four affected corporations, numbers 24,000 depositors, the bulk of them in the Los Angeles area, but others all over the United States. According to Building and Loan Commissioner Whitmore the state hopes, by conserving assets, to pay 50 cents on the dollar.

The Bank of Hollywood recently completed a thirteen story bank and office building on the northeast corner of Vine street and Hollywood boulevard, exact center of the Hollywood trade area. It is hoped to reopen the bank after a reorganization.

The other two affected corporations may have to assume combined losses of $400,000 to $500,000.

Other Banks Not Affected.

Reassuring statements were issued by other Los Angeles banks and building loan associations, and no runs have been reported on any other Hollywood bank.

Beesemyer was born in 1885 in Los Angeles. He was educated in the public schools and business college here.

In 1908 he married Matilda Fischer, who stated today she would stick by her husband. They have one son.

Beesemyer began in the banking business as a clerk.

WOMAN HELD AS EMBEZZLER LISTS ASSETS

Mrs. Hilda E. Schroeder who, with her former partner, John Naghten, faces embezzlement charges in connection with the operations of the Schroeder Bond and Mortgage company, 10 North Clark street, was taken from the county jail yesterday to testify in a hearing before Referee in Bankruptcy Garfield Charles.

Listing her personal assets she declared she owned oriental rugs and furnishings valued at $50,000 in her $17,000 home at 515 Gregory avenue, Wilmette. She has jewelry worth about $70,000, she said, most of which is in pawn, and owns fifty-four pieces of real estate valued at $650,000.

This testimony she gave in response to questions asked by Attorney Louis M. Mantyband, representing the Strauss National bank, receivers of the bond and mortgage concern. Naghten was in the courtroom but was not called upon to testify.

Lisbon Police Seize Bombs in Vault of Trade Ministry

LISBON, Portugal, Dec. 12.—(AP)—In the very vaults of the ministry of commerce the police today seized a quantity of bombs and ammunition which they declared were to have been used by a revolutionary organization

COAST GUARDSMAN ADMITS $1,100 BRIBE FROM RUM RUNNERS

New York, Dec. 12.—[Special.]—For permitting four rum boats to land their cargoes at Absecon inlet near Atlantic City, Albert L. Parry, surfman, attached to the Atlantic coast guard staton, received $1,100, he testified today at the navy yard, Brooklyn.

Parry's testimony was given during the trial by court martial of John B. Sooy, boatswain's mate, first class, U. S. C. G.

Despite efforts of the prosecution, Parry was unable to link Sooy with the rum running activities. He testified that he was paid money on three occasions by Clarence L. Daniels and once by John Beene, both members of the coast guard.

Daniels pleaded guilty last week to a charge of acting in concert with other members of the Atlantic coast guard station to permit a rum ship to land liquor.

MEXICO ACTS TO PROTECT FOREIGN PROPERTY RIGHTS

Will Pay for Land for Communal Farms.

MEXICO CITY, Dec. 12.—(AP)—The Mexican government today began a three league step toward giving foreign capital the guarantees it desires of protection and sanctity of property rights with approval by the chamber of deputies in a midnight session of important amendments to the national agrarian law.

Coincident with the chamber's action, Manuel Perez Trevino, secretary of agriculture and himself once a farmer, sounded the note of the new order in Mexico. He said that 20 years of upheavals and experimentation with radical measures had led Mexico to the conclusion that the interests of classes are bound up in the interest of the whole and that the emancipation of workers depends upon coöperation with capital.

Señor Perez stated that the word "revolution" in Mexico no longer is to be interpreted as a call to arms, but rather as an administration of government according to principles of justice, equity and liberty.

Must Pay for Lands.

It was all very well at the beginning of the movement, he said, to forget financial obligations in the work of giving peasants land to till, but that has brought a debt of approximately $400,000,000 upon the government's shoulders, and now it is time, in the further distribution of land, to avoid increasing this burden. For this reason, he said, it was proposed to amend the agrarian laws so that additions to communal land assignments would be granted only when there was money on hand to make a cash payment for the land taken over from private owners for this purpose.

Other provisions of the amendments passed by the chamber provide that large haciendas, such as sugar plantations and dairy and fruit farms, will be immune from seizure and division. Perez explained that this was included to give their owners guarantees which would increase production.

Painting a sad picture of the struggle of Mexican peons and industrial workers from conditions of virtual slavery through years of desperate armed turnovers toward emancipation and good living conditions, Perez frankly stated this objective has not yet been reached.

Stresses Need of Capital.

"Nor will it be reached by hostility toward capital," he said.

"Capital contributes with its taxes to government, and the government with this money builds schools for workers," he continued. "Enterprising, humane capital, which is the only kind Mexico welcomes, provides proper working conditions for employés, coördinates their efforts, and gives them sustenance."

The amendments sponsored by President Rubio now will go to the senate for approval.

Here's the Answer to Your 1930 Christmas Gift Problem

CHRISTMAS 1930 differs from other years. This year people are giving useful gifts—and they are looking at price tags. Here is one gift that everyone wants and that almost anyone can afford to give—a savings account at Central Trust Company of Illinois.

When you give a savings account, you also give the opportunity of building up, through regular deposits, a sum of money which may eventually bring benefits far beyond your expectations—financial independence, a college education, an automobile, a home.

At Central Trust Company of Illinois, you can open as many accounts as you wish. We will give you the passbooks in gay Christmas boxes, ready for placing on Christmas trees or stuffing in stockings.

Put "*Savings Accounts, Central Trust Company of Illinois*" on your shopping list now, and come in the next time you are in the Loop

WANT TO SWAP YOUR RADIO FOR A RINGTAIL MONKEY?

AN UNUSUAL offer—but it appeared recently in the Barter & Exchange column of the Tribune Want Ad Section.

Men have swapped with neighbors since tribal days. Then sea shells and war clubs were principal articles of exchange. Now men offer monkeys for radios—pop-corn machines for real estate—birds' eggs and fish for what have you—carnival concessions for a poultry farm—an exercising machine for a shot-gun—and an almost endless variety of articles, no longer useful to them but possessing value for their neighbors.

What have you to exchange? What articles would be acceptable in exchange? Perhaps someone in Chicago will be willing to accept your set of books for the type-writer you need? Try it! You will never know until you do, what things your offer in the Barter & Exchange column of the Tribune can bring you!

WE'S OPEN THEIR FIGHT TO REPEAL ILLIOIS DRY LAW

Point o November Upset in leply to League.

BYARTHUR EVANS.

The coing battle for repeal of the Illinois ate prohibition act in the next genal assembly, which opens next moh, warmed up yesterday with a ddaration by the Association Opposed Prohibition that the defeat by th Republican state senate of the repaler bills in 1927 and 1929 laid the fndation for "the greatest political vset" in Illinois in the recent Novmber election.

The ociation, replying to the Anti-Salo leagus's appeal that the legislatorignore the wet and dry referendu, said the league is pulling "the sam old alibi: 'the people did not vote'" The statement argued that the ate of the repeal bill this coming esion will be of large import in dermining whether the Republican arty is to decline into "a minority arty."

Says eague Has Lost Power.

As to he Anti-Saloon league, the associatio, after pointing to the vote cast for Irs. Lottie Holman O'Neill, who, wh league support, polled 99,485 ves, said "it is evident the league hs ceased to be a factor of importan in Illinois politics."

"On Nv. 4," says the bulletin of the Illinis Association Opposed to Prohibith, "the people of Illinois by a vote omore than two to one (1,060,694 agast 523,130) demanded the repeal of our state prohibition laws. Thirty-ne senatorial districts, having a popuion of 6,051,956 (more than 85 per nt) voted in favor of repeal, while twlve districts, with a population of 105,728 (less than 15 per cent) voted against repeal.

"Arisg out of the debris of a crushin defeat, the Illinois Anti-Saloon leue calls upon the legislature to igno the results of the referendum. produces its old alibi, 'The people id not vote.' The league denies thvalidity of the popular verdict becausthe vote cast in favor of repeal in1930, an off year, does not equal majority of the vote cast in the pridential year of 1928. The absurdi of the demand is apparent."

Hint to Repeal Majority.

The ssociation, in analyzing the vote onthe three questions in the wet and dr referendum, says:

"Ho many of the 2,332,696 voters expressd themselves will never be knownbecause some of them marked one qution only, others two, while the mority marked all three. The repeal f the Illinois prohibition act receive 1,060,004 yes, against 523,130 no, a ajority of 536,874.

"Thse who find fault because some of thevoters failed to vote on the propoas should remember that the very iportant revenue amendment, which,unlike the prohibition proposals,nd a most favorable place on the ballot, received a total vote of 885,173.

"Thverdict of the people as shown by the ote on the referendum was reenforce by the vote for United States senator Lewis, 1,432,216; McCormick, 837,469;O'Neill, 99,485. Contemplating these gures we cannot escape the conclusn that the people of Illinois are opped to prohibition at the ratio of twoo one."

Sa Warning to G. O. P.

The ssociation, of which A. D. Flamoion is president and E. Thiele state dector, dwelt on battles in other session for repeal of the state search and seure act.

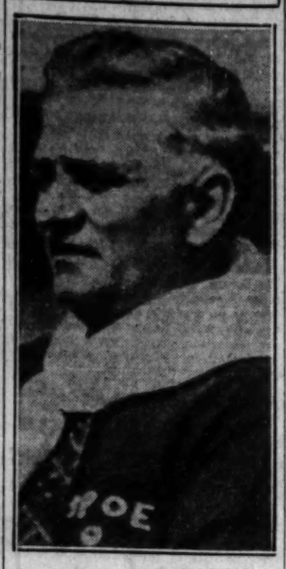
"Repal of this law," it says, "has been pvented by the state senate. Undr he leadership of several members wo have become ossified and impervius to the sentiments and wishesf the people, the senate killed the repal bills adopted by the house at the 927 and 1929 sessions. During the 192 session 11 Republicans and 10 Democats favored repeal, while 29 Republians and 1 Democrat opposed .

"Illiois has been a Republican state f seventy years. Parties, however, ust remain in harmony with the wi of the people. When a majority arty caters to a minority of the peole, ignoring and repulsing the majorit, it will in due time become a minrity party.

"Th defeat of the prohibition repeal bi by the senate laid the foundation f the greatest political upset that is ever taken place in Illinois. A plurality of 455,326 for Hoover was turnedinto a plurality of 744,747 for Lewis.

"Ho strong is the Anti-Saloon league Mrs. O'Neill, candidate of the league received 99,453 votes. Mrs. O'Neilas one of the leading Republican wmen has considerable strength of he own. She has been a labor leadern the legislature. How many votes, if any, did the Anti-Saloon leagu bring to Mrs. O'Neill. Ten thousd? Twenty thousand? Make your wn guess. It is evident the leagu has ceased to be a factor of importnce in Illinois politics."

ASSASSIN'S TARGET



COL. ZACK MILLER.

Ponca City, Okla., Dec. 13.—(AP)—An unidentified assailant made an attempt on the life of Col. Zack Miller, widely known rancher and showman, at his 101 ranch home near Marland, south of here, last night, officers reported this afternoon.

The man fired a shot into the ranch house door jamb after Miller had answered a knock at the door and slammed it upon seeing a gun in the visitor's hand.

The intruder fled after firing the shot, before pursuit could be organized.

Col. Miller, only survivor of the famous Miller brothers who founded the 101 ranch show and operated a large model ranch, left today on a business trip to Mississippi without making an effort to learn the identity of the assailant.

W. C. T. U. BACKS HOOVER FOR 2D TERM IN 1932

Mrs. Boole Calls on President.

[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—President Hoover was told by Mrs. Ella Boole, president of the Woman's Christian Temperance Union, today that he will have the support of the dry organizations should he choose to run again in 1932. Mrs. Boole made a brief call at the White House.

"We told Mr. Hoover that in the Houston convention of the W. C. T. U. there was nothing but high praise for the way he stood by the principles for which the W. C. T. U. has worked," Mrs. Boole said.

The W. C. T. U. president spoke supposedly not only for her own organization, but for the so-called "dry board of strategy" composed of a dozen leaders selected at the conference of organizations supporting the eighteenth amendment here Wednesday. The job of the "board of strategy" is to outline a dry program in the next presidential campaign.

While Mrs. Boole's White House call showed evidence of harmony among the drys, however, there was reports that a storm of dissension is brewing among them on several issues. This was manifest by a report that Oliver W. Stewart of Chicago, president of the flying squadron foundation, was preparing to resign from the board because he feels some of the temperance organizations "have passed the stage where they could adapt themselves to the new conditions which must be successfully met if our cause is to win."

21 LONDON FIRMS JOIN WAR ON COUPON "SALES"

[Chicago Tribune Press Service.]

LONDON, Dec. 12.—Twenty-one large firms today took up positions as the heavy artillery behind the retailers' war against the distribution of merchandise through coupons. The retailers recently revolted against a system which they alleged fastened itself on the British public, depriving them of business.

Several subsidiaries of American companies are represented in the fight. The retailers forced the issue through a protest that their business foes had placed branded goods before the public. The manufacturers thereupon agreed not to sell any product to a concern proposing coupon distribution.

The large firms plan to boycott manufacturers refusing to take the same action pointed out by the retailers after the coupon craze dies out.

Frear Offers Bill to Cut Interest on Loans to Vets

Washington, D. C., Dec. 12.—(AP)—The rate of interest on loans to veterans on their adjusted compensation certificates would be reduced from six to four per cent, under a bill introduced today by Representative Frear [Rep., Wis.].

G. O. P. LEADERS SPOT SAVAGE AS MAYORAL TIMBER

His Vote Getting Power Impresses Chiefs.

BY PARKE BROWN.

The name of Howard P. Savage, former national commander of the American Legion, was taken up yesterday in important secret conferences concerning the Republican mayoral primary next February.

Republican leaders opposed to Thompson for a fourth term and not satisfied with the prospects of Charles V. Barrett have conceded that Thompson is making their path difficult by withholding his public statement as to whether he will run. The uncertainty makes the selection of their candidate a problem.

Petitions Are Started.

Petitions have appeared bearing the names of Municipal Judge John H. Lyle, Attorney Emil C. Wetten, and Thomas J. Houston, but none of these possibilities has aroused enthusiasm in the several organized groups displeased with the Thompson vs. Barrett race outlook.

Efforts have been made to persuade George F. Harding, former county treasurer, to step in regardless of other entries, but he has withheld any announcement.

That there is a disagreement between Harding and Thompson was revealed by one of the stories brought back from Wedron, the village where Thompson recently spent two weeks recuperating from his appendectomy. Thompson sought to make his stay there a political demonstration, but he was disappointed in more ways than one. One was that Harding declined his invitation and even sent a message that he didn't intend to appear.

Mr. Harding's Dilemma.

The story runs that a newspaper man close to both Thompson and Harding sent the latter a telegram saying the mayor would remain a few days longer at Wedron so that Harding might visit him. Then, according to the yarn, Harding sent a message reading in effect something like this:

"I have never gone on the mayor's junkets and don't intend to start now. My friends are set against him and I can do nothing with them for him. As for me, I'm going on a long vacation. I can take care of my enemies, but Heaven protect me from my friends."

Despite Harding's refusal to enter the race under the present conditions, some of those who want him to run are convinced that he can be persuaded if Thompson steps aside and that a majority of the county committee probably would be with him. But his refusal to commit himself even on this contingency has led the impatient ones to look elsewhere.

Spot Savage as Candidate.

Under these conditions they have looked over the race Savage made for county treasurer last month. Taking the vote in Chicago alone the Legionnaire ran far ahead of his ticket, polling 403,424 within the city limits in contrast to the 287,353 cast for Ruth Hanna McCormick.

Savage was defeated in the county by only 30,559 in spite of the Democratic landslide. Veteran politicians and office holders went down to defeat by far bigger margins than did the political youngster, for this was the first time that Savage ever ran for office.

Service men who are now boosting him say that Savage could defeat both Thompson and Barrett. They base this largely on the belief that the Snow group on the county committee might go with Savage if Harding stays out, and that he could get the support of the Brundage group and the Deneen group.

Savage has not been consulted up to this point. Service men who have talked with him about it say he will have to be "shown."

Smith Still a Candidate.

County Recorder Clayton F. Smith protests against suggestions that he may give way on his claim to a right to expect the indorsement of the Democratic organization for the mayoralty.

"I am still a candidate," he said, "and I feel that I am justified in expecting an indorsement. I gave way for somebody else eight years ago (for Dever) and it is no more than right that others give way to me now. I was chosen as the harmony candidate to head the county organization last year. I managed a campaign that never has been beaten for efficiency and correct timing. I have run for office four times—twice for city treasurer, once for alderman, and once for recorder—and never have been beaten."

A delegation of supporters headed by County Commissioner Charles H. Weber, escorted William Schlake, brick manufacturer, to County Chairman Cermak's headquarters and presented Mr. Schlake as a business man candidate.

HELD FOR MURDER

Joe Bommarto, rum runner, indicted for murder of Jerry Buckley, Detroit radio announcer.

[Associated Press Photo.]

FRANCE TO NAME WEYGAND AS HIGH CHIEF OF ARMY

[Chicago Tribune Press Service.]

PARIS, Dec. 12.—Gen. Maxime Weygand, former chief of staff to Marshal Foch and now chief of staff of the French army, will succeed Marshal Petain, who is soon to retire, as vice president of the superior council of the army. This was unofficially announced today.

The minister of war automatically holds the honorary title as president of the superior council, so Gen. Weygand in reality will be the supreme chief of France's military organization. Marshal Petain is retiring because of his age and poor health and a desire to live quietly at his Riviera home.

Although Gen. Weygand was directly in line for the post, the appointment is considered significant because of his familiarity with Poland and eastern Europe. Marshal Foch sent Gen. Weygand to Warsaw when the Russian cavalry hordes under Gen. Budenny were thundering at the gates of the capital, and it was only when the Polish staff adopted the strategy of Gen. Weygand that the Russians were thrust back and routed.

Gen. Gamelin will succeed Gen. Weygand as chief of staff of the army.

MAKE PROTEST ON RENAMING OF COUNTY FOREST

A resolution protesting against the renaming of the Caldwell-Sauganash forest preserve as the John F. Smulski forest preserve was sent yesterday to the Northwest Federation of Improvement clubs by the Edgebrook Manor Betterment association. The federation is asked to support an effort to have the forest preserve board reconsider the action taken last August.

The resolution points out the historical significance of the former name, stating that the land was given to William Caldwell, known as the Sauganash, in recognition for his service in securing peace with the Indians at a time when a massacre of the white population of the city was threatened. The treaty was signed in 1835 under a tree in the preserve, known as "Treaty Elm." The resolution suggests that the memory of the banker be honored by naming a school after him.

AMERICAN FLYER, HELD IN CHILE AS REBEL, IS FREED

CONCEPCION, Chile, Dec. 12.—(AP)—The Appellate court martial today approved the release of Reed Smith, American aviator, who was arrested on charges that he participated in the recent revolutionary attempt.

Smith and another American flyer, Edward O. De Larm of SanFrancisco, were arrested together. De Larm escaped and made his way to Buenos Aires in a 500 mile trip, during which he endured considerable hardship.

Smith, whose home is Reidsville, N. C., was De Larm's mechanic. He spent a brief time in prison but was released under bail last month with a court recommendation that he be acquitted. Today's decision by the Appellate court gives him his complete liberty. The court's decree must be signed by the minister of war before he will be permitted to leave the country.

U. S. WILL SPEND 75 MILLIONS ON BUILDINGS IN '31

Chicago Postoffice Work to Start in Spring.

[Chicago Tribune Press Service.]

Washington, D. C., Dec. 12.—[Special.]—The federal government will expend $75,000,000 on public buildings construction during the current fiscal year, Assistant Secretary of the Treasury Ferry K. Heath told the Illinois delegation in congress today.

Called before the Illinois group to present a picture of the national public buildings situation as well as to outline the status of government building projects in Illinois, Mr. Heath reported the treasury rapidly was approaching a construction rate which would complete construction of the existing 530 million dollar public buildings program by the end of 1935. He reported that funds were being expended on new postoffices and federal buildings at twice the rate maintained last year.

More Than 500 Projects.

Despite the increased building rate and the country-wide demand for speeding up of government structures, the assistant secretary and John W. Philp, fourth assistant postmaster general, admitted that but 94 of the more than 500 projects in the federal building program have been completed at a cost of $31,661,362. Ninety-two buildings under contract involve expenditures of $69,768,348.

While declining to set any exact date for beginning the long delayed new Chicago postoffice, Mr. Heath said he was confident work would begin on the Van Buren street structure in the early spring and continued until the $21,000,000 project is completed.

Other Chicago Area Projects.

Other projects in the Chicago district, for which authorization has been asked, the limit of cost and status of the undertaking, follow:

Maywood, $160,000; site submitted considered too small; agent instructed to get a larger site.

Joliet, $185,000; additional land owned by railroad company, which refuses to submit a proposal; special agent instructed to see railroad officials in Chicago and submit report.

Harvey, $160,000; site accepted Dec. 3, 1930; awaiting title.

$395,000 for Aurora.

Aurora, $395,000; site settlement to general accounting office, Dec. 2, 1930; title to new site expected to be vested in three weeks.

Waukegan, $335,000; site accepted Sept. 17, 1930; awaiting title.

Woodstock, $90,000; drawings will be completed approximately Feb. 15, 1931; will be on the market during March, 1931.

In response to questions from Representative Fred A. Britten [Rep., Ill.], Secretary Heath said every effort was being made by the treasury and postoffice department to obtain clear title for the so-called air rights site at Chicago, complete the drawings and get men at work. The present treasury plan is to let a contract for the foundation first, the contract for the rest of the structure coming later.

Clear Title to Air Rights.

Bids on sites for the new appraisers' stores building at Chicago have been received but no action taken pending a decision as to whether or not the building should be erected on a portion of the old Marshall Field postoffice site abandoned in favor of the Van Buren street railroad property. A decision will be made, it was said, as soon as a clear title is obtained for the air rights site. Mr. Heath said the government had not decided definitely as to what it would do with the Marshall Field site, now an eyesore.

"Are you going to allow this site to remain an eyesore for the benefit of Chicago's World's fair visitors?" demanded Mr. Britten.

Mr. Heath answered that studies were being made and it was possible the property would be turned into a park or a parking space.

Calls for $315,000,000.

The federal program calls for expenditure of $315,000,000 outside the District of Columbia and 190 millions in the District.

A table showing the exact status of 442 authorized projects was given to the delegation by Mr. Heath. It shows that no sites have been obtained as yet in more than 150 projects.

NEGRO HELD AS SLAYER.

Robert Garrett, colored, was recommended held to the grand jury yesterday on a charge of manslaughter as a result of the stabbing Thursday of Roosevelt Mammery, also colored, 3742 Cottage Grove avenue, in Garrett's home, 4015 South Park way.

HISTORIC WASHINGTON MONUMENT PEST TO AVIATORS AT NIGHT

(Picture on back page.)

Washington, D. C., Dec. 12.—(AP)—The Washington monument, mecca of tourists, is giving trouble to aviators.

Pilots say that since the capitol dome was lighted the monument is the most dangerous obstacle to night flying in these parts and engineers are trying to find someway of illuminating the 500 foot obelisk without destroying its beauty at night.

SUSPENDED BANK IN GOTHAM MAY BE BOUGHT SOON

Plans Under Way to Make Loans to Depositors.

New York, Dec. 12.—(AP)—The prospect of eventual acquisition of the assets of the closed Bank of United States by one of the city's large bank organizations was regarded hopefully in important financial quarters today.

Completion of the examination by the state banking department is expected to remove most of the obstacles which could not be surmounted in the protracted merger negotiations which preceded the closing. Several of the strong downtown banks have been ambitious to expand their branches and are said to regard the 59 locations assembled by this uptown institution with interest.

Guarantee Is Discussed.

A prominent banking official pointed out that the bank's assets could undoubtedly be more effectively preserved by maintaining their use for banking purposes, and that it was conceivable an agreement might be reached whereby they could be taken over by another institution, guaranteeing depositors a percentage of their funds. He was hopeful this percentage could be made high.

In the meantime plans to make effective the offer of heads of 23 clearing house banks to relieve closed bank's depositors were rushed forward. Joseph A. Broderick, state banking superintendent, said he thought the machinery for making loans to these depositors might be ready to start work by Monday or Tuesday.

Christopher Bank Closed.

Christopher, Ill., Dec. 12.—(AP)—The Christopher State bank failed to open for business today. Steady withdrawals of deposits for several weeks prompted the board of directors to order the institution closed for the protection of depositors, bank officers said. Charles L. Pike is president of the institution, which has a capital of $100,000.

Arkansas Bank Reopened.

Little Rock, Ark., Dec. 12.—(AP)—The Peoples Bank and Trust company at Morrilton, which suspended last month, reopened today.

The closing of the Bank of St. Paul at St. Paul was announced. The bank had capital and surplus of $13,000 and deposits of about $31,000.

Two Iowa Banks Close.

Des Moines, Ia., Dec. 12.—(AP)—Two small Iowa banks closed today. The Exchange bank at Marcus, a private institution with deposits of $300,000, went into the hands of a receiver because of recent failure of correspondent banks. The Ellstone Savings bank at Ellston, with deposits of about $100,000 and capital of $10,000, also failed to open.

Three Closed in South Dakota.

Sioux Falls, S. D., Dec. 12.—(AP)—Three South Dakota banks were placed in the hands of the state banking department today.

The Security State bank of Gayville closed pending a reorganization. It had deposits of approximately $425,000.

The Citizens State bank at Colman, capitalized at $10,000, and the Brown County Banking company of Groton, capitalized at $25,000, also closed.

Receiverships Authorized.

Richmond, Va., Dec. 12.—(AP)—M. E. Bristow, chief of the division of insurance and banking, was today authorized to establish receiverships for the State bank of Columbia, at Columbia, Va., and the Planters' bank, at Clarksville, Va., on orders from the state corporation commission.

Pennsylvania Bank Closed.

Tyrone, Pa., Dec. 12.—(AP)—The doors of the Farmers and Merchants National bank here were closed today and notice was posted that the action was taken in the interests of depositors.

North Carolina Bank Closed.

Asheville, N. C., Dec. 12.—(AP)—The Bank of West Asheville failed to open today. Since failure three weeks ago of the Central Bank and Trust company here, largest bank in this section, five banks have closed in Buncombe county.

Thirty-Day Rule Is Invoked.

Raleigh, N. C., Dec. 12.—(AP)—The Mechanics Savings bank of Raleigh today invoked the 30-day rule on withdrawal of deposits and announced no deposits were being accepted unless the depositor would leave the funds untouched for 30 days. The bank's doors were open as usual.

OF 252,095 FLIGHTS MADE BY NAVY MEN ONLY 14 PROVE FATAL

Washington, D. C., Dec. 12.—(AP)—Navy flyers were only a fraction of one per cent away from a perfect safety record in the 1930 fiscal year.

Of a total of 252,095 flights only 14 resulted in fatal injuries, making the flights 99.9945 per cent safe from fatalities. The figures were set forth today in the annual report of Rear Admiral William A. Moffett, chief of the bureau of aeronautics.

There were 430 "crashes" scattered over 266,984 hours flown, which involved injury to the aircraft. Eighteen persons killed, 15 serious, and 48 minor injuries were recorded.

For every fatality a new record total of 14,832 hours, and for each fatal accident 19,070 hours were flown—against 6,773 and 11,239 hours, respectively, in 1929.

FRAUD CHARGED IN HANDLING OF STATE'S FUNDS

Chattanooga, Tenn., Dec. 12.—(AP)—At a massmeeting here tonight resolutions were adopted calling upon the legislators to investigate charges of irregularities in the handling of state funds at Nashville.

The resolution charged that public finances had been mishandled, dissipated, and lost in insolvent banks, that the law had been ignored in depositing state funds in amounts largely in excess of lawful limitations, and that state money had been borrowed out of depository banks with little or no security by politicians in close touch with state officials.

The resolution also called upon the federal government banking department to "investigate the charges that public funds were placed in a national bank for the purpose of being illegally borrowed by one or more of the favored few and that such funds were illegally loaned by complaisant bank officials as part of the colossal conspiracy to exploit public funds."

DR. EADE WILL DEFEND SELF AT MEDICAL TRIAL

Dr. T. M. Eade of Champaign will take the witness stand the morning in his own behalf to defend himself against charges of malpractice at the hearing on revocation of his medical license. The charges arise from the death of Miss Cleo Hinton, Champaign stenographer, whom the state charges died as the result of an illegal operation.

The examining board of physicians yesterday heard testimony of Mrs. Ruth Bowen, Dr. Eade's office attendant, who left her regular duties to become nurse to Miss Hinton. The physician has already been acquitted of a murder charge arising from the case. A deathbed statement made by Miss Hinton, in which she accused Dr. Eade of performing the operation, was read into the evidence.

Assistant Attorney General Phillip Ringer, conducting the prosecution, yesterday indicated that circumstances in the death of Miss Gladys Anderson, Chicago freshman at the University of Illinois, will be brought into the case when he questions Mrs. Bowen. Dr. Eade is now under indictment of murder on the case and will be tried in January.

One Michigan Congessman Represents 1,398,801 Folk

Washington, D. C., Dec. 12.—(AP)—The census bureau today totaled Michigan's Sixth congressional district, most populous in the United States, as 1,398,801 inhabitants.

The First Michigan district numbered 468,034 population, the Thirteenth 464,308. All three are Detroit districts.

Grant M. Hudson now represents the Sixth district in congress, but was defeated at the last primaries by S. H. Person, who was elected in November.

LOCK VICTIM IN ICE BOX.

Two bandits yesterday robbed the National Meat market, 4357 West Division street, of $56.40 after locking the manager, Peter Demetry, 2606 North Mozart avenue, in the ice box.

BISHOP ABSENT AS LINDSEY CASE FLAW CROPS UP

Church Well Represented at Court Hearing.

BY TOM PETTEY.
[Chicago Tribune Press Service.]

New York, Dec. 12.— [Special.] — The publicizing of Ben Lindsey proceeded today without benefit of clergy —that is the bishop of New York did not have to face a police court mob from a golden oak witness chair. The church, nevertheless, was well represented by lesser lights of the diocese when the former Denver judge appeared before a little semi-bald magistrate to answer a charge of stirring up a ruckus in the Rt. Rev. William T. Manning's Cathedral of St. John the Divine, a Protestant Episcopal institution sometimes known as the "church for all the people."

The bishop remained in his study hard by a telephone awaiting a call, for he had been subpoenaed to tell why the little man from the Rocky mountains had been thrown out of the cathedral. The sanctity of the Morningside Heights church vs. the sanctity of companionate marriage was the issue at stake.

Hearing Is Postponed.

There was no decision today as to whether Mr. Lindsey had disturbed the peace when he climbed upon a reporters' table last Sunday and "baited" a bishop, for Arthur Garfield Hays, the lawyer, found a flaw in the framing of the charges and the matter was postponed until next Wednesday afternoon when Bishop Manning will be asked to visit the drooping old courthouse over back of the Tombs prison on Mulberry bend.

This afternoon's activities took place in West Side court up on San Juan Hill and, as the Rev. Dr. Eliot White, assistant rector of Grace church, who has cast his lot with the Lindsey forces, put it, "we had an unregenerate good time."

The warm light of publicity beamed down on such eminent figures as that champion of the underdog, Lawyer Hays; the well known public prosecutor, John C. McDermott, the latest Republican candidate for governor, Charles H. Tuttle, present as the bishop's "counselor friend"; Nellie B. Bull of Elyria, O., president of the Widow and Widowers' club and archfoe of the flapper.

Limousines Bring Women.

Limousines rolled up to discharge furred and flowered women, a lot of the colored folks who live in the vicinity dropped in, and the drizzle brought its quota of the unemployed. There were a dozen or more minor ministers, thirty reporters, as many photographers, and all of the wives and daughters of all of those connected with the court.

There was a lot of talk about whether the charge was "disturbing the peace" or "disturbing the public worship" and the failure of the charge to use the word "wilful," it was a very inefficient and highly irregular document, declared Lawyer Hays, who then revealed he had a whole set of precedents from Hebrew history he would like to discuss.

Crowd Calls Him Names.

After the hearing the bandy legged little theorist who used to be a judge himself, sloshed through the drizzle to the corner talking earnestly to a large man with a bushy mustache while the crown yelped at his heels, calling him undignified names and cheering for Bishop Manning. Then somebody kicked over an apple peddler's stand and the crowd got ugly. Lindsey hopped into a passing taxi and rode out of the limelight—until next Wednesday.

$1,000,000 HEIR IS DENIED WRIT AGAINST WIFE

(Picture on back page.)

Superior Judge John J. Sullivan yesterday denied Huntley Chapin, heir to a $1,000,000 estate, an injunction to restrain his wife, Mrs. Myrtle McLaughlin Chapin, 25 years old, 7859 South Shore drive, from annoying him. Chapin charged that she had been instrumental in causing him to lose his position with the Midland United company by hounding him.

Mrs. Chapin was accompanied in court by a nurse from Michael Reese hospital, where she recently underwent an operation. She produced a letter from an official of the company which said that Chapin's charges were false and the company had found that his services could be dispensed with.

Attorney William C. Napier, representing Mrs. Chapin, said the Chapins were married Oct. 28, 1928, and separated last Nov. 13. They have a son, Huntley Jr., 15 months old. Her suit for divorce on charges of cruelty is pending. Chapin recently inherited the estate of his grandfather, Charles S. Huntley of Buffalo.

VOTE TO REPAIR JAIL AS 5 ESCAPE.

Virginia, Ill., Dec. 12.—(AP)—After five prisoners had escaped from Cass county jail, the board of supervisors yesterday voted to repair it. The board figured that it costs more to chase fugitive prisoners than it would to make repairs. Five men escaped a week ago, three escaped last July, and ten escaped in August.

Defies Italy

Showing location of the tiny republic of San Marino, which is defying Italy over the extradition of a mother and her daughter sought by a Milan court order.

TINY SAN MARINO DEFIES ITALY TO PROTECT MOTHER

Is Refuge to Child of Milan Lawyer.

BY JAY ALLEN.
[Chicago Tribune Press Service.]

ROME, Dec. 12.—The republic of San Marino is only 38 miles square and has a population of hardly 14,000, but it is the oldest state in Europe, and very proud, and just will not be bullied. Or so it today informed its big neighbor, the kingdom of Italy, which not only adjoins but surrounds it.

San Marino has an army, a very elegant army, which wears velvet breeches and never has to do much, but nevertheless there seems to be no threat of war in her complication with Italy, though it may further darken the European horizon.

Refuse Extradition.

But San Marino refuses absolutely to extradite the Marquessa Vittoria Brambilla or her seven year old daughter, Lili, who, the court at Milan holds, must spend six months of the year with her father in pursuance of a separation decree granted when the couple split up.

The marquessa, who is a grand dame in Italian society, about 50 years old, and sister of the late diplomat of the same name who was chancellor at the Italian embassy in Washington from 1914 to 1920, has been in San Marino with her daughter since last summer, seeking refuge there from the Italian police.

She is lodged in the best hostelry in the capital, which is the Albergo Titano, and there rests in peace, aware that her champion, the republic of San Marino, is the same republic that resisted Diocletian and Napoleon and during the years of the Risorgimento harbored Garibaldi, standing off all comers.

Police Ring Republic.

So the fact that the Italian police are more or less massed along San Marino's frontiers has in no way intimidated the two governing regents and the grand council of sixty. But it is all very annoying, because every woman and child who crosses into Italy is stopped and questioned.

The marquessa's husband, Edmondo Stella, a lawyer in Milan, is very active in insisting that the court's decree awarding him his Lili for six months of the year be carried out. But the marquessa claims tat Lili was a most unhappy child during the first six months spent with Sig. Stella, and says that the experiment will never be repeated.

Stands on Treaty Rights.

San Marino, ignoring these aspects of the case, simply stands on its treaty rights. According to the terms of the extradition treaty with Italy, which is part of the general convention of 1907, such as San Marino has with England, the United States, and other powers, the republic is not obliged to extradite if the case in question is still before the Italian courts.

The marquessa has appealed to the high court, and pending her appeal it begins to look as though Italy will only get the marquessa over the dead bodies of 14,000 San Marinos, and the bottom of the pile, the first to fall, of course, would be the velvet coated heroes with ancient traditions of valor against odds.

HUSBAND, 82, AND WIFE, 75, KILLED BY FAST TRAIN

(Picture on back page.)

A man and his wife, the former 82 years old, the latter 75, were killed early last night when they were struck by a fast northbound North Shore line electric train at the Oakton street crossing in Niles Center. More than a dozen persons witnessed the accident.

The victims were Mr. and Mrs. Claus Gustafson, 8101 North Keating avenue, Niles Center.

They had just left their home and were bound, arm in arm, for the business district to shop. Despite lowered gates, according to witnesses, they attempted to cross the tracks. To the south is a curve, cutting off sight of approaching trains. As they were at the rails a Milwaukee limited, operated by Motorman William Marcy of Racine, Wis., bore down upon them

FASCIST AGENT IN U.S. ATTACKED AS TRAITOR IN ROME

BY JAY ALLEN.
[Chicago Tribune Press Service.]

ROME, Dec. 12.—Some of the difficulties of a propagandist in the United States as outlined by Prof. Lauro de Bosis were made public today in a letter published in the Rome paper, Popolo di Roma. Prof. de Bosis was for some years in charge of the Italian house at Columbia university on the invitation of President Nicholas Murray Butler, and with the backing of the Italian government.

Prof. de Bosis, claims Popolo di Roma, undoubtedly did not intend his letter to be published, as he had written it to a high government official, and the letter, in the form given out by the newspaper today, forms the basis of an attack on the professor for an interview which he gave to the Geneva correspondent of the Manchester Guardian. The interview is considered here as a reflection on the Fascist régime.

Born of U. S. Mother.

Prof. de Bosis is the son of a late Italian scholar and translator of Shelley, and Lillian Vernon de Bosis, who was originally from St. Louis and is now under arrest here awaiting trial on the charge of circulating material prejudicial to Fascism.

In his interview with the Manchester Guardian correspondent Prof. de Bosis said that he had prepared much of this stuff himself, but only as a means of informing a number of people in Italy, people whom he says cannot get the news of what is going on in the world from the Italian press.

The Popolo di Roma calls him "garrion," and accuses him of biting the hands that feed him.

No Fascist on Purpose.

This curious letter, in which Prof. de Bosis expresses hope that he will have more opportunity to help the Fascist cause, reads in part: "Although my propaganda work in America forced me to make pretense of having no political bias—so much so that in order to better carry on Fascist propaganda in America it was necessary for me not to be a member of the Fascist party—still I am confident that I have given evidence in those years in New York of the same fervor that I would have shown had I been in militant Italy."

He speaks of having made 70 lectures on Fascism in less than four months.

"In view of recent developments the people here are beginning to wonder just what kind of propaganda he did spread in America," says Popolo di Roma.

Jail Communists.

ROME, Dec. 12.—(AP)—Nine communists, convicted of spreading subversive propaganda at Florence, were today sentenced by the special tribunal for the defense of the state to serve prison terms ranging from two to six years. Three others were acquitted of similar charges.

A PORT COMMISSION FOR CHICAGO.

The executive committee of the Chicago Association of Commerce has approved the setting up of a Chicago regional port commission. This commission is to fill the need for a Chicago port authority until such an authority is set up by the governments concerned. Meanwhile Chicago has no clearing house for information regarding the port, no body to which proposals for establishing barge and lake terminals can be referred, and no agency to advise the local governments. The commission which is now to be created is frankly a makeshift and a stopgap, but its importance for the future of Chicago can hardly be exaggerated.

The new commission is to perform services in its special field analogous to those of the Chicago plan commission. Under the auspices of the commercial club Maj. Rufus Putnam drew up a harbor plan which has been generally accepted in principle, but without an agency to realize the provisions of the plan and keep it up to date the port plan is in danger of becoming just another book on the shelves of the municipal reference library.

The city cannot afford to let matters take their course. In two years the lakes-to-gulf waterway will be completed. The government has already authorized the operation of a barge line up the Illinois river as far as Peoria, and the line will be extended to Chicago as soon as the waterway is functioning. Scarcely any provision has been made for handling the barges on their arrival here. Unless the situation is taken firmly in hand Chicago and the nation will not profit as they should from the opening of the waterway.

The results of Chicago's neglect of the opportunities presented by water transportation are already apparent. In 1928 the net value of the traffic moved on the great lakes was more than twice the corresponding figure for 1918, but in 1928 the business of the port of Chicago, including the Calumet harbor, was less by $30,000,000 than in 1918. Other ports on the great lakes were increasing their business while Chicago was steadily falling behind.

The commission will be useful, we believe, in proportion to the weight in its counsels of men experienced in traffic movements and management. The danger inherent in any port plan is that it will be grandiose rather than practical. Pretty pictures will not bring ships and barges to our docks. What is chiefly needed is adequate provision for transfer of cargoes from water to rail, and vice versa, and from ships to barges, and vice versa. The points of transfer must be strategically located. The Putnam plan, in the main, was drawn with these considerations in mind. They should remain paramount in the new commission.

THE SUPERIOR MORALITY OF THE OPEN SPACES.

Every one knows that sharp practices are an inevitable accompaniment to urban life. City and slicker are words which leap across the dictionary into each other's arms, like lone and eagle. The cities bring out the worst in mankind as the open spaces bring out the best. You can't trust city folks to do the right thing, and vice versa.

We have been trying, without success, to fit into this picture the disclosure which has just been made at the stock show. It seems that this year's international prize steer differs from many of his predecessors in the fact that he was given no beauty treatments. In the past it has been customary, we are informed, to fill up the hollow spaces in a show animal's carcass with injections of paraffin, lard, and bear oil. Sometimes the operations resembled the face lifting of the beauty surgeon, except that the wrinkles removed were not on the steer's face.

Stock raising is not an industry which flourishes in the cities. The doctoring of the show animals seems to have been invented and perfected without any help from the city slickers. The disclosure is disconcerting. It invites the conclusion that iniquity has no favored dwelling place.

A PICTURE OF AMERICANS.

Dr. A. E. Karlfeldt, permanent secretary of the Swedish academy, presented Sinclair Lewis, the American author, for the Nobel prize for literature from the hands of King Gustav V. at the Stockholm assemblage of dignitaries. Dr. Karlfeldt, in introduction, said that Mr. Lewis had created a type of man who was not unsympathetic, but who was more acceptable as a good, respectable man than corresponding types would be in other countries.

It is not easy to figure out just what that means. Is it that a character which must be given some credit for respectability in American life could not be given that rating in European? The popularity of Mr. Lewis' American characters in Europe has been explained by the theory that they confirmed what Europe would like to believe of America. They had the authority of a popular American author whose perceptions were accredited at home. He presented various pictures of American life and of the American people which seemed to be recognized by Americans as truthful, realistic, and comprehensive. That being the case, the preconceptions of Europe were justified and the people of the great democracy were as they had been assumed to be. Many other assumptions of international importance were thus justified.

There had arisen in the United States an unpleasant people, comical in their pretensions, excited by their material possessions, unaware of their spiritual emptiness, proud of things which should have made them self-questioning, hypocritically lustful, untrained, undisciplined, and without the rudiments of the culture which maintains or at least promises a civilization. Most of the European approaches to questions involving the United States in world affairs seem to have started from just such a conception of American life.

Mr. Lewis' great talent is admitted by his fellow countrymen. Its recognition by the Nobel prize committee is accepted as fitting. It will not add to the literary stature of Mr. Lewis at home, but it is a compliment he may be glad to have come his way. Nevertheless, Americans know Mr. Lewis as a writer chiefly concerned with the unpleasant attributes of unpleasant people. It is understood that Europeans admire the work which trims the damyank to their own satisfaction.

THE PROGRAM OF PROHIBITION OPPOSITION.

The Methodist board of temperance, prohibition, and public morals in Washington has passed a resolution commending the Rev. Dr. Clarence True Wilson for demanding that the opponents of national prohibition "state clearly and exactly what they want." This is supposed to be a poser. It is easily answered. Opponents of national prohibition want:

The repeal of the eighteenth amendment because it is contrary in essence to nearly everything else in the constitution and repugnant to the American system of government.

The repeal of the Volstead act because it purports to enforce this error in organic law and in fact goes far beyond its authority in making the mistake even worse than it need be.

The return to the separate states of the police power and right of regulation of which the eighteenth amendment deprived them.

The control of the manufacture, sale, and transportation of intoxicating beverages by the states.

The opponents of national prohibition cannot be asked to provide a substitute for the eighteenth amendment and the Volstead act because they are opposed to all national interference in the matter except such action as might be taken to control interstate shipments of liquor from one state to another.

What the states would do if the federal government were shoved back into its normal and proper place in American government cannot be known in advance. The wise states would make and enforce a sensible regulation of the use of alcoholic beverages, but whatever they did would be their own concern. Kansas is or should be able to govern itself. It is not, in this respect, able to govern New York, and it should not be allowed to try it.

Before these fundamental changes are made in American government to bring it back to sanity the Volstead act should be modified to make it less of a deceit and atrocity than it is now. That would be an interim measure of relief.

THE ALTON.

The sale of the Chicago and Alton railroad to the Baltimore and Ohio had some sentimental old homestead interest, and it is hoped that the rest will be happy, but not an ending. No one arrived on a foaming horse from the gold fields with the necessary coin, or from the governor with the necessary papers, but it still may be all for the best, without orphans in the snowstorm.

If the Alton had been laid through Danville to Evansville and on south it might not have been so much of Illinois, but it went through Springfield to St. Louis, and that made it a capital city train. The Alton Limited has hauled several generations of pure hope and rubicund rascality by the ton to the eternal conflict under the dome of government, and, with the Illinois Central, it has been common carrier of the common weal and woe, the road of the crusades, traveled by knights sometimes the worse for wear and by well fed enemies of the people. There hasn't been a decision yet.

The Alton has another meaning for people at least hereabouts because it was a symbol of a railroad experience the consequences of which rebounded upon the railroads. It was not the only one of its kind, but it was typical. Harriman, a great railroad man, here mixed a bit of deviltry with his constructive achievements, revealed an indifference to common honesty in his dealings with property and investors, loaded the Alton with obligations and helped substantially to bring the radicals down upon the roads. Even old Shelby Cullom, the venerable senator from Illinois, became militant when Harriman's operations were exposed and exclaimed: "Why, that road runs right through my home town!"

These indifferent railroad manipulators, men of genius, thumbed their noses at the stolid public too long, and the public anger since has sustained radicalism in its depredations upon the railroads of the country. They fight now for fair play, and a full generation has been devoted in persuading public opinion that it is fair and mandatory. The sins of the fathers have been the calamity of the present.

Editorial of the Day

FROM CATHEDRAL TO POLICE COURT.

[New York Evening Post.]

Rarely have we seen a more depressing and unpleasant spectacle than that presented by the Manning-Lindsay controversy. Everybody in it seems to be wrong. Here we have a bishop interfering with the right of free speech, denouncing his own clergy, and spoiling a perfectly permissible message on doctrine by a bitter personal attack. Then an affidavit against the bishop's truthfulness appears from one of his clergy. An ex-judge, after breaking the law and affronting the decencies by a shouting outbreak during church services, troops to the police court with a crowd of friends and talks loudly of $1,000,000 libel suits. One of them, George Creel, long unheard of, we are glad to say, comes to bat with the utterly silly statement that Bishop Manning "has done more to hurt Christianity than any man that ever lived." Finally, we are treated to the spectacle of the police subpoenaing the cathedral ushers and any of last Sunday's worshipers whom they can find. The whole incident is degrading. It puts the police into the cathedral and the cathedral into the police court.

SAFETY FIRST.

"Waiter, please close that window."

"Is there a draft, sir?"

"No, but it's the fourth time my steak has blown off the plate."—Arcanum Bulletin.

How to Keep Well By Dr. W. A. Evans

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries under proper limitations when return stamped envelope is inclosed. Dr. Evans will not make diagnosis or prescribe for individual disease.

(Copyright: 1930: By The Chicago Tribune.)

WRITES ON ERYSIPELAS.

W. O. C. asks for an article on erysipelas. He wants especially to know how it is contracted and if it is contagious. Erysipelas is a very old disease and in its history has changed its character materially. One of the changes relates to its contagiousness. Once a very much dreaded epidemic disease, spreading over the country somewhat as influenza did in 1918, it has now dwindled to such small proportions that some health departments do not require it to be reported.

It is caused by one of the streptococci. Clinically, it is peculiar in that it spreads widely along the skin surface, causing redness and local swelling, but having almost no tendency to cause abscesses or to produce pus. Although the cocci do not spread beyond the skin vicinity, they secrete poisons which are absorbed and cause high fever, rapid pulse, delirium, and other constitutional symptoms. The cocci get into the tissues through wounds. Sometimes the entrance wound is found with difficulty. A person with erysipelas acts as though he were very gravely ill, as sometimes he is, but the rule is that the danger of fatality is less than it seems to be.

There is an erysipelas antitoxin and it is reasonably satisfactory. In some cases it acts in the same magic fashion as we expect diphtheria and scarlet fever antitoxin to do in suitable cases. The development of this antitoxin is one of the achievements of medicine. As this remedy became available the use of ichthyol fell into disuse. The latter was so unpleasant and generally objectionable that nurses, patients, and physicians were glad to usher it out the back door.

At one time erysipelas was a very great menace to women in childbirth and to persons who had been operated on. Cases of this disease were not allowed in surgical hospitals or maternity wards. No physician attending erysipelas was allowed to operate or to attend maternity cases. The contagion was believed to cause either septic fever, suppuration, or erysipelas. There has been reduction in this danger and the precautions taken have been changed somewhat.

SCARLET FEVER.

Mrs. M. A. writes a letter which we abbreviate as follows: Twenty-two years ago my grandson brought three of his classmates home from the university for the holidays. One, my nephew, had a sore throat. My sister said he was not ill. It was only an error. Thirteen hours later my sister and another nephew left for an eastern city to visit in two homes.

The son still had sore throat when they arrived. In one home there were two daughters, 3 and 5 years of age. Both developed scarlet fever but recovered. Both girls married last year. One died at eight months pregnancy. The second expects a baby soon. One question relates to these nieces.

The three boys left our home after twenty-four hours and traveled in different directions. One was taken sick on the train and died nine days later from scarlet fever. Another had scarlet fever, was sick ten weeks with complications, and lost a year from school. The other visitor did not become sick. A maid who waited on the visiting grandson developed scarlet fever, and inside of three weeks eleven of her family and friends developed the disease.

1. Were these cases of scarlet fever?
2. Is scarlet fever ever spread by people who have sore throat but no eruption?
3. Can scarlet fever sore throat develop in twenty-four hours after exposure?
4. Could the niece's death in pregnancy twenty-two years later have resulted from scarlet fever?
5. What should the other niece do?

REPLY.

1. Yes.
2. Yes. Probably no other source is so prolific of scarlet fever.
3. Yes.
4. Yes. Probably her death was due to Bright's disease which, in turn, was due to scarlet fever.
5. Have her physician watch her closely for evidence of nephritis, acidosis, and intoxications.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

A CARELESS TENANT.

Chicago, Dec. 9.—[Legal Friend of the People.]—A tenant rented my house in August. On Nov. 28 she called me and said they were moving that day. I asked them to turn off all water pipes, which she failed to do. Previously they had been away for a week without shutting off pipes, resulting in their freezing. Tried to locate her for several days without success and when I finally secured the keys from her [on Dec. 4] found the floors were covered with ice due to pipes breaking and hot water tank bursting. 1. Is there any way these people could be made to pay for the damages? 2. It was their fault that the damage was caused. M. G.

1. Yes. Employ an attorney.
2. We agree with you.

TRIBUNE LAW DEPARTMENT.

CIVIL SERVICE JOBS.

Chicago, Dec. 5. — [Friend of the People.]—Can you please tell me when the civil service commission is going to post the list for the junior clerks' examination which was held in June, 1929, also for posting of the list for truant officer for which the examination was held in May of this year? H. K.

Relative to examinations held for junior clerk and truant officer, the work of grading these papers has not yet been completed, but the commission contemplates finishing this work in the near future.

J. D. OSBORNE, Secretary.
Civil Service Commission.

LIABLE FOR INJURIES.

Chicago, Dec. 6.—[Legal Friend of the People.]—1. Is there a city ordinance compelling property owners to erect a banister or stair railing for tenants living on the second floor, or higher, in a flat building? 2. Can a property owner be sued for personal injuries incurred by falling down a stairway on account of no railing protection after being warned to erect one? E. H.

1. We know of no such ordinance.
2. Yes, if all the facts are such that the condition amounts to negligence.

TRIBUNE LAW DEPARTMENT.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

YOU CAN'T BE TOO CAREFUL ABOUT YOUR HALOS.

The Interdenominational congress meeting in Cincinnati yesterday denounced the granting of the Nobel prize in literature to "one who picks flaws in God fearing Americans and strips halos from men like Washington and Henry Ward Beecher." Listen, brothers, if a man wins a halo and takes proper care of it, as G. Washington did, no Seventh Best Seller like Sinclair Lewis can knock it off his head. But wasn't Mr. Beecher a little careless about his halo? Didn't he leave it hanging out in the rain so it got rusty, or did a wagon run over it and dent it all up? If a man himself doesn't care very much about his halo you can't expect a red-headed best seller to.

"MY SOCIETY FRIENDS SNEERED When They Came to My House!"

writes Mrs W. Q. Z. in a testimonial letter to us, "and yet I had employed the very best interior decorators and told them to spare no expense. I brought rare paintings, rugs, and tapestries from Italy and France, and books in the most exquisite bindings. Yet, when my society friends would come to my house they would look around at my furniture and hangings and sneer contemptuously. A moment later they would burst out in disdainful laughter and say, 'Well, this dump looks like a speakeasy after a hard night,' or 'What is this—a fire sale or a filling station?' It was heartbreaking. But one day I decided to buy a Linebook of 1930 and put it on the mantel. The change was apparent at once: it fairly transformed the whole house. After that, when my society friends came they would look around through their lorgnettes and exclaim, 'My dear, your home is simply gorgeous and it used to look like hell!'"

Get your 1930 Linebook today, place it in your home, and then after seeing how it has glorified the place write us about it so that others can also make their homes bigger and brighter. Address the Swell Homes Editor of the Line o' Type or Two. The Linebook of 1930. 10 cents on the hoof or 12 cents by mail.

SEN. WAGNER of New York says we've got to provide against any unemployment in the future. That's easy—just instruct everybody with a job that when the boss fires 'em to keep right on working and tell the boss where he can go to.

WE HAD a cocktail yesterday, but apparently it wasn't made from denatured alcohol treated by our paternal government under the new plan, with garlic. Anyhow, that cocktail didn't taste like garlic; it tasted more like tanning fluid with a trace, just a wee trace, of horse liniment.

GOVERNOR ELECT WILBUR L. CROSS at a Democratic victory dinner yesterday attributed his election to the fact that he did not take a bath throughout the campaign. How a Democrat will brag about a thing like that.

DR. DAVID FRIDAY, P. P. of the Amer. Acad. of Soc. and Pol. Science, says business will get but little better this winter, but by late spring it's going to pick up. Three cheers, Doc Friday, but we wish you would do your talking on Blue Monday.

THREE GIRLS ET MOI.

Clotho, how do you like my stuff?
You and your sisters must get a kick
Watching us crawling anthrops bluff—
Or does it, vulgarly, make you sick?

Lachesis, how many mutts like me
Have you looked down on in tolerance?
What's your opinion, by and large,
Watching my pace in this dollar-dance?

Atropos, how long before you snip,
Nipping the thread that was dam' ill spun?
Girls, I salute you and whisper low,
Cosmically speaking, ain't we got fun?

THE SOLICITOR.

HOW THE AMERICAN language grows! And grows, and grows, and grows! A lady suing a gentleman for breach of promise in a New York court reveals that the sweetest name she had for him was "Sugar Doggie" and the gentleman's pet name for her was "Honey Horsie." And there's still a scholarly book being circulated by the libraries called "Why We Behave Like Human Beings." Or do we?

CONGRESS declares in favor of putting all departments of the government on the 44 hour a week schedule. We favor the idea if congress is included. And maybe some day we can cut 'em down to fifteen or twenty hours.

What About the James Brothers?

R. H. L.: Of course, I know who the pastorals on the cover are—the four Marx Brothers and the famous Smith Brothers—Trade and Mark.

THE BARON WASTE.

THE NEW YORK Court of Appeals is to decide whether singing is an art or an industry. The question comes up on a suit against a man who gives singing lessons in a fashionable zoned district. Well, that grand opera soprano whose voice wafts in on us all the time ought to be classed under industry; she's so industrious she starts in about 7 a. m. and whoops it up by the hour.

LITTLE THINGS That Have Caused Great Explosions!

Matches!
Cigarettes!
Kerosene Lamps!
Spontaneous Combustion!
Didn't Know It Was Loaded!

Treasury Raiding!
Playing Politics with Human Misery!

AT A LATE HOUR last night scouts returned from the front in Washington and reported that while all was apparently quiet along the Potomac the senate was slowly pushing its shock troops forward and might go over the top and charge on the White House at daybreak this morning. R. H. L.

HOW MANY LIVES HAS THAT CAT GOT, ANYWAY?

FROM THE TRIBUNE'S COLUMNS

16 YEARS AGO TODAY

DECEMBER 13, 1914.

LONDON.—A dispatch from Constantinople by way of Berlin says a Turkish fleet yesterday bombarded the environs of Batum, Russian seaport on the eastern coast of the Black sea. One hundred Russians were killed.

PETROGRAD.—The German plan of campaign in Poland has been completely disrupted by repulses on the northern and southern extremes of the line, while in the vicinity of Lowicz and east of Lodz the Russians are maintaining their positions.

PARIS.—Berlin and Paris statements conflict on the fighting along the western front, but both indicate the allies are pressing their offensive along the whole line.

VERA CRUZ.—"If the United States employs force to stop the firing by Mexicans across the international boundary line at Naco it will be considered an unfriendly act, notwithstanding the friendly motives cloaking the act." In this manner Gen. Carranza made answer to the formal notice served by the United States that unless such firing ceased force would be employed to protect American territory.

CHICAGO.—Joseph Leiter went on the stand before Judge Humphrey in federal court and told his own story of how he was "double crossed" when he attempted to corner the wheat market in 1898. He testified in the suit against him for recovery of $380,935 on two notes. Leiter said the wheat deal was arranged between J. F. Peavey; his brother, F. H. Peavey; Charles A. Pillsbury, and other Minneapolis grain men. He declared the pool was "busted wide open" when the Peavey and Pillsbury people started selling wheat.

30 YEARS AGO TODAY

DECEMBER 13, 1900.

CHICAGO.—A detective who says he acted as "go-between" for Chief Kipley last year in preventing witnesses from appearing before the Baxter committee will tell his story to the grand jury next week. The knowledge of the coming exposure is said to be the reason why Chief Kipley left home to seek rest in the balmy south. It is most probable that Mayor Harrison also will be called, since his chief is out of range.

CHICAGO.—It is rumored in Evanston that Volney W. Foster of that city is to be appointed United States minister to Spain. Foster is a close friend of President McKinley, and is in Washington.

WASHINGTON.—The celebration of the centennial of the establishment of the national capital at Washington was held today, the finest winter weather featuring the occasion. Congress did not hold any business session, but the house and senate met in joint session in the hall of representatives at 3:30 o'clock.

PRETORIA.—A train proceeding from Natal to Johannesburg was held up by 160 Boers near Vlaklaagte. The Boers used oxen to pull up two lengths of rails, and the train, which contained remounts for troops, was necessarily compelled to stop.

50 YEARS AGO TODAY

DECEMBER 13, 1880.

WASHINGTON.—It is officially announced that Secretary of the Navy Thompson has tendered his resignation, to take effect as soon as a successor is appointed. This is to enable him to accept the chairmanship of the American branch of the Panama Interoceanic Canal company, the De Lesseps project.

WASHINGTON.—Justice Strong will occupy his seat on the Supreme bench tomorrow for the last time, it being his purpose to retire immediately. He has accepted an offer of employment hereafter as counsel for the Philadelphia and Reading Railroad company.

CHICAGO.—THE TRIBUNE printed yesterday morning nearly 130,000 full sheets of paper and consumed over 16,000 pounds of white paper, or more than eight tons. This enormous edition was printed, folded, handled, sold, and distributed between 2 and 7 a. m.

LONDON.—It was announced here that Mr. Forster, chief secretary for Ireland, had made a demand for two additional regiments for use in that unhappy country. This looks as if the government were in a state of alarm, for nobody else has been heard to say that there were not enough soldiers in Ireland already.

VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full name and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

THE CURE FOR DIRTY STREETS.

Chicago, Dec. 2.—In preparing for the World's Fair one of the outstanding things we must correct is our dirty streets. Every visitor from Europe will be shocked at the dirt in our streets, for large cities in Europe, excepting London, are far cleaner. We must prepare for this by public education. Now is the time to begin.

In central Europe city laws prevent the practice of throwing refuse or papers into the streets. Many Americans have been surprised when they have crumpled papers and tossed them into the streets abroad, or thrown fruit refuse into gutters, to find a policeman at their elbow demanding an explanation. There is a fine attached to such carelessness. The council should establish such a code here and have it backed up by police enforcement.

The first step would be to start in the loop and, as success was attained there, carry it throughout the city.

G. N. W.

SPEND MORE.

Chicago, Dec. 4.—Your news article on page 15 of today's issue on the "Assembly Ball," by Mildred Jakion, states that "hard times had no effect on the spirits of this most exclusive of winter affairs." Then it states that the decorations were more modest, only one orchestra instead of two, as there were last year, the receiving "ladies of the governesses" were bouquetless, and that there was no entertainment during the evening. Then are mentioned the names of the most wealthy of the Chicago matrons, names which are synonymous with wealth amounting to billions of dollars. Yet these names are responsible for "ads" in THE TRIBUNE and other newspapers asking the good public to spend their savings to help business and to help the unemployment situation.

Let me suggest that at the next affair these people consider the employment of more decorators, more musical artists, more orchestras, some entertainers, and that the "receiving ladies" be allowed their bouquets.

J. C. FANTA.

PATRONIZING HOME INDUSTRIES.

Chicago, Nov. 23.—Chicago can boast of several hundred responsible manufacturers of women's dresses, children's dresses, women's and children's coats, underwear, etc. Sad to say that a great many of these manufacturers are on the rocks and thousands of efficient needleworkers are unemployed. And why? Because the buyers in the large stores do not consider Chicago made garments good enough for their trade and prefer, no one knows just why, to patronize the New York manufacturers. There is not a thing produced in the New York garment world which cannot be produced by Chicago's up to date manufacturers. Why do the buyers insist on strangling this industry in Chicago and so keep thousands of workers out of a job? A. KEDUOS.

MANY OF THEM CAN READ, TOO.

Chicago, Dec. 9.—The sentiment expressed in your daily front page "Buy Now and Bring Back Prosperity" advertisement seems to be addressed to the rank and file only. How about all the big moneyed class? The heavy profit takers during the past period of good times don't appear to be considered. JOHN B. GOODMUSHER.

MICHIGAN AND PROHIBITION.

Kalamazoo, Mich., Nov. 29.—You state that the large northern Republican states have declared themselves against prohibition. Since when has Michigan ceased to be a large northern Republican state? It adopted prohibition eight years before the United States government did, and in the recent 1928 election by a large vote went Republican and put supporters of prohibition into office. Last spring when some person wrote from Kalamazoo that our representative in the Michigan senate, Upjohn, did not represent Kalamazoo sentiment when supporting prohibition, I replied that Senator Upjohn's resolutions to the state senate ought to refute such misstatements. You published the accuser's misstatement but did not print the refutation; therefore, I ask you to record the fact that Senator Upjohn was again renominated and again reelected to our state senate in November, 1930. DANE S. DUNLOP.

THE WIDENING OF STATE STREET.

Chicago, Nov. 29.—Apropos an article in this morning's TRIBUNE regarding the proposed continuation of the widening of North State street from Chicago avenue to Division street and the delay asked by Edward R. Litsinger and Kellogg Fairbank in order to have worked out a plan for avoiding the creation of a bottle neck north of Division street, I can state that the bottle neck has already existed for many years from Cedar street to Division.

This condition is now somewhat alleviated by the widening and repaving of Dearborn street and North La Salle street, both being direct arteries to the inner drives through Lincoln park and devoid of street car tracks. If motorists would avail themselves of these routes, it is my opinion, as a resident at State and Elm streets, that the present bottle neck would be corrected by the widening of State street to Scott street. LEO J. WEISSENBORN.

SITTING IN THE AISLE!

Three Rivers, Mich., Dec. 3.—At 8:30 p. m. Friday, Nov. 28, during a presentation of "Tom Sawyer" at the Chicago theater there were at least twenty people seated in the center balcony aisle and it was necessary for us to force our way past them to leave the theater. One of the ushers advised me that the management had no control over the situation. Why is this condition possible? I am sure that there are city regulations governing a situation of this kind, and if so, why are they not enforced?

L. L. C.

AND WHY PAY INSURANCE PREMIUMS!

Chicago, Dec. 9.—It seems impossible at this time of economic distress that our federal government would appropriate 30 million dollars to modernize three battleships, which at best will only stay modern a short time and make good marks for any airplane that could destroy the three of them in thirty minutes.

Thirty million dollars could go a long way toward relieving the dire needs of many of our worthy citizens, and we are not trying very seriously to help out the bad economic situation when we spend such a large sum of money for absolutely no good whatsoever.

N. E. DEXTER.

BEST BOOKS OF YEAR IN CHRISTMAS PARADE

SOLDIER HEARS INDIA WHISPER DEEP SECRETS

Tagore Lauds Work by Yeats-Brown.

BY RABINDRANATH TAGORE.

"The Lives of a Bengal Lancer," by F. Yeats-Brown. [Viking.]

I have just finished reading almost at one sitting "The Lives of a Bengal Lancer" and feel that it is one of the most remarkable books in modern literature.

I have known no other instance of a genuine psychological record of any intimate touch of a western mind with the mind of the east.

We have seen numerous criticisms of the eastern life from the western sources, some honest and some otherwise, some cruelly smart and some insipid bird's-eye views of living human truths which the bird's eye can never reach, misrepresentations owing to superficious incompetence or deliberate malice. This book contains the impressions of personal experiences of a sensitive mind without any intrusion of the tract society artist with his traditional orient of palm trees, panthers and pythons.

Wilderness of Creeds.

When I mention "orient" in connection with this book I mean India.

India is the land of the incoherently miscellaneous—a wilderness of creeds and customs and superstitions whose roots are deep in a prolific soil of primeval unreason. They rudely challenge the attention of the traveler with a medley of distractions that seem mutually irreconcilable and yet, like facts in a dream, find their equal right to exist without any refutations or even the mildest obstruction of a surprise.

Unfortunately religions are too numerous in India, with their hoarding that are like the pocket of a child, perfectly indiscriminate in its contents. This has produced an ideological puzzle and a social and political conundrum in our country.

But one has to keep in his mind that this impossible jumble has not been India's own creation, just as no party is responsible for the bewildering variety of races in the world, producing painful tangles in man's history that are full of physical and moral menace.

Philosophy In Life.

In most other countries philosophy gives expression and exercise to the intellectual mind and only indirectly influences our action, but in India it has had its practical purpose. For when she had to submit inevitably to the invasion of the swarming many and to accommodate them in her own social organism her most desperate struggle was not against foreign attacks but against the inner elements of disharmony.

Those who are no true travelers, but born tourists, who come from outside and care not to go in, have only their eyes to see the crowd of facts in India, some unsavory, some unmeaning, insanitary and abnormal, out of all proportion, but they cannot see the subtle and all-pervading brooding over them the eternal spirit of India.

The doctrine of the unity of man, the transcendental unity of all things not unknown to other parts of the world, but in India it is not a mere doctrine to be logically pursued, but a truth that has to be realized and be made more indubitably evident than things that are seen and touched. The process is called "yoga," in which man's psychology and philosophy have formed themselves into a perfect power of illumination for India.

The realm of aspiration, of the ultimate spiritual endeavor in India is even more difficult of approach than the south pole when assayed by the smart tourist.

The Discerning Mind.

But the author of "The Lives of a Bengal Lancer" has shown the dart of mind and the true spirit of adventure by approaching the most difficult frontier of that India, which is not the British India nor the geographical India. He has occasionally stumbled into some minor technical errors, some slips in typography which students take special pleasure in exposing; but he has felt truth as a consummate artist who can see what is significant behind the screening crowd or the nonessential and expressed the unutterable mystery of it in a language which is quick with life's throb.

The picture of the lancer's life, rude and adventurous, his enjoyments, which had their source in a turbulent animal spirit, constant preparedness for military enterprises, spending days and nights near prowling dangers in ambuscade, had some analogy with the life of the vigorous Indian race in its youth, inebriated with a reckless confidence in its victorious destiny.

Then the stream of events deepened and widened and descended towards the Gangetic valley where King Janaka once meditated and taught the cult of Brahma, and Buddha taught the attainment extinction of self in a spirit of love that is measureless.

This British soldier came and gazed at its serenity and questioned it; the silence baffled him, but did not repel. So it will ever remain with him and whisper to him in his solitude, *Sarvam Khalvidam Brahma*—"All that there is is one with Brahma."

* * *

English Dictionarie of 1623 Has an Exclusive Reprint

"The English Dictionarie of 1623," with a prefatory note by Chauncey Brewster Tinker, professor of English literature at Yale college [Huntington House], is the first reprint of what generally is considered to be the first dictionary in English. The edition consists of 999 copies and was designed and printed by the Printing House of William Edwin Rudge.

WINS PRAISE

MAJ. F. YEATS-BROWN.

Maj. F. Yeats-Brown, whose "The Lives of a Bengal Lancer" is called "one of the most remarkable books in modern literature" by Rabindranath Tagore.

Two Writers Tell Story of Noted Painter

BY KATE BREWSTER.

[Mr. and Mrs. Walter Brewster have the finest private collection of Whistleriana in America.]

"Whistler: The Friend," by Elizabeth Robins Pennell. [Lippincott.]

"Whistler," by James Laver. [Cosmopolitan.]

Again Elizabeth Robins Pennell proves herself the mistress of charms to soothe the most savage of breasts. A redoubtable champion of her own redoubtable husband, she now turns her hand to proving Whistler, that adept and energetic biter of the hand that fed him, to be the possessor of unusual talent for friendship.

The basis of Mrs. Pennell's claim is a small sheaf of letters written to the French painter, Fantin-Latour, when, in youth, he, Whistler, and Legros formed what Whistler himself called the "Society of Three." There are only twenty-eight of these letters (she quotes them very sparsely), but about them she weaves the story of Whistler's youth, of his preoccupation with those he thought worthy of friendship and of his misfortune in encountering so many whom he (justly) thought unworthy.

Finds Reasons for Him.

Mrs. Pennell, herself a vigorous friend, finds gentle and plausible reason for most of "The Master's" failings-out. She explains that he "never made enemies unless he had reason to," and "that his friendship was inexhaustible as long as his friends did not take advantage of it."

[Poor Whistler, whose life was so cluttered with unworthy associates! If he loved only a few as vigorously as he hated several, his biographers have been misleading.]

And to Fantin and Legros, Whistler was a devoted and enthusiastic friend. To be sure much of the London hospitality he urged upon them was Seymour Haden's, but he did succor them in their time of need, find patrons and purchasers for them, share with them the little that he had. When he and Legros parted company by means of a mysterious fisticuff, discreetly hidden behind Victorian veils, an artist forgotten today, Albert Moore, took his place. But to the end, though they saw little of each other, Whistler and Fantin were very close. Fantin even dared to criticize and Whistler took it like a man, believing in the honesty and devotion of his chosen friend.

Reveals Charming Artist.

Mrs. Pennell has contrived to give a charming idea of Fantin-Latour himself, an artist little exploited and not popularly known. He and dozens of other interesting people walk through her pages in a new relationship to Whistler, his interests and his art.

The book is short and, of course, coming from this author, easily and pleasantly written. It presupposes an interest in and knowledge of "the Master's" career. The new material is supplied or suggested by the twenty-eight letters jealously withheld until a few years ago. The illustrations fit into the text, augmenting its information and proving the close friendship of "The Society of Three."

Mrs. Pennell cannot forbear to carry on the lively fight against modernism in art waged to the end by Joseph Pennell nor can she yet forgive and forget the quarrels forced upon the suddenly amicable hero of this present book, but all this adds excitement to the interesting sidelights no other author could so well illumine. Again I repeat, this delightful woman has a way with her.

Started Biography.

Whistler, toward the end of his life, began an autobiography. He explained his reasons in the one paragraph he completed. He was determined, he said, that no mendacious scamp should write the foolish truth about him.

Mr. Laver, honest, kindly and critical, appears to have set down the truth, foolish as a good deal of it certainly is, in a highly entertaining, very convincing and brilliantly brief manner. If you always have heard about Whistler and have been thinking that some day you would like to know more, this is the book to read. His best epigrams, pleasanter virtues, more violent quarrels, essential love affairs, rare friendships and inevitable greatness are all told expertly. Mr. Laver both gossips and expounds. The result is a short but adequate account of that fantastic being, James Abbot McNeill Whistler, that is both funny and accurate.

Mr. Laver always is the dispas-

[Continued on page 17, column 3.]

JEAN LAFITTE, FREEBOOTER, PATRIOT, TOO

Story Recalls Days of Real Smuggling.

BY OLIVER LA FARGE.

[Author of "Laughing Boy," Pulitzer prize novel for 1930.]

"Lafitte the Pirate," by Lyle Saxon. [Century.]

When Louisiana was joined to the United States there grew up a situation strangely familiar to us today. In a great slave owning and slave dealing community the importation of slaves was forbidden; on the commodities tariffs were placed that seemed exorbitant to the Creoles. Respectable citizens abetted smuggling and dealt with slavers, even while they deplored the lawless acts of these semi-pirates. The profits were great; public sentiment prevented effective law enforcement. Men of ability were attracted to the trade, the ablest gangsters—pirates and smugglers—flocked to the secure marshes of Barataria on the gulf coast.

Pirates, but Romantic.

The piratical community which grew up there was, what our modern gangsters most emphatically are not, romantic. When the time came, in 1815, they touched the height of romance when they proved themselves also valuable patriots at the battle of New Orleans.

Lyle Saxon calls these men under Lafitte, their great captain, "racketeers," but that they were not. A racket is a special form of oppression and protection, first and most notably practiced by the fighting barons who founded the feudal system. Lafitte led a gang, and he also was the last first rate pirate. His beginning is obscure, his end unknown, the greater part of his history clouded by a host of legends. From this romantic mass Mr. Saxon, with humor, skepticism, common sense, and careful research, has extracted as much of the truth as is humanly possible, and told it vividly.

The Mysterious Land.

New Orleans even today is a paradox. The swamplands south of it, where the pirates lived, form a country fascinating, picturesque, and as remote from all that we associate with the name United States as the hinterland of the Congo basin. No one who has been there ever can forget it. What it was all like, the city and the marshes, in 1812, still half disloyal, part French, part Spanish, part Choctaw, vividly, passionately alive, as picturesque and as dirty as Bagdad, as courteous as Madrid, as wild as a forty-niner mining camp, staggers the imagination.

Mr. Saxon, native of the country, manages to recreate the scene, and t the same time writes with a detachment and perspective that is very comforting. Perhaps his most delightful passages are those dealing with the fantastic tales that have grown up and been accepted about his hero. He avoids entirely the substitution of cleverly realistic fiction for fact that is characteristic of so many recent picturesque biographies.

He tells what he is sure of, in delightful style, lets you know when he is uncertain, and leaves alone that which is mere guess work.

He Writes Frankly.

The result is a book like good biscuits, light, full of flavor, and surprisingly solid at the same time. One reads it rapidly, for entertainment, and having done so, finds that one has added to one's store of knowledge—a section of our country and our history all too little known to us, extremely well worth knowing, set down by an historian one can trust.

Mr. Suydam's illustrations, like those he has done for Mr. Saxon's other books on Louisiana, are decorative and have quality. They do illustrate the book, which is something one cannot always say. Book and pictures go well together, lively, true to subject, attractive.

HENRY CHANNON HERE; TO AUTOGRAPH HIS LAST BOOK TODAY

Henry Channon, author of "Paradise City," will autograph copies of his book in the book section of Marshall Field & Co. today at 2:30 p. m.

Mr. Channon is a Chicagoan who prefers to live in London. One really can't blame any personable young man for settling in that male paradise.

The heroine of his first novel, "Joan Kennedy," was an English girl, to be sure, but it was of her reactions to her husband's very Chicago family that he made such an excellent picture. The three heroines of "Paradise City" are all Americans from a boom town in Wisconsin, which is said to be patterned after Mr. Channon's childhood memories of Oconomowoc. They don't stay in Wisconsin, however. They do a lot of roaming over the sea.

Mr. Channon is visiting his mother in Chicago for the holidays, but his home is in London and the country. Somebody ought to write a book about England and its worship of the male from the point of view of an American girl or woman, to whom men are neither gods nor [as they are to some of the Europeans] devils, and who finds it amusing past words when an English hostess produces a young man for tea, as if he were the flower on a century plant plucked for your buttonhole.

Mr. Channon could find a brilliant novel in that theme—it would take an American to do it. He would be called "chic" and SO American. An Englishman probably would be asked to leave the country.

PIRATES' MEETING PLACE

One of the illustrations by E. H. Suydam for Lyle Saxon's "Lafitte the Pirate." This is the old Absinthe house in New Orleans, where the pirates met.

British Scientists Now Take Happier Note; Victorians the Vogue

BY FRANK SWINNERTON.

LONDON.—[Special Correspondence.]—The most interesting tendency to be noticed in the autumn publications here is an intellectual "drive" against pessimism.

It can be noticed in such a work as Jeans' "Mysterious Universe" or in such a survey of physical science as Mr. Langdon-Davies' "Man and His Universe," in Bertrand Russell's "Happiness," in the latest writings of Julian Huxley, and in the more typical novels of the hour.

Our thinkers are engaged in proving that things are not quite as bad as they appear and that, in fact, life is still almost worth living. Scrupulous optimism is the note. Despair is out of date.

Having had its horizons contracted by earlier writers, the public is rejoiced to discover that all is not lost. It is reading the philosophers as readily as the novelists—a remarkable sign. It is beginning to recover respect, further, for the Victorians. It is now hardly the thing to sneer at the Victorians. And books about the Victorians abound.

Carlyles Again Described.

The Carlyles have been made the subject of a new study by Osbert Burdett; Christina Rossetti (the centenary of whose birth is being celebrated this year) has been accorded a full length biography; W. E. Henley, Wordsworth, Tennyson, Florence Nightingale, Henry Irving, have all been the subjects of cordial books; such titles as "A Victorian Vintage," "A Victorian Potpourri," "As We Were: A Victorian Peepshow," all indicate the change of wind.

"The Victorian Tragedy," by Dr. Wingfield-Stratford; "Amphion; or the Victorian Age," by Dudley Harbron, and other surveys, although critical, strike a sympathetic note.

Clearly, Victorian stock is rising. A whole book has just been published about the "Eighteen-Eighties" by fellows of the Royal Society of Literature.

Movies Grow Longer.

Moreover, a Victorian amplitude in the novel is observable. The new novels of Arnold Bennett, Francis Brett Young, J. B. Priestley, and others are very long indeed, and the translations from foreign languages are equally long—as witness Herr Feuchtwanger's "Success," which runs to over seven hundred pages.

I will not say that these novels are all optimistic, but at least not one of them ends upon a gloomy or depressing scene. And it is to be noted that the most widely read English novels of the year seem to be Mr. Priestley's "Angel Pavement" and A. P. Herbert's "The Water Gipsies," both deliberately conservative, both very "English," although "English" in very different ways.

There have been published and translated this year several works dealing with the English from the point of view of foreign observers. There have been "How They Do It in England," by Rudolf Kircher; "England, the Unknown Isle," by Paul Cohen-Portheim, "Discoveries in England," by Emile Cammaerts—a German, a Czech, a Belgian, and all of them the reverse of unfriendly.

"The Rough Islanders."

To such works may be added H. W. Nevinson's "Rough Islanders," which does not fail to point out certain qualities in the English; D. C. Somervell's "British Empire," and a real roaring celebration of the British character, "The Glory of Britain," by David Masters. Singly, these books might mean nothing, but when so many of them are received with pleasure it suggests that the English have been criticizing themselves rather harshly and are now glad to know that here again things are less black than they have been painted.

The numbers of stories about murder and its detection show no decline. Crime, indeed, is a sure card for any author to play. As I look up, I see a dozen murder mysteries waiting to be read. Miss Dorothy Sayers has added fresh laurels to her adornment with "Strong Poison" and "The Documents in the Case," J. Jefferson Farjeon has been busy; Mr. and Mrs. Cole, and Philip MacDonald, and a new writer, Mr. David Sharp [in "Where No Man Pursueth"] have all

[Continued on page 18, column 3.]

Sinclair Lewis Gets Greeting; 'Interprets' U.S.

STOCKHOLM, Dec. 12.—(AP)—Sinclair Lewis formally accepted the 1930 Nobel prize for literature today, meanwhile jabbing right and left at certain American institutions and Americans. The creator of "Babbitt" and critic of things particularly a part of American life was careful to say that his remarks should not be regarded as "attacks."

Speaking to an audience that crammed the stock exchange hall and accorded him a tremendous ovation, Lewis vigorously defended himself against charges of being a literary "anarchist." He described in vivid terms his contemporaries in writing, with a word of praise for each.

Dreiser and Mencken.

Theodore Dreiser, "marching alone, usually unappreciated," and H. L. Mencken "with his boisterous jeering" came under review.

"I cannot imagine these two," said Lewis, "being present at the serenely Athenian dinners of the academy, a perfect example of the divorce in America of intellectual life from all our standards of importance and reality."

He spoke of Ernest Hemingway, Thomas Wolfe, and Thornton Wilder, too.

"I salute them all," he said.

All the people in the world don't like his books, Lewis told his audience.

"One good pastor in California, after reading my 'Elmer Gantry' desired to lead a mob and lynch me," he related. "Another holy man in the state of Maine wondered if there wasn't some respectable and righteous way of putting me in jail."

U. S. Literature Improving.

For the literature of his country Lewis saw improvement ahead.

"I have for the future of American literature every hope, every eager belief," he said. "We are coming out of the stuffiness of safe and sane and incredibly dull provincialism.

"Then there are the young Americans today who are doing such passionately authentic work. It makes me sick to see that I'm a little too old to be one of them. They are determined to give America, a country as strange as Russia and as complex as China, a literature worthy of her vastness."

If the Nobel award had gone to some other American author, all would not have been happy then, Lewis said.

Visions Groans for Dreiser.

"Suppose you had taken Theodore Dreiser," he said. "Now, to me Dreiser more than any other is a man marching alone. He has cleared a trail from Victorian and Howellsian timidity and gentility in American fiction to honesty, boldness, and passion of life. Without his pioneering I doubt if any of us—unless we liked to be sent to jail—could seek to express life and beauty. My great colleague, Sherwood Anderson, has proclaimed this. Yet, had you given the prize to Mr. Dreiser you would have heard groans from America."

He listed Eugene O'Neill, Sherwood Anderson, Upton Sinclair, and Joseph Hergesheimer as probably unpopular choices for the Nobel award in America.

"Yes," Lewis sighed. "They are all wicked, these colleagues of mine. You would have done almost as evilly to have chosen them. But as an American of 1930—not 1880—I rejoice that they are my countrymen.

He praised the American Academy of Arts and Letters for some of those within it—"such a really distinguished university president as Nicholas Murray Butler" and others—and criticized it for those it did not contain."

* *

1930 Linebook Same Size as in Prosperity

The 1930 Linebook is out! R. H. L. reminds us in a final lagniappe that it was in the good year of 1924 that the first line book appeared, and that while everything else has shrunk the Linebook is depression proof. It's the same old size, 64 pages, and it still costs a dime. "We attribute it all to the fact that it is the only thing in these United States that during 1930 was not looked after by a commission," he says.

HOW FLANDERS OFTEN DERIDED ITS REMBRANDT

Van Loon Tells in His Latest Book.

BY PIERRE LOVING.

[Author of "Baudelaire."]

"R. v. R.," by Hendrik Willem Van Loon. [Horace Liveright.]

About fifty years after Rembrandt's death, Gerard de Lairesse, a Belgian critic and painter, wrote as follows about that artist's work:

"In his effort to attain a mellow manner, Rembrandt van Rijn has merely succeeded in achieving an effect of rottenness. The vulgar and prosaic aspects of the subject were the only ones he was capable of noting and with his so-called red and yellow tones he set the fatal example of shadows so hot that they seem actually aglow and of colors that appear to lie like liquid mud on the canvas."

Posterity has long ago reversed this verdict on Rembrandt's art, but it has not, for all that, changed its characteristic attitude toward the painter who obstinately sets his face away from the chic.

Suffers from Smugness.

The smugness of the Dutch who allowed one of the greatest spirits of all time to be buried in an unknown grave in a half-open coffin "from which the bones have been removed and thrown on the rubbish pile" is indeed no monopoly of their nation.

To this day Rembrandt, as Mr. Van Loon informs us in his extraordinarily documented and amazingly rich book, is an undischarged bankrupt. That this should be so, astonishes us.

What profound sin, we are moved to ask, had this lonely great man committed in the latter half of the seventeenth century that his bones should be awarded such a fate?

As if to answer this question, Mr. Van Loon—whose earlier historical books such as "The Story of Mankind" and "Tolerance" have given us more than an inkling of his liberal point of view—has written his most humane and sympathetic biographical novel of "Rembrandt van Rijn." The book is steeped in the essence of the times; the background is ample and colorful; the historical personages drop the trappings of glorified remoteness and walk on and off the scene just as if they were living today: Spinoza, Huygens, La Tremouille, Rabbi Scholem ben Yehiel, with cross references to Calvin, Erasmus, Montaigne, Rabelais, and numerous others who, even if dead, still wielded an enormous influence on the period.

Van Loon Invents Ancestor.

Mr. Van Loon has invented an ancestor of his own, a Dr. Johannes van Loon [who may have been solidly real for all I know] to narrate the story. The title page of "R. v. R." tells us that the good chirurgeon [surgeon] "during a busy life, yet found time to write down these personal recollections of the greatest of his fellow citizens, and which are now for the first time presented . . . by his great-great-grandson, nine times removed." The good doctor is extremely likable, kindhearted, a bit philosophical, and perhaps overgarrulous. This quality, if nothing else, gives the book plausibility and also vast bulk. Like his gifted grandson, the Dutch physician is a storehouse of miscellaneous learning which embraces both quiddity and trivia. But he has, nonetheless, an air of conviction about him, like a character of Tobias Smollett or Henry Fielding.

The book opens with the burial of the great painter on whom the doctor has been in attendance. The first paragraph transports us backward at once into the heart of the period and the subject.

Childhood of Rembrandt.

Then we are given a glimpse of Rembrandt's childhood and youth. We meet Saskia. We attend in person the marriage of the two and get to know their children. The man Rembrandt stands out sharply like a somber rocky headland against which the confused billows of the time beat themselves into the spray of minor happenings. He wears his soiled painter's smock about the house, mixes his colors and ceaselessly experiments, indifferent to the comment or criticism of the age. He is not a little baffling to the good natured narrator; but there can be no doubt that he is an immortal adrift amid the common stuff of everyday mortality.

Saskia's death is moving. Like Rembrandt we, too, somehow ache to die with her. His children live on, after his passing, and marry among the simple folk of their immediate acquaintance. An epochal event has come to pass; Rembrandt has come and gone, finished his work, and few living at the time are aware of it.

Might Have Saved Space.

If he had been more faithful to the method of Smollett, Defoe, and Fielding, Mr. Van Loon's biographical novel would have proved far more dramatic, and considerably less bulky. The story does not quite tell itself. Here and there the narrator has to force and sluice it, to make it flow back and forth in order to embrace widespread events. This is the way of Proust. But the eighteenth century form of chronological series, keeping everything in its suitable place, would have vastly improved the book, I believe, since the psychological acumen and sensibility of Proust are obviously lacking.

Yet, when all is said, Mr. Van Loon has written in "R. v. R." an amazing book that fuses the soaring figure of Rembrandt with the dense reality of the age in which he lived, and which did not at all appreciate the greatness that it suckled at its breast. The novel is to be recommended to those who agrees with Mr. Van Loon that fiction, history, and biography at their best are the same thing.

BIOGRAPHER

HENDRIK VAN LOON.

Hendrik Willem Van Loon, whose "R. v R." is not only the best biography of Rembrandt of our generation but an heroic picture of the Rembrandt century.

Stars of Stage Help Fund of Authors' League

BY ALTA MAY COLEMAN.

NEW YORK.—[Special Correspondence.]—"Another noble experiment" were the words which headed the program of the sixth annual entertainment for the benefit of the Authors' league fund, held in the Hotel Roosevelt ballroom on Sunday evening.

There was no doubt as to the gay social success of the affair, whatever may prove its financial net. The vaudeville included such notables as Mme. Frances Alda, "Chic" Sale, Joe Cook, James J. Corbett, Eddie Dowling, Frank Moulan, and John Philip Sousa. The band conductor came from his home on Long Island to take up his baton again, "just for his own people." Snow white now is his hair, and the once so erect shoulders are a little stooped. A prolonged burst of affectionate applause greeted him, and with the stirring "Stars and Stripes Forever" he brought back a flood of memories to all who were young in the days of buggy riding to band concerts in the park.

The playlets, "staged under the supervision of the entire cast," boasted Ray Dooley, Helen Gahagen, and Josephine Victor from the professional theater, and as amateur actors such notables as Ellis Parker Butler, Will Irwin, Clarence Buddington Kelland, Joseph Cummings Chase, and Tony Sarg. At neighboring tables in the supper room I saw Alma Gluck and Efrem Zimbalist, George Creel, Russell Doubleday, Daniel Frohman, Owen Davis, Mr. and Mrs. Stephen Vincent Benet.

Lyle Saxon Can Dance.

In the course of the evening I discovered that Fanny Heaslip Lea is a petite person with a mass of auburn hair; that Lyle Saxon can dance as well as write about "Lafitte the Pirate"; that Isa Glenn is planning to go to New Orleans to write the successor to "A Short History of Julia," and that Mary Heaton Vorse, author of "Strike," had delivered, a week ago, that lecture I was planning to attend next Friday.

Ford Madox Ford wasn't at the party; he has just sailed for France, but will return to New York in March about the time his new novel, "When the Wicked Man," comes from the press. Louis Bromfield also has sailed for France to work on a new novel. But most of the literati who hadn't put the sea between themselves and the party were present: Fannie Hurst, Harold MacGrath, Austin Parker, Margaret Widdemer, Silas Bent, Frances Parkinson Keyes, Alice Duer Miller, Ruth Comfort Mitchell, Rupert Hughes, with almost four hundred and ninety-nine others.

She Writes of China.

Grace Zaring Stone, who was on from Washington for a few days, was guest of honor at the dinner and late evening party given by Mr. and Mrs. Maxwell Aley on Thursday. Mrs. Stone is author of "The Bitter Tea of General Yen," one of the two books most widely read and discussed in literary circles at present. Writers are quick to recognize a new talent and it is only human nature to brag about one's discoveries. The brilliance of "The Bitter Tea of General Yen" has made a new crop of Christopher Columbuses, and one hears loud wails at the fact that the cadence of the title is spoiled in England, where it is to be published as "Bitter Tea."

Would Divide with Jobless.

Nor is there complete unemployment for authors even at parties. Mrs. Stone's hand writing, we discovered, as we watched her autographing copies of her book, is bold and sure with each letter legibly formed, although she writes so quickly you'd expect a scrawl. She writes her manuscripts in ink, but they are not fair copies, she says, because she makes a multitude of changes, interlineations, and revisions.

Irving Fineman, Susan Glaspell, Norman Matson, Blair Niles, Arthur Guiterman, Herschell Brickell, Isabel Paterson, and Will Cuppy were among those who lingered late.

At the afternoon affair given on Thursday by the American Union of Artists and Craftsmen in celebration of their first year book, "Annual of American Design, 1931," which Ives Washburn has just published, we heard Lee Simonson holding forth on architecture to Nicholas Murray. "I don't understand why men, who weigh no more than I, look so much better than I do in double breasted vests."

Did we forget to mention the name of that other novel that all the literati are reading? Somerset Maugham's "Cakes and Ale," of course!

FANNY BUTCHER SURVEYS WORK OF THE AUTHORS

Chicagoans Find Place High on List.

BY FANNY BUTCHER.

This year there has been no one outstanding novel either artistically or from the point of view of popularity; no one book that the intelligentsia all gurgle over or that the fabulous man in the street and woman in the home talk about as they do the stock market or the price of sugar.

No novel has given a new word to the language, like "Main Street" or "Babbitt." The outstanding news of the novel business in America is, of course, the awarding of the Nobel prize in literature to the author of those two (and other) novels. Sinclair Lewis is the first American ever to win that honor in which American literature shares.

Of the novels of the last six months, a few have had special allurements for special audiences. "The Edwardians," a gentle satire on the days of Edward VII. by V. Sackville-West, pleased enormously those interested in exquisite writing with a slightly ironic twist.

Maugham, Bennett, and Others.

Rose Macaulay always delights the ironically inclined, although "Staying with Relations" is not a masterpiece as some of her other novels have been. "Cakes and Ale," by Somerset Maugham, gave the intelligentsia great joy, but rather for the fact that it satirized two great English authors and the whole business of writing books than that it was deemed Mr. Maugham's magnum opus.

"Imperial Palace," the 700 odd page novel which every one had been awaiting from Arnold Bennett, was not, as promised, equal to "The Old Wives' Tale," but it had the expansiveness of a great luxury hotel and its life, heroic canvas and a novel point of view.

"The Water Gipsies," by A. P. Herbert, was another vast volume hailed as "delightful" by every one—the story of life on the Thames as lived in a barge. In "Angel Pavement," J. B. Priestley duplicated the success of "The Good Companions." His latest was the picture of a small business office in a back street.

Two Chicago Women Score.

An excellent first novel by a Chicagoan, done on the same leisurely lines, was Margaret Ayer Barnes' "The Years of Grace." It is being persistently mentioned for the Pulitzer prize.

Janet Ayer Fairbank's "The Lion's Den," is a story of Washington political life, which the author, as Mrs. Kellogg Fairbank, knows so well. She and Mrs. Barnes are sisters. So Chicago very much claims them both. Chicago also has a claim upon Mary Borden, author of "A Woman With White Eyes"—which is the memories of a woman of sixty-five set down as they were recalled. It is in no sense autobiographical, however, for Mary Borden is far from the age of such memories. She is the wife of Brig. Gen. Spears and lives now in London.

"Mosaic," by G. B. Stern was another gorgeous "Matriarch" with the same priceless families in its pages. Anne Douglas Sedgwick did not equal "The Little French Girl" in "Philippa," although the story of the determined girl has won much enthusiasm.

Another "Three Decker."

Among translations "Success," by Lion Feuchtwanger, like "Imperial Palace," was another three decker under one cover. It is an immense modern novel of Munich with the power of his "Power." "Quiet Street," by Michael Ossorgin, is a modern novel about Russia, as is "Kostia the Cossack," by the Gen. P. N. Krassnoff, who wrote "From Double Eagle to Red Flag."

Knut Hamsun has written in "Vagabonds" something gayer than "The Growth of the Soil." "Seven Days Darkness," by Gunnar Gunnarsson, an epic of Iceland, is more like the usual Hamsun work. "The Son Avenger" concludes Sigrid Undset's famous tetrology and with "Vagabonds" gives us two novels from Nobel prize winners.

Another Nobel prize winner, Thomas Mann, gave us this year a delightful book about his dog in "Man and His Dog." "Midsummernight," by Carl Wilhelmson is not a translation, although it has the flavor of one. It is the story of a little Finnish village.

Vivid View of New York.

"Twenty-four Hours," by Louis Bromfield, is one of the best thrillers ever written, and a tour de force technically, a vivid picture of modern New York life. Another well know American novelist, Dorothy Canfield, gave us this season her most serious work in "The Deepening Stream."

Charles G. Norris' "Seed," a novel about birth control, did not reach the heights of his previous work, and Booth Tarkington wrote in "Mirthful Haven" a Cape Cod story that doesn't touch him at his best. Joseph C Lincoln's "Blowing Clear" is downright Cape Cod, as usual.

The essence of sections of the country have been caught in a few novels of the season. Isa Glenn has done a beautiful job of the south in "A Short History of Julia." Walter Edmonds chronicles the Erie canal region in "The Big Barn." Dawn Powell a typical midcentral town in "Dance Night." "Po Buckra," by Gertrude Mathews Shelby and Samuel Gaylord Stoney the black half breed section. "Spawn," by Nat Far-

Old Stories in New Guise for Children

Hans Andersen's Own Tales Reappear.

"Andersen's Fairy Tales," edited by Margherita Osborne [Penn].
"Andersen's Fairy Tales," illustrated by Harry Clarke [Brentano].
"Stalky & Co," by Rudyard Kipling [Doubleday-Doran].
"Westward Ho," abridged by E. C. Moore [Macmillan].
"Boy's Genghis Khan," by Harold Lamb [McBride].
"Book of Three Dragons," by Kenneth Morris [Longmans-Green].
"Canterbury Tales," translated by Frank E. Hill [Longmans-Green].
"Tales from Chaucer," by Eleanor Farjeon [Cape-Smith].

AGATHA L. SHEA.
[Director of children's work for branches of the Chicago Public Library.]

Among the new editions appearing this fall are many of the tried and true old favories, for some of which the new dress will be the means of an ever widening circle of friends. Lovers of Hans Christian Andersen will be interested in knowing that two new editions of the famous fairy tales are on the lists this year. One edited by Margherita O. Osborne [Penn] contains some twenty of the best loved tales, beautifully illustrated in color by Ben Kutcher and is a very lovely gift book for the child who appreciates fine books.

The other, illustrated by Harry Clarke [Brentano] presents a good selection of Andersen, but is probably better suited to the student of his stories than to the children who read them for pure joy, for a great many gruesome details, both in stories and pictures, raise a question as to its suitability for the general young reader. A new edition of the popular Stalky stories appears in "The Complete Stalky & Co." [Doubleday-Doran] with illustrations by L. Raven Hill.

In it Mr. Kipling has collected all the Stalky stories and has added one altogether new one which has not heretofore been published in book form. This story, entitled "Satisfaction of a Gentleman" is written about a duel in which McTurk, the Beetle, and other familiar characters appear again. It is a delightful addition to the Kipling shelf.

E. C. Moore's edition of "Westward Ho" [Macmillan] is an abridged one in which much description has been omitted and which has, for this writer, at least, lost something of the flavor of the original. The format of the book is good, and the illustrations by Henry Pitz are excellent. Harold Lamb's "Boy's Genghis Kahn" [McBride] and Kenneth Morris' "Book of the Three Dragons" [Longmans-Green] are retellings of interest. The first relates the adventures of the great Mongol conqueror from the time of the beginning of his leadership at 13 years of age to the peak of his success in Cathay, and includes the plans for further conquests which he was making at the time of his death. As very little of this material is available in readable form for young people, this edition is of especial value. "The Book of the Three Dragons" is a collection of Welsh folk tales which the older child or the student of folklore will enjoy.

The two editions of the Canterbury Tales, one translated into modern English by Frank E. Hill [Longmans Green], including the prologue, four tales, and some lyrics, and Eleanor Farjeon's "Tales from Chaucer" [Cape-Smith], which includes practically all the tales with very brief abridgements have been reviewed in this column recently. Both are of value in bringing Chaucer to young readers.

WHAT CAT SAW THERE

Lynd Ward's illustration of a tiger from "The Cat Who Went to Heaven," by Elizabeth Coatsworth."

An Old Favorite of Roosevelt's in New Guise

An old favorite whose appearance in new dress will delight as many adults as children, perhaps, is Abbey Morton Diaz's "William Henry Letters" [Lothrop]. One remembers that this book was a great favorite of the late Theodore Roosevelt, and no doubt many grownups will say as he did that they remember with great joy their first appearance in serial form in Our Young Folks many years ago. Those who know the rich humor and joyous spontaneity of boyhood reflected in the letters will be anxious to introduce their own young folks to them in this attractive edition.

* *

Folk Lore of Many Nations in This New Book

The student of folk lore will find in "Folk Tales of All Nations," edited by F. H. Lee [Coward-McCann], an extremely usable book offering practically every type of folk lore and representing that of some sixty nations. The stories are listed under their native countries and are given practically as originally written, every care being taken to preserve the spirit in the translation. Short prefatory chapters precede each division, giving something of the history of the tales. For story tellers, students, teachers, and librarians primarily.

Meetings and Lectures

Tonight at the meeting of the Bookfellows "Angel Pavement," by J. B Priestley, will be reviewed. This meeting will be held at 6 o'clock at the Central Y. M. C. A. building, 19 South La Salle street.

At the Emil G. Hirsch center on Monday evening at 8:15 Count Felix von Luckner will talk on "More Tales of Adventure by the Sea Devil."

Robert Redfield will talk about "The Folk Arts of Mexico" at the Indian Trading post, 619 North Michigan avenue, on Tuesday afternoon at 3 o'clock.

"Crane, Norris, and Garland" will be discussed by Prof. Napier Wilt, department of English, University of Chicago, on Tuesday at 6:45 p. m. at Fullerton hall, Art Institute.

At a luncheon meeting of the Chicago Woman's club on Thursday at 12:30 noon Mrs. Margaret Ayer Barnes, author of "Years of Grace," will be the guest of honor and speaker.

On Friday morning at 11 o'clock at the Drake hotel Mabel Oppenheim will lecture on "Funny Men and Columnists," using Walter Winchell, Anita Loos, Dorothy Parker, Isabel M. Paterson, and P. G. Wodehouse as her illustrations.

"Marcel Proust, a French Dostoievski," will be discussed by Dr. Edward N. Schoolman on Friday night at 8:15 at the Emil G. Hirsch Center.

RAGGEDY ANN IN THE DEEP DEEP WOODS
BY JOHNNY GRUELLE

Cowboy Balks as He Views Boston Graves

But Autographing Soon Restores Spirits.

BY DALE WARREN.

BOSTON, Mass.—[Special Correspondence.]—"A hell of a welcome!" That's what Will James said when he blew into Boston one day last week and was shown into his hotel room high up in the Parker house. Characteristic western bluntness, of course, but standing next to him and looking out of the window down on the historic churchyard of King's chapel and across Tremont street to the Granary burying ground you saw in a flash what he meant.

This mortuary prospect sent the cold shivers up and down his spine, and for relief he took a sheet of hotel stationery and began to draw pictures of some of the horses he has owned. This is one of James' surest ways of forgetting his surroundings. Drawing is both his vocation and his avocation and he recommends it to others. If you have never seen a horse, try your hand at a steamship, a girl's head, anything at all.

Will James never took a drawing lesson in his life. He says so in his autobiography, "Lone Cowboy," which is topping the best seller lists. But this slim, dark man from Montana was drawing anything but horses on the day he sat from two to four in Allan Pitman's book room at Jordan-Marsh's. He wrote his name so many times on the fly leaf of his books that the muscles in his right arm fairly cried out for the grip of a well worn pair of lines secured to a horse's bit.

Temple Bailey selected her hotel more wisely, staying at the Copley Plaza after the sea winds of Marblehead drove her to town. No views of graveyards here to dampen her buoyant spirits. Miss Bailey has spent the entire fall in Boston working on a 40,000 word novelette which is to be serialized before its publication. She is allowing herself three months to finish it and will go off to Florida about Christmas time for a long holiday.

When Rafael Sabatini came to Boston it was after an exhausting month in New York, spent mostly at rehearsals of his new play, "The Tyrant."

Before sailing for England Mr. Sabatini concluded arrangements with his publishers for the publication of two new books in which two of his favorite characters will reappear—"Captain Blood Returns" and "Scaramouche the King Maker."

Count Rene d'Harnoncourt, towering a good six inches above the heads of most native Bostonians, is in town directing his exhibition of Mexican painting and handicraft at the Museum of Fine Arts. He is yet to meet a person who has not seen his illustrations of Mrs. Morrow's "Painted Pig," a juvenile as popular this season as the famous "Hitty" was a year or so ago. The Bookshop for Boys and Girls recently gave a dinner in his honor.

At a literary tea the other day the celebrities included Dorothy Speare, Esther Forbes, Leonard Nason, and Paul Rockwell. A former Chicago newspaper man, Rockwell has now returned to his home in Paris after seeing his "American Fighters in the Foreign Legion" through the press. Nason sails for France for a winter in Biarritz on Dec. 27 leaving behind him two new books and a new house on Embankment road.

Miss Forbes answered queries about her next novel by saying she must first finish two short stories.

Dorothy Speare, remembered for "Dancers in the Dark," "The Gay Year," etc., is back in Boston for a few weeks, fresh from operatic triumphs in Italy. She explained that she was gradually sloughing off her musical skin and growing the epidermis of an honest to God novelist, writing like mad to keep the dates specified in her new contracts. When asked if her opera career was over Miss Speare said: "O, no, I'm singing 'Juliet' in Montreal this spring and two or three other engagements are pending. Some day I am going to write a realistic novel that will blow all the romantic appeal out of opera, and I want to keep my material in hand."

* *

Here's Something New.

"The Prince of Peril," by Otis Adelbert Kline [McClurg], is a record of weird and awesome adventures upon the planet Venus, a neighborhood about which the author seems to know more than the astronomers, for the family life of the natives is set forth in assorted thrills. For those who like fantastic adventure here's a bookful.

SELF-PORTRAIT

A self-portrait of H. G. Wells "having a look at the machine," from a letter which he wrote and illustrated. Reproduced in the new biography of Wells by Geoffrey West.

Two Writers Tell Story of Noted Painter

[Continued from page 15, column 2.]

sionate biographer. That Whistler was frequently odious he admits without malice; that he had his limitations as an artist, he believes, but his charm, his enormous talent, his sensitiveness, and honesty of intention never are forgotten. This author's treatment makes Whistler more human and piteous than does Mrs. Pennell's sometimes defiant adulation, for Laver describes his foibles as an external evidence of Whistler's childlike nature, discounts but does not deny the great man's crankiness.

This book comes at a good time, for just now there is a tendency to deny Whistler's claim to fame as an artist. Meier-Graefe started the ball rolling long ago and thus perhaps stiffened into obstinacy Joseph Pennell's resentment toward the moderns whom the German art critic extolled. But Mr. Laver believes, and I think establishes his claim, that though Whistler is an artist who refuses to be classified, the world is richer for his refusal, and "that what he set out to do, he did with singular perfection." Laver believes that Whistler was a superb decorator and as such has left his profoundest impression upon our times. He finds a little grandiose Pennell's claim that Whistler is the greatest painter of the nineteenth century but is convinced that time instead of obliterating his name will set him in his just place among great artists.

Nothing could be funnier than Mr. Laver's description of the creation of the Peacock room or his account of Whistler's dalliance with sitters. One poor child succumbed to exhaustion, various members of her family posed in her garments, but when the little girl returned after long absence to her native land bringing five children whom she had herself completed, the portrait was still unfinished. Such incidents enliven the pages of a book that can also be depended upon for careful analysis and reasoned statements.

If you should read the two Whistler books (and you should) reviewed today, occasional discrepancies will add to your unamiable pleasure. For instance, Mrs. Pennell says she never did like Seymour Haden, but didn't know just what brought about the final break between him and Whistler. On the other hand, Laver explains that the two men met one day in the street and Whistler pushed Haden through a plate glass window. With what had gone before, that might make almost any one mad.

The personalities and background of Whistler's day, his associates, hated and loved, and all his excusable vices and odd virtues make a book each page of which is worth reading. No one knows better than I how endless is Whistler bibliography, but from this vast fund Mr. Laver has extracted the essence and achieved a readable, useful and delightful biography.

Gov. Cross Writes Second Critical Book on English Novelists

"Four Contemporary Novelists," by Wilbur L. Cross [Macmillan], is the contribution of the new governor elect of Connecticut to the study of "The Development of the English Novel," which he published in 1899, and which has been a classic ever since then.

The four—the big four—are Conrad, Bennett, Galsworthy, and Wells, who are, according to Dr. Cross "in the English tradition of Scott, Dickens, Thackeray, George Eliot, and Hardy, all of whom, according to their light, depicted in a large way the times in which they lived.

"Not all the aspects of contemporary civilization appear in these novelists," he says, "but in no other group of writers, whether poets, essayists, or novelists, is there so much.

Zweig's "Joseph Fouche" to Sell in 14 Countries

Published in Germany last year "Joseph Fouché," the biography of Napoleon's treacherous minister of police, by Stefan Zweig, was an immediate popular success. Negotiations for translations immediately were entered into with the result that fourteen countries either have published or are about to publish this book. The thirteen countries outside Germany are: the United States, England, Norway, Denmark, Sweden, France, Italy, Spain, Poland, Czecho-Slovakia, Russia, Holland, and Hungary.

ADVENTURING AMONG THE NEW BOOKS

BY THE LITERARY EDITOR.

FICTION.

Outpost Arden, by Diana Patrick [Dutton], is a novel about a marriage between the scion of one of the great English families and a girl of the people and how the family fought it.

Domnei, by James Branch Cabell [McBride], is a new edition for Christmas with illustrations by Frank C. Pape.

The Road Through Czecho-Slovakia, by Dorothy Giles [Penn], is a copiously illustrated record of a journey of two and a half months' duration.

GIFT BOOKS.

[Published by E. P. Dutton].

The Story of San Michele, by Axel Munthe, a de luxe gift edition bound in three-quarter morocco.

The Swan Shakespeare, a players' edition complete in three volumes.

The Harlot's House, "The Ballad of Reading Gaol," and "Salome," by Oscar Wilde, illustrated by John Vassos and boxed together.

The Aldine Chapbooks, consisting of the following titles: "Dream Children," by Charles Lamb; "Fun o' the Fair," by Kenneth Grahame; "The Old Lady and the Maid-servant," by Leigh Hunt; "Our Lady's Tumbler," a twelfth century legend; "Brother Wolf," from the Little Flowers of St. Francis, and "The Country Church," by Washington Irving.

POETRY.

Faust [Cape Smith] is a new translation of Goethe's great classic by Alice Raphael and is illustrated by interpretive woodcuts by Lynd Ward.

A Man of Earth, by David Morton [Poetry Society of Amherst College], is this year's Phi Beta Kappa poem presented at Tufts college.

Sonnets of an Immigrant, by Demetrious A. Michalaros [American Hellenic Book Publishing company], is, according to Jane Addams, "perhaps . . . as appreciative of the complexity of our modern life . . . as the American city has yet evoked."

The Grave, by Kostes Palamas [American Hellenic Book Publishing company], is a modern Greek classic translated by Demetrious A. Michalaros.

NONFICTION.

Flights from Chaos, by Harlow Shapley [McGraw Hill], professor of astronomy at Harvard, is a daring and brilliant conception of order in the apparent chaos of the universe.

A Number of Things, by Edwin E. Slosson [Harcourt-Brace], is a volume of short essays.

Chicago Surrenders, by Edward Dean Sullivan [Vanguard], is a sequel to "Rattling the Cup on Chicago Crime" and tells of our local excitements since the murder of Jake Lingle.

A Marriage to India, by Frieda Hauswirth [Vanguard], is the intimate discussion of India and Indian life by an American woman who married a Hindu.

The Fine Art of Marriage, by Horace J. Bridges [privately printed], contains two lectures on the subject.

ABOUT PEOPLE.

Isabella of Spain, by William Thomas Walsh [McBride], is a dramatic life of "the godmother of America," written from contemporaneous sources as well as historic tradition.

Albert Einstein, by Anton Reiser [A. & C. Boni], makes you understand the man if not the theory.

Ardent Adrienne, by Lida Rose McCabe [Appleton], life history of Madame de la Fayette.

The Intriguing Duchess, by Dorothy de Brissac Campbell [Covici-Friede], is about Marie de Rohan, arch enemy of Richelieu.

Houdini's Escapes, by Walter B. Gibson [Harcourt-Brace], explains all.

Paul du Chaillu, by Michel Vauclaire [Harpers], is the first biography of one of the most famous of explorers.

They Told Barron [Harper's] contains conversations and revelations of an American Pepys in Wall street, Clarence W. Barron.

Forrest, by Capt. E. W. Sheppard [Dial], is an English army officer's picture of a famous officer of the civil war.

Five Masters, by Joseph Wood Crutch [Cape Smith], is about Boccaccio, Cervantes, Richardson, Stendahl, and Proust.

Kaiser and Chancellor, by Karl Friedrich Nowak [Macmillan], is a record of the opening years of the reign of Kaiser Wilhelm II.

England's Greatest Statesman, by E. Keble Chatterton [Bobbs Merrill], is a life of William Pitt.

Twenty-one Americans, by Niven Busch Jr. [Doubleday Doran], are skits—and occasional caricatures—of some of our national heroes of the day.

Leigh Hunt and His Circle, by Edmund Blunden [Harpers], comes from England widely labeled by the critics "an enchanting biography."

When Ships Were Ships, by Capt. William Morris Barnes [A. and C. Boni], tells of seafaring thrills.

BEST SELLERS OF THE WEEK

FICTION.

"Philippa," by Anne Douglas Sedgwick.
"The Deepening Stream," by Dorothy Canfield.
"The Lions' Den," by Janet Ayer Fairbank.
"Water Gipsies," by A. P. Herbert.
"On Forsyte Change," by John Galsworthy.
"Angel Pavement," by J. B. Priestley.

NONFICTION.

"Little America," by Richard E. Byrd.
"The Story of San Michele," by Axel Munthe.
"N by E," by Rockwell Kent.

F. L. Pattee Brings Survey of U. S. Literature to 1930

Fred Lewis Pattee, former professor of American literature at Pennsylvania State college and author of "A History of American Literature Since 1870" [published fifteen years ago] brings his story of American writers and their work up to date in "The New American Literature" [Century]. It is a historical and critical survey from 1890 to 1930, including discussion of all the present leading writings.

New De Luxe Shaw

"The Collected Works of Bernard Shaw" [Wise] Vols. 3, 4, 5, 16, 17, offer in de luxe form in a limited autographed edition, "Love Among the Artists," "Cashel Byron's Profession," "An Unsocial Socialist," "Back to Methuselah," and "Saint Joan," and "The Apple Cart" here published for the first time.

More Than 80 Thousand Sold

In making up your Christmas lists be certain to include this new interpretation of Mrs. Eddy's life and work which is being widely read

MARY BAKER EDDY

A Life Size Portrait
By LYMAN P. POWELL

"A new and interesting story told in attractive style and at points eloquent . . . While Dr. Powell is not a Christian Scientist but a faithful clergyman of the Episcopal Church, he finds it possible to view the movement with admiration and sympathy, and treats it now constructively rather than negatively . . . The whole book bears the marks of an honest writer . . . As a piece of typography and binding, it is unusually attractive as well as readable."—*Federal Council Bulletin*

Pasley Offers Game to Play with Mysteries

Guess 1, 2, 3 "Guilt" at Start; Test Bets at End.

BY FRED PASLEY.

[Author of "Al Capone, the Biography of a Self-Made Man."]

"About the Murder of Geraldine Foster," by *Anthony Abbott* [Covici-Friede].

"The Appointed Date," by *J. Jefferson Farjeon* [Lincoln MacVeagh].

"Murder at Red Pass," by *the Aresbys* [Washburn].

"Charlie Chan Carries On," by *Earl Derr Biggers* [Bobbs-Merrill].

"The Snake of Luvercy," by *Maurice Renard* [Dutton].

These mystery thrillers have provided me with a bully guessing game, more diverting even than cross word puzzles. I make a book on the fly leaf as soon as I read far enough to know all the characters. I write down three names, just as if I were playing the races, and opposite them the numbers 1, 2, 3, accordingly as I rate each person's chances of having committed the murder.

So far I haven't picked a winner. I doubt whether even Col. Robert Isham Randolph's secret six could solve any of them. Certainly, not the killing of Geraldine Foster. A letter from the publisher, accompanying this book, explains it "is based on actual criminal cases and gives the reader an authentic picture of how the police department of a large city goes about tracking clever criminals." It is dedicated to "the standing army of the city of New York—the police department."

Beautiful Geraldine Foster, hacked with an ax, is found buried in a shallow grave behind a bungalow in the woods, close to a stream, from which pigeons came to drink. Seven of the birds were found dead, having drunk from the brook that ran red with Geraldine's blood. How Thatcher Colt, police commissioner of New York City, solves this case is the basis for Author Abbott's swift moving tale.

I have always wanted to see a real gibbous moon; to be walking along, say, with a friend some dark, portentous evening and suddenly remark carelessly, "How gibbous the moon is tonight." I always have been denied the pleasure. I mention it because if there was a moon hanging around in "The Appointed Date," it surely must have been gibbous. Very gibbous.

This story will make you look under the bed before turning out the light. It will cause your vertebrae to shimmy, your flesh to creep, your hair to stand on end. It opens on a wild heath, in a fog—a fog so opaque that when Mr. Shale is asked for a match he sees only a hand and a bit of arm. Mr. Shale stumbles on through the fog, meets a pretty girl, and later they meet Mr. Grey. Mr. Grey has received periodical warnings that on a certain day he is to die. This is the day.

"Murder at Red Pass," transports you to Honolulu, where a motion picture company is on location. Colton Strong, the director, disappears and they find his body on the sacrificial rock at Kole-Kole. Miss Herrod, or the Golden Girl, who plays the juvenile lead, is also killed. A reporter and his lawyer friend set out to solve the double murder. The denouement of this story is the most surprising of any of the mystery tales I have reviewed for Miss Butcher. I challenge any reader to pick the slayer of Colton Strong.

One doesn't have to say much more regarding Earl Derr Biggers' book than "it's another Charlie Chan adventure." The great Chan surpasses himself in this case—that of an American tourist, Hugh Morris Drake, an automobile manufacturer from Detroit, by the way, who is found murdered in a hotel in London, England.

On page 239, chapter XVIII of "The Snake of Luvercy," I encountered an insert. A sheeted figure held a notice reading, "Stop!" I read that "At this point all the characters and the necessary clews have been presented to make it possible for you to determine the guilty person. Now for a little personal detective work. Now you enter the story. Without reading any further, select whom you believe to be guilty."

I did. Wrong again.

CONCERNING GUINEA PIGS

Roland Young has stepped out of his rôle as actor and into that of manufacturer of laughs in "Not for Children." Ring Lardner comments upon it: "Perhaps it's not for children, but it made a Young fan of me." That voices the sentiments of all and sundry. The drawings are funnier but the verses are funnier—secrets of the home life of assorted beasts and birds. F'rinstance about this creature:

The Guinea Pig:
The guinea pig is round and fat;
His favorite words are, "I beg at."

British Science Taking Happier Views of Life

[Continued from page 15, column 4.]

provided entertainment in this field. It would be impossible to name all the others who have done likewise.

Good First Novels.

There have been a number of interesting first novels, such as Miss Anne Allardyce's "Unwillingly to School," Mr. Sommerfield's "They Die Young," "Equestrian Portrait," by Thomas Bell; "Those Thoughful People," by Edward Charles; "Several Faces" by Jennifer Courtenay, and "Gay Agony," by H. A. Manhood. I do not notice any special tendencies in these writers which would lead me to suppose them a school. In fact, their diversity seems to me to be their chief promise.

Miss Allardyce is using her own experience as a school teacher to give verisimilitude to "Unwillingly to School," Mr. Sommerfield is not always using experience in "They Die Young." No two books could be more unlike. Yet both show great promise, and we shall hear more of both authors.

There seem to have been fewer translations of foreign novels this season, but "Lacemaker Lekholm Has an Idea," by Gustaf Hellstrom; "Faber," by Jacob Wassermann, and "A Night in Kurdistan," by Jean Richard Bloch have attracted attention, while of course everybody has read or is reading "Success," by Feuchtwanger, and Vicki Baum's "Grand Hotel" has been a rage. Translations of nonfictional works have been read, as for example, Herr Roland Strasser's "The Mongolian Horde," Col. von Glaise-Horstenau's "Collapse of the Autro-Hungarian Empire," and Herr Walther Steinthal's "Dreyfus."

Home made works of history, such as Prof. Trevelyan's "Blenheim"; historical biography, such as Mr. Wyndham Lewis's "King Spider," Mr. Belloc's "Wolsey," Mr. Drinkwater's "Pepys," and Mr. Vulliamy's "Voltaire" (also Mr. Palmer's "Moliere"); Victorian biography, already instanced; and the scientific studies mentioned earlier, have all been widely read. So have a couple of biographies of men still happily alive—H. G. Wells and Stanley Baldwin. A curious composite work on a very odd writer, the late Ronald Firbank, is amusing.

Altogether, an interesting season, not so much for any really outstanding piece of creative writing, as for a high level of intelligent, enterprising, and reassuring thought, which shows that there is still great vitality to be found in the English literary world.

Book About Beauty Deals with Health as Real Foundation

In "The Art of Feminine Beauty" [Liveright] Helena Rubinstein tells the whys as well as the hows about being beautiful. You've no idea how interesting a book about beauty can be until you read this one, because it's mostly a book about how only the healthy are beautiful.

There aren't any formulas, and not many rules, and it's really a book about esthetics as manifested in the feminine more than it is a textbook. Mme. Rubinstein was here not long ago, dashing through on her way back to Paris. There she is the wife of that famous Mr. Titus who publishes This Quarter and who has an exciting book shop and who lately was responsible for Kiki's memoirs in English, which set English speaking Paris by the ears and which the authorities are not allowing to enter the chaste United States.

Kiki is the best known model in Paris—or was for ten years or so—and she has set down her memories with a frankness, but an honesty which, while occasionally startling, is scarcely permanently shocking to any one who plows through the modern output of fiction.

The translation of it into English was made by Samuel Putnam, once of Chicago, now of Paris. It is a remarkably able translation into an idiomatic English which, so they say who know the French as well as the English, is a brilliant piece of faithful interpretation.

Fanny Butcher's Views of Best Books of Year

Chicago Authors Among Those on List.

[Continued from page 15, column 8.]

ber, a wild primitive valley in northern New York.

"Every Mother's Son" is a novel about Australia by the leading Australian novelist, Norman Lindsay; "The Redlakes," by Francis Brett Young, takes place in England and Africa; "Nothing to Pay," by Caradoc Evans, in Wales; "Shepherds in Sackcloth," by Sheila Kaye-Smith, in her favorite Sussex.

Margaret Kennedy, author of "The Constant Nymph," told more of the delightful "sanger circus" in "The Fool of the Family."

D. H. Lawrence's posthumous novel, "The Virgin and the Gypsy" is NOT another "Lady Chatterly's Lover," but "The Memoirs of an Infantry Officer," by Siegfried Sassoon, IS another "Memoirs of a Fox Hunting Man." William J. Locke's latest, after the manner of his gay early tales, is "The Shorn Lamb."

Two Prize Novels.

Martha Ostenso, a famous prize winning novelist, gave us "Waters Under the Earth" this year, and "This Pure Young Man," by Irving Fineman, won a prize of $7,500.

"The Bitter Tea of General Yen," by Grace Zaring Stone, isn't to be linked with anything else—it is a subtle tale of Americans in China, a first novel of unusual charm. Nor is "Picaresque," by David Hamilton, to be pigeonholed with anything else. It is a novel really living up to its title.

The outstanding mysteries of the year were "The Door," by Mary Roberts Rinehart, and "The Scarab Murder Case," by S. S. Van Dine, in point of view of popularity. But they were published in the spring.

According to experts the best of the fall are: "Charlie Chan Carries On," by Earl Derr Biggers; "The Riddle of the Yellow Zuri," by Harry Stephen Keeler; "Strong Poison," by Dorothy Sayres; "The Murder at the Vicarage," by Agatha Christie; "The Lion and the Lamb," by E. Phillips Oppenheim, and "The Mystery of Hunting's End," by M. G. Eberhart, who won the Scotland Yard mystery prize last year.

In short stories there was one volume of importance for Americans who look to the future of their literature, Dorothy Parker's "Laments for the Living." They were stories of unequal importance, but the finest of them were very fine. Edith Wharton's "Certain People" carried on the Wharton tradition, and Zona Gale's "The Bridal Pond" carried on her tradition.

More from John Erskine.

John Erskine gave us a group of light sketches after the manner of "The Private Life of Helen of Troy" in "Cinderella's Daughter," but they were more fluff than anything else. Elmer Davis' "Morals for Moderns" was trenchant and biting.

The outstanding volume of English short stories was Galsworthy's "On Forsyte Change," which contains some brilliant work. "The Little Dog Laughed" was the first collection for some time of the delightful tales of Leonard Merrick. May Sinclair offered us "Tales Told by Simpson." And there are always those excellent annual anthologies, "The Best Short Stories," edited by Edward J. O'Brien, and "The O. Henry Memorial Award Prize Stories," edited by Blanche Colton Williams.

There were two important biographies published in the spring which are still "active," as the booksellers say, "The Adams Family," by James Truslow Adams, and "Byron," by André Maurois.

Wister Depicts Roosevelt.

The sensation of the year was Owen Wister's "Roosevelt," which was mysteriously suppressed by the publishers for what proved to be nothing more than a story about a silly woman in Charleston who lied to Roosevelt to get him to visit her house.

"Taft and Roosevelt," by Archie Butt, gave light to the political struggle between them. A political figure of another day appears in "Daniel Webster," by Claude Moore Fuess, a biography of the first importance. Among the other political biographies of the season are "High Stakes and Hair Trigger," by Robert W. Winston, which is the life of Jefferson Davis, and "That Man Dawes," by Paul R. Leach.

"A Roving Commission" is the early life of one of England's greatest politicians, Winston Churchill. "Portrait of a Diplomatist," by Harold Nicholson, is a brilliant life of another English politician, Sir Arthur Nicholson.

"As We Were," by A. C. Benson, records a Victorian youth. "Those Earnest Victorians," by Esme Wingfield Stratford, chronicles them charmingly, as does "In the Days of Bicycles and Bustles," the memoirs of R. D. Blumenfeld.

Famous Persons Revived.

Older English figures are depicted in "Swift," by Carl Van Doren; "Wolsey," by Hilaire Belloc; "Pepys," by John Drinkwater, and "Royal Charles," by David Loth. "Joseph Fouché," by Stefan Zweig; "Molière," by John Palmer, and "Henry of Navarre" record three of France's vastly different leaders, while "Frederick the Great," by Victor Thaddeus, records a famous German.

Hendrik Willem Van Loon in "R. v. R." has written a brilliant life of Rembrandt and a history of his times. And in the field of music the two volume life of Cosima Wagner by Richard Count du Moulin-Eckart takes first place.

"The Letters of Henry Adams," edited by Worthington C. Ford; "Charles W. Eliot," by Henry James; "Roadside Meetings of a Literary Nomad," a volume of reminiscences by Hamlin Garland, and "The Letters of James Whitcomb Riley," edited by William Lyon Phelps, are the outstanding biographical volumes about American men of letters.

Business, Piracy, Welfare.

"Cyrus Hall McCormick," by William T. Hutchinson, and "Morgan the Magnificent," by John K. Winkler, tell the life stories of two of America's magnates. In "Lafitte, the Pirate," Lyle Saxon records the exploits of a New Orleans hero. In "Lone Cowboy" Will James tells his own story. Charles Edward Russell chronicles the story of "Haym Salomon and the Revolution." In "The Second Twenty Years at Hull House" Jane Addams sets down her later autobiography. Axel Munthe continues his memories, begun with such astonishing success in "The Story of San Michele" in "Memories and Vagaries."

"Mary Baker Eddy," by Lyman P. Powell, is an official life of Mrs. Eddy sponsored by the church she founded.

"Crucibles" is an outline of chemistry and the great chemists by Bernard Jaffee.

Byrd, Kent, and Capone.

The outstanding book about far places of the year is "Little America," by Richard E. Byrd, the thrilling record of his antarctic expedition. "N, by E.," by Rockwell Kent, the record, pictorial as well as literary, of a trip to Greenland, is another thrilling volume. "Al Capone," by Fred Pasley, is so much about Chicago, although it is a biography of one of our self-made men, that it belongs with thrilling books about places.

"New York," by Paul Morand, is a picture of the metropolis through the eyes of a brilliant French writer.

"By Way of Cape Horn," by A. J. Villiers, is an exciting record of a windjammer's trip.

"Desert Islands" is a delightful volume by Walter de la Mare, a short essay on the subject with multitudinous charming and illuminating notes.

"India, Land of the Black Pagoda," by Lowell Thomas, is full of the author's admiration for that country, and "Pyramid and Temple" is likewise a record of the enthusiasm of its author, Julius Meier-Graefe, for Egypt and Greece—the travel diary of a philosopher and artist.

"The Lives of a Bengal Lancer," by Maj. F. Yeats-Brown, is an autobiography so steeped in India as to be really about that mysterious land.

"Between the River and the Hills," by Sisley Huddleston, joyously describes Normandy.

"A Tourist in Spite of Himself" is a group of amusing travel sketches by A. Edward Newton, well known collector.

More About America.

Among miscellaneous books "The American Leviathan," by Charles A. Beard and William Beard, is of great importance. It brings up to date the late James Bryce's "American Commonwealth." "Pre-War America," by Mark Sullivan, is another fascinating volume of his history of the present day, called "Our Times."

"Some Folks Won't Work," by Clinch Calkins, is a contribution to the study of the present unemployment problem. "Good-by to Western Culture" is an indictment of the present day by Norman Douglas. "The Conquest of Happiness," by Bertrand Russell, is a guide to modern life, as is "Man and His Universe," by John Langdon Davies.

"Turkey Faces West" is the latest word on that subject by Halide Edib. "Since Then," by Sir Philip Gibbs, tells the sad story of after the war; "The Coming of the War" is recorded in a scholarly two volumes by Bernadotte E. Schmitt. "Liberty," by Dean Everett Martin, tells the history of freedom. And "Moving Forward," by Henry Ford and Samuel Crowther, tells where we are going.

West's Varied Stories.

"Wagons West," by Elizabeth Page, and "The Outlaw Years," by Robert M. Coates, are concerned with the American pioneers, and "The Sins of New York," edited from the old Police Gazettes, throws an amusing light on the last century in our country.

"Blenheim," by George Macaulay Trevelyan, is one of the most important contributions to history for some time, as is "The Beginnings of Critical Realism in America," by Vernon Louis Parrington.

"Orpheus" is a collection of the myths of the world by Padraic Colum. It is destined either for youth or adults.

"The Life of the Ant" is Maurice Maeterlinck's latest delight.

"Doubloons," by Charles B. Driscoll, is a thrilling volume about actual buried treasure.

More by Poet Laureate.

"The Wanderer of Liverpool," by John Masefield, is a difficult book to classify. It is the story of the building of the ship "The Wanderer" and it also contains "The Masque of Liverpool," a poem.

The most important volume of poetry of the year, according to Marion Strobel, who wrote a review of the year's output, is "New Found Land," by Archibald MacLeish. Edwin Arlington Robinson's "The Glory of the Nightingales" gives us his always fine work. "John Deth," by Conrad Aiken, is eminent, as is "Lichee Nuts," by Edgar Lee Masters.

To cheer the world in a gloomy year there are many gay books. "The Treasurer's Report and Other Aspects of Community Singing," by the incomparable Robert Benchley; "The John Riddell Murder Case," by John Riddell, alias Corey Ford, is one of the best satires. And there was "Very Good Jeeves," by P. G. Wodehouse, than whom there is no whomer. There's also a digestive tract called "Through the Alimentary Canal with Gun and Camera," by George S. Chappell.

Funny Picture Books.

Of the funny picture books don't miss "Not for Children," a volume of pictures and verses by Roland Young which elicited from Ring Lardner the assertion that it was not for children, "but it made a Young fan of me." Peter Arno's "Hullabaloo" and "The Third New Yorker Album" are pictures without words, as are two caricature picture novels, "He Done Her Wrong," by Milt Gross, and "Alay Oop," by William Gropper.

In drama there always is Burns Mantle's "Best Plays of the Year." "The Green Pastures," by Marc Connelly, is published in a de luxe edition and in two others. "Once in a Lifetime," by George Kaufman and Moss Hart, is just off the press. And there is a two volume collection of the critical essays of Max Beerbohm called "Around Theaters," which is a delight.

* *

Compares Mencken to Voltaire; Calls Shaw "Other John Bull"

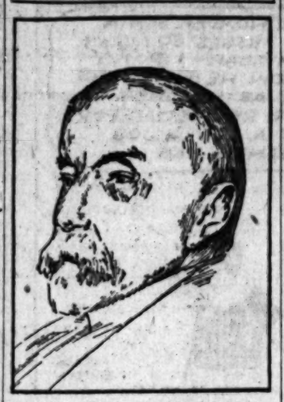
"Mencken and Shaw, the Anatomy of America's Voltaire and England's Other John Bull," is the title of Benjamin De Casseres' latest book published by Silas Newton.

The book was written to show Shaw as a mountebank and Mencken as the true modern Voltaire.

Mr. De Vasseres is unsparing in his criticism of these two international figures. He is particularly caustic in his discussion of Shaw, of whom he says, "Shaw's brain is a half inch layer of champagne poured over a bucket of Methodist near beer."

When the portion of the book dealing with H. L. Mencken was sent to him, Mr. Mencken wrote the author, "This tickles me very much—the gross and reckless injustices almost as much as the blasts of goosegrease. Some of the criticism, I confess uneasily, is very penetrating. It unearths weaknesses that I was only vaguely aware of, and others that I was not aware of at all."

LETTER WRITER



HENRY ADAMS.

"The Letters of Henry Adams," edited by Worthington Chauncey Ford, is one of the literary events of the year. The whole quality of the man who wrote "The Education of Henry Adams" is in this drawing of him.

The LIONS' DEN

By the Author of THE SMITHS

By JANET AYER FAIRBANK

Mrs. Kellogg Fairbank, who in her famous story, THE SMITHS, described the changing life of Chicago through three generations, has now written a dramatic novel of the American social scene. The action takes place in a Wisconsin town, in Chicago and in official Washington.

THE LIONS' DEN is what we all long for always, and welcome delightedly when we find it—*a good story*, a story so entertaining that it absorbs us completely.

And when we have finished it, we realize that we have been more than entertained. We have had a gusty revelation of the clash of American ideals in the midst of American corruption.

CHARLES A. BEARD'S New Book

THE AMERICAN LEVIATHAN
By Charles A. Beard and William Beard

"It is a dynamic study of men and ideas of government in action...a monument to the human power of unprejudiced and scientific observation. The Beards' book has that most pleasant characteristic of seeming a work that needed to be written...A detailed study of *The American Leviathan* will repay any intelligent citizen. It seems to me almost requisite reading for professional men, for business men and particularly for those who serve the vast Government this book describes."—WILLIAM SOSKIN, *New York Evening Post.* $5.00

SIR JAMES JEANS' New Book

THE MYSTERIOUS UNIVERSE
By the author of The Universe Around Us

Sir James Jeans

"Sir James Jeans has boldly stated the problem of reality in new terms, challenging the philosophers who have struggled to understand modern scientific research, shaming the scientists who have not seen the implication of their work, cheering the artists and poets who find our mechanistic universe grievously inadequate, and heralding idealism of a new order. Not since the days of Pythagoras has the music of the spheres sounded with such harmony." — *New York Herald Tribune.* $2.25

PUTNAM'S

S. S. COMMODORE, ONCE PRIDE OF LAKES, IS BURNED

56 Year Old Ship in Way of New Drive.

Fifty-six years ago a gaily decked vessel, christened the Commodore in honor of Commodore Vanderbilt, slipped proudly down the ways and into Lake Erie at Cleveland to the accompaniment of blaring bands and a cheering crowd that hailed the new ship as the embodiment of the last word in nautical engineering.

Yesterday the S. S. Commodore, a weatherbeaten hulk abandoned in its "mud-dock" on the lake front, was set on fire by a wrecking crew and reduced to ashes. Chicago's new outer drive will pass over its old base at the foot of Randolph street, so the Commodore had to make way for progress.

Commissioner Goodrich on Hand.

Fire Commissioner Albert W. Goodrich was on hand with a battalion of firemen to preside over the obsequies and guard against an emergency as a stiff wind whipped the fire into a roaring blaze. Forty-five years ago as a barefoot boy Al Goodrich used to wait for hours at the old Goodrich docks in the Chicago river in order to watch the Commodore make its way majestically down the river to dock.

For 20 years the Commodore was the pride of the great lakes. For 28 years, as a packet steamer owned by the New York Central Lines, she plied between Chicago, Cleveland, Buffalo, Detroit, Duluth, and other great lakes ports.

The ship was built in 1874 and a week later as it steamed into Chicago harbor a holiday was declared and the town turned out to honor with music and oratory the first visit of this brilliant specimen of man's handiwork.

"She was a beautiful ship in those days," said Commissioner Goodrich as he watched the Commodore go up in smoke. "From stem to stern she measured 285 feet and in her hold she carried 2,500 tons of cargo. The biggest thing on the lakes then. In the first season she made more money than it cost to build her."

Ship Bought by Navy.

Old age and the advances of modern industry finally put the Commodore out of commission in 1912. The navy bought the ship, brought it to Chicago from Buffalo—her last trip under her own power—and built a super structure over the deck, converting the ship into an armory.

Until 1918 the Commodore floated at anchor off Randolph street. In that year the navy department learned of plans for the development of Grant park and in order to insure its right to a site at the foot of Randolph street, set aside in 1906 for a naval reserve headquarters, the Commodore was beached on the site. Bulkheads were built and the lake filled in about her.

When the new $500,000 Naval Reserve armory was completed last March the naval reserves moved out and the rats moved in.

Bishop Griswold's Will Is 30 Words; Estate to Widow

The will of the late Bishop Sheldon Munson Griswold of the Episcopal diocese of Chicago was filed yesterday with Mitchell C. Robin, clerk of the Probate court. It leaves an estate of $2,000 to his widow, Mrs. Kate Maxwell Griswold, 1314 Hinman avenue, Evanston. The will is of thirty words. The bishop died Nov. 28.

M'DONALD TRIES TO PACIFY HINDU AND MOSLEM ROW

[Chicago Tribune Press Service.]

LONDON, Dec. 12.—Prime Minister MacDonald, continuing his efforts to solve the crisis caused at the Indian round table conference by the Hindu-Moslem deadlock, today met representatives of both parties at 10 Downing street. The conversations are to be continued at Chequers tomorrow.

At a meeting with Hindu leaders tonight, Moslem representatives offered to accept the following terms: the Moslems receive a majority in Northwest province and the Sind and 52 per cent in the Punjab. In Bengal there shall be arbitration as to whether the existing Moslem majority shall be maintained or decided on the basis of population. The Moslems will abandon all claims to a separate electorate or reserved seats in the provincial councils of Hindu states, and are to be guaranteed 33 per cent of the representation in the federal legislature.

Prime Minister MacDonald, in a speech at Reading, tonight publicly rebuked Winston Churchill, Conservative statesman, for his "mischievous" attack on the round table conference yesterday.

Widow of Capt. Page, Killed at Chicago, to Get Medal

Washington, D. C., Dec. 12.—(AP)—Mrs. Florence Shaw Page tomorrow will receive posthumously the award of the distinguished flying medal to her husband, the late Capt. Arthur H. Page of the Marine corps, who was killed Sept. 1, 1930, at the Chicago air races. Capt. Page was cited for completing the "longest recorded blind flight."

ROB OIL STATION KEEPERS.

Petersburg, Ind., Dec. 12.—[Special.]—A lone bandit dressed in overalls with a handkerchief covering his face robbed Mr. and Mrs. John Weiniger, proprietors of a filling station ten miles east of here last night, of $300.

T. J. FORSCHNER, VATICAN KNIGHT, DIES SUDDENLY

Wealthy Contractor Passes at 64.

Thomas J. Forschner, millionaire contractor and prominent Catholic leader, died suddenly early yesterday of a heart attack after attending a bazaar at the St. Ambrose church, 47th and Ellis avenue. He was 64 years old and lived at 4800 Ellis avenue.

T. J. FORSCHNER.

Forschner was identified with big construction projects throughout the east and middle west, including government works and a water supply system for New York City. His latest project was the construction of the west side sewage treatment works for the sanitary district. Earlier in his career he owned and operated one of the first coal tipping mines in the midwest, near Linton, Ind.

During the Eucharistic congress in Chicago he was host to the late Cardinal Michael de Faulhaber, for whom he had a private chapel built in his home, and in February, 1927, he was made a knight of the Order of St. Sylvester by Pope Pius in recognition of his charitable work in the archdiocese of Chicago.

Mr. Forschner was a member of the Illinois Athletic, Lake Shore Athletic Calumet Commercial, and Olympia Fields Country clubs.

He is survived by his widow and one son, Alfred; four brothers, A. J. of Chicago, and Charles, John, and Frank of Cleveland; and three sisters, Sister Benedicta of the convent at Mundelein, which was built and donated by Mr. Forschner; Mrs. Schumann, and Mrs. Lakins.

Funeral services will be held Monday morning at the home and at St Ambrose church, with interment at Holy Sepulchre cemetery. Cardinal Mundelein and Bishop B. J. Sheil will attend.

LIEUT. HARMON, NAVAL VETERAN, TAKEN BY DEATH

Lieut. Charles Stanford Harmon, a naval veteran of the world war, died last night at the U. S. Marine hospital here. He was taken ill while at sea six months ago, while serving as an officer of the Panama Pacific Steamship company.

Born in Chicago, Mr. Harmon spent most of his life here. He was graduated from Cornell university in 1908. Surviving him are his widow, Mrs. Helen Skinner Harmon, and three children, Stanford, John and Jane. He was a brother of Mrs. Merrill C. Meigs of Evanston.

Funeral services will be held Monday morning at the chapel at 1253 North Clark street. Burial will be in Mount Hope cemetery.

Testator Talks His Will Into Phonograph; It's Legal

Des Moines, Ia., Dec. 12.—(AP)—A composition cylinder used in a recording machine, on which were reproduced the spoken wishes of the testator, was among the wills on file in the Polk County court clerk's office.

The will was dictated by Theodore Mantz, Des Moines attorney, in 1919, following an argument with friends as to its validity. The cylinder also recorded statements of witnesses.

Traffic Bureau Reports Reopening of Highways

The Central Traffic Bureau reports the following highways as having been recently opened to traffic: Illinois route 18, Ogden avenue between Lawndale avenu and Aurora; county route P Q, 95th street between Cottage Grove and Yates avenues; county route B K, Dixie highway, between Flossmoor and Volmer roads.

Watchman Shoots Coal Thief in Railroad Yards

Caught stealing coal in a railroad yard, Adam Rochem, 59 years old, 819 Lessing street, was shot in the knee yesterday by a private watchman. According to the watchman Curtis Threekeld, employé of the Chicago and North Western railroad, Rochem was filling a sack with coal from a chute in the railroad yards.

Gen. Funston's Son Leaps from Plane to Safety

Oakland, Cal., Dec. 12.—(AP)—Frederick J. Funston, 27, son of the late Gen. Frederick Funston, leaped from a spinning airplane 1,000 feet above San Francisco bay today and parachuted into the water. He was picked up uninjured. Funston, a student flyer, is training to be a commercial pilot.

Fidalia Dietmeyer, Pioneer Waukegan Farmer, Is Dead

Fidalia G. Dietmeyer, 82 years old, a retired farmer, died yesterday at his home in Wadsworth, five miles west of Waukegan. He had lived his entire life in and about Wadsworth.

Are Women Returning to the Clinging Vine State of Femininity?

BY DORIS BLAKE.

"There's only one opinion any woman ought ever to voice," wise cracked a humorous belligerent, "and it is, 'Yes, you're right.'"

"If women went shopping the world over for becoming opinions it would still be her best bet," she added. This, following an argument that started out in a friendly fashion at a social affair but which wound up in heated words between the woman quoted and a man.

"I only wish I had learned to speak the piece earlier," said she of the strong mind and forceful tongue.

The other day a noted woman lawyer was quoted as saying: "If I had a daughter I would bring her up to be a clinging vine."

Are women reverting to the helpless rôle? Or, wishing for a return of the old lean-to days? Or, is it just a reaction to the extremely feminine mode of dress and coiffure of the moment? It's hard to imagine women suddenly being able to cast off the independence that makes successful workers of them, with a mere change of frock. It's harder to conceive of our athletic, pursuing girls transforming themselves from competitors into vines clinging to so-called sturdy oaks. The oaks, too, are out of practice as supports.

It will be interesting to watch the new crop of girls who already seem to be having a better time of it with men than their too forthright predecessors. Their frocks, however, help their cause. They look more the girl that needs a broad shoulder or a strong right arm. But clinging in the old sense isn't their act, though they have somehow imbibed the lesson that a little helplessness is better than no helplessness at all.

Anyway, it is an interesting era of woman, one in which we sense a transition of one sort or another. The old order fed up on their self-important efficiency, the new ready to experiment with another code of behavior, perhaps a code that will find kindlier favor in male eyes. Nature must see to it that hostility between the sexes is not prolonged.

Anyway, we await with interest the new girl and her tactics.

DORIS BLAKE ANSWERS

Let Him Decide.

"Dear Miss Blake: I am taller than my friend. Does it make any difference? MINNIE."

If it doesn't make any difference to the boy friend, it certainly shouldn't make any to any one else.

Here's Your Grand Chance to Develop Your Own Coiffure

BY ANTOINETTE DONNELLY.

The one thing that may be said about coiffures of the moment is that here is your grand chance to be yourself. You do not have to take any one's advice unless you want advice about your hairdress. You don't need to try to imitate any one else. You can think up a new one if you like and if it is becoming you may be quite the most chic among your crowd. Long, short, or middlin', it is yours to do with what you will—providing you're not inclined to originality bordering on the freakish. You must maintain some decorum.

But speaking about taking advice, there's one who has learned that sometimes another person does know best. A strong minded female, she clung to a strong minded looking cut. Come a day when her eye was suspected of a lovelight. Suspicions were confirmed on six foot two evidence later. The girl went to a hairdresser with a reputation and a consistent price scale, but he sent her home happy and what an improvement!

If you're not sure about doing the very best by yourself try out a bit of advice. It is not always given to woman to be an impartial judge of her own good and bad points. A professional hasn't any prejudices and he may go ahead and do something unique and wonderful for one. That is, a skilled professional. All professionals are not that. But with the wide range in individuality permitted coiffures at the moment you can experiment—if you have the money! But what woman doesn't seem to have it for things of beauty?

Waves are wider and flatter, if anything. The idea is to have as smooth, soft and even an outline as can be had, which means sticking close to the natural contour of the head.

Those knots and coils at the back of the head should be flat, not bulbous as sometimes seen. They should fit snugly into the curve at the back of the head just above the nape of the neck. This placing makes a heap of difference in the shape of the head and in maintaining an unbroken line back there from crown to neck.

BEAUTY ANSWERS

MARIE P.: STRENUOUS EXERcise is necessary to reduce the bust. It must be done systematically every day at a certain time and for a certain length of time. Rowing, bag punching, and swinging Indian clubs are recommended.

MARY: IT IS SOMETIMES POSsible to reduce the flesh part of the nose with astringents. Avoid soups and foods from which steam arises. After the washup give the parts an ice rub. Cold shrinks and contracts.

Paris Matches Tiaras with Her Decolletes

BY BETTINA BEDWELL.

PARIS.—[Special Correspondence.]—Paris has taken to tiaras again. Yes, really! First nights at the opera and the Theatre des Champs Elysées remind the old timer of the early days of the Ballet Russes, when Russian princesses wore all the crown jewels complete, from diadem to shoe buckles, and diamonds, rubies, and emeralds were as common as crystals are today.

I suppose the princesses kept on wearing their tiaras to court presentations and other such exalted ceremonies, but it's a long time since they have been revealed to the outside eye of the general public.

Lucile, Ltd., is determined that tiaras shall not be limited to the reputedly uneasy heads of royalty. M. Rossi designs a strasse tiara to match the strasse embroidered back décolleté of the formal evening frock, sketched above. This tiara is pointed in front like a Russian kokoschnik, and it prettily outlines the shape of the head in back and keeps the curls in place.

The dress itself is of white satin, which is probably the most popular evening fabric in Paris now. The skirt moulds the hips tightly and becomes full towards the hem. The wide hip sash, tied at the right side, is a flattering solution of that old waistline problem. The deep V shaped back décolleté is outlined by an open work lattice of strasse. Two satin ends fastened to it on the shoulders are softly knotted in front and are weighted by strasse tassels.

A FRIEND IN NEED

BY SALLY JOY BROWN.

Unable to Buy Clothing.

"My husband has not had steady employment for more than a year and we are unable to buy clothing. The boys need overcoats and shirts, and my husband does, too. If I could get a couple of pairs of heavy draperies our flat would be easier to heat. We use the cook stove and, as two of the rooms have no doors, we find it hard to keep warm. My husband wears size 14½ shirts and 44 in a suit and overcoat. The boys wear size 15 and 16, and 13 and 13½ in shirts. "MRS. G. K."

With no income the problem of clothing for winter wear increases greatly. You can help to solve the problem here by giving the family the things they need to keep warm.

RESINOL WAY TO GET RID OF PIMPLES

Cleanse the skin and rid the pores of clogging impurities with Resinol Soap, then apply Resinol Ointment to heal the sore, inflamed pimples. This simple treatment, used daily, has changed many a coarse, blotchy, seemingly hopeless skin into one that is clear, smooth, and naturally lovely. Your druggist sells Resinol Soap and Ointment. Buy them today. You will find them invaluable for all kinds of skin disorders.

Former Head of Jesuit Order in Canada Dies

MONTREAL, Que., Dec. 12.—(AP)—The Rev. Telesphore Filiatrault, S. J., provincial head of the Jesuit order in Canada from 1896 to 1903, is dead at the age of 78.

Bright Sayings of the Children

Recently I was in the hospital and a 2 year old boy was brought in. While the nurse was giving this boy a bath she asked him if he was ticklish. The little boy answered seriously, "No, I am Polish." F. G.

On the first day of school when I found Janey's enrollment card was not filled out properly I asked,

"What is your father's name, Janey?"

"Daddy," said she promptly.

"Yes, dear, I know,' said I, "but what does your mother call him?"

"She doesn't call him anything. She likes him," said Janey. L. K.

FOOTBALL!

ARMY vs. NAVY

A listening world awaits the blast of the whistle that starts this epochal encounter. W-G-N brings it all to you, beginning with a description of the events that lead up to the game itself, including marching formations of the midshipmen and cadets.

THIS MORNING at 11:30

SUPER ATTRACTIONS All Day Long!

Beginning at 7 o'clock in the morning, W-G-N brings to your home the finest in radio entertainment! Whether it be the classics or the latest hit from Tin Pan Alley, real live musicians provide it. From news to drama your loudspeaker carries all the features that combine to give you interesting and entertaining programs. See details below.

DETAILS OF TODAY'S W-G-N PROGRAM

Saturday, December 13
(Central Standard Time)

DAYTIME

7 to 8:45—"On the 8:15"; Morning Devotions; Quaker Early Bird; Charley Hamp; Our Daily Food; Morning Melodies.
8:45 to 9—Bissell Pick Ups with Larry Larsen.
9 to 9:15—Larry Larsen's Mail Box.
9:15 to 9:45—Digest of the Day's News.
9:45 to 10—Larry Larsen.
10 to 10:15—Favorite Classics.
10:15 to 10:30—Teddy and Ben.
10:30 to 10:45—Mickelberry Maids.
10:45 to 11:15—American Institute of Food Products.
11:15 to 11:30—Larry Larsen; Tonecasters; "Painted Dreams."
11:30 to 3—Football—Army vs. Navy.
3 to 5:45—Teatime Musical: Edgar Scott, tenor; Larry Larsen; Tonecasters; Teddy and Ben; Art Lambrecht, baritone; Margaret Smith, soprano; Bob Greer in "Down in Dixie."
5:45 to 6—Little Orphan Annie.
6 to 6:15—Uncle Quin's Punch and Judy Show. Sponsored by Tastyeast.
6:15 to 6:20—Tea Room Pie Melodies.
6:20 to 6:30—Today's Financial Review. Sponsored by Standard American Corporation.
6:30 to 6:45—Ted Fio-Rito's Orchestra.
6:45 to 7—Harold Teen.

EVENING

7 to 7:05—Bulova Correct Time; W-G-N Syncopators.
7:05 to 7:15—Bluebird Diamond Program.
7:15 to 7:30—W-G-N Syncopators.
7:30 to 7:45—Strike Up the Band.
7:30 to 7:45—W-G-N Syncopators.
7:45 to 8—Roto and Color Feature.
8 to 8:20—Ted Fio-Rito's Orchestra.
8:20 to 9—Variety.
9 to 10—Lucky Strike Hour.
10 to 10:10—Tomorrow's Tribune.
10:10 to 10:20—Allan Grant, pianist.
10:20 to 10:30—Louie's Hungry Five.
10:30 to 11—Hal Gilles; W-G-N Symphony Orchestra; W-G-N Syncopators.
11 to 11:20—Bulova Correct Time; Ted Fio-Rito's Orchestra.
11:20 to 11:40—Clyde McCoy's Drake Hotel Orchestra.
11:40 to 12—W-G-N Syncopators.
12 to 2:15—Ted Fio-Rito's Week End Frolic.

FUNERAL RITES FOR PROF. MINER TO BE TOMORROW

Funeral service for Prof. M. A. Miner, 81 years old, who for 28 years was a member of the faculty of Northwestern university until his retirement in 1916, are to be held tomorrow afternoon at 2 o'clock at the home, 6446 University avenue. Burial is to take place Monday at Lake Geneva, Wis., his former home.

Mr. Miner died Thursday night of heart disease. He had been professor of chemistry and pharmacy at the university. He was a graduate of the University of Michigan in the class of 1871. He came to Chicago 55 years ago. Surviving are two daughters, Mrs. Mary M. Harris and Mrs. Eleanor M. Browne.

Andrew A. Leaf, Retired Dairyman, Dead at 81

Andrew A. Leaf, 81 years old, 1614 Washington street, Wilmette, formerly a partner in the A. F. Johnson Dairy company of Evanston, died yesterday at the home. He retired several years ago. Mr. Leaf is survived by his widow, one son, George W., and five daughters, Mrs. Violet Blacker, Mrs. Mary Burton, Mrs. Fern Olsen, and Miss Lillian Leaf, all of Evanston, and Mrs. Mabel Devine, now living in the Hawaiian islands.

Illinois Professor's Wife Dies in Champaign Home

Champaign, Ill., Dec. 12.—(AP)—Mrs. Queen Shepherd Green, 46, wife of Prof. Frederick Green of the University of Illinois, died today.

THE WORLD'S GREATEST NEWSPAPER

Charles Collins' News and Reviews of the Theater

SATURDAY, DECEMBER 13, 1930. ** 21

By Royal Command

BY DORNFORD YATES

SYNOPSIS.

Richard Chandos and his wife, Leonie, former grand duchess of Reichtenburg, are exiled at their estate near Littal, in Austria, by George Hanbury. A telegram arrives from Marya Salm, countess of Dresden, an expected guest, stating that she dare not come. Prince Paul, ruler of Reichtenburg, had hoped to marry Leonie and was incensed at her marriage to Chandos. Fearing for Marya's safety, because of her friendship for Leonie Chandos, and Hanbury, with their servants, Bell and Mowley, depart for Vigil, the city of Reichtenburg, where Marya resides. Because of the enmity of the prince they must enter the country in stealth. They drive to the frontier and leave Rowley with the car at a farm and proceed by foot. A peasant, named Ramon, whom they befriend leads them over the border by a secret path under a waterfall. They reach the home of Marya, unseen, and learn from her that she sent no message and that she plans to flee to Austria that night. Realizing the telegram was a ruse to lure them within the prince's dominion, they are preparing to flee with Marya, when the prince arrives. He has come to hold the prince and his servants at point of gun and escape in the royal car. But the border so closely guarded that hope of crossing it is abandoned. Chandos sends for Ramon, who lives in the nearby town of Gola. They seek him for aid. He offers to hide Marya and Carol, her trusted servant, in his house. Chandos and Hanbury join a traveling circus, where they feel fairly safe from discovery. They are planning to meet the circus and return to Gola, when Carol reaches them with a car to take them across the border, where he says Marya is waiting. They recognize the car as Grieg's, the chief of police. Arrived at the inn in Bariche, they receive another message from Marya, stating that she is to be pardoned, one condition being that she must leave Reichtenburg, and another that she does not communicate with them and that they must never enter the country again. They realize that Marya, endeavoring to help them, has made an arrangement with Grieg, to which they could never consent. They return to the farm where they left the car with Rowley. Bell is sent back to give word to Leonie. They attempt to cross the border at a different point. Hanbury and Bell pass the guards, but Chandos is apprehended and taken to jail. Chandos identifies himself to the inspector.

INSTALLMENT XVIII.

A COMMON ENEMY.

"And now," said I, "for my statement. The officers that took me are perfectly right. I was not leaving the country. I had that instant come in, I had come by car from Bariche as fast as I could."

"But, sir, you were two miles from Vigil at half past five."

"So Reubens told you," said I. "Well, Reubens told you the truth. I was within his horse lines at half past five. And at half past six I was at Bariche, at the sign of The Broken Egg. I crossed the border at Elsa, and I traveled in Maj. Grieg's car." There was a gasp of amazement. "He put me out of the country to serve some end of his own; but I don't much like his assistance, and so I came back."

With that, I described Grieg's chauffeurs and the inside of his car; and I bade them ring up Elsa and ask if this had not passed twice between six and seven o'clock.

They heard me out in a silence big with wrath, and seemed to be very willing to believe what I said.

"Tell me one thing, sir," said one of the plain clothes police. "Between Vigil and Elsa are they mending the road?"

I gave him back look for look.

"Yes," said I. "Some two miles this side of Elsa we passed a roller at work."

"That's right," said his fellow. "They started this afternoon."

"I can beat that," said I, and showed them the bill for the food we had had at The Broken Egg. This was dated and bore the name of the house.

"So you see," said I, "I shouldn't report to Grieg, I mean, he's let you down once."

A sound like a snarl of approval came from the uniformed police, but trouble looked out of the two detectives' eyes.

"It is done, sir," said the sergeant. "He must have learned that you have taken almost as soon as we."

"There is he?"

"At the seat of the Baron Sabre, who is away just now, whose cousin is."

"Baron Sabre." His was the spreading estate upon which we had lost the hearings four days before. If she was not at Vigil, the countess——

I wrenched my thoughts away and fingered my chin.

"Grieg's appointment is very recent. To whom would you have answered last night ago?"

"To the chief of police, sir. But this is a special job."

"I can well believe that," said I. "Never mind. The point is this: I've shown you that Grieg is a blackguard, and——"

"You have that, my lord," mouthed the inspector. "A price of five hundred pounds had been set on your lordship's head."

With his words, the scales fell from my eyes. By making my disclosure I had done better than I knew. Grieg might be a traitor, but he was also a fool. By putting me out of the country he had wilfully taken the bread out of his subordinates' mouths. That I had restored it so handsomely was beside the point. Every man in that room was thirsting to bring Grieg down.

I pressed my advantage home.

"And on those of my friends?"

"Two hundred and fifty, my lord."

"Well, that's gone," said I. "They went with me to Bariche and you'll never see them again." The inspector choked.

"And now, as I was saying, the point is this. The moment Grieg learns that I'm here, his one idea and object will be to—to shut my mouth. He will, therefore, come here to get me and take me away alone. Well, I don't mind standing my trial, but I've no desire to be murdered—you know what I am."

There was a pregnant silence.

At last a detective spoke.

"Will you write out a statement, sir, of all you have said?"

"With pleasure," said I, rising.

"That we can take, with the bill from The Broken Egg, and show to the chief of police."

"If you write it at once, sir, we will return to Vigil and go to his private house. Then he will give us an order which Maj. Grieg dare not defy."

"And if he comes while you are gone?"

"He will not, sir," said the sergeant. "He will not come before day."

I took my seat at the table and started to write.

My statement must have read very ill, for I am no German scholar, and though I can speak well enough that unattractive tongue, I could not write correctly one-half of the words I use. Besides, I wasted no time, for I knew I had spoken the truth and that Grieg, full ripe for murder, was on his way.

One lie only I told, and that was that George had set me down at Sallust and then gone with Bell to Littal to comfort my wife.

Then I subscribed my name, and pinned to the sheet the bill of The Broken Egg.

"I think," I said grimly, "I think that should fix Maj. Grieg."

"Sir," said the sergeant, "you have just signed his death warrant."

With his words came the squal of brakes, and then the heavy slam of the door of a car.

In a flash I had slipped the statement under a blotting pad.

"What did I tell you?" I said.

As I spoke I saw my pistol lying there on the table six inches away.

"By your leave," said I, and whipped it into my pocket before they could stop me. That no one present protested argues, I think, that they liked me no better than Grieg.

Then I stood back from the table and turned to the door.

The next instant this was opened, and Grieg flounced into the room.

"What does this mean?" he rasped. "Why isn't this man in a cell?"

"I've been making a statement," said I. "I was just going to write it here."

"You can write it at Vigil," he said.

"Don't you want to hear it?" said I. "It's a very extraordinary tale."

I heard the man suck in his breath.

"If you think it worth repeating, you can tell it to me as we go."

I raised my eyebrows.

"Go, me," said I. "Where are we going this time?"

I thought the fellow would strike me, for he started forward and thrust his face up to mine.

I gave him back look for look.

"I dined at Bariche," I said. "And I've got the receipted bill. And it's for Grieg,——dated."

"You—you rave," he said thickly. He turned to the table and struck the wood with his hand. "Make out a receipt for this prisoner. He goes with me."

"Alone?" said I.

"Alone."

I addressed the boggling inspector.

"You will please record my protest. For reasons which I have given, I will not to travel alone with Maj. Grieg."

"Make out the receipt," Grieg roared.

With a shaking hand, the inspector picked up a volume and sought for a

Evelyn Brent Brings 3 Stars to This Talkie

Though the Plot Is Clear Almost at Start.

"MADONNA OF THE STREETS."

[ALTALKER]

★ ★ ★

[One star means fairly good; two stars, good; three stars, excellent; four stars, extraordinary; no stars—just another movie.]

Produced by Columbia.
Directed by John Robertson.
Presented at the Palace theater.

THE CAST.

May	Evelyn Brent
Morton	Robert Ames
Slungullion	Ivan Linow
Marion	Josephine Dunn
Clark	J. Edwards Davis
Blink	Zack Williams
Ramsey	Ed Brady
Kingsley	Richard Tucker

By Mae Tinée.

Good Morning!

This interesting little picture owes its best moments to Evelyn Brent, whose charmingly restrained performance is a delight to watch.

You meet her as May Fisher, one time mistress of a recently deceased Mr. Crane, who had loved her deeply and been warmly cared for in return. He had meant to leave May his fortune—but a speeding motor had done for him while on his way to the office of Lawyer Kingsley to change the will in which his nephew had been named as sole beneficiary.

"But he WANTED me to have the money! It's MINE!" May Fisher is saying to Mr. Kingsley when the picture opens.

"I KNOW he did and, morally it IS yours," the attorney replies, "BUT—legally you have NO claim. My advice to you, both as your friend and your lawyer is—forget it!"

May, however, has no intention of following this advice. In San Francisco, where Morton, the nephew, runs a retreat for down-and-outs, two poor girls appear. One assists the other, who, she claims, she has found starving and about to commit suicide, into the presence of Morton. He, full of zeal to save the sorrowful, takes the lass under his wing. . . .

Can you guess the rest? Most of it I'm sure you can. The story is fairly obvious from the start. It is, however, well staged, intelligently directed, and capably acted by Robert Ames et al. Sound and photography please. The lines are acceptable and sincerely spoken, and toward the end there's a darb of a riot in Mr. Morton's mission.

A good picture, which Miss Brent's performance alone would make well worth seeing.

"PASSION FLOWER."

★ ★

Produced by Metro-Goldwyn-Mayer.
Directed by William De Mille.
Presented at the Oriental theater.

THE CAST.

Dulce Morado	Kay Francis
Kathry Pringle Wallace (Casey)	Kay Johnson
Dan Wallace	Charles Bickford
Le Roy Pringle	Winter Hall
Antonio Morado	Lewis Stone
Mrs. Herney	Zasu Pitts
Tommy	Dicky Moore

"Passion Flower" is the adaptation of a Kathleen Norris story—and this author's works are always richly human and invariably interesting.

The screenization has caught much of the appeal of the original, but the characters as portrayed somehow failed to be entirely convincing to me. This, however, is merely a matter of opinion, and yours may differ with mine. Certainly the acting is splendid and the film delectably larded with laughs. Many of the chuckles are inspired by Zasu Pitts, who is amusingly droll as a certain lugubrious Mrs. Herney. Others are brought forth by remarks of two children in the cast. Thus:

Tommy's father, who has been away a long time, comes home, and Tommy calls to his little brother who had been a babe in arms at the time of dad's departure, to "Tum see favver!"

"Our favver which art in hebben?" queries the little one in the kiddykar.

"No, six one is a friend of mommy's," Tommy replies.

Then there is Tommy struggling with his prayers:

"Now I lay me down to sleep; pray the Lord my soul to keep—if he hollers lettim go, eeny meeny miny mo!"

The story concerns the love of two lovely and high-born ladies for a chauffeur—whom one of them marries. Never, I would say, was Jehu so desired by two such charmers (Kay Johnson and Kay Francis). Mr. Bickford as the prince in puttees makes plausible this yen. There, you think, is a man.

Except for some jerkiness as to continuity, the picture is technically commendable, and I really think that, as a whole, you'll find it charming.

STOCK'S ORCHESTRA PLAYS BACH CONCERTO; YANKEE'S PIECE, TOO

BY EDWARD MOORE.

Lacking a soloist on yesterday afternoon's program, the Chicago Symphony orchestra went deeper into musical achievement than it has been able to do some of the times when it had one. For this several elements are responsible. The orchestra itself was one. The music that it played was another. Mr. Stock, who selected the music and directed it, was a third. The triple combination was irresistible.

The concert began with the sixth of Bach's Brandenburg concertos, the one which was written for several kinds of archaic string instruments and is now played by violas, cellos, and double basses. It passed from there to the first Chicago performance of Howard Hanson's "Nordic" symphony.

Mr. Hanson, or rather, let us be exact and call him Dr. Hanson, is an American composer who was born in Nebraska thirty-four years ago, took the Roman prize in 1921, wrote the "Nordic" while residing in Rome, and is now the president of the Eastman school of music in Rochester, N. Y. This symphony definitely enrolls him as a user of the modern musical idiom who has something to say.

The distinction is important, how important one does not know until one has plowed through running feet and acres of musical mannerisms with nothing behind to justify them. Dr. Hanson has plenty. He has written a dignified, impressive piece, put it into the definite logic of music, stated it fluently and entertainingly. Once in a while there is something in modern music, after all. The percentage runs about as high as it does in music of any other era.

Following the intermission came the first of three virtuoso exhibitions by the orchestra. The first was Ravel's suite of what he calls orchestral fragments (second series) from his ballet, "Daphnis et Chloé." So brilliantly was it played that Mr. Stock, declining to take applause for himself, signaled the musicians to their feet and clapped his hands as vigorously as any one in the audience.

Then came Richard Strauss' "Till Eulenspiegel," another breath taking stunt, and finally Mr. Stock's own "Symphonic Waltz." A day or so before he had explained in great detail that the reason he included it was that the program needed eight minutes more of music. That was his point of view. Mine is that it is a bully piece of music, a waltz of the most ingratiating kind.

Sorority Luncheon Today.

The Chicago alumnae chapter of Gamma Phi Beta sorority will hold its monthly luncheon today at the Woman's University club.

Mrs. Junkin Gives $150,000 for Cathedral

Edifice Now Being Built in Washington, D. C.

A gift of $150,000 by Mrs. Francis T. A. Junkin of Chicago, widow of Col. Junkin, toward the completion of the national Episcopal cathedral in Washington was announced last night. It was reported by former U. S. Senator George Wharton Pepper of Pennsylvania at a dinner in the Blackstone hotel. Two hundred Chicagoans attended the dinner, given by Mrs. Junkin in honor of the Rt. Rev. James E. Freeman, bishop of Washington, D. C.

Bishop Freeman said the cathedral in time will be a sort of Westminster Abbey for America. Already a number of men who figured in American public life lie buried within one of the completed portions of the structure. Among them are President Wilson, Admiral Dewey, Ambassador Henry White, and Melville E. Stone.

The $150,000 gift is for a memorial to the late Col. Junkin. He formerly served as a member of the national cathedral committee.

"The idea of the great cathedral first was voiced by George Washington," Bishop Freeman declared. "In planning the nation's capital he specifically suggested building a great church for national purposes. The church now being erected on Mount St. Alban is an expression of what God means to the American people. It is a power house of religion which will give new significance to the national declaration, 'In God we trust.'

"While it bears the name of one of the religious bodies of the country, the Washington cathedral is too vast in its dimensions to be a house of prayer and worship for any exclusive group."

Mrs. Junkin and Bishop George Craig Stewart of Chicago also spoke. As part of the program a motion picture of Gen. John J. Pershing, general chairman of the national cathedral organization, explaining the plan of the structure, was shown. A musical program was provided by Florence Trumbull, pianist, and the German baritone, Hans Hermann Nissen.

Among those who presided over tables at the meeting were Mrs. Richard T. Crane Jr., Mr. and Mrs. John J. Abbott, Mrs. Rensalaer W. Cox, Mrs. Jacob Baur, Chauncey McCormick, Mr. and Mrs. Henry Bartholomay, Mr. and Mrs. E. F. Swift, Dr. and Mrs. Wilhelm Ludwig Baum. Among the guests were Princess Alexandra Victoria of Schleswig-Holstein and her husband, Capt. Arnaud Reumann.

Einstein at 'Carmen'; Declines Invitation to Wagner's 'Siegfried'

New York, Dec. 12.—(AP)—After having turned down an invitation to witness a German opera, Prof. Albert Einstein tonight went to the Metropolitan Opera house to see a Spanish opera written by a Frenchman—Bizet's "Carmen."

Mme. Jeritza sang the rôle of the gay cigaret girl, and many of her bows acknowledging applause were toward box 48—the box of Giulio Gatti-Cassaza, general manager of the Metropolitan—in which sat the white haired mathematician and his party.

Upon his arrival in New York Prof. Einstein expressed a desire to attend an opera performance. The Metropolitan impresario immediately extended an invitation for him to see Wagner's "Siegfried," which was performed last night. The professor said he did not care to see a German work particularly. When told that Jeritza was to sing "Carmen" tonight he said:

"That is what I want to see."

The professor dined aboard the Belgenland, on which he arrived earlier in the week, and motored early to the opera house.

Hardly any one in the audience during the first act knew that Prof. Einstein was in attendance. When the orchestra musicians took their places before the second act, however, they centered their attention on his box. Those in the audience also looked up to see who was there.

Prof. Einstein was quickly recognized and he received an ovation lasting many minutes and ending only after he had motioned for silence as if to speak. When quiet was restored, however, he smiled and sat down and the orchestra struck up the introduction to the second act.

During the second intermission the audience again gave the mathematician uproarious applause.

Clubwomen Hear Professors Talk on City Manager Plan

Delegates from the Chicago Woman's club, the Illinois League of Women Voters, the Women's City club, and numerous other organizations met at the Women's City club yesterday. They held an all day conference on the city manager form of government.

Prof. A. R. Hatton, head of the department of political science at Northwestern university, and Prof. Leonard D. White of the University of Chicago political science staff addressed the women.

Prof. Hatton has a bill for the next session of the legislature to establish city manager government in all cities whose population exceeds 5,000.

Mrs. May Wood Simons, member of the faculty at Northwestern, represented the Women's City club and was chairman of the conference.

THE STAGE

THE uncertainty regarding the future of the Blackstone theater, announced in yesterday's TRIBUNE, will not affect the approaching engagement there of George M. Cohan in his revival of "The Tavern." Mr. Cohan's performances of this play, famous for its catch line, "What's all the shooting for?" will begin Sunday evening, Dec. 21, and will continue for three weeks, or until Jan. 10.

The long term lease under which the Blackstone was operated by Harry J. Powers and his associates of the Erlanger group expired recently and was replaced by an agreement subject to cancellation on six months' notice. Other than "The Tavern" the Blackstone has no formal bookings for the rest of the season. There is, however, an understanding with the Theater Guild which enters into the problem of the Blackstone's future.

"Our present arrangement," said Harry J. Powers last night, "is now under discussion with the owners, the Drake Hotel company, and announcement of final decision will be made in due time."

Robert Sisk of the staff of the Theater Guild commented upon the situation as follows:

"Whatever happens, our season will go forward in Chicago, perhaps in another Erlanger theater, and our plans for Chicago will not be affected either for this or future seasons.

The Blackstone theater is now approaching its twentieth anniversary. It was dedicated on New Year's eve, 1910, with George Ade's comedy "U. S. Minister Bedloe," with William H. Crane as star. C. C.

Students Pick Leaders of U. of C. Washington Prom

Leaders of the annual Washington prom of the University of Chicago were announced yesterday by the undergraduate student council. Leaders of the right wing will be Miss Jean Searcy, 7218 Coles avenue, a senior aide, and Dale Letts, 416

JEAN SEARCY.

MARJORIE CAHILL.

Washington avenue, Elmhurst, holder of the Big Ten conference record for the outdoor ½ mile. Left wing leaders will be Marjorie Cahill, 5307 University avenue, member of the student council, and George Mahin, 110 South Kenilworth avenue, Oak Park, Black Friars player. The prom will be held Feb. 21, probably at the South Shore Country club.

Scott Predicts Northwestern's Rapid Growth

Sees Air Field as Part of Campus.

Northwestern university ten years hence was pictured last night with a campus extended a quarter to a half mile out into the lake, with an airplane landing field and 30 new buildings. The drawing was done in words by President Walter Dill Scott at a dinner given by men of the faculty in honor of the tenth anniversary of his administration.

"Ten years ago," he said, "much of our present campus was a hay field. The annual hay cutting was an item of some importance."

"East of the new campus probably will be a lagoon," he added, turning to ten years hence, "and still farther out in the lake a public park, an airplane landing field and a boulevard."

The rate of three building a year on the campus had been maintained for eight years, Mr. Scott pointed out. A dormitory, a music building, and a library will be built during the next year.

"This rate of building," Mr. Scott asserted, "should be continued or even increase in the next ten years. As soon as possible the least desirable of the present buildings on the Evanston campus will be razed. The architectural plan approved eight years ago will be continued."

President Scott hinted changes in the method of instruction.

"Just what these changes will be no one knows," he said, but he revealed that new schools of domestic science, a graduate school of business administration, and schools of aviation, criminology, personnel, and religion are contemplated.

"The honor system in examinations has failed and has been discarded," he said, "but in my judgment we will never be satisfied until the honor system has been restored and made effective."

The faculty members were given a bit of advice when Mr. Scott predicted that in the future teaching skill rather than achievements in research will be rewarded.

"Teaching," he declared, "is the most useful type of development that can be attained by a member of the faculty."

Students will be entrusted, he said, with an increasingly higher degree of self-determination in the selection of courses. He added, "Our philosophy of education probably will direct us more and more to the individual and to his training in the interest of his health, his prosperity, his character and his wisdom."

Dr. Franklyn B. Snyder, professor of English, acted as toastmaster at the dinner andd addresses were made by President Scott's brother, Dr. John Scott, professor of classical languages; Arthur Andersen, president of the board of trustees, and Dean Thomas F. Holgate.

More Chicago Youths Win Student Honors at Illinois University

Urbana, Ill., Dec. 12.—[Special.]—Chicago boys continue to achieve honors on the University of Illinois campus. Out of 27 youths initiated into Tau Nu Tau, national honorary and professional fraternity for military engineers, six hail from Chicago. They are D. A. Baker, 5344 Stony Island avenue; R. A. Forsberg, 5340 Wayne avenue; R. A. Johnson, 4918 North Seely avenue; F. L. Ketcham, 7329 Indiana avenue; C. M. Niseley, 11311 South Church street, and J. M. Peterson, 6250 North Oakley avenue. Six of the 16 men to receive full mention in a class B project problem of the Beaux Arts Institute of Design in New York City are also from Chicago. The title of the project was "A Monastic Chapel."

Among those receiving the awards are H. G. Cadd, 7531 Kenwood avenue; A. A. Gould, 2117 Caton street; R. E. Hult, 5753 North Sacramento avenue; F. J. Papodolulos, 6351 Glenwood avenue; C. G. Rummell, 6408 Bosworth avenue, and S. E. Whalley, 4226 West Van Buren street.

Among the committee named to be in charge of arrangements for the annual military ball which will be held some time in February are the following Chicagoans: C. O. Bernard, 5054 North Leavitt street; W. P. Burgland, 3534 Wilton avenue; J. B. Dinsmore, 9218 Longwood drive; H. J. Boys, 4423 Sheridan road; Otto R. Hills, 580 Surf street, and T. B. Waddell, 5315 Agatite avenue.

Pious Mexicans Parade to Guadalupe Shrine in Yearly Ceremony

MEXICO CITY, Dec. 13.—(AP)—Tens of thousands of pious Mexicans streamed along the roads to the suburban village of Guadalupe today to pay homage in a one year celebration to Nuestra Señora de la Guadalupe.

Today is the 399th anniversary of her supposed miraculous appearance on the site of Guadalupe cathedral, the most revered spot in Mexico. Faithful Mexican worshipers attribute to her all the good that has come to their country since.

Mass, which began at midnight, continued uninterruptedly throughout the morning, while long lines of policemen, pressed into service, maintained order and kept the cathedral from being overcrowded.

At the Virgin of Guadalupe's shrine in the cathedral is a cloth within a thick glass case. It is believed to be the mantle which the Virgin gave to Juan Diego, a lowly Indian, on this spot nearly four hundred years ago, with instructions to the Indian to carry it to his bishop as a symbol of her desire that a shrine be erected there.

Seventh Ward Show Brings Christmas Basket Money

Amateur performers, members of the Seventh Ward Republican club and their friends, last night staged a benefit show at the Eighth Street theater. Nearly 1,000 persons attended. It was estimated that the proceeds, which will be used to buy Christmas baskets for needy families in the Seventh ward, would total $2,000. Mrs. George E. Q. Johnson, wife of the United States district attorney and club president, directed the play. William A. Froelich, first assistant attorney general of the United States.

Back to College Move Urged as Way to Jobs

Des Moines, Ia., Dec. 13.—(AP)—Representatives of nine Iowa colleges today organized "back to college" movement as a means of unemployment relief. In a formal resolution, they asked business firms to canvass their personnel for young persons desiring to go to college and that business firms as well as individuals and clubs lend financial aid to such persons, employing heads of families now unemployed to fill their places. The committee hopes to have the students return to school in February.

Novelties at Threshold of Smart Homes

BY THALIA

SOMETIME I should like to take an elevator trip from the top to the bottom of the 1301 Astor street building, just to see the different vestibules. Each one is a sample of the decoration within its corresponding apartment, and I'm told they're all terribly smart. The apartments are, of course, the very last word. Anybody who has ever seen one of them can tell you that.

The vestibule—the word sounds old fashioned, but it's correct, according to Mr. Webster—to the Potter Palmers' new story abode is completely mirrored, and Frederic Clay Bartlett's has a pair of chairs painted on the wall, with real rugs and arms fastened on. In the Palmer apartment are many of the things that belonged to the late Mrs. Potter Palmer, and the background has been done in a modified modern style that harmonizes with them.

There is a great deal of white used in the apartment, I believe.

Antique Screens Give Added Touch to Drawing Room.

The antique panel screens that used to adorn the north drawing room of the Palmer mansion are now in the mammoth drawing room that occupies an entire floor of the apartment. Probably the most modern part of the home is Miss Bertha's bathroom which is all done in black, a decorative inspiration that has been appropriated by other tenants in the building.

Mrs. C. Morse Ely's dining room is another of the interesting spots in the building. The room is in silver, gold, and black and is modernism in its most striking phase. The chair rail is composed of three horizontal strips of gold, silver, and black glass, and above it waving palm fronds decorate the walls. For dinner parties, there is an immense sheet of mirror, edged with black etched glass that completely covers the table, and some silver and glass ornaments that go with it. One of Mrs. Ely's recent dinner guests who wondered about it neglected to ask her where the mirror was kept when it isn't on the table.

Junior League Theater Chauve Souris Starts Today.

The Junior league's children's theater executives will breathe a long and deserved sigh of relief after the first performance of their children's Chauve Souris at the Selwyn this morning. The complications of preparing the production have been legion, taxing their patience and capabilities to the utmost.

There is a cast of 40 or 50 to give the program of characteristic Russian sketches, such as the "March of the Wooden Soldiers," "Katinka," the "Swiss Music Box," and some new and original numbers written by junior members. One of the tense moments for the girls behind the scenes will be when Booley and Filia Maher, the Philip Mahers' children, march in with lighted candles in the final scene, "The Boy in the Meadow," based on a German Christmas legend.

Mrs. Walter Paepcke, who, with Mrs. Maher, has designed the scenery, has loaned some perfectly beautiful Oriental shawls and aprons to be worn in "The Boy in the Meadow."

Miss Katrina McCormick's debut reception is taking place in Washington, D. C., this afternoon, but so far as can be discovered none of her or her mother's Chicago friends could get away to go east for it. Ruth Hanna McCormick is expected in Chicago after Christmas on some political business, but Katrina is to remain in Washington for the season, and there are no social affairs planned for her here.

Various Parties, Etc., of the Next Few Days.

Divers parties for those they concern are, chronologically . . . The reception and buffet supper Mr. and Mrs. Raymond L. Redheffer are to give at their apartment at 1430 Lake Shore drive tomorrow afternoon for the distinguished English pianist, Miss Myra Hess, after her concert at the Studebaker. . . . The Friends of Opera meeting on Monday afternoon at the Drake ballroom with Mme. Maria Rajdl, Charles Marshall, and Hans Hermann Nissen giving the program. . . . The 10th wedding anniversary of Mr. and Mrs. Royden James Keith [Maria Morrissey] are to give at Chez Keith, 999 Lake Shore drive on Saturday, the 20th. . . .

The Sunday night supper the young Edward L. Hersheys Jr. are to give at the Saddle and Cycle for Virginia Waller, Winifred Wheeler, and Betty Bissell on the 21st. . . . The Kenwood Social Service club's annual theater benefit party for "Berkeley Square" at the Selwyn on the 29th [Mrs. Albert S. Cummins, ticket chairman, is giving a tea at her 50th street residence on Monday for her committee].

Miami Beach is confidently optimistic that the crowd of Chicagoans who were there last year will repeat their visit this season. They may—it's quite true—and I think tentative reservations have been made by some of them for quarters for themselves and the ir ponies, but none of them are committing themselves about definite plans as yet.

Daytona Beach, south on the shore from St. Augustine, may have a little contingent of Chicagoans this year, but that isn't certain either. Mrs. Joseph G. Coleman has been thinking some of going there, but hasn't definitely decided.

More Apropos Debutantes; Weddings; Other Events.

More about debutantes: The James B. Martins will introduce their daughter, Miss Jane Martin, at a tea at their Highland Park residence this afternoon, The Charles Garfield Kings and Miss Barbara King will give a dinner at the Casino this evening for Miss Elsa Armour before the ball the Thomas C. Dennehys are to have at the Blackstone for their debutante, Miss Josephine Denneby. Mr. and Mrs. John A. Stevenson will be hosts at a supper for Miss Helen Stanley tomorrow night at their apartment.

The marriage of Mrs. Theresa Gross Thomas to Rene Paul Travelletti will be solemnized quietly this afternoon at the Evanston residence of Mrs. Thomas' parents, Mr. and Mrs. Alfred R. Gross. Mrs. Thomas will be attended by her sister, Mrs. George Blakeweather Haskell, and the groom's brother, Bruno Travelletti, will be best man. The Travelettis have leased the Norman Crawford residence in Winnetka, and will move in after the first of the year.

MAKES DEBUT

MISS RUTH CROSSETT.
[TRIBUNE Photo.]

ABOUT 200 young people were guests at a dinner-dance given last night by Mr. and Mrs. Edward Clark Crossett of 1200 Lake Shore drive for their debutante daughter, Miss Ruth Crossett. The debutante, her mother, and her sister, Miss Betty Crossett, who came out formally last season, all wore gowns of white satin. Miss Ruth's was a brocaded princess model, and her only jewelry was a necklace of pearls.

American Students at Rome's Church College Obtain High Honors

ROME, Dec. 12.—(AP)—American students in the Catholic North American college here, when they return to their homes in the United States, will carry with them some of the highest degrees and honors of the institution.

The degrees were announced yesterday at the Pontifical College for the Propagation of the Faith. Nineteen degrees of doctor of theology and five of doctor of philosophy were conferred on North American college students and lesser degrees were given 86 others.

The new doctors of philosophy from the United States include Joseph O'Leary, Altoona, Pa., and Richard Hommrich, Louisville, Ky. Pierre Delaney, St. Louis, Mo., and Joseph Humanski of Cleveland, O., were among those taking first honors in the school of theology.

Three first honors in theology were taken by Joseph McCarthy of Bethlehem, Pa.

Those receiving the degree of doctor of theology included John Grellinger, Milwaukee, Wis.; Barnard Kieffer, Louisville, Ky.; Alphonse Manley, Scranton, Pa.; John Cullinen, Altoona, Pa.; Kenneth Spurlock, Leavenworth, Kas.; Paul Potgens, San Antonio, Tex., and Edward O'Flaherty, Los Angeles, Cal.

Two Americans, Paul Richter, Columbus, O., and Stanislas Ormsby, Niagara Falls, N. Y., shared first honors in Hebrew with eight others.

* *

Yankee Envoy to Sweden Here to Visit Relatives

John Motley Morehead, United States minister to Sweden and former resident of Chicago, will arrive with Mrs. Morehead at 9:45 a. m. today over the New York Central Lines for a holiday visit with members of his family and friends. They will be the guests of Mr. Morehead's brother-in-law, Ira C. Darling of 256 Kenilworth avenue, Kenilworth.

* *

Company to Give Staff a Holiday for Shopping

The offices and middle west plant of the Jewel Tea company at Barrington will be closed all day today to permit employés to do Christmas shopping, it was announced yesterday. The company also will distribute bonus checks, based on merit, to employés of its general offices today.

* *

WASHINGTON SOCIETY

Washington, D. C., Dec. 12.—[Special.]—Mrs. Edward E. Gann was given a luncheon today by Mrs. Frank W. Mondell, wife of a former representative from Wyoming.

The secretary of state and Mrs. Stimson gave a dinner this evening at Woodley, their suburban home. The company included the American minister to Uruguay and Mrs. J. Butler Wright, the latter formerly Miss Harriet Southerland, daughter of Admiral W. H. H. Southerland; Maj. Gen. and Mrs. William Crozier, Mr. and Mrs. Keith Miller, Capt. and Mrs. Charles Russell Train, Mr. and Mrs. Edwin S. Cunningham, Mrs. Matthew A. Delaney, and Capt. Regnier, U. S. N., aid to Secretary Stimson.

The speaker and Mrs. Longworth have as their guests the latter's brother-in-law and Mrs. Richard Derby of New York.

Mrs. Mitchell, wife of the attorney general, was the guest of honor at the luncheon given today by Mrs. Wade H. Ellis. The other guests were Mrs. Butler, wife of Associate Justice Pierce Butler; Mrs. Stone, wife of Associate Justice Harlan Fiske Stone; Mrs. Howard Sutherland, wife of the alien property custodian; Mrs. Peyton Gordon, Mrs. E. A. Harriman, Mrs. Everett Sanders, Mrs. George C. Thorpe, Mrs. Philip Pitt Campbell, Mrs. Charles A. Douglas, and Mrs. J. Harry Covington.

Representative Ruth Hanna McCormick, among those receiv[illegible] guests at the tea and musical this afternoon at the National Woman's Country club. Several other members of the board of governors assisted the president, Mrs. Walter Tuckerman, who headed the receiving line.

Representative McCormick will introduce her daughter Katrina to society tomorrow afternoon at a reception at the Carlton hotel. She will give a ball for her later in the month.

* *

Christmas Party Today.

The Chicago alumnae chapter of the Zeta Tau Alpha sorority will hold its annual Christmas party this afternoon at the residence of Miss Mary Patrick of 6030 Kimbark avenue.

If in Doubt, Here Are Tips About Shopping

BY KATHERINE KELLEY.

When Mr. Business Man begins losing sleep over what to give his wife for a Christmas present that is different from the wrist watch last year, or the golf set the year before, he can find a cure for his insomnia by turning to his small daughter for a pointer or two.

All he needs to do is to watch the tiny homemaker busy herself over a very important doll tea party. If Mr. Business Man is of a psychological turn of mind, he will know that any woman adores dishes, and silver and glassware to the extent that she could fill every available cupboard shelf in the house with them and then not have too many.

In loop department stores yesterday shoppers crowded the aisles of the dish sections admiring the new patterns and bright colors in china, the shining pewter and silver and copper, and the hundred and one small gifts, the odd knicknacks and knickshaws that add a bit of homey atmosphere to an apartment or house.

Many of the buyers were men. Others were women who looked longingly at fragile eggshell china with its shamrocks of old Erin, sets of Wedgewood, Lennox, dainty Haviland, charming breakfast sets in gay colors, and splashed with flowers and bright designs.

If there is ever a place where one can buy a gift at his or her own price this Christmas, it is in a china shop. Gifts may be bought from twenty-five cents all the way up to $3,500. The man who is looking for the right gift for his wife of course will be most interested in sets of china, service for twelve, or sets of stem glassware. Or he may like to buy a dozen service plates each with a different picture in the bowl painted by hand by a master artisan.

The best makes of dishes, thought by the majority of people to be too expensive even for Sunday use, are readily very reasonable, it was found yesterday. There are patterns in these that can be bought as low as $78 for a service of twelve. The average man can find a $35 dinner set of as pleasing patterns as those four times as high. Semi-porcelains come in many new colors, and all china in design varies from the earliest patterns to the modernistic.

It is in the gift aisles that many a shopper will find just the present for that person who is the hardest on the list to please. Take the cookie jar. Aunt Mary may be a millionaire's wife but it is a safe guess that she will go into ecstacies over an old brown stone cookie jar much like the one that she snitched cookies from as a small girl. Probably the most popular small item in dishware this season is the cookie jar, which comes in bright colors, or well sprinkled with flowers, with willow handles, square or round, and all with lids.

Breakfast sets and waffle sets as bright as a fresh bouquet of flowers are favorites with many a young bride. A breakfast set in pink or green, glaze ware with square shaped dishes, saucers, and even square cups, can be bought for only $3.50, a service for six. A glaze ware bridge set of four plates with cups to match can be bought for $1.50. Waffle sets with a jug for batter, sirup pitcher, six plates, coffee cups, and saucers in solid colors or flowered are priced as low as $5, and are especially useful for a Sunday night supper.

There are trays of English inns or with floral centers lacquered in bright colors for $2.50, and ice box nests, meaning three covered jars of different sizes to keep left overs, for $1 on up. There are pieces of pewter that can be bought for $1, ash trays, and nut, and candy dishes for the bridge table.

There are clever little pepper grinders to be used at the table, bathroom beakers in colors for only twenty-five cents, table thermometers in porcelain stands, made like a speedometer on an automobile and as easily read, danity place card holders of fragile Dresden, and Italian nut cups. There is pressed glassware that harks back to grandmother's day—amber, or green, or pink—containing in the set, cups and saucers, nut dishes, and salad plates. There is any end of stemware for any occasion from twenty-five cents each, on up.

Will Talk on Russia.

The Chicago branch of the American Association of University Women will hold a luncheon meeting today at the Chicago Woman's club. Mrs. Malbone Graham, who returned recently from Russia, will speak on "The Human Element in Soviet Russia's Problems."

Plans Rockets with Devices to Test Space

Roswell, N. M., Dec. 12.—(AP)—Perfection of automatic recording devices to ride in rockets and take a scientific peek into the atmosphere fifty miles from this old world are occupying Dr. R. H. Goddard in his rocket camp near here.

Dr. Goddard has perfected the long distance rocket to his own satisfaction together with automatic stabilizers of his own design and within two or three months hopes to launch these rockets carrying the recording devices which will bring back news of the upper air strata.

Until then, Dr. Goddard declines to talk for publication from here and his progress is recorded in reports to the Smithsonian institution, which is supporting his experiments with funds supplied by the late Simeon Guggenheim at the suggestion of Charles A. Lindbergh.

Dr. Goddard, with a group of assistants established quarters here last spring, believing that the atmospheric conditions over the Roswell section in New Mexico lend themselves more perfectly than any place else for the successful launching of the rockets.

The automatic recorders, now the subject of perfection would carry timing and distance recording devices and a small air chamber which would capture a sample of the atmosphere fifty miles in the air. The recording bullet would have a small parachute which would be released when the rocket burst to bring the recording instrument back to earth.

Modern Mother and Old Fashioned Dad Have Many a Tiff

By GLADYS HUNTINGTON BEVANS

A Christmas toy and plaything list will be sent by Mrs. Bevans on receipt of a stamped, self-addressed envelope.

"I can't get anywhere in handling the children any more," writes one mother. "Perhaps it's because their father undoes everything I do. He disagrees with me. He thinks all my ideas are new fangled nonsense. He indulges them one minute and is too harsh with them the next. And he wouldn't read a word on the subject of managing children. What can you suggest so that I may get control over them again?"

My answer to such a question has to be a discouraging one. And I have to answer that way many times.

I think it's almost hopeless for a woman to expect to make much headway in child management under such conditions. I have nothing helpful to suggest that concerns the parents' relation to their children, because something else comes first, to lay the foundation for a change.

The first thing and the only thing is for the father and mother to reach some sort of agreement. They won't get anywhere by each pulling the children in opposite directions. They've got to find some sort of working basis.

Yes, I know perfectly well that this is more easily said than done. But it isn't an impossible thing.

Sometimes the only thing that stands in the way of it is the fact that the two people concerned have never sat down and calmly faced what they're doing and talked things over. They may have snapped at each other, or glared at each other, or quarreled, or wept, or sulked. But no one's convictions were ever changed in that way.

Perhaps they've always been at odds because they've never, in a quiet and friendly moment, unconnected with any strong emotion about the children, sat down and talked things over.

Of course, this sort of constructive action is usually started by the one, whether husband or wife, with the most intelligent ideas. And, of course, the result is usually some sort of compromise. But the important thing is for each to try to have an open mind and be willing to meet the other half way.

Coffee

Probably the only way that most of us eat bean sprouts is in chop suey—the kind that is served us in Chinese eating places. There we accept them as an essential part of the combination. The strong flavors of other vegetables in the chop suey, such as celery and onions, however, overshadow the bean sprout taste which doesn't help one to appreciate the flavor of bean sprouts alone. The flavor is delicious, being much like that of young string beans.

A few discriminating people and most of the orientals appreciate the value of the bean sprous which are nothing more or less than sprouted Mung beans imported from the orient in large amounts. Soy beans are sometimes used but they do not produce as tender and delicately flavored sprouts as the Mung variety. The Chinese force the beans to sprout by keeping them in a warm, dark place [65 degrees F.] for about four days, occasionally throwing warm water over them. Any housewife can prepare her own bean sprouts, but if she does not care to go to this trouble, she can obtain an excellent quality in cans or fresh sprouts in the bulk. Canned bean sprouts may be purchased at almost every full line grocery. One may buy them fresh in bulk, especially in spring and winter, at Chinese markets.

Increased use of bean sprouts by the American people would prove a healthful and pleasing addition to our common green vegetables. The inexpensiveness of the sprouts makes them available in every home. Bean sprouts are excellent for use either cooked or raw as a salad or in combination with other foods in a salad as well as in soups, stews, and many other composite dishes. Because of the enormous increase of bulk and weight—ten pounds of beans yield 50 pounds of sprouts—the caloric value is not high. Their chief value is in the minerals and vitamins A, B, and C which they supply. They are especially rich in vitamins B and C—the antineuritic and antiscorbutic factors.

If bean sprouts are cooked, the cooking must be brief in order to avoid destroying the vitamin content. Two minutes' boiling is sufficient. After fifteen minutes, probably most of the C vitamin is destroyed. In soups and stews, add bean sprouts just before the end of the cooking period. Lightly fried in good oil or butter, bean sprouts are both unusual and palatable.

CHOP SUEY WITH BEAN SPROUTS.

2 large onions.
1 stalk celery
1½ to 2 pounds lean pork shoulder
3 slices bacon, cut fine, and broiled
1 cup warm water
4 tablespoons sugar.
¼ cup olive oil
1 tablespoon Worcestershire sauce
2 cups bean sprouts
3 tablespoons cornstarch.

Cut meat, onions, and celery into small pieces. Sauté meat until well browned in olive oil. Add the bacon. Then add all the vegetables except the bean sprouts and cook slowly one-half hour. Add water that has been blended with corn starch and sugar. Cook briskly until vegetables are tender. Then add Worcestershire sauce and bean sprouts and cook two or three minutes longer. Serve with steamed rice.

Yield: Six servings. One serving [total, 606 calories]: Protein, 153 calories; fat, 377 calories; carbohydrates 76 calories.

Sorority Dance Tonight.

Epsilon Phi Tau sorority will hold a dance this evening at the Graemere hotel.

PATTERNS BY CLOTILDE

[Registered U. S. Patent Office.]

CHILD'S DRESS.

Here is a little French sailor dress that will surely please any small maid. Light blue wool jersey is lovely for small girls and with the white pique collar and cuffs, and the navy blue crêpe de chine tie, the dress is complete. The small skirt has easily pressed plaits and the bloomers have elastic bands inserted at the knees.

The pattern, 2880, comes in sizes 1, 2, 4, and 6 years. Size 4 requires 2⅝ yards of 39 inch material with ⅛ yards of 27 inch contrasting.

STRIBLING POUNDS OUT DECISION OVER GRIFFITH

70,000 TO SEE ARMY BATTLE NAVY IN CHARITY GAME

TEAMS RENEW OLD FEUD AFTER 2 YEARS' LAPSE

Expect Receipts to Reach $500,000.

Game Facts

Place—Yankee stadium, New York.
Time—Game starts at noon, Chicago time.
Commotion—Cadets march 12:15; Navy immediately after.
Probable attendance—70,000.
Probable gate receipts—$500,000.
Purpose—Provide funds for unemployment relief.
Last game played—1927, Army won, 14 to 0.
Game record—Army, 15 victories; Navy, 20; three ties; first game played in 1890.
Season records—Army won eight, lost to Notre Dame, tied Yale; Navy won six, lost to Notre Dame, Southern Methodist, Duke, and Ohio State.
Coaches—Army, Maj. Ralph I. Sasse; Navy, Bill Ingram.
Captains—Army, Polly Humber, guard; Navy, Elmo Bowstrom, tackle.
Favorite—Army, 2 to 1.

[Chicago Tribune Press Service.]

New York, Dec. 12.—After a lapse of two years marked by bitter arguments between adherents of the two service academies, the Army and Navy football teams will play again tomorrow afternoon, meeting at the Yankee stadium in a post-season game under the auspices of the Salvation Army for the benefit of the unemployed.

Once again the pageantry of the most colorful sport spectacle in the United States will flash as in the years before the Naval academy broke off football relations with the Army after the game of 1927.

Cadets to Detrain at Highbridge.

The West Point cadets will detrain at Highbridge, an outlying station in the Bronx, not far from the arena and march to their seating section in the stadium behind the northwest corner of the field. The regiment of midshipmen from Annapolis will take their position in a slightly larger section, they being numerically stronger, in the opposite corner of the stadium. The Navy goat, a genuine mascot, with a definite social rating at the academy, will be trotted out in charge of the mascot detail to meet the Army mule, which happens to be any mule available and, very often not even a member of the armed forces.

After these and some other amenities, including the toss of a special gold coin designed for the occasion, by the rival captains, Humber of the Army and Bowstrom of the Navy, the ball will be kicked off at 1 p. m., and the greatest of the charity shows of the season will be on. The coin will be auctioned for charity afterward.

Expect $500,000 Gate.

The gate receipts undoubtedly will fall far short of the original expectations, the estimate on the night before the battle being about $500,000 and there being still available large numbers of tickets in all but the cheapest denomination, $5. The other prices range up to $50 for those sections between the 40 yard lines. A crowd of 70,000 is expected.

The secretary of war, Patrick Hurley, and the secretary of the navy, Charles Francis Adams, will be present on their respective sides of the stadium, but President Herbert Hoover will not attend, owing to another engagement in Washington. Grover A. Whalen, former police commissioner and the official handshaker for the town to a hundred celebrities arriving from Europe, will be in general charge of the production.

Programs $1 Each.

In the stands 200 young women, described as debutantes, will circulate among the crowd selling souvenir programs at $1 each. There will be a band from each of the services to blare the defiant strains of "Sink the Army Gray" and the sentimental notes of the Army's anthem, "Benny Havens, O."

The feeling between the two services has not been perceptibly reconciled by the resumption of the football game and there was a possibility that the two teams, conscious of their individual responsibility for maintaining their respective sides of the political fight, would exceed the rough liberties ordinarily permitted in football. The Army team, after several days of emotional ballyhoo at West Point to arouse them to the proper pitch, was allowed to cool off, or simmer, for the day in seclusion at Briarcliff, on the Hudson. The Navy team put up at the Commodore hotel in New York.

Army, Navy Men Gather.

Army officers from nearby posts were gathering in town for the game in large numbers and naval officers from posts and ships within convenient distance of New York also were becoming numerous in the crowds.

Thus far this season the Army has lost only one game, and that one to Notre Dame, acknowledged by many as champion of the country, by the margin of one point. The Navy has had a mediocre season, but the team is strong and bulky and the midshipmen come to this battle with a splendid objective—to beat the school that spurned them and equal the feat that Notre Dame also achieved.

THE GUMPS—OH, DOCTOR—DOCTOR

MY WEDDING SUIT— THE ONE I WAS TO BE MARRIED IN— THINK OF THE HAPPINESS THAT WAS IN STORE FOR ME —

N. U. Five Beats Notre Dame, 44-29; Reiff Scores 26 Points

Notre Dame, Ind., Dec. 12.—[Special.]—Joe Reiff, Northwestern's sophomore center, scored 26 points here tonight and led the Wildcats to the most impressive victory any Purple team has ever scored over Notre Dame. The final score was 44 to 29.

ARTHUR LONBERG.

Some 4,500 cheering, yelling fanatics kept the gym in constant uproar as Notre Dame's fighting but inexperienced crew of sophomores and juniors went down in defeat before the smooth, cool game of Dutch Lonberg's quintet.

Irish Five Rallies.

The Wildcats showed the class of champions tonight. Feeding the ball always to Reiff, they kept the lead they had piled up in the first half and were never headed. A Notre Dame rally midway in the second period brought Notre Dame to within two points of Northwestern, 29 to 27, but Reiff started "hitting" and put the ball game way. His points came on ten field goals from every part of the floor and six free throws. Reiff formerly starred with Crane Tech of Chicago, leading his team to two city titles.

Reiff started scoring on the opening play after he had taken the tipoff from Ray De Cook and sped down the floor to take a pass from Marshall under the basket. De Cook fouled Lockhart and the latter immediately made it 3 to 0.

Johnson Scores for Irish.

Then Clay Johnson, Notre Dame guard, dropped one from the free throw line. Reiff made a free throw and De Cook tipped in a follow up to tie the score at 4 all. After this Bill Newbold dropped a free throw to give Notre Dame its only lead of the game. McCarnes then followed with a basket and his team was never headed from this point."

Notre Dame was not out of the battle at any time until Reiff started clicking midway in the second half, and Northwestern led by only 5 points at the half, 24 to 19. Seldom were the Irish forwards able to get clear shots under the net, and Newbold, Crowe, and Gavin got only one apiece. Ray De Cook was responsible for 8 of his team's points, with four field goals, and the work of Johnnie Baldwin, former De La Salle star, and Clay Johnson featured the Notre Dame play. Both scored three field goals and their flashy floor play kept Notre Dame in the game until they tired.

Reil, McCarnes Feature.

Capt. Bert Reil and McCarnes split second honors for Northwestern with six and seven points, respectively. Many of Northwestern's shots were from midfloor and the free throw line, but occasionally Reiff or one of the forwards would maneuver his way under the basket for a clear shot.

Maroons to Open Cage Season with Cornell Tonight

The University of Chicago will present its 1931 model basketball team tonight. Cornell college of Mount Vernon, Ia., will furnish the opposition at Bartlett gymnasium, the game starting at 8 p. m.

Capt. Marshall Fish will not play, since he has not been in school the fall quarter because of the trip to Japan with the Chicago baseball team. Norgren consequently will start four veterans and a sophomore, hoping to use several of the more promising recruits before the final gun pops.

Sid Yates and Paul (Moon) Stephenson, tiny but fast and clever forwards, are counted on to lead the scoring. Harry Ashley and Joe Temple, both of whom played last season, head the defensive committee. Keith Parsons, a sophomore 6 feet 4 inches tall, will start at center. He held down a similar rôle on the football team.

Cornell will offer a small, fast team whose chief threat is Capt. Tucker, a tall 180 pound center.

The lineup:

CHICAGO.		CORNELL.
Yates	R. F.	Gabrielson
Stephenson	L. F.	Brandau
Parsons	C.	Tucker [C.]
Ashley	R. G.	O'Connor
Temple	L. G.	Warner

Referee—Traynicek [Armour]. Umpire—Kearns [De Paul].

BATTALINO WHIPS KID CHOCOLATE TO RETAIN TITLE

Cuban Floors Champion in First Round.

BY WESTBROOK PEGLER.
[Chicago Tribune Press Service.]

New York, Dec. 12.—Somebody weighed a fat, butcher's thumb along with the evidence when the referee and judges were casting their decision at the end of the fifteen round fight between Bat Battalino, the featherweight champion, and Kid Chocolate, the Cuban pickaninny in the Garden this evening. The little Negro clipped Battalino with a right uppercut in the first inning and dumped him for a nine second squat and seemed to outnumber him much of the time thereafter, but the jury's verdict was unanimously for Battalino.

Chocolate stood in his corner after the reading of the sentence, his thick, blue lips trembling and his sad, brown eyes blinking in juvenile dejection. He had fought a hard battle against another of those helter-skelter, alley type fighters, sent in with instructions to bundle him around the ring and outrush him. He thought he had won and a large proportion of the 15,000 customers thought the same but public opinion was pretty evenly divided between the two artists and there was no demonstration by the crowds beyond the customary hanging around at the ring side.

Chocolate Burnt Out.

Chocolate had begun to slip, burnt out, perhaps, by too much hard competition before the age of 20, but in this fight for a soiled and discredited championship of the world he had given his strength until his legs at the end were fluttering under the weight of his tiny frame. Battalino stood facing his corner with his sodden gloves lightly clasping the upper ropes as Joe Humphreys heaved himself through the ropes to take the slips from the judges and referee and read the verdict. Chocolate stood facing the ring in his corner, his black features poised for an ear-to-ear grin of jubilation.

Humphreys glanced at the little fragments of paper, turned to Battalino, grasped the startled young man's right glove off the rope and whirled him around, almost lifting the little Italian off the floor as he raised it on high. Battalino bounced joyously across the ring to salute the victim of his first legitimate fight in defense of a title won more than a year ago, but the Cuban boy wanted none of his sympathy. He turned away and in a minute left the ring, stricken as an orphan, while Battalino babbled into the microphone, still breathless from the struggle.

Chocolate Keeps Running.

It was a commonplace fight between two inferior fighters and the fact that the championship was involved only showed the degradation to which the championships fell while wealth accumulated in the prizefight industry. Chocolate was not strong enough to stand and punch back as Battalino waded after him, but advanced to the rear as Tunny did with Dempsey, punching back with a piercing left jab and a more substantial right hand fire. Early in the bout, when Battalino was fighting from a crouch almost deep enough for a squat, the Negro boy raked his patched and distorted nose with a right uppercut but later on Battalino straightened up and his face was not so easily reached.

Chocolate fouled Battalino in the fifth round and banged him on the head with a lot of hasty business with both hands, as the Connecticut boy began to sag. But Battalino remembered his laws, which provide that fouls are fair in New York state, and fought on, presently fetching the Kid a series of clips on the ear for remonstrance.

Late in the fight, Battalino began to oppress the Kid with a forgotten left hook, which made a soggy sound and spun the Cuban out of his stride.

The bouts drew a total of $70,000 and a net gate of $66,640.

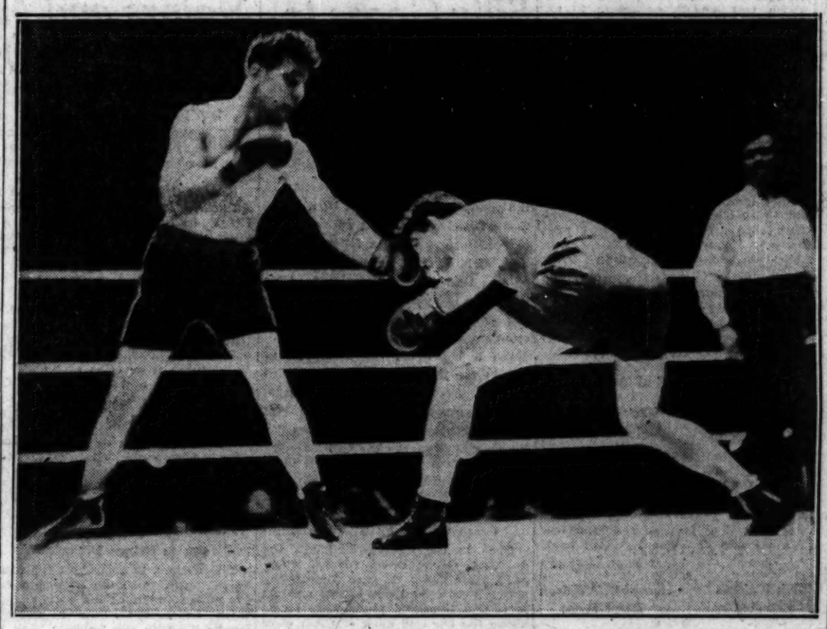
KEEP YOUR DISTANCE THIS LEFT MEANS



Tuffy Griffith is jabbing to keep Young Stribling away from him in the sixth round of their punchfest at the Stadium last night. Stribling, who won decisively, is crouching and swaying in an effort to feint the Chicago heavyweight out of position. The tough one was on the receiving end most of the evening.
[TRIBUNE Photo.]

PENNSYLVANIA FIRES LUD WRAY AS GRID COACH

Philadelphia, Pa., Dec. 12.—(AP)—Lud Wray, head coach of the University of Pennsylvania football squad, around whose head raged a storm of criticism as a result of the season's showing of the team, is out.

His scheduled three year tenure was terminated late today in a brief statement issued by John Arthur Brown, member of the executive committee of the university's council on athletics. It said:

"The council on athletics of the University of Pennsylvania announces that J. R. Ludlow Wray will not coach the football team next year or the year after."

Warner Is Mentioned.

There was no announcement of a successor and it is believed that no one has been selected. Many names have been mentioned, including those of Glenn [Pop] Warner, head coach of Stanford university.

Pennsylvania this season won five games and lost four, to Wisconsin, Notre Dame, Cornell and the Navy. After the Wisconsin game Rolf Cralstein quit the team following a wordy row with Wray.

After the Navy game the Pennsylvania, the student daily publication, charged there was a lack of harmony between the players and the coaching staff. Warren Gette, a half back, said he would not play football again under Wray.

Athletic Inquiry On.

Thomas S. Gates, president of the university, issued a statement that matters in connection with competitive athletics, and specifically football, were under investigation and that a report would be made later.

Yesterday, after a meeting of the executive committee and the football committee of the athletic council, it was reported that Wray had been asked to resign.

Wray, after the announcement was made, had little to say, except to resort to a biblical quotation:

"'Sufficient unto the day is the evil thereof,'" said Lud. "I have plenty of plans and they are now under way."

Wray told a radio audience tonight that he expected to continue to coach, but did not intimate where.

Hard Times? Well, 15,570 Fans Spend $88,297 to See Fight

BY EDWARD BURNS.

Santa Claus absolutely doesn't know what to make of it: 15,570 paid $88,297.16 to see the Stribling-Griffith prize fight at the Chicago Stadium, and only thirteen days before Christmas. Fancy!

Of course there was a charity angle but the way the customers hollered and hooted, according to their fleeting whims, it is doubtful if any were present just because it gave 'em a chance to give a great big hand to Gov. Emmerson and his unemployment cause.

The good governor doesn't even know what his end is going to be, the announcement that Stribling was the victor being paramount in the business at hand last night. The unemployed will get 25 per cent of the profits after all expenses have been deducted—and the deductions will be considerable.

That's Where the Money Goes.

Here are just a few of the deductions:

Mr. Will Stribling—25 per cent.

Mr. Baby Stribling—a couple of hundred bucks.

Tuffy Griffith—25 per cent.

The other nine fighters on the card—sums ranging from a century note up to a grand.

Boxing gloves, smelling salts, court plaster—a pretty penny.

Your Uncle Sam — $2.80 on every $10.80 ticket; 30 cents on every $5.99 ticket, and 20 cents on every $2.20 admission.

The state athletic commission — 10 per cent.

The Stadium—Well the Stadium is a big plant with a nut of several thousand dollars per day, light or dark.

It is apparent from the foregoing that the boys in the counting room will have to do a sight of figuring before the unemployed get theirs. So brother, if you've been counting on the prize fight for a new pair of shoes, our heart goes out to you.

They Get Money's Worth.

The crowd was like many of the hard times crowds that have been going to fights during the reported depression.

The boys and girls seem to be going to the fights with the feeling that they should be blowing their dough otherwise or keeping it deep in the sock. But they can't stay away, bless 'em, and once on the premises they figure that the way to get full value received is to make plenty of noise.

On the main go the majority cheered the decision, but when Stribling was called to a microphone which a pulsating blond gentleman had toted to the center of the ring there was a terrific shower of razzberries.

Then, when Griffith was asked to speak a piece, there was a big demonstration. There were perhaps some who thought Griffith should have been given the decision, but it is more likely that most of the boys merely were trying to get added value on that $10.80.

Thinks Prices Too High.

According to Nate Lewis, matchmaker of the Stadium and a foxy man in the business office withal, the $10.80 scale was a mistake, though the fighters' demands seemed to indicate that such a top would be necessary.

"During the week and up to the hour of the fight we turned down no fewer than 10,000 gents who had three dollars to invest in the show," Mr. Lewis said. "They didn't come in at higher prices and all the sections except the $10.80 ones were sold out several days ago.

"If we had established the top at $5.99 we would have had $6,000 or $8,000 more in the house. I still think the card was worth even more than $10.80, but we've educated the fans to $5.99 tops, and that's what it probably will be in the future."

Mr. Lewis said, however, that he had no complaint with a take of $88,000, but that, aside from the desire for maximum receipts, he felt that many good fight fans had been kept away from the show.

W-G-N Will Broadcast Army-Navy Game Today

W-G-N, THE CHICAGO TRIBUNE radio station on the Drake hotel, will broadcast the Army and Navy football game from the Yankee stadium in New York today from 11:30 to 3 o'clock through the National Broadcasting company.

Chicago Illini Club Honors Football Team at Banquet

The University of Illinois football team will be honored by the Illini club of Chicago tonight at the Midland club. George Huff, athletic director, and Coach Bob Zuppke will speak.

TUFFY EVADES BLOWS DESIGNED TO END BATTLE

Johnson Knocks Out Gagnon.

BY WILFRID SMITH.

Young Will Stribling, Georgia's candidate for the world's heavyweight championship, disposed of Tuffy Griffith, Chicago's contender, in ten rounds last night at the Stadium. Stribling's victory was workmanlike from the first round to the conclusion and the decision of Referee Ed Purdy, Judges William Battye and Ed Klein was unanimous.

Griffith was defeated decisively, but Tuffy forced the action. His defeat was no disgrace. He met a superior foe who knew exactly what to do and did it.

Stadium officials announced an attendance of 15,570. The receipts were $88,297.16.

May Become Title Choice.

The decision may result in making Stribling the choice of the National Boxing association as the heavyweight champion of the world. Before the battle Gen. John V. Clinnin, president of the N. B. A. and chairman of the Illinois athletic commission, declared that Max Schmeling of Germany, the titleholder, had failed to defend within the prescribed six months' limit, and that it was up to the N. B. A. to name the winner of the Griffith-Stribling bout as the association's titleholder.

Gen. Clinnin, however, must obtain the approval of other member states and communications asking for their assent will be sent out today.

While the weights of the two contenders were nearly equal, Tuffy having the advantage of a pound, Stribling was the stronger. This, with his advantage of height and reach, kept Griffith from connecting with a blow which might have toppled the Georgian. Griffith depended almost entirely on this left hand, jabbing repeatedly, but without sufficient force to disturb Stribling.

Griffith Difficult Target.

The southerner measured his foe for knockout punches, particularly in the latter rounds, but Griffith's ducking and dodging spoiled Strib's aim. And thus the men finished their full 30 minutes of work.

The first round was fought cautiously, with Griffith having a shade because of his aggressiveness. But in the four succeeding rounds, Stribling established a clean cut lead. Standing erect, countering Griffith's left leads, Stribling pounded Tuffy's body with lefts and rights. He was particularly effective in the clinches. Stribling repeatedly pulled his right arm free to hammer at Tuffy's body.

Tuffy rallied in the sixth to outpoint his rival. His defensive was at its best, Stribling missing a left hook and a pair of rights which might have terminated the fight had Tuffy forgotten to duck. The seventh was Griffith's last stand. This round was even, but Griffith weakened rapidly from body punching and Stribling took the remaining three rounds.

Hurts Griffith in Seventh.

In the seventh round, Stribling landed his hardest blow, a right to the stomach, and Tuffy grimaced. After this Griffith lost his quickness of movement and came in more slowly. The ninth probably was Stribling's best round. He started with a hard left to the face. A minute later he landed a left to the body, followed with a right to the same place and another left hand blow.

The final round was Stribling's although Griffith demonstrated more of a defense for W. L.'s attack. Tuffy did not use his right hand at any time except in the clinches, and apparently was satisfied to finish the ten rounds, although a loser.

After the fight it developed that Stribling had suffered an injury during training. He had two adjustments of his vertebrae yesterday and visited a physician last night.

Johnson Flattens Gagnon.

While Stribling was unable to knock out Tuffy, as he had Von Porat and Phil Scott, he established his superiority beyond question over the Chicago heavyweight.

Larry Johnson, Chicago colored heavyweight, knocked out Jack Gagnon of Boston in the sixth round of the semi-windup. Johnson had sent Gagnon down for a nine count in the first round with a left to the jaw.

Gagnon lasted until the bell and was revived sufficiently to carry on until the third round, when a right sent him to the floor for 9 seconds. In the fourth round Gagnon again was jarred at the bell and staggered to his corner.

The sixth and final round ended without a clean blow being struck. In close Johnson hit the Boston fighter with a short left. Gagnon staggered backward, falling heavily in the center of the ring and striking his head on the floor with a thud which precluded further action.

Cawley, Brown Draw.

Frank Cawley of Pittston, Pa., and Natie Brown of Los Angeles fought an eight round draw. Mickey McFarland, a light heavyweight from Pueblo, Colo., defeated Willie Oates of Boston in six rounds. Herbert Stribling, younger brother of Will, whipped Irish Kennedy of St. Paul in six rounds. Charlie Cerminaro beat Billy Rothermell in the four round opening fight. Cerminaro is from Chicago. His opponent claims St. Louis as his residence.

Native Sons of 19 States Will Play in Army-Navy Tilt

New York, Dec. 12.—(AP)—Nineteen states, one territory, and the District of Columbia are represented by the 25 cadets and midshipmen who either will start or are being considered as probable starters in the Army-Navy football classic in the Yankee stadium tomorrow afternoon.

Ed Herb, who shares with Bill Frentzel of Danville, Ill., the choice as starting right half back in the Army back field, comes from Manila, in the Philippine Islands, where his father serves with the American forces. Pennsylvania has three representatives on the two teams, Illinois two, and Wisconsin two.

The probable lineups, together with the players' weights and home towns, follow:

ARMY.		NAVY.
Carimark [176]	L. E.	Steffanides [190] Milwaukee, Wis.
Price [220]	L. T.	Bowstrom [190] Grand Rapids, Mich.
Humber [185]	L. G.	Underwood [185] Portland, Ore.
Estenine, Ga.		Tuttle [190] Lenoir, N. C.
Miller [184]	C.	Gray [185] Philadelphia, Pa.
Pittsburgh, Pa.		
Trice [185]	R. G.	Bryan [190] Lexington, Ky.
Oaklawn, R. I.		Byng [188] Washington, D. C.
Suarez [189]	R. T.	Bauer [185] North Platte, Neb.
Mobile, Ala.		Gannon [185] Lodi, Cal.
Messinger [188]	R. E.	Kirs [182] Milwaukee, Wis.
Bradley Beach, N. J.		Hagberg [185] San Antonio, Tex.
Bowman [185]	Q. B.	Sauer [185] Fullerton, Pa.
Harmann, Tenn.		
Fields [168]	L. H.	
Elkhart, Ind.		
Frentzel [185]	R. H.	
Danville, Ill.		
Kirby [180]	F. B.	

Gordon Heads Western Golf Association

L. S. Gordon of Indian Hill last night was reelected president of the Western Golf association. R. A. Wood of Bob o' Link resumed the vice president's chair. Norman B. Freer of Exmoor retained the secretariat, and B. C. Hardenbrook of Skokie again will be treasurer. The meeting was held at the Mid-day club.

The association formally awarded the western amateur championships for 1931 to the Portland, Ore., Golf club, to be held July 13 to 18.

The 1931 open tournament was tentatively awarded to the Miami Valley Country club of Dayton, O., subject to approval of the course by a committee. The date is to be set later. A site for the junior championships was not chosen.

The amateur was awarded to the Pacific coast, where many leading golfers in the association live, after a plea by Charles T. Haas, Portland, who said the club would be in its best condition for the tournament and promised an extra large crowd.

Keefe Carter of Oklahoma, former champion, asked that the association hold the 1932 amateur championships in Oklahoma City.

The nominating committee for 1931 was picked as follows: George Blossom, Onwentsia; Keefe Carter, Twin Hills, Okla.; P. H. Holme, Denver Country club, Denver, Colo., and Harry Slater, Indianwood Country club, Detroit.

BEARS AND CARDS SET RULES FOR CHARITY GAME

Small Gridiron Makes Changes Necessary.

Ground rules for the indoor charity football game between the Cardinals and Bears at Chicago Stadium Monday night were decided upon yesterday at a gathering of representatives of both teams and officials. Because the gridiron will only be 80 yards long it has been necessary to agree upon special playing rules.

Ernie Nevers and Joe Lintzenich, who engaged in two punting duels on outdoor gridirons this season, have found that they can get as much height and distance out of their boots indoors, and will not be hampered by wind.

Joe Savoldi will alternate with Bronke Nagurski at full back for the Bears. Joe has shown well in three contests with the Bears and is expected to be a big help to the north siders Monday night.

From advance sales of tickets indications are that there will be a capacity crowd at the game. Proceeds will be given to Gov. Louis L. Emmerson's fund for unemployed to be dispensed in Cook county.

Tickets are on sale at the Hub, Chicago Stadium, 1800 West Madison street; the Stadium's loop office at 55 West Madison street; the Chicago Athletic association, and the Illinois Athletic club. The sale will continue at the Stadium tomorrow and Monday.

Revise Hockey Standings; Put Shamrocks 1st

William F. Grant, president of the American Hockey league, yesterday announced adoption of the point system of computing the standings of the clubs. This restores the Shamrocks to first place with 12 points. The Tulsa Oilers and Minneapolis Millers are in a tie for second place with 10 points each.

Points will be allowed for games won only, two points each. Tie games will not count, but will be carried in the standings as matter of record.

Changes in the schedule, including those incurred by the delayed entry of Buffalo, are responsible for the new method, the bulletin states. The percentage system formerly was used.

The official standings of the American league clubs:

	W	L	T	G	OG	Pts.
Shamrocks	6	4	0	21	14	12
Tulsa Oilers	5	2	0	23	17	10
Minneapolis Millers	5	3	0	14	14	10
Duluth Hornets	3	4	0	10	8	6
Kansas City Pla-Mors	2	2	0	8	8	4
Buffalo	0	2	0	4	14	0
St. Louis Flyers	0	4	0	5	10	0

The 21 games played include no ties. The elimination of no decision contests is attributed to the league rule which makes the first goal scored in overtime the determining factor.

Minneapolis' games scheduled at Buffalo for today and tomorrow are postponed because the Buffalo ice plant will not be in operation before the 25th of the month. The Kansas City at St. Louis engagement for tomorrow will be replaced by a Buffalo at Kansas City contest. The revised schedule for the week-end is:

Today—Duluth at Tulsa.
Tomorrow—Buffalo at Kansas City; Duluth at Tulsa.

The Buffalo-St. Louis date was postponed because the new St. Louis rink, seating 15,000, was not completed on time.

Bruins Play Paterson Five Here Tonight

The Bruins will play their second game in a week with the Paterson basketball tossers at the Chicago Stadium tonight. The easterners had little difficulty in winning Wednesday night, but the Chicagoans have hopes of turning the tables this time.

Hickey and Kennedy got enough shots at the basket last week, but most of the time the ball would roll around the rim and bounce out. Paterson will rely on Borgeman to win again. This sharp shooter has led the scorers of the American Professional Basketball league for two years. It will be against him that the Bruins will center their defense.

BRUINS.		PATERSON.

In the WAKE of the NEWS

ARMY-NAVY FOOTBALL.

THE Army-Navy charity football game in New York today is not, in spirit, a revival of the ancient rivalry between the two service elevens. There will be, of course, the most strenuous efforts to win on the part of both teams. But the impetus for this contest came not from the academies themselves, but from Washington. We are informed the affair was "ordered."

Army partisans who gathered in Chicago at the time of the contest against Notre Dame showed no particular enthusiasm over the impending fray with Navy. This was because the West Point and Annapolis authorities have reached as yet no compromise of the disagreement which caused an interruption of the annual gridiron battles so tritely described as the "most colorful of all football contests."

So Army and Navy, not unwillingly, meet today in New York for charity which will benefit, according to advance estimates, $500,000 or more. Whether and when the regular contests will be resumed is still a moot question.

Earlier Chicago.

Dear Wake: After the civil war a Sanitary fair was held in Chicago for the benefit of our soldiers. One of the big attractions was a beautiful doll house. It was a two story house, square, with pointed roof, completely and elegantly furnished—lighted by gas—bathroom with tin tub, kitchen with range, rows of pots and pans hanging on wall, pantry filled with tiny dishes, colored servants in kitchen and nursery.

The doll house was raffled at $1 per chance. My father bought two chances but we did not win. The lucky child was Lizzie Shackford of La Salle street. Mrs. Edith C. Woodbridge.

One of the first buildings erected after the big fire of 1871 was located at the northwest corner of Wabash and Congress as the home of Adelphia theater, a first class variety, not vaudeville, house under the management of Leonard (Len) Grover.

This building was entirely destroyed by the "second fire" of July, 1874, and a few years later the Adelphia was located at Monroe and Dearborn, present site of First National bank.

Herman Hefter.

What Price Bonuses?

We note a South Bend banker has a plan to compel voting. He proposes a compulsory franchise tax of $30 per head, to be remitted if the voter casts his ballot and obtains a receipt. Which prompts the question, considering conditions in some of our wards, what about the chap who votes two or three times and shows up with several receipts? Will he be entitled to a bonus?

* *

We are indebted to Helper E. C. P. for calling our attention to "All Quiet on the Western Front" as presented in a revised edition by Knute Rockne.

* *

On Knowing.

Once I wished to peer beneath
The glossy veil that hid
Motives that lay underneath
Things God's people did.
But now I pray with all my heart:
Let me not look so far,
O, let me know folks by their art
And not for what they are.

C. O'D.

Do You Remember 'Way Back When:

The district from Kingsbury street to the river between the river and Michigan street was called "Killgubbon"?—C. M. C.

ROMANO ARRIVES; SAYS HEADLOCK WILL BEAT LONDOS

Mike Romano, Italian wrestler who meets Jim Londos in the windup of Doc Krone's show at the 202d Coast Artillery armory, Broadway and Thorndale, Monday night, arrived yesterday and modestly confessed he would pin Londos' shoulders to the mat. Romano plans to use a headlock as his chief weapon.

Five per cent of the gross receipts will be turned over to the governor's unemployment relief fund.

Fox Floors Owens, Then Knocks Him Out in Fifth

Picher, Okla., Dec. 12.—[Special.]—Tiger Jack Fox, Wichita Negro heavyweight, knocked out Cowboy Billy Owens, Guthrie, Okla., in the fifth round of a scheduled ten round bout here tonight. Owens was downed five times for the count of nine in the fourth round, the bell saving him. Fox scored a knockout in the first minute of the fifth round.

Sherrill James, middleweight of Springfield, Mo., and Free Wheeler, Treece, Kan., fought to a draw in the semi-windup.

Kane and Hughes Battle to a Six Round Draw

Jackie Kane, Chicago, and Frankie Hughes, Kenosha, fought six rounds to a draw last night at the Olympic stadium. They are welterweights.

INDIANS WIN OPENER.

Michigan City, Ind., Dec. 12.—[Special.]—Michigan City Indians opened the northern Indiana amateur basketball conference season here last night, defeating North Judson, 55 to 27.

Silly Goose Is Misnomer for Transient Bird

BY BOB BECKER.

The wild geese which congregate by the thousands on the sand bars above Cairo, Ill., either have an uncanny way of figuring out when a fellow has his limit of birds and the shooting is over or else they have no manners. This deduction is based on one of the amusing experiences which happened on our recent hunt near Cairo.

We had invaded the sand bar at 8:30 in the morning in company with Paul H. Davis of Chicago, an experienced goose hunter. When we jumped into our blind geese were flying up and down the bar and from the Mississippi river to the sand flats below us. Other birds actually worked us even before the live goose decoys were staked out.

Geese Gather by Thousands.

Once in the underground pit, the thrilling spectacle of several thousand geese going through their flying stunts was spread out before us. At least two thousand geese were on or above the bar and most of them were gathering about a quarter of a mile away. Needless to say, the shooting was wonderful.

To the tune of many an aw-nk, aw-nk, aw-nk, the big birds which have a wing spread of about five feet worked around us, dropped to the bar behind us and otherwise kept us at fever heat until both had four birds. It was was just a question of a couple of hours to do this. Four birds represents a legal limit apiece so we unloaded our guns and crawled out of the pit to celebrate and make a few pictures.

Then a couple of old honkers made a gesture that gave us quite a thrill. We were walking around the blind in plain view while Davis was sitting on top of it and Young Orville Thomas was taking in decoys.

Fly Within 40 Feet.

Suddenly we heard a loud aw-nk, aw-nk and there, coming straight for us, were two geese. Though we were in plain view the first of the pair headed straight in, passed within 40 feet, stretched his long neck to get a better look at us, did'nt flare a foot. On an even wing beat and quite unhurried he kept going, apparently much intrigued by the life on the bar.

It seemed as if this bird knew we were all through for the day and had come along to flaunt his aw-nking at 40 feet. The gesture was so derisive that we picked up a wooden decoy and threw it at him. Nothing daunted, the bird swung around and passed us on the other side still within gunshot range.

BLACKHAWKS BUY STAR WING FROM OAKLAND CLUB

Maj. Frederic McLaughlin, president of the Chicago Blackhawks, yesterday announced the purchase of Eddie Vokes, 165 pound star left wing of the Oakland club of the California Hockey league.

Bowen Heavyweight Quintet Beats Racine Horlick, 36-20

Bowen's heavyweight basketball team defeated Horlick High of Racine, Wis., 36 to 20, in a game on the south siders' floor yesterday. Bill Haarlow led the victors' attack with four baskets and a free throw, but De Mark took scoring honors with four field goals and four free throws.

Majors and Minors at Odds Over Draft, but not for Long

BY IRVING VAUGHAN.

While the majors and the three nondraft class AA minors appear to be mad at each other, it is of no consequence. The majors are peeved because the three leagues—American association, International and Pacific Coast leagues—won't swallow the draft pill the way the majors want them to do. And the three minors are sore because the majors should be so presumptious as to attempt to dictate.

As soon as the two parties to the little unpleasantness broke up without reaching an amicable agreement in their conference last Thursday at New York, there were cries of "war" between the big and little follows. But there will be no war because, each being afraid of the other, neither will not make the first hostile move. Neither can the three recalcitrant minors pose as major leaguers as they threaten to do. A major league has something more than a name. It has class. There are not enough good ball players to give class to three majors, let alone five.

Option Brings Difficulties.

The majors, in their plea for a universal draft, raise the argument that the advancement of the young player must be assured. In a nondraft league a youth can be held back unless some major consents to pay a big price for his services. That much of the majors' argument is sound. But there is a little item about optioned players which is even more important than the draft, both in principle and effect. It is this that makes the majors' attitude less idealistic than they wish to have it appear. You can't blame the minors for opposing it.

Since the current government of baseball took office it has been permissible for each big league club to option out to minor leagues eight players each season. The option means that the big league club can recall the player at the end of the season. He never belongs to the minor league club with which he plays. He is merely a "loan." This gives major clubs a chance to develop young material without losing control of same. The options on the same player by the same major can be placed only two years in succession.

Opposes Majors' Control.

Being limited to having only eight men out in the process of development always has irked the majors. They accepted this arrangement out of necessity about ten years ago. Since then they have been working quietly but with determination to have the optional limit raised. Their notion of a delightful way in which to operate their business would be to have the law allow the optioning of fifteen instead of eight players.

The reason the minors, including those now in the draft class, oppose boosting this figure is that they don't want a condition whereby the big fellows practically will control the player supply.

There are sixteen major league clubs. Let each option out fifteen players, and you have a total of 240 men playing minor league ball. That means 240 athletes in the minors would be subject to the whims of the big league clubs owning them. With allowance for the usual "cheating" which goes on, this number probably would reach 300, if all the cases could be exposed. Two class AA leagues of eight clubs each could be made up of these 300 men. Control of the minors would be entirely in major league hands. The minors naturally want to retain some voice in the conduct of their own business.

Majors Want Long Option.

The majors also would like to raise the option period from two to three years. This would put a minor leaguer under the control of one major club for three years, and that club, by its control, frequently might keep such a player in the minors for three years, whereas some other big league club could use the man as a regular. The "waiver" rule is supposed to be a guard against this, but the rule means little because one major magnate always will do a fellow owner a favor if he has good reason for wanting to get a player out of the league. Thus, the majors would be hampering the advancement of the young fellow.

The claim raised by the three class AA minors that, so long as they cannot carry on player negotiations with the majors they, too, should be recognized as being in the latter class, is unsound for more than the reason that there are not enough good players to give "tone" to their shows. The three leagues, despite their inability to buy talent from the majors, still have the modified draft to reckon with. Next fall, if the existing so-called war ends or doesn't end, the majors still will draft back the players sent to the three class AA minors before the boycott went into effect Dec. 1. This procedure alone is sufficient to keep the three big minors out of the major ranks.

As a matter of fact, the alleged state of war probably will come to a close before the end of winter. If not, it will be ended a year hence. Meanwhile, the three minors, as well as the majors, will continue as in the past. After a year the effect of the "boycott" might become noticeable, and it is a good bet the majors will feel it more keenly than the class AA. The majors will have to buy from the lower minors, and that naturally is going to lower the standard of big league ball. The best minor leaguers always are found in class AA. The roster of the Cubs for the last five years proves this.

Operation to Keep Orr Off Lake Forest Five

Skinny Orr, center on the Lake Forest college basketball team, will be lost to the squad for the rest of the year. Orr will undergo a major operation in the Alice Home hospital next week and will be out of all athletics for a year. He also was a letter man and star in baseball and football.

INDOOR BASEBALL.

The Chicago Roamers' indoor baseball team will play the Ostrander Boosters tomorrow afternoon at the Kimball park gymnasium, Wellington and Hoyne avenues.

Sacrifice Fly Is Abolished from Baseball Rules

New York, Dec. 12.—(AP)—The sacrifice fly was legislated out of existence today by baseball's joint rules committee, meeting in the Hotel Commodore.

From now on when a batter lifts a lofty fly to the outfield and enables a runner to advance a base he will not be credited with a sacrifice and he will be charged with a time at bat.

Proponents of the change insisted the sacrifice fly had no place in the rules. They pointed out that in most cases batsmen had no intention of lifting a high fly to the outfield so the runner could advance a base. Instead most of them were swinging for home runs or a hit of some description. Therefore, they argued, he should be charged with a time at bat just as he is when he lifts a fly which does not permit a runner to advance or which comes with the bases empty.

Another important change limits the runner to two bases when the ball bounces off the playing field. This rule was designed to prevent "trick home runs" made when the ball took a hop into the stands.

The National league rule saying that a ball shall be judged fair or foul where it last leaves the playing field and not where it is last seen was given American league approval and thus becomes a standard regulation.

The pitching rules, especially in respect to the stance the hurler should take before delivering the ball, were clarified.

The committee also decided to revise and clarify the rules in general, much as the football rules committee recodified the football regulations.

The sessions of the rules committee closed the annual major league midwinter meetings. Most club owners and managers had left for their homes tonight, although a few planned to remain over for the Army-Navy football game.

Harvard Grid Team Names Wood Captain

Cambridge, Mass., Dec. 12.—(AP)—The Harvard football team today elected Barry Wood captain of next year's eleven, thereby placing him on equal footing with his rival quarter back, Albie Booth, who was similarly honored by his Yale teammates.

This pair of outstanding signal callers were rival captains three years ago, as freshmen, and Wood's team won when he drop-kicked an extra point for a 7 to 6 victory. They have clashed twice since, as varsity players, and Wood has had a vital part in the Crimson's 1929 and 1930 victories over the Eli teams directed by Booth. Their most important competition will be put on next fall here in the stadium.

Wood, a Phi Beta Kappa man and the most versatile athlete Harvard has developed in almost a decade, was chosen from a field of 11 juniors eligible for the honor. His election was said to be unanimous.

He is ranked No. 1 by the New England Lawn Tennis association. He has won four major letters at Harvard—two in football and one each in baseball and hockey.

Rudolph Is 125-7 Victor Over Allen

New York, Dec. 12.—(AP)—Erwin Rudolph, Chicago, defeated Bennie Allen, Kansas City, 125 to 7, in 11 innings, tonight to go into a triple tie for the lead in the world's pocket billiards championship tournament. He shares top position with Ralph Greenleaf, defending champion, and Arthur Woods of New York. Each has won three matches and lost none.

Rudolph went out with an unfinished run of 67. He made a run of 15 in the fourth inning and virtually clinched the game in the fifth when he totaled 39 before missing a long shot for the corner pocket.

Three games are scheduled for tomorrow. In the afternoon Woods will oppose Allen and Natalie will meet Lauri. The night engagement will bring Greenleaf against Frank Taberski, former champion and rival. The standing:

	Won.	Lost.	High run.
Greenleaf	3	0	104
Woods	3	0	63
Rudolph	3	0	67
Lauri	2	1	30
Taberski	1	3	37
Boatman	1	3	29
Natalie	0	3	42
Allen	0	4	17

DEMOCRATS CARD 6 MATCHES FOR CHARITY SHOW

Six matches were closed yesterday by the Coliseum Boxing club for the charity show next Friday night that is being sponsored by the Democratic party of Cook county. George Ferguson is the promoter and Jim Mullen the matchmaker. The six matches follow:

Paul Pantaleo vs. George Neron.
Charlie Retzlaff vs. Antonio Mata.
Battling Bozo vs. Johnny Freeman.
Tony Cancela vs. Baxter Calmes.
Ted Ross vs. Edgar Norman.
Martin Lewandowski vs. Nick Taft.

Two Chicago Girls Named Among Illinois Managers

Urbana, Ill., Dec. 12.—[Special.]—Two co-eds from Chicago suburbs are among the four basketball managers named for various women classes at the University of Illinois. Janet Brown, 1521 Highland avenue, Wilmette, will act as manager of the freshman class and Catherine Fishbaugh, 213 South Elmwood avenue, Oak Park, the senior class. Miss Blanche Veach, Urbana of the Sophomore class and Miss Catherine Dietrich, Minerva, O., junior, are the other managers chosen.

CONSENSUS
Daily Racing Form Selections

JEFFERSON PARK.

1—Fudge, Nevator, Kentucky Bill.
2—Uncle Matt, My Hobby, Joan K.
3—Bill Morris, Donny Johnny, Ima Dreamer.
4—SUPREME SWEET, Martis, Irish.
5—Galahad, Cog-Air, Patricia Marian.
6—Herendeen, Shark, Ham.
7—Hazel Denson, Torcher, Duke Pohl.

JEFFERSON PARK ENTRIES.

FIRST RACE—Purse $800, claiming, 2 year olds, 6 furlongs:

Fudge	106	*Kentucky Bill	101
*Nervator	104	*Prince Fair	101
*Light Mint	104	Gertrude Reade	98

SECOND RACE—Purse $800, claiming, 3 year olds and up, 6 furlongs:

My Hobby	114	Maecenas	114
By Product	106	Jar	109
Elizabeth Sullivan	104	Sabrera	109
Hippias	111	Water Lad	111
Theo. Rochester	108	Also eligible:	
Nicholson	110	Thunder Call	111
Lady Bienville	113	Uncle Matt	116
Zoom	111	Joan K.	108
		Aucilla	108

THIRD RACE—Purse $1,000, handicap, 2 year olds, 5½ furlongs:

Bill Morris	116	The Judge	102
Ima Dreamer	106	French Brigade	95
Donny Johnny	116	Jazz Age	98

FOURTH RACE—Purse $1,000 claiming, all ages, 6 furlongs:

†Irish	103	Whileaway	100
†Supreme Sweet	105	Thistle Ann	102
Martis	105	Rueful	102
Grier of Spain	103		

†Superior stable entry.

FIFTH RACE—Purse $1,200, handicap, all ages, mile and 70 yards:

Kitty Grp	106	Cog Air	111
Battle Ax	102	Galahad	114
Patricia Marian	108	Stronghearf	102
Dark Abbot	103	War Institution	109

SIXTH RACE—Purse $800, handicap, 3 year olds and up, 1⅛ miles:

*Miss Maryland	101	*Ham	109
*Big Sandy	109	Herendeen	114
Shark	109	James M.	103
*King Kelly	105	Blue Fish	110
*Sharon	105	*Spanlow	102
George Webb	110		

SEVENTH RACE—Purse $800, handicap, 3 year olds and up, 1⅛ miles:

Interior	104	*Sun Baby	106
*Hazel Denson	103	Duke Pohl	107
Monteague	111	*Sargasso	106
*Mollie Dear	103	Also eligible:	
*Turf King	104	Boojah Bob	106
*Red Banner	106	*Gunny Sack	108
*Swoop	106	*Betty Browning	106
*Porcha	106	King Balma	106
Belle of Winchester	108	*Fair Gold	106
		*Hillock	106

*Apprentice allowance claimed.
Weather, cloudy; track, heavy.

JEFFERSON PARK RESULTS.

FIRST RACE—Purse $800, claiming, maidens, all ages, 6 furlongs:

Poison Ivy, 114 [Leyland]	6.20	3.80	2.80
R. White, 101 [Simpson]		4.00	4.00
Dilettant, 114 [Cannon]			9.80

Time, 1:16 4-5. Play Bird, Truly Movin, Daily, Beechwood Royal Cause, Beaver Boy, Flower of Erin, Arabic Ann, and Zella Kaan.

SECOND RACE—Purse $800, claiming, 2 year olds, 6 furlongs:

Zalla, 105 [Murphy]	10.20	6.00	5.20
Sparrow Hawk, 111 [Orler]		7.40	6.20
Mardie, 110 [J. Smith]			4.60

Time, 1:15. My Sweets, Petabit, Best Easy, Delco Del, and Englewood ran.

THIRD RACE—Purse $800, claiming, 2 year olds, 6 furlongs:

Dr. Eyed Marx, 101 [Simon]	10.00	5.20	4.00
Palm'th Belle, 106 [Meade]		6.60	4.00
Gallopette, 106 [Snider]			3.60

Time, 1:15 3-5. Minos Pie Black, Lola, Purple Lady, Generola, Escobita, Baby Wrack, June Night, and Mirtie ran.

FOURTH RACE—Purse $800, claiming, all ages, 6 furlongs:

Chene, 99 [E. James]	6.40	2.60	3.80
Bob Rogers, 111 [Dupuy]		2.80	2.20
Chianti, 115 [B. Manford]			2.20

Time, 1:15. Timon, Jack Haskell, and Sequi ran.

FIFTH RACE—Purse $800, claiming, 3 year olds and up, 1⅛ miles:

Frank Fullen, 114 [Gim'k]	14.60	6.20	4.60
Madcap Marvin, 104 [Arm'd]		7.80	4.60
Easter Play, 106 [J.M.Jones]			8.60

Time, 1:50. Delmonic, Cockrill, Fair Beth, Play Ball, Black Thunder, Silver Scepter, Stephanite, and Dueliss ran.

SIXTH RACE—Purse $800, claiming, 3 year olds and up, 1⅛ miles:

Aviator, 106 [E. James]	12.40	5.80	3.40
Fair Folly, 106 [Welle]		4.40	3.40
Reigh Ora, 109 [H. Riley			3.20

Time, 1:58. Miss Maryland, Golden Arrow, Cottage Boy, Solo, Semper Felix, Grand Dad, Tall Grass, Broker, and Vorpell ran.

SEVENTH RACE—Purse $800, claiming, 3 year olds and up, 1⅛ miles:

Zahn, 103 [F. C. Smith]	9.60	3.80	2.60
Sylviter, 106 [L. Wells]		3.20	3.60
Bonfils, 106 [J. Time]			3.20

Time, 1:59 1-5. Danis, Bardalid, Turquise, Vernon, Natrolight, and Ballot Box ran.

HURLEY FLIES TO SEE ARMY AND NAVY PLAY

Washington, D. C., Dec. 12.—(AP)—Secretary Hurley's airplane, in which he made the trip between Washington and Newark, N. J., today landed at Edgewood Arsenal, Md., for an inspection after two minor accidents during the trip.

The plane landed about a half hour out of Washington after the secretary's pilot, Lieut. C. W. Cousland, had been slightly injured when the escape trap over the cockpit fell inward on him. An additional pilot was taken aboard and the trip to Newark continued.

The secretary left the plane at the Newark field and will go to New York tomorrow to attend the Army-Navy football game for charity.

Cousland on returning attempted a landing at Edgewood to leave the other pilot. The plane ground-looped and a stay overnight was necessary until a complete inspection could be made.

ST. RITA DEFEATS LOYOLA CAGERS, 17-16 AND 24-18

Bloom Heavies Win Over U. High; Lights Tie.

Chicago's high school basketball teams had their busiest day of the season yesterday, with overtime games, league openings, tie games, and high scoring battles.

St. Rita and Loyola, finalists for the Catholic league football title, met in a practice double header on the former's floor and the south siders gained revenge for their gridiron defeat by a pair of victories. Dalinski's basket gave the heavies a 17 to 16 triumph, while the home lightweights handed the Loyola ponies a 24 to 18 defeat.

Bloom heavies opened their schedule in the South Suburban league with a 22 to 18 victory over University High at Chicago Heights. Swanson starred with four baskets. The lightweight game ended in a 15-15 deadlock after two overtime periods. Simmonetti featured for Bloom with ten points, while Lauermann was University's star.

Phillips Wins Pair.

Phillips heavyweights ran up the highest total of the season in defeating Roosevelt High of Gary, 51 to 12. Bray, with 17 points and Frazier with 13, were the leading scorers. Dennis led the lights to a 20 to 14 victory.

Central Y. M. C. A. Day High school defeated Christian High, 21 to 15, in the first game of the newly organized Chicago Provate High School league. Fienstein led the victors.

Feldman's basket in the overtime period gave Marshall heavies a 26 to 25 decision over Morton on the latter's court. The Marshall lights made it a pair by winning, 22 to 18.

St. Mel and Austin divided a double header on the St. Mel floor, the former's heavies winning, 23 to 13, while Lynn led the Austin lights to a 22 to 21 victory.

Harrison Twin Victor.

Harrison took a pair of games from Lane on the home court, the heavies winning, 17 to 14, and the lights, 17 to 16. Odron, Sisulak, and Gordon starred for the heavies, while Smoler's free throw in the closing minutes brought victory to the lights.

Englewood heavies bowed to Calumet, 17 to 14, but the lightweights took a 14 to 11 battle. Earl Keth led the Calumet heavies with four baskets, while Kelly and Klein featured for the Englewood lights.

St. Philip heavies nosed out Mount Carmel, 22 to 21. The St. Philip lights won, 25 to 11, Buckley featuring with seven points.

Parker lightweights invaded Waller's gym for a 24 to 6 victory, but the home heavies handed Parker a 20 to 10 defeat. Grover featured for the Waller heavies, while Bill Snyder starred for Parker's lights.

Thornton, Fenger Split.

Thornton and Fenger divided a double header at Harvey, the home heavies winning, 17 to 12, while the Fenger lights took a 9 to 6 game.

Mackert's field goal gave West Chicago a 24 to 23 victory over Downers Grove on the winners' court.

Wilkins of St. George heavies brought his team an 18 to 17 victory over Leo with a basket in the closing minutes. Moran and Smith led the Leo lights to a 20 to 13 triumph.

Hyde Park heavies went to Winnetka to hand the New Trier team a 22 to 16 trimming, but the home lights divided the program with a 24 to 13 victory. Johnson, Humlong, Borino, and Haitman starred for the winning teams.

Riverside's team scored a grand slam, the heavies winning from Maine, 12 to 7, and the lights, 25 to 5.

Harold Smith to Lead 1931 Badger Eleven

Madison, Wis., Dec. 12.—[Special.]—Harold Smith of Freeport, Ill., was elected captain of the 1931 University of Wisconsin football team at a banquet given by students here tonight.

Smith is a junior who has played right tackle as a regular during the last two years. Though not a spectacular performer, he has been a bulwark of the Badger line, despite the handicap of numerous injuries which never affected his play.

The dinner to the team was the first ever promoted by the student body. Coach Glenn Thistlethwaite, Profs. Cool and Meiklejohn, Milton Gantenbein, retiring captain, and Ernie Lusby, voted Wisconsin's most valuable player and the Badgers' nominee for THE CHICAGO TRIBUNE'S most valuable player trophy, were among the speakers.

CATHOLIC PREP ALL-STAR GRID TEAMS TO PLAY

Two all-star elevens, one chosen from the north section of the Catholic league and another from the south section, will meet in a charity football game on the night of Dec. 29 at the 124th Field Artillery armory, 52d street and Cottage Grove avenue.

Proceeds of the game, which is being sponsored by the Knights of Columbus, will be turned over to the Catholic charities. Arrangements for the game are in charge of St. Philip of Neri council. The north section team is drilling daily at Loyola stadium under the direction of Marv Adams, St. Philip's High coach, while Joe Prelli is coaching the south siders at Jackson park.

Rejuvenated Redman Five Defeat Paterson, 31 to 15

Toledo, O., Dec. 12.—[Special.]—The Toledo Redman Tobaccos, with four former Cleveland Rosenblum world champions in their lineup, defeated the Paterson Crescents of Paterson, N. J., tonight, 31 to 15. The former Cleveland champs led all the way, the score at the end of the first half being 15 to 10.

COUCH CAUTIOUS FORECASTS IN A HOPEFUL VEIN

Find It Hard to See Around Corner.

BY O. A. MATHER.

While general trade now is enjoying the impetus of holiday buying, it appears to be anyone's guess as to what the trend will be after the turn of the year. Tentative forecasts now appearing are unusually cautious, although generally couched in a hopeful vein.

"The last months of depression are the toughest," the Business Week says, "but so is business sentiment by that time and it becomes pretty hard to disappoint it any more. The general level of activity still fluctuates around the deadline, dipping again last week from 80.3 to 77.1 per cent of normal. What lies beyond the turn of the year becomes no easier to see clearly."

Stress Current Trends.

And other weekly mercantile reviews are more inclined to stress trends than the longer future.

"Purely seasonal tendencies continue to rule in trade and industry this week, with retail, including holiday, trade occuping premier position," Bradstreet's review says. "Wholesale and jobbing trade and industry tended to quiet down. Wholesale and jobbing trade reports do not show any particular variation, tending generally to mark time, whereas the disposition of industry to slow down is a usual seasonal development."

"The early prospects are not clearly defined," Dun's review says. "The persistence of commodity price unsettlement remains an unsatisfactory aspect. Even after many months of declining markets, the status has not been reached where other than isolated instances of steadiness have developed and the lack of wider stability is an obstacle to progress.

Apply Corrective Measures.

"There is, however, a conservative hopefulness in reports from certain of the principal commercial lines, supported in some degree by tangible evidences of an increasing interest in forward requirements. After a severe dislocation of the economic structure, complete business recuperation necessarily will require more time for its fulfillment. The fact that corrective measures are being applied and in some cases already have achieved concrete results is reassuring from the long range point of view."

Business failures during the last week were fewer than in the previous week, but more numerous than a year ago. Commercial defaults were 562, compared with 598 in the preceding week and 514 a year ago. Failures with liabilities exceeding $5,000 totaled 365, compared with 379 in the previous week and 285 a year ago. Bank clearings this week totaled $7,662,046,000, a decline of 35.2 per cent from a year ago.

Pickup in Heavy Building.

A pickup in heavy building construction occurred in the last week and exceeded the volume of a year ago, according to the Engineering News-Record. Engineering construction contracts awarded totaled $47,222,000, compared with $37,447,000 in the previous week and $35,481,000 in the corresponding week in 1929. Public works and public utility construction were mainly responsible for the better showing.

"There is more optimism today among builders than there was a few months ago," the C. A. Dunham company points out. "But some sort of concerted push seems necessary to get under way the many projects that are planned. If only a fair portion of contemplated projects were forthwith brought under way unemployment would be relieved and conditions in general promptly improved."

CHICAGO BANKS VOTE REGULAR, EXTRA DIVIDENDS

Chicago banks reporting extra and regular dividends yesterday were: Southwest Trust and Savings, extra and regular dividends of 2 per cent each; Union Bank of Chicago, regular quarterly of 2½ per cent; Reliance Bank and Trust, extra and regular of 2½ per cent; Universal State, extra of 2 per cent and semi-annual of 3 per cent.

Directors of the Southwest Trust and Savings bank also authorized extra compensation for employes amounting to 2½ per cent of the aggregate amount of the salaries.

Asks Deposit of Shares Under 5 Year Agreement

New York, Dec. 12.—(AP)—American Machine and Metals company, formerly Manhattan Electrical Supply company, today asked shareholders to deposit their stock under a five year voting trust agreement to assure continuance of the present management. Four New York Stock Exchange firms are supporting the plan.

Business Personals

McPherson Browning, president of the Detroit Trust company, has been named president of the Bankers' club of Detroit.

Gordon Stewart, formerly vice president of Park & Tilford, has been elected president to succeed D. A. Schulte, who becomes chairman.

Burwell B. Smith of York, Pa., and Joseph Uihlein and R. E. Schumacker of Milwaukee have been elected directors of the United Electric Coal company.

Pipe Line Projects Boom While Other Business Lags

BY SCRUTATOR.

While other business has been languishing, the construction of new underground pipe lines for the transportation of fuel has had a boom this year far surpassing anything in the past.

Some thousands of miles of steel tubing for the movement of natural gas from the oil fields to the large consuming markets were either laid or definitely contracted for since the first of the year. Early last fall there were eight major projects going along. The largest of these was the Doherty Insull-Standard group line from the Texas Panhandle to Chicago and Gary. The second was the Missouri-Kansas Pipe Line company's thrust from Oklahoma across Missouri and Illinois to reach Indianapolis and Terre Haute, Ind.

Many Men Employed.

The work has gone along so rapidly that no complete statistics on the actual investments or the number of laborers put to work by this expansion is yet available. But at one time the second project mentioned above was being pushed forward by 5,000 men in the field drawing monthly pay of $650,000. The Panhandle-Chicago line was announced as a 110 million dollar proposition and a fair guess is that altogether the natural gas and gasoline pipe lines that will be completed by next summer represent a half billion dollar investment.

Admittedly the making of the pipe gave the steel industry its principal prop during the summer. A million tons of steel plate to be rolled into such pipe apparently did not reach the maximum used. That much was ordered by midsummer and in August the pipe makers had ahead of them orders for 500,000 tons.

Engineering science regards the improvement in pipe manufacture as the basic factor that has made possible the natural gas long distance lines and their brothers, the gasoline lines. The A. O. Smith company of Milwaukee is given credit for pioneering in the adaptation of processes that permitted the cold rolling of steel plates and the welding of the longitudinal seam by electricity. Such pipes, being made of high carbon steel with tensile strength above that of steel which could be used in the old process of welding, have the additional resistance needed to hold in gas under pressures of 400 to 600 or even more pounds per inch.

Seek Greater Strength.

R. S. Lord, writing in the Journal of the Western Society of Engineers, reported that a number of pipe makers were striving for still greater strength. Even methods of pipe laying have been going forward. Some of the new lines have been marked by solid welding, contraction and expansion in the metal being cared for by the bowing of the lines rather than by any flexible system of jointing. Welded steel pipes from 10 to 26 inches in diameter and 30 to 40 feet long are now common.

Aside from these pipe makers, machinery manufacturers have shared in the business growing out of the effort to provide a new form of fuel in large quantity. Both the natural gas and the gasoline lines need booster stations and contracts for the machinery to force the fuels along have been awarded in large quantity.

A truly modern natural gas transmission system may be several hundred or more than a thousand miles long. It is composed, from station to station, of a straight, single piece of steel tubing. Where important obstacles are encountered, like the Mississippi river, the big pipe is broken up into smaller ones that are laid into the river bed.

Obtain Rights of Way.

Rights of way are obtained, usually by purchase from landowners, although in some sections the utility companies that are backing the Chicago-Panhadle line are said to have run their pipe under electric transmission lines already in existence.

At least two gasoline carrying lines are actively in construction and are scheduled for 1931 completion. They start in Oklahoma and Texas. One is to serve Chicago, Milwaukee and the Twin Cities of Minnesota. The other is to reach St. Louis. The first is 1,400 miles in length; the second 800 miles, and each is to deliver 30,000 barrels daily to its outlets. These gasoline lines vary from 4 to 8 inches in diameter; the big natural gas line is 24 inch diameter.

Some of the broader economic aspects of the pipe lines will be dealt with here in later articles.

LOOKING AHEAD WITH BUSINESS

Editor and Publisher, newspaper weekly, forecast yesterday in an "advertising revival issue" that business in 1931 would be better than in 1930 and that advertising would lead the way.

"There is a wide disparity between prices of many raw materials and those of manufactured articles," it says, "but 122,000,000 people are consuming and living to high standards hitherto unknown to the world. The so-called buyers' 'strike' is a myth.

"We look for an improved business condition in 1931, led by a liberal and intelligent use of newspaper advertising. It possesses a power which has never been known to fail in any crisis when applied by intelligent men. Newspaper advertising is the best hope for a restoration of public confidence and improved trade in 1931."

The Goodyear Tire and Rubber company is adding machinery to the Dixie plant at Gadsen, Ala., and will increase output to 7,000 tires a day from 6,000 The working force will be increased by about 400 men.

Harry M. Adams, president of the Western Pacific railroad, said that the road's traffic continued to hold up well during November. Local loadings were ahead of 1929, he added, but due to slackening in westbound traffic the total number of cars handled was about 40 under last year. Mr. Adams said it was too early to estimate the results for December, but the road probably will be unable to close the year with a balance for stock.

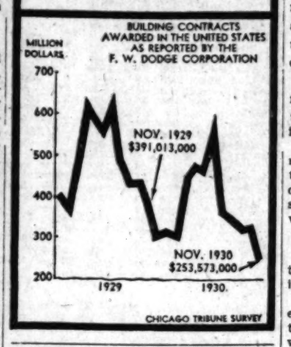
Standard Oil Company of California announced increases in retail price of gasoline at Seattle, Portland, and Tacoma, ranging from 1½c to 3c a gallon.

Engineers Public Service company reports electrical output in the month of November of 182,966,112 kilowatt hours, which is an increase of 11 per cent over the corresponding month of 1929.

The McWilliams Dredging company has been awarded a contract for the construction of a new railroad yard in New Orleans for the Gulf, Mobile and Northern railroad. The work is located on the industrial canal in New Orleans and calls for a minimum of one million cubic yards of fill, according to G. A. McWilliams, president.

Through its subsidiary, the Metal Package company, McKeesport Tin Plate has acquired the Fisher Can company of Hamilton, O.

BUILDING CONTRACTS CONTINUE SEASONAL DECLINE



BAR SILVER DROPS TO NEW LOW AT 32¼ CTS.; BLAME SLACK DEMAND

New York, Dec. 12.—(AP)—Bar silver established a new historical low for the second time this week today, dropping 1⅜ cents to 32¼ cents an ounce. On Tuesday the metal broke to 33 cents, which was the lowest until today.

The price of silver is regarded as an important factor in the present economic situation, as it affects the purchasing power of much of the Far East, where that metal is still needed as a monetary base.

Since the first of the year silver has declined from 46⅞ cents to the present price of 32¼, theoretically reducing the Chinese purchasing power around 28 per cent.

The latest weakness of the metal is attributed by bullion brokers to a slack demand from industrial consumers, and sales by the Far East to purchase the exchanges of countries on a gold standard. Until China becomes once more a buyer, brokers see little prospect of a sustained rise in the price.

Slumps in London.

LONDON, Dec. 12.—(AP)—A decline of a half penny per ounce in the price of spot silver, owing to selling in China and absence of support, today brought the silver quotation down to 15 1-16 pence per ounce. This is the lowest price ever recorded.

The market has been weak for some time, gradually receding almost daily under sales from China, supplemented by American offerings, while the usual support from India is lacking at the present time.

Another contributory influence to the decline is the steadily increasing stock of metal in the hands of the Indian government. The Indian population is growing accustomed to paper currency and is not handling so much silver, which therefore is flowing into the government's hands.

Shipbuilding Company to Pass 6% Pfd. Dividend

BELFAST, Northern Ireland, Dec. 12.—(AP)—Harland & Wolff, the shipbuilding firm, today voted to pass the dividend on its 6 per cent preference shares due Jan. 1. The same dividend was unpaid last July 1. The announcement came shortly after the Hudsons Bay company disclosed that it would pass its interim dividends. This announcement resulted in a drop from 38 to 23 shillings in Hudsons Bay shares on the London Stock Exchange.

Approves Purchase of Denver & Salt Lake Ry.

Washington, D. C., Dec. 12.—(AP)—Purchase of the Denver and Salt Lake railway by the Denver, Rio Grande and Western railroad was approved today by the interstate commerce commission.

The acquisition brings one step nearer realization of plans for a new transcontinental rail route via the famous Moffat tunnel.

Consolidation of the two roads will remove the last apparent obstacle to the construction of the Dotsero cutoff in western Colorado, which will shorten the rail distance between Denver and the Pacific coast by 173 miles.

Imposes Conditions.

The sanction was contingent upon the Denver and Rio Grande accepting the following conditions:

1. It must purchase for cash at not exceeding $150 a share any stock of the Denver and Salt Lake offered within six months after the date of the order to be entered.

2. Through the Denver and Salt Lake it must establish such through rates in connection with any western connection hereafter constructed that the commission may find to be reasonable.

3. Through the Denver and Salt Lake it must within six months from the date of the order commence construction of the Dotsero cutoff and complete such construction within two years.

Commissioner Eastman dissented from the majority and Commissioner Brainerd did not participate. The commission refused to decide as to the use of the Moffat tunnel through which the Denver and Salt Lake operates. It held the question lay entirely with state authorities, courts and carriers.

The Denver and Rio Grande Western is jointly controlled by the Missouri Pacific and Western Pacific railroads.

Ponder Alton's Fate.

[Chicago Tribune Press Service.]

New York, Dec. 12.—Determination of the fate of the Chicago and Alton railroad properties following their purchase yesterday by the Baltimore and Ohio railroad at auction appeared today to be dependent upon further developments in eastern railroad merger claims.

Baltimore and Ohio has two courses open: the formation of a new company controlled by the B. & O., to own and operate the Alton, or direct absorption of the Alton lines in the B. & O. system on a divisional basis.

If it appears that the principal roads in the east can reach an agreement on a general four party plan of consolidation, B. & O. may elect to follow the second course. In either case action is subject to approval of the interstate commerce commission.

GLIDDEN CO. TO OMIT DIVIDEND ON ITS COMMON

[Chicago Tribune Press Service.]

New York, Dec. 12.—Directors of the Glidden company voted today to omit the dividend on the common stock due at this time. In the previous quarter the company paid 30 cents, prior to which the stock was on a 50 cent quarterly basis.

Adrian D. Joyce, president, informed stockholders that preliminary figures for the last fiscal year show the company finished with no bank indebtedness and cash on hand of about $2,500,000. Current assets to current liabilities are at the rate of 3½ to 1.

The Martin-Parry corporation has declared a dividend of $4 out of surplus resulting from the reduction in capital.

Barclays bank, London, announced a final dividend for the year ended Sept. 30 at the rate of 8 per cent annually on the cumulative preference shares and a final dividend on the A and B shares at the rate of 5 per cent a year, subject to deduction of income tax.

Connecticut River Banking company has declared a special dividend of $9, in addition to usual extra of $1.50 and the regular quarterly dividend of $1.50. Similar payments were made in 1929.

Carman & Co., Inc., has declared a dividend of 25 cents on class B stock and the regular quarterly dividend of 50 cents on the class A. Three months ago and previously the class B received a dividend of 50 cents in cash or 1-40 of a share of class B stock.

Directors of the St. Louis Public Service company have voted to defer payment of the quarterly dividend of $1.75 on the preferred stock series A due at this time.

Hudson Bay company announces that the present year's business will result in a heavy loss thereby necessitating the omission of interim dividends on either the common or preference shares. Last January the company paid the regular dividend on the 5 per cent preferred shares and an interim dividend of 7½ per cent, less tax, on the common.

DINGMAN SAYS 1930 WILL RANK HIGH IN LIFE INSURANCE FIELD

New York, Dec. 12.—(AP)—The year 1930 will rank as the second healthiest year in life insurance history, surpassed only by 1927, Dr. Harry W. Dingman, vice president and medical director of the Continental Assurance Company of Chicago, announced today

His statement to the annual convention of the Association of Life Insurance Presidents was based on deaths during the first ten months of 1930 among 57,000,000 life insurance policy holders.

Dr. Arthur Hunter, second vice president and chief actuary of the New York Life Insurance company, told the insurance men protection totaling four billion dollars was available to two million persons who would have been barred from life insurance a generation ago. This, he said, was the result of research into mortality data. The research would be extended considerably, he said, with a view to making life insurance available to many people hitherto made ineligible for occupational, hereditary and organic reasons.

Insurance companies' assets at the end of 1930 will be double those of 1923, Walton L. Crocker, president of the John Hancock Mutual Life Insurance company of Boston, said. Despite business depression, assets increased by $1,418,000,000 this year, bringing the total investment to $18,900,000,000.

The convention heard John J. Pelley, president of the New York, New Haven and Hartford railroad, advocate coördination of all transport agencies. Such a combination would include railways, highways, coastwise and lake steamers, air-rail service of transcontinental railways and air traffic under companies engaged in general transport. He envisioned the federal and state regulation of motor transport as a part of the transit hook-up.

Dr. Dingman named the "big six" causes of death as policy holder surveys disclose them: heart disease, cancer, kidney disease, apoplexy, pneumonia and tuberculosis.

OFFER COPPER AT 10½C A POUND; STOCKS DECLINE

New York, Dec. 12.—(AP)—Copper was offered by custom smelters in the domestic market today at 10½ cents a pound delivered, a reduction of ⅛ cent from the price established earlier in the week by the smelters and producers.

The larger producers were reported withholding their metal from the market. Export copper remained at 11:30 cents a pound, c. i. f. European base ports.

Total stocks of refined and blister copper in North and South America declined 10,712 tons in November to a total of 594,363 short tons as of Dec. 1, the American Bureau of Metal Statistics reports. Mine production of copper in the United States declined slightly last month to 53,141 short tons, against 55,954 in October and 56,584 in September. Refined copper stocks in North and South America, however, increased to 369,332 short tons Nov. 30 against 364,930 at the end of October and 126,919 Nov. 30 last year.

November Production of Newsprint Shows Decline

New York, Dec. 12.—(AP)—Production of newsprint by Canadian and United States mills for November declined to 294,040 tons, compared with 319,267 tons in October and 365,775 in November last year. The total North American production in November was 319,516 tons, against 345,644 tons in October and 389,578 tons in November last year.

Victor Gasket Increases Its Capital to $5,000,000

The Victor Manufacturing and Gasket company, Chicago, has increased its authorized capital from $2,500,000 to 5,000,000, all in common stock, with $3,000,000 being issued.

NOV. SALES OF GREAT A. & P. DROP $3,893,414

November sales of the Great Atlantic and Pacific Tea company declined $3,893,414 from November of last year to $79,820,446. Sales for the first eleven months this year totaled $980,949,625, an increase of $40,295,201 over sales for the corresponding period of 1929.

The actual quantity of goods sold in November amounted to 399,742 tons, which compares with 381,106 tons sold in November, 1929, and is a gain of 4.89 per cent. Tonnage for the eleven month period was 4,755,395, against 4,302,817 in the same 1929 period, an increase of 10.52 per cent.

Sales of the Jewel Tea company for the four weeks ended Nov. 29 totaled $1,217,652, a decrease of 12.1 per cent from $1,386,469, for the like month last year. Sales for the first 48 weeks this year aggregated $14,255,072, a decrease of 7.3 per cent from $15,384,805 for the corresponding period of 1929.

Says Weakness Appears in Week's Hide Markets

A sharp reversal of trend from the firmness of last week developed in the hide markets this week, Dun's says. The setback, however, was at least partly accounted for by the fact that the takeoff involved in the latest brisk trading was of less desirable quality. The willingness of tanners to purchase gave some encouragement, and the somewhat better reports on leather conditions in New England were considered moderately stimulating. The improvement in that section has been mainly in upper leathers, and it is felt that January will bring an increased production of shoes.

Slow Demand, Easier Prices in Meat Lines

Armour & Co., in its review of general packing house trade conditions, says:

"Slow demand and easier prices characterized most of the leading meat lines this week, with ample supplies, rather unseasonably warm weather, and the approach of another big poultry season among the principal factors in slowing down activity. Beef, lamb, veal, and fresh pork all worked lower on sluggish trading. Even smoked meats eased off. Foreign trade reflected a normal seasonal quietness."

The New York Central Railroad Co.
New York, December 10, 1930.
A Dividend of Two Dollars ($2.00) per share on the capital stock of this Company has been declared payable February 2, 1931, at the office of the General Treasurer, to stockholders of record at the close of business December 26, 1930.
For the purpose of the Annual Meeting of Stockholders of this Company, which will be held January 28, 1931, the Stock Transfer Books will be closed at 3 P. M. December 26, 1930, and reopened at 10 A. M. January 29, 1931.
H. G. SNELLING, General Treasurer.

BY FRED HARVEY.

[Chicago Tribune Press Service.]

New York, Dec. 12.—With the old guard again standing by, the share market succeeded in holding the line today. Support orders thrown in overnight gave the list a good sendoff and enough buying appeared in behalf of the pivotals to maintain them pretty close to their previous closing levels throughout the session. A few managed to score small gains on the day.

In spite of the steadying influence of the leaders, however, many sections of the market were waterlogged and at some time or another between strokes of the trading gong some 100 assorted issues sagged to new low price levels. The oils and copper groups were especially weak, various rails again found the way too steep, and a number of specialties cracked sharply. Indeed, minus signs were considerably in excess of the gains at the close but losses rarely amounted to more than 1 or 2 points.

Behaves Well.

Taken by and large the list may be said to have acquitted itself rather nobly considering the barrage of rumors regarding nearly everything under the sun that has been besetting it for the last two or three trying days. Certainly the rank and file of traders seemed more inclined to look on the bright side of things than they did yesterday—even after the appearance of "banking support."

The bear element was quieter than it has been all week. There was nothing in the news budget to help the lads on either pull. Further calling of loans depleted the supply of funds available in the day loan market at 2 per cent, forcing the rate for new accommodations to 2½ per cent—the first change made in the rate for 73 consecutive days. This was the first change since Sept. 29, when the rate dropped to 1½ per cent for renewals for the the first time in 15 years. Call money had not exceeded 2 per cent since Sept. 16, when it was 2½.

Regarded as Artificial.

Although money had held officially at 2 per cent for more than 2 months, establishing a record unequalled in Wall street annals, the rate has been regarded as somewhat artificial, since loans have been made in the outside market as low as 1 per cent. Firmer money at this time of year is a seasonal development, and in addition, banks have withdrawn funds to strengthen cash positions. Speculative demand for call money has been light.

The weakness in the oils proved a drag on the market. This group was under pressure of persistent liquidation right through to the close with a number, including Standard of California, Texas corporation, Phillips Petroleum, General Asphalt, Prairie Pipe Line, Sun, Sinclair, Richfield, Mid-Continent and Standard of New York yielding to new 1930 bottoms. Standard of New Jersey finally crashed through the 50 point level, the price generally regarded as its support level. Losses of 1 to 2 points or more were the rule for the entire department.

Coppers Are Weak.

Selling was heavy in the red metals group at times. Anaconda, its bigtime leader, slipped off to a new low of 31. Kennecott dipped to within a minute fraction of its low but both leaders succeeded later in making up some of their lost ground. The fresh weakness here was due in part to disappointment over the monthly figures on copper operations.

An interesting sidelight was provided by Burns Brothers A, one of the relatively inactive issues of the list, which took a header for more than 28 points on offerings of rather moderate proportions. The market for this stock was evidently very thin and offerings, while not particularly heavy, disclosed a rather painful absence of nearby bids. The company reported net profit equivalent to $5.75 a share on the issue for the first ten months' operations.

Declaration of the regularly quarterly dividends of $1 a share on Fox Film A and B issues did not find any special reflection in the market action of the amusement shares as a group. A heavy tone prevailed in that quarter of the list all day.

Great Northern Ry. Buys Flanley Grain Elevator

Sioux City, Ia., Dec. 12.—(AP)—Sale of the elevator property of the Flanley Grain company to the Great Northern railroad company was announced today. The price was reported as nearly $200,000. The deal was said to be the largest in the grain business here in recent years.

AFFILIATED PRODUCTS, INC.
DELAWARE
New York, December 1, 1930
The Board of Directors have this day declared a regular quarterly dividend of 40c per share on the capital stock of the Company payable January 1, 1931, to stockholders of record at the close of business December 18, 1930.
G. ROY GLIDDEN

SELLING SPREE HITS STOCKS ON CHICAGO BOARD

Breaks Out in the Final Half Hour.

BY THOMAS FURLONG.

A wave of selling converging on the Insull utility issues broke out in the last half hour on the Chicago exchange yesterday, playing havoc with early gains and in several instances forcing stocks below their previous closing prices.

Up to the last hour the trading had been rather quiet, but the volume increased rapidly on the decline. Only 73,000 shares had changed hands up to 1 o'clock. The volume was swelled to 128,000 shares before trading ceased. Transactions were made in larger lots during the selling spree.

Trend Changes Abruptly.

The abrupt change in the trend came unexpectedly to most traders and tape watchers throughout the financial district. It caused not a little comment among observers, who sought reasons to explain the trend of affairs. But no satisfactory explanation was forthcoming. It was felt that while part of the selling may have originated with the professionals, most of it represented real liquidation.

The closing of the New York bank a few days ago has led to a revival of several ugly rumors which have been bobbing up recurrently since the big debacle last fall. While many of the rumors are obvious falsehoods circulated by persons with axes to grind, they have caused uneasiness among investors who are waiting for the "bottom."

Insull Utility and Middle West had been giving a fairly good account of themselves marketwise when the selling wave blew into the market late in the day. Insull receded from its peak of 37¼ to finish a fraction below Thursday's final quotation. Middle West dipped within a fraction of its year's low and closed at 17¾. Motor issues shared in the weakness.

Register Small Gains.

Not all shares closed with losses, however. Small gains were registered by Gleaner Combine and Electric Household. Investment shares were soft. Chicago corporation common and Continental Chicago each made new lows.

Chicago corporation will make its last appearance on the tape today. New shares of the Continental Chicago corporation will be issued to stockholders under the plan of consolidation of the two concerns. The Chicago corporation common stock, like many another issue brought out during the 1929 boom period, has had a spectacular market career. It reached a high of 73 in 1929, and plunged to a bottom of 12½ when the time of reckoning came. This year it has sold as high as 17¾, and yesterday found it at a new all time low of 4¾.

Extra Dividend.

A bit of "good news" which received little attention yesterday was the declaration of an extra dividend of 5 cents by the Wisconsin Bankshares corporation in addition to its regular payment. The stock of the company was steady around 6 on fairly heavy turnover. Polymet Manufacturing corporation took no dividend action at their regular meeting. Last quarter a 1 per cent stock distribution was made.

Stockholders of Addressograph International corporation have approved the consolidation with American Multigraph corporation. A cash dividend of 35 cents was declared by directors for the final quarter this year, placing the new stock on a $1.40 annual basis. The new rate is equal to $1.61 on the old Addressograph stock, which yielded $1.80 annually.

SKYSCRAPER MEN START MOVE TO AID UNEMPLOYED

Will Speed Up Repair Work on Buildings.

BY AL CHASE.

Presidents of local associations federated with the National Association of Building Owners and Managers, which yesterday completed a two days' session at the Union League club, have agreed to unite in a movement which it is expected will aid materially in relieving unemployment among the building trades. Charles F. Palmer of Atlanta, Ga., president of the national organization, won the promise of co-operation from the heads of building owners and managers associations in forty of the largest cities of the United States and Canada to speed up repair, remodeling, and rehabilitation work in office and apartment buildings.

CHARLES PALMER.

This work already is under way in the east, where it was inaugurated by Clarence T. Coley of New York, past president of the National Association of Building Owners and Managers.

Work For Thousands.

"If the owners and managers of office and apartment buildings throughout the United States and Canada will coöperate in this plan to provide work," said President Palmer, "millions of dollars will be released and thousands of men will find employment. The office buildings modernized through the work of these men will be more attractive to present and prospective tenants as well. Thus, by helping the industrial situation we'll be helping our own business.

"It's a logical contribution that our industry can make, since the office building business is one of the soundest in the nation. Although we have felt some of the effects of the depression, in reality with the office building business is only slightly below normal. Our business has not been curtailed to any such extent as the railroad business or the steel industry or a dozen other of the larger industries of the nation.

"Wages have been maintained in our business and there has been practically no decrease in the number of employés, thanks to the close coöperation of the local associations with the National Association of Building Owners and Managers."

Silk Firms Move.

William Skinner & Sons, one of America's oldest manufacturers of silks and satins, having been in business for eighty-two years, has subleased for four years the entire ground floor of the Palmer building, at 371-73 West Adams street, from the Corticelli Silk company, which has moved to the Smith building, 224 South Franklin street. This gives the Skinner concern double the floor space it formerly had at 305 West Adams, which it occupied for the last thirty years. The Palmer building is owned by the Ryerson estate. The Skinner silk factory is at Holyoke, Mass.

Charles L. Bartlett, after nearly four decades of association with the Chicago Title and Trust company, yesterday resigned as director, vice president, and advisory counsel of that organization. He will travel in Europe and California. Mr. Bartlett began the practice of law in 1885.

Chicago Curb Exchange Stocks

Hammond Clock was the single exception to a generally easier trend on the Chicago curb yesterday. Commonwealth Edison, Peoples Gas, and Public Service rights all were slightly lower at the close, while Corporate Trust and Photocolor reached new low ground for the year in small fractional declines. Chicago Rapid Transit common sold off over a point, although the stocks of Chicago Local Transportation held steadily around previous closing levels. Southern Union Gas preferred showed its first sales in over a month, changing hands at 15, as against a previous close at 22½, and Trust Fund shares appeared on the tape after even a longer period of quiet, to show a 2¼ point drop. Initial trades were made in American Maize Products at 15.

SLOSE SPREADS IN MAY WHEAT; PRICES STEADY

Grade More Interested in July Delivery.

BY CHARLES MICHAELS.

Closing of spreads in May wheat between Chicago and Winnipeg, while having a depressing effect on the latter, resulted in holding the price in the local market yesterday fractionally above the Stabilization corporation's supporting level of 81c the greater part of the day, although the range was only a quarter of a cent.

The finish was at 81¼c, or ¼c above the finish of the previous day. A good part of the trade in the old crop deliveries consists of evening up, with the open interest slowly decreasing. December wheat acted a little stiff and gained ¼c for the day, closing at 77⅝c, or 3¼c under May, compared with 4@4¼c on Thursday.

There is a disposition on the part of the trade to take more interest in the July delivery, and business in that month, which is not affected by stabilization operations, is broadening. The weakness in Winnipeg led to scattered selling and a decline to 71⅝c, a new low for the season, and the finish was ¾c lower at 72c. Winnipeg was 1@1¼c for the day, with the December closing at 56¼c, the lowest figure at which that future has finished this season, although in November it dipped to 54¾c at one time, only to rally violently the same day.

Spreaders Take Losses.

It was the gossip of the trade that the selling of wheat in Winnipeg against purchases of May in Chicago to close spreads put out before the Stabilization corporation started to buy heavily in American markets. As a result of the artificial price level prevailing on this side on the international line the spreaders are said to have a severe loss, Winnipeg yesterday dropping to 20⅝c under Chicago, although there was fair strength shown in the Canadian market at one time, due to remove hedges against sales of over 600,000 bu Manitobas for export.

A majority of traders can see little in the wheat situation at the moment so far as American markets are concerned and look for the old crop months to hold within narrow limits until some new factor develops. They feel that this is almost impossible until spring, when the outlook for the new crop will commence to have considerable influence on the price. An almost world-wide decrease in the acreage for the 1931 crop is anticipated. Liverpool closed ⅝@⅞c lower, due to a lack of demand, while Buenos Aires was off ¼c in the face of reports of general rains. Rosario wheat for nearby shipment was reported as offered at 69¼c c i f the United Kingdom.

Corn Market Weakens.

Corn bulls made several ineffective attempts to advance prices, but the bulges ran into scattered liquidation and selling by other local operators who are bearish, and while there was support against high priced weekly bids the finish was at the bottom, with net losses of ⅝@1c, old December being 71@71¼c, March 73⅝@74c, May 75⅝@76c, and July 77¼@77⅝c.

Reports from Minneapolis and several other points indicate that the peak of the movement of corn to market has been passed, and that reduced arrivals will be noted in the immediate future. However, the market is still regarded as overbought from a speculative standpoint, and further liquidation is anticipated unless there is a general change in the character of the news. The spot basis was steady, with shipping demand slow. Buenos Aires finished unchanged to ⅝c higher.

Oats were dull and closed ¼@⅝c lower, with December 34¼c and May 36c, with all deliveries at a new low for the week. Shipping demand was not as active as of late.

Rye showed the result of the recent spreading operations, and gained slightly on corn, final sales being ¼@⅜c lower, with December 47c and May 47¾c.

LARD LOSES EARLY GAIN

Lard prices were firmer early yesterday, having fair support, due to the advance in hogs. Later the market ran into selling, which carried prices down and made a close at the lowest of the day, with net losses of 5@10c. May being the weakest. Cash trade was slow. Liverpool lard was 9d to 1s lower. Export clearance of lard were 2,206,000 lbs and of bacon 12,500 lbs. Hog receipts were decidedly small, as compared with a week and a year ago. Deliveries of lard were 200,000 lbs on December contracts, making 750,000 lbs in the last two days. Prices follow:

BUTTER AND EGGS

Egg futures displayed a small amount of strength at the close on the Chicago Mercantile exchange yesterday, advancing fractionally after an early dip which resulted in the December delivery selling at another new low. Closing trades were ¼@½c higher. Routine was weak, falling to within a fraction of low marks set last month and closed ½@¾c lower. Sales: Butter, 91 cars; eggs, 26 cars. Receipts: Butter, 7,341 tubs; eggs, 2,009 cases. Prices follow:

HIDE FUTURES

Holiday dullness developed in futures on the New York Hide exchange, with sales of only 640,000 lbs. Trading was confined to the May delivery, which sold between 9.45c and 9.55c and closed at 9.55@9.60c, gaining 3 points for the day. Other deliveries were nominally unchanged to 3 points higher.

CASH·GRAIN NEWS

Foreigners came into the market as moderate buyers of cash wheat and took 600,000 bu Manitobas during the day, but taken as a whole the inquiry from abroad was not large, with buyers reported as holding back in expectations of heavier offerings from the southern hemisphere.

Local handlers sold 10,000 bu wheat, 23,000 bu corn, and 44,000 bu oats to the domestic trade, with 120,000 bu corn sold to go to store. Deliveries on December contracts aggregated 184,000 bu wheat, 177,000 bu corn, and 5,000 bu oats.

Official receipts of grain at Chicago Friday: Wheat, 52 cars; corn, 165 cars; oats, 26 cars; barley, 16 cars.

COTTON BELOW 10C, ANOTHER NEW LOW

Cotton markets were irregularly lower yesterday. A higher start brought liquidating sales which filled buyers up and turned prices down, with a break running to 21 points in Chicago early in the day and a finish at practically the season's low. Net losses in Chicago were 12 to 21 points, with other markets off 14 to 21 points. Spots dropped 50c a bale in New York to 9.85c, with New Orleans off $1.00 to 9.45c, Galveston 9.60c, and Houston 9.55c. Liverpool was easy and closed 2 points lower, with spot sales increased to 4,000 bales.

News of the day carried nothing particularly encouraging to the cotton industry, the market suffering from the general unfavorable speculative conditions prevailing elsewhere.

Consumption in the United States during November, as given by the New York Cotton exchange service, was 421,000 bales, against 444,000 bales in October and 541,000 bales in November last year.

Prices for gray goods in New York were easier, with sales light. A report from Charlotte said the mills are having a seasonal lull, with some mills working for the sake of employes. Weather over the middle eastern belt was unsettled. In Oklahoma and northwest Texas there were freezing temperatures. Prices follow:

HAY HOLDING STEADY

Daily run of hay is holding around the 12 or 15 car mark with an even dozen cars of timothy and one each of alfalfa and packing on track yesterday. There has been no change of moment in the market during the last week. Quality of the arrivals is good and a steady demand is maintaining for all offerings of merchantable quality.

SUGAR.

NEW YORK, Dec. 12.—(AP)—Raw sugar was easier today under increased offerings, particularly of duty frees, with no demand light. The only sales confirmed were 18,000 tons of Philippines nearby to an outport refiner at 3.35c, and 2,450 bags of Cuban last month delivered at the Chicago refiner at 3.37c.

Reports that the Brussels conference had adjourned until after the new year holidays and nervousness over the political situation in Cuba led to active general selling in raw futures, with final prices showing net losses of 5 to 7 points. Approximate sales, 40,800 tons. Closing prices follow:

	Open.	High.	Low.	Close.	Prev. close.
Jan.	1.32	1.32	1.27	1.27	1.33
Mar.	1.41	1.41	1.36	1.36	1.43
May	1.48	1.48	1.44	1.44	1.50
July	1.56	1.58	1.51	1.51	1.58
Sept.	1.62	1.62	1.58	1.58	1.64
Dec., 1931	1.68	1.70	1.65	1.65	1.71

Refined prices were unchanged at 4.75c for fine granulated.

COFFEE.

NEW YORK, Dec. 12.—(AP)—An opening advance in coffee futures promoted by steadier Brazilian exchange was followed by rather irregular fluctuations as a result of realizing. No. 7 contracts closed 5 higher to 1 lower. Sales, 4,000. Santos contracts closed net 10 higher to 1 lower. Sales, 8,000. Closing quotations: Santos: Dec., 9.70c; March, 9.10c; May, 8.80c; July, 8.70c; Sept., 8.67c. No. 7 prices follow:

	Open.	High.	Low.	Close.	Prev. close.
Dec.	8.67	8.67	8.67	8.67	8.62
Mar.	5.86	5.88	5.85	5.85	5.84
July	5.65	5.85	5.60	5.60	5.61
Sept.	5.56	5.55	5.50	5.50	5.51

Spot coffee dull. Rio 7s, 7@7¼c. Santos 4s, 10¼@10¾c. Brazilian port receipts, 59,000; Jundiahy, 20,000 bags.

COMPARATIVE PRICES.

HOGS—Bulk of sales yesterday	$ 7.65@ 7.90
One month ago	8.40@ 8.60
One year ago	9.25@ 9.50
Top yesterday, $8.00; average	$7.75.
CATTLE—Bulk of sales yesterday	7.75@ 9.00
One month ago	8.35@ 9.50
One year ago	10.25@13.75
SHEEP — Fed western range lambs	$ 6.25@ 8.00
One month ago	6.50@ 7.50
One year ago	12.00@13.50
Top yesterday, $8.00; average	$7.35.

Receipts at Chicago for today are estimated at 200 cattle, 8,000 hogs, and 1,000 sheep.

Cattle continued slow yesterday, most sales showing the week's 50c to $1.00 loss, in spite of meager supplies, while hogs and lambs scored a comeback on short receipts. Combined receipts of cattle, hogs and sheep at 20 leading markets yesterday at 117,000, compare with 210,000 the previous Friday and with 269,000 a year ago.

A substantial reduction in the hog supply, coupled with the fact that shippers bought more than 40 per cent of the fresh receipts yesterday caused a reaction of prices. Gains of 5@15c were scored, the general average showing 10c advance at $7.75, while the extreme top at $8.00 was in line with the highest point on Thursday's market.

Light weights showed most strength, some butchers closing a shade below the high point of the forenoon. Only 4,000 were left at the close and five markets expect 16,500 today, against 31,600 the previous Saturday.

March Hogs Bring $8.85.

IN EXCLUSIVE STREETERVILLE—

244 E. P

AUTOMOBILES FOR SALE.

THE GREATEST USED CAR SALE IN THE HISTORY OF CHICAGO

FORD TUDOR SEDAN. Late Model A that was in storage for 11 mos. so it will give new car satisfaction today. Has a sweet running motor and every detail of the interior and exterior appears new. Many extras. $295.

STUDEBAKER VICTORIA. 1927 Dictator 4 pass. with expensive mohair upholstery and a finish that glistens like a new dollar. Motor is A-1. Has 4 whl. brakes, snubbers, bumpers, spare tire, etc. $325.

DE SOTO COACH. This car was only driven a few thousand miles. The finish, upholstery and tires appear in the original new condition. And the motor runs smoothly and quietly. Has a wealth of extra equipment. $395.

OLDSMOBILE SEDAN. 1929, with shock absorbers, bumpers, spare tire, etc. Ducoed a beautiful sea green. The upholstery appears unworn, and the motor is very efficient. $495.

ESSEX COACH. 1929 that was oiled and greased every 500 miles by the original owner, so now it's in topnotch condition throughout. The finish is bright and shiny and the upholstery and tires are in new condition. 4 whl. brakes, shock absorbers, shutter front, bumpers, spare tire, etc. $385.

NASH SEDAN. 1929 series "400" that never left the Chicago blvds. An inspection of the appearance and a personal demonstration will convince you that this car will give you the satisfaction of a new Nash. Very fully equipped. $495.

STUDEBAKER PRESIDENT. 1928 str. 8 State model, 7 pass., with wire wheels, shock absorbers, bumpers, two spare tires mounted in fender wells, and other extras. This car was chauffeur driven and given expert attention, so it looks and runs as though direct from the factory. $795.

WILLYS-KNIGHT SEDAN. 1928 Great Six finished a smart looking blue. Equipped with Vogue white wall tires, and $200 worth of extras. It's the last word for sparkling performance and attractive appearance. $495.

RUPMOBILE COUPE. 1930 eight only used for a few weeks. Has a spacious rumble seat, trunk, driving light, two spare tires mounted in fender wells and other valuable extras. A remarkable buy at our reduced price.

DODGE SEDAN. 1930 that we recommend as one of our very best buys. It was only driven on Sundays and evenings for pleasure purposes, so it's in new car condition today. Has every essential extra. $650.

STUDEBAKER PRESIDENT VICTORIA. 1930 four pass. str. 8 with wire wheels, fender wells, and many extras. Has luxurious mohair upholstery and the motor was carefully checked over by expert Studebaker mechanics. The finish has not a mar on it and the tires have little mileage. Specially marked at $1,185, but it's worth more this price.

LIBERAL TERMS. OPEN EVES., SUN.

CLUNKERS!

May Motor's Gigantic
December Eyesore Sale.

HERE ARE A FEW A1 CLUNKERS:
Take this Stearns-Knight, for instance. A man offered us $250 three months ago for this sedan. It ran pretty good then. He can have it for $100 now and thanks. Don't hurry. It will be here for some time.

A Packard sedan came in on a new Viking just a year ago today. It runs just as good now as it did then. Don't know what's the matter but nobody wants it. Show us $50 and just watch us!

Now this 1927 Whippet coach. We're all tired of looking at this clunk. If you're charitably inclined lay $85 on the counter.

But

We have some very clean, very late bargains—witness:

'29 Chrysler 65 2 dr. sed., like new....$365
'27 Chrysler 70 sed., real barg. at.....290
'29 Ford Tudor, low mileage 285
'30 Olds, 4 door sed., repossessed 785
'29 Dole sedan, entire recondition 295
'28 Hudson brougham, custom built 360
'28 Chevrolet cabriolet, like new 195
'28 Hupmobile Spt. Coupe, rumble seat 290
'29 Pontiac sedan, A1 335

50 OTHERS TO CHOOSE FROM.
